## CHAPTER III—OFFICE OF MANAGEMENT AND BUDGET

## PART 1303—PUBLIC INFORMATION PROVISIONS OF THE ADMINISTRATIVE PROCEDURES ACT

On February 19, 1975, the Office of Management and Budget issued a notice of proposed rulemaking (40 FR 7346) to amend Chapter III, Part 1303 of Title 5, Code of Federal Regulations regarding the implementation of the public information provisions of the Administrative Procedures Act (5 U.S.C. 552, as amended). These proposed regulations reflect the amendments to the Freedom of Information Act enacted as Pub. L. No. 93–502 (88 Stat. 1561). Written comments were invited through March 31, 1975.

One written comment was received in response to the notice of proposed rulemaking, and was considered by the Office of Management and Budget. OMB has revised its proposed rules to accommodate the suggested revisions.

In view of the foregoing Chapter III, Part 1303 of Title 5, Code of Federal

V40150 AUG 4 75 XUM

Regulations is amended as set forth below, effective February 19, 1975.

EXECUTIVE OFFICE OF THE PRESIDENT

NOTE: Until further regulations are promulgated, the remainder of the entities within the Executive Office of the President, to the extent that 5 U.S.C. 552 is applicable, shall follow the procedures set forth in the regulations applicable to the Office of Management and Budget. Requests for information from these other entities should be submitted directly to such entity.

ORGANIZATION

**§ 1303.1 General.**

This information is furnished for the guidance of the public and in compliance with the requirements of section 552 of title 5, United States Code, as amended.

**§ 1303.2 Authority and functions.**

(a) The Office of Management and Budget was established in the Executive Office of the President pursuant to Part I of Reorganization Plan No. 2 of 1970 (35 FR 7959), effective July 1, 1970. That Plan transferred to the President all functions vested by law in the Bureau of the Budget, or its Director, and designated the Bureau of the Budget as the Office of Management and Budget. By Executive Order No. 11541 of July 1, 1970 (35 FR 10737), the President delegated all functions transferred to him by Part I of the Plan to the Director of the Office of Management and Budget.

(b) The principal statutory functions of the Office of Management and Budget are contained in the Budget and Accounting Act of 1921 (42 Stat. 20, 31 U.S.C. 1–25); the Federal Reports Act of 1942 (44 U.S.C. 3501–3511); the Government Corporation Control Act (59 Stat. 597, 31 U.S.C. 841–869); the Budget and Accounting Procedures Act of 1950 (65 Stat. 832), the Federal Advisory Committee Act (Pub. L. 92–463), the Congressional Budget and Impoundment Control Act of 1974 (Pub. L. 93–344), the Office of Federal Procurement Policy Act (Pub. L. 93–400), and the Privacy Act of 1974 (Pub. L. 93–579).

(c) The functions of the Office of Management and Budget are carried out pursuant to the provisions of the statutes cited above and the provisions of various Executive orders—principally, Executive Order No. 8248 of September 8, 1939 (CFR Cum. Supp., p. 576), outlining certain functions to be performed by the Bureau of the Budget for the President, and Executive Order No. 11230 of June 28, 1965 (3 CFR 1965 Supp., p. 146), as amended, delegating certain functions of the President to the Director of the Bureau of the Budget. Under the terms of Executive Order No. 11541 of July 1, 1970, the assignments and delegations made in the earlier orders are to be considered as assignments to the Office of Management and Budget and its Director.

**§ 1303.3 Organization.**

The central organization of the Office of Management and Budget consists of—

(a) The Office of the Director, which includes the Director and the Deputy Director and their principal assistants, including the Assistant to the Director for Administration.

(b) The Administrator of the Office of Federal Procurement Policy.

(c) Three Associate and Assistant Directors with Government-wide management responsibilities in specialized areas, as follows:

Executive Development and Labor Relations
Legislative Reference
Management and Operations

(d) Five program and budget Associate and Assistant Directors, as follows:

Budget Review
National Security and International Affairs
Human and Community Affairs
Economics and Government
Natural Resources, Energy, and Science

(e) The Office has no field organization.

(f) Units of the Office of Management and Budget are presently located in the Executive Office Building, 17th Street and Pennsylvania Avenue NW., and in the New Executive Office Building, 17th and H Streets NW., Washington, D.C. 20503. Regular office hours are from 9 a.m. to 5:30 p.m., Monday through Friday. Both buildings are under security control. Persons desiring to visit officers or employees of the Office of Management and Budget in either building will usually find it easier to do so if they write or telephone in advance for an appointment.

PROCEDURES

**§ 1303.10 Methods of operation.**

(a) The Office of Management and Budget maintains current indexes which identify information pertaining to matters issued, adopted, or promulgated after July 4, 1967, that are within the scope of 5 U.S.C. 552(a)(2). These indexes are updated quarterly and are published in the FEDERAL REGISTER. They are also available for public inspection and copying at the Office's Publications Office, Room G–236, New Executive Office Building, 17th and H Streets, NW., Washington, D.C. 20503. The indexes may be examined between the hours of 9:00 a.m. and 5:30 p.m. on any day, except Saturdays, Sundays, and legal public holidays.

(b) The Office of Management and Budget has established an internal Committee on Freedom of Information (hereinafter referred to as the Committee), chaired by the Deputy Director. The purpose of this Committee is to oversee the Office's administration of the Freedom of Information Act as amended and to recommend action on any appeals that may be filed in the event a request for information is denied.

(c) The Assistant to the Director for Administration is responsible for acting on all initial requests. Individuals wishing to obtain any information listed on the indexes should address their request in writing to the Assistant to the Director for Administration, Office of Management and Budget, Washington, D.C. 20503, Phone 395–4790. Requests for information shall be as specific as possible.

(d) Upon receipt of any request for information or records, the Assistant to the Director for Administration will determine within 10 days (excepting Saturdays, Sundays, and legal public holidays) whether it is appropriate to grant the request and will immediately provide written notification to the person making the request. If the request is denied, the written notification will also include the names of other individuals who participated in the determination and a notice that an appeal may be lodged including the format and content of any such appeal within the Office of Management and Budget. (Receipt of a request as used herein means the date the request is received in the office of the Assistant to the Director for Administration.)

(e) In the event the request is denied and that denial is appealed, the Assistant to the Director for Administration will refer the appeal to the Committee which will recommend a determination to the Deputy Director. Appeals shall be set forth in writing and addressed to the Assistant to the Director for Administration at the address specified in (c) of this section. The appeal shall include a statement explaining the basis for the appeal. Determinations of appeals will be set forth in writing and signed by the Deputy Director, or his designee within 20 days (excepting Saturdays, Sundays, and legal public holidays). If, on appeal, the denial is in whole or in part upheld, the written determination will also contain a notification of the provisions for judicial review and the names of the persons who participated in the determination.

(f) In unusual circumstances, the time limits prescribed in (d) and (e) of this section may be extended for not more than 10 working days (excepting Saturdays, Sundays, or legal public holidays). Extensions may be granted by the Deputy Director. The extension period may be split between the initial request and the appeal but in no instance may the total period exceed 10 working days. Extensions will be by written notice to the

persons making the request and will set forth the reasons for the extension and the date the determination is expected. As used herein, but only to the extent reasonably necessary to the proper processing of the particular request, the term "unusual circumstances" means:

(1) The need to search for and collect the requested records from establishments that are separate from the office processing the request;

(2) The need to search for, collect, and examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practical speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency which have a substantial subject matter interest therein.

AVAILABILITY OF INFORMATION

**§ 1303.20 Inspection, copying, and exceptions.**

(a) When a request for information has been approved pursuant to § 1303.10, the person making the request may make an appointment to inspect or copy the materials requested during regular business hours by writing or telephoning the Assistant to the Director for Administration at the address or telephone number listed in section 10(c). Such materials may be copied manually without charge, and reasonable facilities will be made available for that purpose. Also, copies of individual pages of such materials will be made available at the price per page specified in paragraph (a) of § 1303.30; however, the right is reserved to limit to a reasonable quantity the copies of such materials which may be made available in this manner when copies also are offered for sale by the Superintendent of Documents.

(b) Certain functional units of the Office of Management and Budget solely advise and assist the President, and therefore these units are not covered by 5 U.S.C. 552. However, the Director or the Deputy Director, acting on his behalf, may determine that a record which falls in one of the following categories shall be made available. These units carry out activities that provide advice and assistance to the President with regard to:

(1) The formulation and preparation of the Federal budget,

(2) The processing of enrolled bills and determinations of the relationships of pending and proposed legislation to the program of the President.

(3) The compensation of Federal employees,

(4) The establishment and organization of new agencies and the reorganization of existing programs and agencies, and

(5) The preparation of Executive Orders and Proclamations.

(c) Except to the extent that the Director or Deputy Director, acting on his behalf, determines that a record which falls within one of the following categories shall be made available, this section shall not apply to matters that are—

(1) (i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of the national defense or foreign policy, and (ii) are in fact properly classified pursuant to such Executive Order.

(2) Related solely to the internal personnel rules and practices of the Office;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the Office;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel;

(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) Geological and geophysical information and data, including maps, concerning wells.

CHARGES FOR SEARCH AND REPRODUCTION

**§ 1303.30 Schedule of fees and method of payment for services.**

(a) Following is the fees schedule for the search and reproduction of information available under the Freedom of Information Act (5 U.S.C. 552), as amended.

(1) Search for records—$5.00 per hour when the search is conducted by a clerical employee. $8.00 per hour when the search is conducted by a professional employee. No charge for searches of less than 1 hour.

(2) Duplication of records—Records will be duplicated at a rate of $.10 per page for all copying of 4 pages or more. There is no charge for duplicating 3 or fewer pages.

(3) Other—When no specific fee has been established for a service, or the request for a service does not fall under one of the above categories due to the amount or type thereof, the Assistant to the Director for Administration is authorized to establish an appropriate fee based on "direct costs" as provided in the Freedom of Information Act and in accordance with Office of Management and Budget Circular No. A–25, "User charges." Examples of services covered by this provision include searches involving computer time or special travel, transportation, or communications costs.

(b) If records requested under this part are stored elsewhere than the headquarters of the Office of Management and Budget at Washington, D.C., the special costs of returning such records to the headquarters for review will be added to the search costs.

(c) Ordinarily, fees shall not be charged if the records requested are not found, or if all of the records located are withheld as exempt. However, if the time expended in processing the request is substantial, and if the requester has been notified of the estimated cost pursuant to paragraph (d) of this section, fees may be charged.

(d) Where it is anticipated that the fees chargeable under this section will amount to more than $25, or the maximum amount specified in the request, the requester shall be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In instances where the estimated fees will greatly exceed $25, an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requester to consult with Office personnel in order to reformulate the request in a manner which will reduce the fees, yet still meet the needs of the requester.

(e) Fees must be paid in full prior to issuance of requested copies. In the event the requester is in arrears for previous requests for which the Office was unable to find or provide the requested information (see b. above), copies of records will not be provided for any subsequent request until the arrears have been paid in full.

(f) Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, or a postal money order. Remittances shall be made payable to the order of the Treasury of the United States and mailed or delivered to the Assistant to the Director for Administration, Office of Management and Budget, Washington, D.C. 20503.

(g) A receipt for fees paid will be given upon request. Refund of fees paid for services actually rendered will not be made.

(h) The Assistant to the Director for Administration, or an officer designated by the Assistant to the Director for Administration may in accordance with the Freedom of Information Act, as amended, waive all or part of any fee provided for in this section when the Assistant to the Director for Administration or the designated officer deems it to be in either the Office's interest or in the general public's interest.

These regulations are issued under the authority of 5 U.S.C. 552, as amended by Pub. L. 93–502.

## Title 7—Agriculture

## CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

## PART 921—FRESH PEACHES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

### Expenses, and Rate of Assessment

This document authorizes expenses of the Washington Fresh Peach Marketing Committee, under Marketing Order No. 921, for the 1975–76 season at $9,262 and prescribes that each handler pay $0.80 per ton of peaches handled as his prorata share of such expenses.

Notice was published in the June 25, 1975, issue of the FEDERAL REGISTER (40 FR 26682) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the fiscal period ending March 31, 1976, pursuant to the marketing agreement and Order No. 921 (7 CFR Part 921), regulating the handling of fresh peaches grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice afforded interested persons until July 25, 1975, to submit written data, views, or arguments in connection with said proposals. None were received. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Washington Fresh Peach Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

**§ 921.214 Expenses and rate of assessment.**

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Washington Fresh Peach Marketing Committee, during the fiscal period beginning April 1, 1975, and ending March 31, 1976, will amount to $9,262;

(b) *Rate of assessment.* The rate of assessment, payable by each handler in accordance with § 921.41 is fixed at eighty cents ($0.80) per ton of fresh peaches, and

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of peaches grown in the designated counties of Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed shall be applicable to all assessable fresh peaches from the beginning of such period; and (3) such period began on April 1, 1975, and the rate of assessment herein fixed will automatically apply to all assesable fresh peaches beginning with such date.

## PART 922—APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

### Expenses and Rate of Assessment for the 1975–76 Fiscal Period

This document authorizes expenses of the Washington Apricot Marketing Committee, under Marketing Order No. 922, for the 1975–76 season at $2,421 and prescribes that handlers pay $1.30 per ton to defray such expenses.

On June 27, 1975, notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 27242) regarding proposed expenses and the related rate of assessment for the period April 1, 1975, through March 31, 1976, pursuant to the marketing agreement, as amended, and Order No. 922, as amended (7 CFR Part 922), regulating the handling of apricots grown in designated counties in Washington. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice afforded interested persons until July 21, 1975, to submit written data, views, or arguments in connection with said proposals. None were received. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Washington Apricot Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

Section 922.215 is added to read as follows:

**§ 922.215 Expenses, rate of assessment.**

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Washington Apricot Marketing Committee during the period April 1, 1975, through March 31, 1976, will amount to $2,421.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 922.41, is fixed at $1.30 per ton of apricots.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of apricots grown in designated counties in Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable apricots handled during the aforesaid period; and (3) such period began on April 1, 1975, and said rate of assessment will automatically apply to all such apricots beginning with such date.

## PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

### Handling Regulation

This regulation, designed to promote orderly marketing of Oregon-California potatoes, requires inspection of fresh market shipments to keep undesirable low quality potatoes from being shipped to consumers.

Notice of rule making with respect to a proposed handling regulation, to be effective under Marketing Agreement No. 114 and Marketing Order No. 947, both as amended (7 CFR Part 947), regulating the handling of Irish potatoes grown in the designated production area, was published in the July 15, 1975, FEDERAL REGISTER (40 FR 29726). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons through July 28, 1975, to file written data, views or arguments pertaining to that proposal. None was filed.

The recommendations of the committee reflect its appraisal of the composition of the 1975 crop in the production area and the marketing prospects for this season. The grade, size, quality, maturity and pack requirements as provided herein are necessary to prevent potatoes of low quality, or undesirable sizes from being distributed into fresh market channels. They will also provide consumers with good quality potatoes consistent with the overall quality of the crop, and standardize the quality of the potatoes shipped from the production area in order to provide the consumer with a more acceptable product.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable.

A specified quantity of potatoes may be handled without regard to maturity requirements in order to permit growers to make test diggings without loss of the potatoes so harvested.

Shipments may be made to certain special purpose outlets without regard to minimum grade, size, cleanliness, maturity, pack and inspection requirements, provided that safeguards are met to prevent such potatoes from reaching unauthorized outlets. Certified seed is so exempt, subject to the safeguard provisions only when shipped from the district where grown.

Shipments for use as livestock feed within the production area or to specified adjacent areas are likewise exempt; a limit to the destinations of such shipments is provided so that their use for the purpose specified may be reasonably assured. Shipments of potatoes between Districts 2 and 4 for planting, grading, and storing are exempt from requirements because these two areas have no natural division. Other districts are more clearly separated and do not have this problem. For the same reason, potatoes grown in District 5 may be shipped without regard to the aforesaid requirements to the Counties of Adams, Benton, Franklin and Walla Walla in the State of Washington, and Malheur County, Oregon, for grading and storing. Since no purpose would be served by regulating potatoes used for charity purposes, such potatoes are exempt. Also potatoes of most processing uses are exempt under the legislative authority for this part.

Requirements for export shipments differ from those for domestic markets. Smaller sizes are more acceptable in foreign markets. Therefore, different requirements for export shipments are provided.

*Findings.* After consideration of all relevant matter presented, including the proposal set forth in the aforesaid notice which was recommended by the Oregon-California Potato Committee, established pursuant to said marketing agreement and order, it is hereby found that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of potatoes grown in the production area will begin on or about the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the marketing season, and (3) compliance with this regulation, which is similar to that in effect during previous marketing seasons, will not require any special preparation on the part of persons subject thereto which cannot be completed by August 5, 1975.

**§ 947.333 [Removed]**

1. *Termination of regulations:* Handling regulation § 947.333 effective August 31, 1974, through October 15, 1975 (39 FR 30341 and 39 FR 32011) shall be terminated August 5, 1975.

2. Section 947.334 is added to read as set forth below.

**§ 947.334 Handling regulation.**

During the period August 5, 1975, through October 15, 1976, no person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a), (b), (c), (d), (e), and (f) of this section, or unless such potatoes are handled in accordance with paragraphs (g), (h) or (i) of this section.

(a) *Grade requirements.* All varieties—U.S. No. 2, or better grade: Except that potatoes designated U.S. Commercial shall meet all of the requirements and tolerances of U.S. No. 1, except that they may be no more than "slightly dirty."

(b) *Size requirements.* All varieties—1⅞ inches minimum diameter: *Provided,* That potatoes for export may be 1½ inches minimum diameter.

(c) *Cleanliness requirements.* All varieties and grades—As required in the United States Standards for Grades of Potatoes, except that U.S. Commercial may be no more than "slightly dirty."

(d) *Maturity (skinning) requirements.* (1) All varieties—no more than "moderately skinned."

(2) Not to exceed a total of 100 hundredweight of potatoes may be handled during any seven day period without meeting these maturity requirements. Prior to shipment of potatoes exempt from the above maturity requirements, the handler shall obtain from the committee a Certificate of Privilege.

(e) *Pack.* Potatoes packed in 50 pound cartons must be U.S. No. 1 or better grade.

(f) *Inspection.* (1) Except when relieved by paragraphs (g), (h) or (i) of this section, no person shall handle potatoes without first obtaining inspection from an authorized representative of the Federal-State Inspection Service.

(2) For the purpose of operation under this part, unless exempted from inspection by the provisions of this section, each required inspection certificate is hereby determined, pursuant to § 947.60 (c) to be valid for a period of not to exceed 14 days following completion of inspection as shown on the certificate. The validity period of an inspection certificate covering inspected and certified potatoes that are stored in mechanically refrigerated storage within 14 days of the inspection shall be 14 days exclusive of the number of days that the potatoes were held in refrigerated storage.

(3) Any lot of potatoes previously inspected pursuant to § 947.60(a) is not required to have additional inspection under § 947.60(b) after regrading, resorting, or repacking such potatoes, if the inspection certificate is valid at the time of regrading, resorting, or repacking of the potatoes.

(g) *Special purpose shipments.* The minimum grade, size, cleanliness, pack, maturity and inspection requirements set forth in paragraphs (a), (b), (c), (d), (e) and (f) of this section shall not be applicable to shipments of potatoes for any of the following purposes:

(1) Certified seed, subject to applicable safeguard requirements of paragraph (h) of this section.

(2) Livestock feed: *Provided,* That potatoes may not be handled for such purposes if destined to points outside of the production area, except that shipments to the Counties of Benton, Franklin and Walla Walla in the State of Washington and to Malheur County, Oregon, may be made, subject to the safeguard provisions of paragraph (h) of this section.

(3) Planting in the district where grown, except that potatoes for this purpose grown in District No. 2 or District No. 4 may be shipped between those two districts.

(4) Grading or storing, under the following provisions:

(i) Between districts within the production area for grading or storing if such shipments meet the safeguard requirements of paragraph (h) of this section.

(ii) Potatoes grown in District No. 2 or District No. 4 may be shipped for grading or storing between those two Districts without regard to the safeguard requirements of paragraph (h) of this section.

(iii) Potatoes grown in District No. 5 may be shipped for grading and storing to points in the Counties of Adams, Benton, Franklin and Walla Walla in the State of Washington, or to Malheur County, Oregon, without regard to the safeguard provisions of paragraph (h) of this section.

(5) Charity: *Provided,* That shipments for charity may not be resold if they do not meet the requirements of the marketing order, and *Further Provided,* That shipments in excess of 5 hundredweight per charitable organization shall be subject to the safeguard provisions of paragraph (h) of this section.

(6) Starch manufacture.

(7) Canning, freezing, prepeeling, and "other processing," as hereinafter defined (including storage for such purposes).

(h) *Safeguards.*

(1) Each handler making shipments of certified seed outside the district where grown pursuant to paragraph (g) shall obtain from the committee a Certificate of Privilege, and shall furnish a report of shipments to the committee on forms provided by it.

(2) Each handler making shipments of potatoes pursuant to paragraphs (g)(2), (4)(i), and (5) of this section shall obtain a Certificate of Privilege from the committee, and shall report shipments at such intervals as the committee may prescribe in its administrative rules.

(3) Each handler making shipments pursuant to paragraph (g)(7) of this section may ship such potatoes only to persons or firms designated as manufacturers of potato products by the committee, in accordance with its administrative rules.

(i) *Minimum quantity exemption.* Any person may handle not more than 19 hundredweight of potatoes on any day without regard to the inspection requirements of § 947.60 and to the assessment requirements of § 947.41 of this part: *Provided,* That no potatoes may be handled pursuant to this exemption which do not meet the requirements of paragraphs (a), (b), (c), (d) and (e) of this section. This exemption shall not apply to any part of a shipment which exceeds 19 hundredweight.

(j) *Definitions.* (1) The terms "U.S. No. 1," "U.S. Commercial," "U.S. No 2,"

V40150 AUG 4 75 XUM

and "moderately skinned" shall have the same meaning as when used in the U.S. Standards for Potatoes (§§ 51.1540–51.1566 of this title), including the tolerances set forth therein.

(2) The term "slightly dirty" means potatoes that are not damaged by dirt.

(3) The term "prepeeling" means potatoes which are clean, sound, fresh tubers prepared commercially in a prepeeling plant by washing, removing the outer skin or peel, trimming, and sorting preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422 United States Standards for Grades of Peeled Potatoes (§§ 52.2421–52.2433 of this title).

(4) The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, or starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, or dicing, or applying material to prevent oxidation does not constitute "other processing."

(5) Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114, as amended, and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: July 30, 1975 to become effective August 5, 1975.

### PART 78—BRUCELLOSIS

### Subpart D—Designation of Modified Certified Brucellosis Areas, Specifically Approved Stockyards and Slaughtering Establishments

#### Brucellosis Areas

The amendments delete the following areas from the list of Modified Certified Brucellosis Areas in § 78.21 and add such areas to the list designated as Noncertified Areas in § 78.22 because it has been determined that they no longer come within the definition of a Modified Certified Brucellosis Area in § 78.1(m): Washington County in Arkansas; Brown County in Illinois; Henry County in Missouri; Pushmataha County in Oklahoma; and Cherokee, Cochran, Duval, Falls, Frio, Gonzales, Harris, Jefferson, Jim Hogg, Jim Wells, Lavaca, Leon, Liberty, McLennan, Nacogdoches, Orange, Runnels, Trinity, and Upshur Counties in Texas.

The amendments delete the following areas from the list of Noncertified Areas in § 78.22 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they again come within the definition of a Modified Certified Brucellosis Area in § 78.1(m): Bryan and Okfuskee Counties in Oklahoma; and Henderson, Limestone, Live Oak, Navarro, and Smith Counties in Texas.

The amendments delete the following areas from the list of Modified Certified Brucellosis Areas in § 78.21 and add such areas to the list designated as Certified Brucellosis-Free Areas in § 78.20 because it has been determined that they now come within the definition of a Certified Brucellosis-Free Area in § 78.1(l): Seminole County in Florida; Bond and Johnson Counties in Illinois; Dubuque, Madison, and Winneshiek Counties in Iowa; and Kimble County in Texas.

The amendments delete the following areas from the list of Certified Brucellosis-Free Areas in § 78.20 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they now come within the definition of a Modified Certified Brucellosis Area in § 78.1(m): Franklin County in Arkansas; Rowan County in Kentucky; Benton, Cannon, Cumberland, Montgomery, and Wayne Counties in Tennessee; Culberson, El Paso, Kinney, and Reeves Counties in Texas; and Box Elder County in Utah.

Accordingly, §§ 78.20, 78.21, and 78.22 of Part 78, Title 9, Code of Federal Regulations, designating Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, and Noncertified Areas, respectively, are revised to read as follows:

*Effective date:* The foregoing amendments shall become effective August 4, 1975.

The amendments impose certain restrictions necessary to prevent the spread of brucellosis in cattle and relieve certain restrictions presently imposed. They should be made effective promptly in order to accomplish their purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 29th day of July.

## Title 10—Energy

## CHAPTER II—FEDERAL ENERGY ADMINISTRATION

## PART 205—ADMINISTRATIVE PROCEDURES AND SANCTIONS

### Profit Margin Repurification

On April 18, 1975 the FEA issued a notice of proposed rulemaking to amend Part 205 by adding a new Subpart S, Profit Margin Repurification. Comments were received from twenty-one interested persons and a public hearing was held on May 16, 1975 at which four interested parties presented oral testimony. Consideration of all the written and oral presentations has led the FEA to conclude that the new Subpart S should be added to the regulations as proposed.

The purpose of the new Supart S is to provide a means whereby a refiner which has become subject to a profit margin limitation by charging allowable prices above base price to reflect increased nonproduct costs may "repurify" itself by remitting revenues derived during that fiscal year from charging prices in excess of base price, and thereby not be subject to the profit margin limitation. This amendment incorporates in the FEA profit margin regulations a provision that was a part of the prior Cost of Living Council profit margin regulations, from which the current FEA regulations were adopted. This provision, in effect, permits a refiner to defer its determination to recover non-product cost increases until near the end of its fiscal year, when it will be in a better position to evaluate the impact of that determination.

Pursuant to § 212.11 of the FEA regulations, a refiner which charges a price for any item in excess of the base price of the item may not, in the fiscal year in which the price in excess of the base price is charged, exceed its base period profit margin. If a refiner does not raise any price above base price, there is no profit margin limitation. Increased product costs are included in base prices, but increased non-product costs are not, so that the profit margin limitation applies only with respect to the pass through of increased non-product costs.

Pursuant to this amendment, a refiner, which during a fiscal year has increased a price above base price, but has then rescinded for the remainder of the fiscal year all price increases above base price, and has made refunds or reduced prices below base price to the extent of its price increases above base price, will not be subject to the profit margin limitation for that fiscal year. In other words, a refiner may "repurify" itself by returning to the market place any non-product cost increases it has passed through, and thereby avoid the profit margin limitation.

The remission of revenues must be made in the following manner:

(1) If the ultimate consumers who purchased the items at prices above base price are reasonably indentifiable, refunds must first be made to them.

(2) To the extent that these ultimate consumers are not reasonably identifiable, revenues must must be remitted in the form of future sales at prices below base price of the same items previously sold at prices above base price.

To comply with the provisions of this subpart a firm must rescind its above-base prices and complete its remittance of revenues within the fiscal year it intends to avoid the profit margin limitation. The subpart also extends to firms which have raised a price above base price in a previous fiscal year, and which continue to charge the increased price in a subsequent fiscal year. Such a firm must lower its prices to base price and remit revenues derived from the price increases in effect during that subsequent fiscal year in order to avoid the profit margin limitation in that year. A firm which complies with the provisions of this subpart within a fiscal year would nevertheless become subject to the profit margin limitation once again in that same fiscal year if it subsequently charged a price in excess of base price in that fiscal year.

To comply with the provisions of Subpart S, a firm must first submit a letter of intent to FEA which shall include a revenue remission plan. This plan must be approved by the FEA. The FEA may disapprove the revenue remission plan within 30 days from the date of its receipt. The information which must be included in the letter of intent is set forth in § 205.242(d).

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159, as amended by Pub. L. 93–511; Federal Energy Administration Act of 1974, Pub. L. 93–275; E.O. 11790, 39 FR 23185).

In consideration of the foregoing, Part 205 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below.

Issued in Washington, D.C., July 29, 1975.

ROBERT E. MONTGOMERY, JR.,
*General Counsel,*
*Federal Energy Administration.*

1. Part 205 is amended to add a new Subpart S to read as follows:

**Subpart S—Profit Margin Repurification**

**§ 205.240 Scope.**

The subpart applies to any firm subject to a profit margin limitation imposed by Part 212 of this chapter.

**§ 205.241 General rule.**

Any firm subject to a profit margin limitation under Part 212 of this chapter is not subject to that limitation if, before the end of the fiscal year in which it charged a price above the base price, the firm (a) rescinds for the remainder of the fiscal year all price increases above base price, and (b) in conformity with §§ 205.242 and 205.243 of this subpart, remits to customers in the form of refunds, or future sales at prices below base price of the same covered products previously sold at prices above base price, or both, an amount equal to or greater than all revenues derived in the fiscal year from charging a price or prices in excess of base price.

**§ 205.242 Letter of intent.**

(a) A firm may take action to reduce prices to base price at any time.

(b) Before remitting revenues derived from charging prices above base price, each firm shall submit to FEA a letter of intent to remit revenues which shall include a revenue remission plan which must be approved by FEA. If the firm receives no written response to its letter of intent within 30 days after the date it was received by the FEA, the firm may assume approval of its revenue remission plan and proceed to remit revenues in accordance with § 205.243 of this subpart.

(c) To be eligible for FEA approval under this subpart, a letter of intent must be received at such a time before the end of the firm's fiscal year as will allow FEA review thereof in accordance with paragraph (b) of this section and as will allow the firm fully to execute the plan for remission of revenues before the end of that fiscal year.

(d) Each letter of intent to remit revenues shall include a revenue remission plan presenting the following information:

(1) The amount of revenue the firm has received as a result of having increased the price of covered products above base price, indicated by product or product line;

(2) The above-base-price selling price, the base price, and the proposed below-base-price selling price of each product;

(3) The sales figures and other information which demonstrate that the proposed prices below base price will result in remission of revenues derived from charging prices above the base price;

(4) The period of time during which the remission of revenues will take place;

(5) The anticipated effect of the firm's price reductions on competition and the manner in which the firm's revenue remission plan will minimize disruption of competitive pricing patterns; and

(6) The amount of revenues which can be refunded to customers.

**§ 205.243 Remission of revenues.**

(a) Remission of revenues derived from charging prices above base price shall be made first in the form of refunds to individual customers who purchased covered products at prices in excess of base price, to the extent that those customers are reasonably identifiable. For the purpose of making refunds pursuant to this subpart, "customer" means, so far as possible, the ultimate consumer. To the extent that customers are not reasonably identifiable, remission of the balance of revenues derived from charging prices above base price shall be made to customers of the same class as those charged the prices above base prices through the reduction of the price of those items which were raised above base price to below base price, so that the difference between the revenues realized at the reduced prices and the revenues which could have been realized if the sales had been made at base price is equal to or greater than the revenues (net of any refunds) derived from charging prices above base price.

(b) Each firm that remits revenues shall make such arrangements with its immediate customers, purchasers, dealers, employees or agents as are necessary to obtain and maintain records of the names and addresses of ultimate consumers who are reasonably identifiable in accordance with normal business practices and to assure that refunds are in fact made to such ultimate consumers.

### Revision of Regulations; Correction

On July 17, 1975, FR Doc. 75–18564 was published in the FEDERAL REGISTER (40 FR 30038). Several corrections are necessary, as follows:

1. On page 30039, middle column, "Authority: 15 USC 781, 78m, 78p, 78w", the first citation should have the letter "l" in italics;

2. On page 30039, middle column, § 11.1, line 4, the citation should read "(15 USC 78l)";

3. On page 30040, left column, § 11.2 (j) (2) (i), line 10 of subparagraph (2) (i), the word "or" following the word "issuer" should read "of", and in line 11 of subparagraph (2) (i), the word "of" following the word "certificates" should read "or";

4. On page 30040, right column, § 11.2 (z), line 2 of paragraph (z), the word "either" following the word "meeting" should read "any";

5. On page 30041, right column, § 11.3 (c) (6) (i), the colon at the end of subparagraph (6) (i) following the word "determination" should be changed to a semicolon;

6. On page 30041, right column, § 11.3 (c) (8), line 1 of subparagraph (8), the word "the" should be inserted between "by" and "Comptroller";

7. On page 30041, right column, § 11.4 (a) (4) (i), line 1 of subparagraph (4) (i), the word "where" immediately following "(i)" should be capitalized;

8. On page 30042, left column, § 11.4 (a) (4) (i), last line of subparagraph (4) (i), the period following "300 persons" should be changed to a semicolon;

9. On page 30042, middle column, § 11.4(d) (5), line 3 of subparagraph (5), insert after "Comptroller of the Currency" the phrase "after the receipt by the Comptroller of the Currency";

10. On page 30043, middle column, § 11.4(n), line 15 of paragraph (n), the word "his" immediately preceding the word "discretion" should read "its";

11. On page 30043, right column, § 11.4 (q) (2), line 9 of subparagraph (2), immediately preceding the phrase "the signature", insert the following: "Unsigned copies shall be conformed. If";

12. On page 30045, right column, § 11.5 (c) (9), line 10 of subparagraph (9), the period following the phrase "paragraph (f)" should be changed to a comma;

13. On page 30046, left column, § 11.5 (c) (9), line 1 at the top of the page, the phrase "section 13 of the Act" should read "section 18 of the Act";

14. On page 30046, right column, § 11.5 (f) (1), line 9 of subparagraph (f) (1), the citation "§ 1.5" should read "§ 11.5";

15. On page 30046, right column, § 11.5 (f) (1), lines 11, 12 and 13 of subparagraph (f) (1) should be deleted;

16. On page 30046, right column, § 11.5 (f) (2), line 7 of subparagraph (f) (2), immediately preceding the word "exclusive" insert an open parenthesis "(";

17. On page 30046, right column, § 11.5 (f) (2), line 10 of subparagraph (f) (2), the word "gvien" should be changed to read "given";

## CHAPTER II—FEDERAL RESERVE SYSTEM

### SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[REG. Q]

### PART 217—INTEREST ON DEPOSITS

#### Withdrawals From Savings Deposits

On April 7, 1975, the Board invited public comments to be received by June 6, 1975, on a proposed amendment to its Regulation Q which would permit member banks to offer a service for making third party payments through pre-authorized transfers of funds from depositors' savings accounts (40 FR 16685-6). After review and consideration of all comments received, the Board has adopted the proposed amendment in substantially the same form as proposed.

Previously, Regulation Q permitted member banks to make withdrawals from customers' savings accounts only to effect the payment of installments of principal, interest, or other charges (including taxes or insurance premiums) due on a real estate loan or mortgage. This amendment will permit banks to provide a full range of bill payment services without regard to the nature of the payment. The amendment authorizes member banks to honor withdrawal orders or authorizations received from the depositor for recurrent or occasional payments from his/her savings deposit. A member bank shall not honor any such withdrawal order or authorization received from a third party. The term "withdrawal order or authorization" means the depositor's agreement with the bank to effect withdrawals for payment to third parties. The term does not refer to notice received from third parties providing information as to amounts to be paid.

As amended, § 217.5(c) will permit a savings depositor to authorize his/her bank to transfer funds to third parties (whether or not the payment is in satisfaction of a debt), or to the depositor's bank to repay any indebtedness to the bank *except* that incurred through overdrafts or use of a checking account line of credit.

The amendment adopted by the Board gives member banks authority to offer bill paying services and does not specify the form of such services. However, member banks desiring to offer their depositors this service may find the following examples useful. The authorization given to the bank by the depositor may take different forms, as explained below.

1. In most cases, the depositor will sign a contract outlining the rights and duties of both bank and depositor. Such contract will constitute the depositor's authorization to the bank to honor the depositor's instructions to transfer funds from his/her account.

2. The depositor's authorization to the bank also may be in the form of written withdrawal orders or authorizations supplied to the depositor by the bank and forwarded to the bank by the depositor requesting transfer of his/her funds. Such withdrawal orders or authorizations must bear language in boldface type that they are not negotiable or transferable.

The transfer of funds may be accomplished by means of an internal bookkeeping transfer or by the member bank sending payment to the transferee or the transferee's bank. The depositor will give the bank the names of those organizations or individuals to whom funds are to be transferred, indicating either the specific amount to be paid to each or a maximum amount and the frequency of payment. The depositor also may authorize the bank to make withdrawals from his/her savings account in amounts stated on bills or other notices delivered periodically or occasionally by the third party to the depositor's bank. The depositor may be required to supply the bank with the transferee's address and/or bank account number. Subsequent additions to the list of transferees or changes in instructions may be communicated to the bank in person, in writing, or by telephone.

The Board recently invited public comment on proposed access arrangements for utilizing Federal Reserve facilities in clearing and settling magnetically encoded payment instructions. (40 FR 25641) The amendment announced today does not affect the proposal regarding access. This amendment does not authorize member banks to send items recorded on magnetic tape originating from savings accounts directly to Federal Reserve clearing facilities.

Member banks should maintain data on accounts subject to third party payment authorizations in a manner which will facilitate identification of such deposits for reporting purposes.

Four textual changes have been made in the amendment. The first change is the insertion of the phrase "including the bank (except as prohibited by subparagraph 2)" in the first sentence of the amended § 217.5(c)(1)(vii) to indicate that funds withdrawn from a savings account under authority of that section may be transferred to the account of the depositor's bank for repayment of any indebtedness *except* that incurred through overdrafts or the use of a checking account line of credit.

The second textual change is the insertion of the words "automatically or" in § 217.5(c)(2). This change is designed to indicate that a member bank may not offer or agree to transfer funds automatically from a depositor's savings account to the depositor's checking account either to cover overdrafts or to replenish the depositor's checking account balance.

The third change is the insertion in the first sentence of § 217.5(c)(1)(vii) of the words "received from a depositor by a member" to indicate that withdrawal orders or authorizations may be paid only if received by a member bank from a depositor. This change and the fourth change, the insertion of the word "withdrawal" before "order(s) or authorization(s)" wherever it appears in the regulation are intended to emphasize the nontransferable nature of such withdrawal orders or authorizations permitted by this amendment.

After review and consideration of all comments received, pursuant to its authority under section 19 of the Federal Reserve Act (12 U.S.C. 461) to define the terms used in that section and to prescribe such regulations as it may deem necessary to effectuate the purposes of that section, the Board has decided to adopt the amendment in substantially the form proposed.

Effective September 2, 1975, § 217.5(c) is amended to read as follows:

**§ 217.5 Withdrawal of savings deposits.**

• • • • •

(c) *Manner of payment of savings deposits.* (1) Subject to the provisions of paragraph (c)(2) and (3) of this section, a member bank may permit withdrawals to be made from a savings deposit only through payment[7] to the depositor (but not to any other person whether or not acting for the depositor) except

(vii) Pursuant to nontransferable withdrawal orders or authorizations received from a depositor by a member bank for the payment of amounts from such deposits to third parties, including the bank (except as prohibited by paragraph (c)2 of this section), periodically or otherwise. Any such withdrawal order or authorization that may be honored as a withdrawal request for payment to a third party may, if so authorized by the third party, be honored as a transfer to an account of such third party. Any form for such withdrawal order or authorization shall contain language in boldface type of reasonable size to the effect that it is not negotiable or transferable.

(2) Notwithstanding the provisions of paragraph (c)(1) of this section, no withdrawal shall be permitted by a member bank to be made from a savings deposit, through payment to the bank itself or through transfer of credit to a demand or other deposit account of the same depositor (other than of interest on the savings deposit) if such payment or transfer is made pursuant to any advertised plan or any agreement, written or oral which authorizes such payments or transfers of credit to be made automatically or as a normal practice in order to cover checks or drafts drawn by the depositor upon the bank.

(3) The provisions of this paragraph do not apply to deposits subject to negotiable orders of withdrawal authorized by Federal law to be issued in the States of Massachusetts and New Hampshire.

### PART 265—RULES REGARDING DELEGATION OF AUTHORITY

#### Specific Function Delegated

In order to expedite and facilitate the handling of certain of its functions, the Board has amended its Rules Regarding Delegation of Authority pursuant to the provisions of section 11(k) of the Federal Reserve Act (12 U.S.C. 248(k)) to delegate to the Director of the Office of Saver and Consumer Affairs the authority (1) to approve and issue reporting, examination, or inspection materials with respect to the Board's responsibilities under the Consumer Credit Protection Act, the Securities Exchange Act of 1934, and the Federal Trade Commission Act (subsections 18(f)(1)-(3)), (2) to grant State exemptions under the Consumer Credit Protection Act and Regulation Z (12 CFR 226.12), and (3) to conduct certain matters with respect to the Truth in Lending Advisory Committee.

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with these amendments because they are rules

of agency organization and are exempt from such procedures under 5 U.S.C. 553 (b). The requirements of 5 U.S.C. 553(d) with respect to deferred effective date were not followed in connection with these amendments because such deferral is unnecessary as the persons affected thereby will not be affected adversely.

Effective July 21, 1975, paragraph (h) of § 265.2 is amended by adding paragraphs (4), (5), and (6) as follows:

§ 265.2 **Specific functions delegated to Board employees and to Federal Reserve Banks.**

* * * * *

(h) The Director of the Office of Saver and Consumer Affairs (or in his absence, the Acting Director) is authorized:

* * * * *

(4) Pursuant to the provisions of section 11(a) of the Federal Reserve Act (12 U.S.C. 248(a)), section 17(b) of the Securities Exchange Act of 1934 (15 U.S.C. 78q), sections 108(b), 621(c), and 704(b) of the Consumer Credit Protection Act (15 U.S.C. 1607(b), 1681S(b), 1691C), and, section 18(f) (3) of the Federal Trade Commission Act (Pub. L. 93–637 section 202(a))

(a) To issue examination or inspection manuals, registration, report, agreement, and examination forms, guidelines, instructions or other similar materials for use in connection with the administration of

(1) Sections 1 through 707 (excluding sections 201 through 500) of the Consumer Credit Protection Act (15 U.S.C. 1601–1691e),

(2) Sections 7 and 8 of the Securities Exchange Act of 1934 (15 U.S.C. 78 g and h),

(3) Sections 18(f)(1)—(3) of the Federal Trade Commission Act (Pub. L. 93–637 § 202(a)), and rules and regulations issued thereunder.

(5) Pursuant to Sections 123 and 171 (b) of the Truth in Lending Act (15 U.S.C. 1633 and 1666j) and the Board's Regulation Z, 12 CFR 226.12, to grant, but not deny or revoke, exemptions to States from the requirements of Chapters 2 and 4 of the Truth in Lending Act (15 U.S.C. 1631–1644 and 1666), where State law imposes substantially similar requirements, and there is adequate provision for enforcement.

(6) Pursuant to Section 110 of the Consumer Credit Protection Act (15 U.S.C. 1609), to call meetings of and consult with the Advisory Committee established under that section, to approve the agenda for such meetings, and to accept any resignations from Advisory Committee members.

By order of the Board of Governors, July 21, 1975.

## CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

## PART 305—PUBLIC WORKS AND DEVELOPMENT FACILITIES PROGRAM

### Grant and Loan Program

Part 305 of Chapter III of Title 13 of the Code of Federal Regulations is hereby amended.

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are inapplicable.

1. Part 305 is amended by amending § 305.59 to read as follows:

§ 305.59 **Property management.**

* * * * *

(h) The requirements contained in this section apply to grant and combination grant/loan projects. They do not apply to projects for which assistance has been provided solely in the form of loans or by purchasing evidence of indebtedness.

[Docket No. 14857; Amdt. 39–2313]

## PART 39—AIRWORTHINESS DIRECTIVES

### Alexander Schleicher ASW 15 Gliders

There has been a report of a rudder jam during flight in an Alexander Schleicher ASW 15 glider that resulted in an emergency landing. Since this condition is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued which requires repetitive inspections of finrudder nose clearance and rudder nose reforming and reinforcement when the clearance is less than specified limits on Alexander Schleicher ASW 15 gliders.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of Section 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foreging, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive.

ALEXANDER SCHLEICHER. Applies to ASW 15 gliders, serial numbers 15001 through 15183, certificated in all categories.

Compliance is required within the next ten hours time in service after the effective date of this A.D. and thereafter at intervals not to exceed 50 hours time in service from the last inspection until the rudder nose is reinforced in accordance with paragraph (b)(2) of this A.D.

To prevent rudder jam due to improper finrudder nose clearance, accomplish the following:

(a) Visually inspect the rudder nose for deformation and measure the gap between the fin and rudder. The acceptable gap is between 2 to 3 mm at the lower rudder hinge tapering to an allowable gap of between 1 to 2 mm at the upper end of the vertical fin.

(b) If the measured gap is not within limits, or a deformation of the rudder nose is found, comply with the following:

(1) Reform the rudder nose inward until the gap is within limits by applying heat in accordance with paragraph 1 of the instructions contained in Alexander Schleicher ASW 15 Technical Note 10 dated January 30, 1973, or an FAA-approved equivalent.

(2) Reinforce rudder nose in accordance with paragraph 2 of the instructions contained in Alexander Schleicher ASW 15 Technical Note 10 dated January 30, 1973 and Alexander Schleicher drawing L–272 150.36/37.B1.33, or an FAA-approved equivalent.

This amendment becomes effective August 18, 1975.

Issued in Washington, D.C. on July 25, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Flug-und Fahrzeugwerke AG HBV "Diamant" & Diamant 16.5 Gliders

The lower harness attachments on a Flug- und Fahrzeugwerke AG (FFA) Diamant glider came loose due to insufficient bonding. This condition could result in structural failure of the harness attachment. Since this condition is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued to reinforce the lower harness attachments on FFA HBV "Diamant" and Diamant 16.5 gliders.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

FLUG-UND FAHRZEUGWERKE AG. Applies to HBV "Diamant" and Diamant 16.5 gliders, all serial numbers, certificated in all categories.

Compliance is required within the next 10 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent structural failure of the lower harness attachments D1.201–0710, reinforce the attachments in accordance with the "REQUIRED ACTION" specified in Flug-und Fahrzeugwerke AG Service Bulletin No. 5, dated February 4, 1974, or an FAA-approved equivalent.

This amendment becomes effective August 18, 1975.

Issued in Washington, D.C., on July 25, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Messerschmitt-Bolkow-Blohm Model BO–105 Helicopters

There have been failures of the tail rotor blade tip cap of Messerschmitt-Bolkow-Blohm (MBB) Model BO–105 helicopters that could result in failure of the tail rotor and consequent loss of directional control of the helicopter. Since this condition is likely to exist or develop in other helicopters of the same type design, an airworthiness directive is being issued which requires reinforcement of the tail rotor blade tip cap on certain MBB Model BO–105 helicopters.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MESSERSCHMITT-BOLKOW-BLOHM. Applies to Messerschmitt-Bolkow-Blohm (MBB) models BO–105A and BO–105C helicopters certificated in all categories, incorporating tail rotor blade P/N 105–31742, serial numbers 548 and lower.

Compliance is required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished in accordance with MBB BO–105 Service Bulletin No. 30–8.

To prevent failure of the tail rotor blade tip cap, inspect tail rotor blades for condition, modify as prescribed, and return to service, in accordance with paragraph 2 of MBB BO–105 Service Bulletin No. 30–8, dated July 5, 1974, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

This amendment becomes effective August 18, 1975.

Issued in Washington, D.C., on July 25, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Messerschmitt-Bolkow-Blohm GmbH Phoebus A1, B1 Gliders

There have been reports of cracks in the rudder cable level welds on certain Phoebus gliders that could result in loss of rudder control. Since this condition is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued which requires periodic inspection for rudder cable lever weld cracks and replacement of rudder cable levers on Phoebus A1 and B1 gliders.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

ENTWICKLUNGSGEMEINSCHAFT (MESSERSCHMITT-BOLKOW-BLOHM G.m.b.H.). Applies to Phoebus A1 and B1 gliders, serial numbers 702 thru 751, certificated in all categories.

Compliance is required as indicated.

To prevent loss of rudder control, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD, unless already accomplished, and thereafter at intervals not to exceed 100 hours' time in service from the last inspection, inspect the rudder control cable lever as follows:

(1) Remove headrest, luggage container, and seat.

(2) Disconnect rudder control cables from cable lever.

(3) Remove rudder control rod and rudder control cable lever (P/N 15120–4236).

(4) Inspect rudder control cable lever weld for cracks using a magnifying glass with a magnification power of not less than five.

(5) If a crack is found comply with paragraph (b) of this AD.

(b) If a rudder control cable lever weld crack is found during an inspection required by paragraph (a), replace the rudder control cable level P/N 15120–4236 with a serviceable part of the same part number or an FAA-approved equivalent.

[MBB Service Bulletin No. PHOEBUS 27–20/1, dated March 1975, pertains to this AD.]

This amendment becomes effective August 18, 1975.

Issued in Washington, D.C. on July 28, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Pilatus Aircraft Ltd. B4–PC11 Gliders

The design of the canopy limiting cable includes a lock link which will not release the canopy on Pilatus B4–PC11 gliders and which would hinder emergency egress. Since this condition is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued which requires an alteration of the limiting cable attachment on Pilatus B4–PC11 gliders.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of section 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PILATUS AIRCRAFT LTD. Applies to B4–PC11 gliders, certificated in all categories, equipped with canopy limiting lock link.

Compliance is required as indicated, unless already accomplished.

To ensure canopy emergency jettisoning capability, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD, disconnect the limiting cable.

(b) Within the next 50 hours' time in service after the effective date of this AD, alter

to exist or develop in other gliders of the same type design, an airworthiness directive is being issued to reinforce the lower harness attachments on FFA HBV "Diamant" and Diamant 16.5 gliders.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

FLUG-UND FAHRZEUGWERKE AG. Applies to HBV "Diamant" and Diamant 16.5 gliders, all serial numbers, certificated in all categories.

Compliance is required within the next 10 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent structural failure of the lower harness attachments D1.201–0710, reinforce the attachments in accordance with the "REQUIRED ACTION" specified in Flug-und Fahrzeugwerke AG Service Bulletin No. 5, dated February 4, 1974, or an FAA-approved equivalent.

This amendment becomes effective August 18, 1975.

Issued in Washington, D.C., on July 25, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Messerschmitt-Bolkow-Blohm Model BO–105 Helicopters

There have been failures of the tail rotor blade tip cap of Messerschmitt-Bolkow-Blohm (MBB) Model BO–105 helicopters that could result in failure of the tail rotor and consequent loss of directional control of the helicopter. Since this condition is likely to exist or develop in other helicopters of the same type design, an airworthiness directive is being issued which requires reinforcement of the tail rotor blade tip cap on certain MBB Model BO–105 helicopters.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MESSERSCHMITT-BOLKOW-BLOHM. Applies to Messerschmitt-Bolkow-Blohm (MBB) models BO–105A and BO–105C helicopters certificated in all categories, incorporating tail rotor blade P/N 105–31742, serial numbers 548 and lower.

Compliance is required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished in accordance with MBB BO–105 Service Bulletin No. 30–8.

To prevent failure of the tail rotor blade tip cap, inspect tail rotor blades for condition, modify as prescribed, and return to service, in accordance with paragraph 2 of MBB BO–105 Service Bulletin No. 30–8, dated July 5, 1974, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

This amendment becomes effective August 18, 1975.

Issued in Washington, D.C., on July 25, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Slingsby Sailplanes—T59D Kestrel Gliders

Cracks have been found on the inside welded corners of the elevator actuator bracket of a Slingsby T59D Kestrel glider that could result in structural failure of the elevator actuator bracket and loss of elevator control. Since this condition is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued to require inspections and replacement of the elevator actuator bracket on Slingsby T59D Kestrel gliders.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of section 313(a), 601, and 603, of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SLINGSBY SAILPLANES. Applies to T59D Kestrel gliders certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent structural failure of the elevator actuator bracket, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD and thereafter at intervals not to exceed 5 hours' time in service, visually inspect the elevator actuator bracket P/N 59A-30-11 for cracks in the inside welded corners.

(b) If cracks are found, prior to further flight, replace the elevator actuator bracket, P/N 59A-30-11, with a machined aluminum bracket, P/N 59A-03-8A/B/C, in accordance with Slingsby Sailplanes Technical Instruction No. 65, Issue 2, dated May 23, 1974, or an FAA-approved equivalent.

(c) The inspections required by paragraph (a) of this AD may be discontinued after a machined aluminum elevator actuator bracket, P/N 59A-03-8A/B/C, has been installed in place of P/N 59A-30-11 in accordance with Slingsby Sailplanes Technical Instruction No. 65, Issue 2, dated May 23, 1974, or an FAA-approved equivilent.

### Slingsby Sailplanes—T59D Kestrel Gliders

A dive brake control mechanism malfunction on a Slingsby T59D Kestrel glider resulted in an emergency landing. Since this situation is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued which requires replacement of the dive brake control mechanism and imposes dive brake operating limitations until the replacement is accomplished on Slingsby T59D Kestrel gliders.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of section 313(a), 601, and 603, of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SLINGSBY SAILPLANES. Applies to Slingsby T59D Kestrel gliders certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent dive brake retraction failure, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD, install a placard on the instrument panel in full view of the pilot reading:

AIR BRAKE EXTENSION LIMITATION

| | |
|---|---|
| FINAL APPROACH | 50% |
| FLAREOUT ON LANDING | 100% |
| CRUISE | NONE (0%) |

(b) Within the next 50 hours' time in service after the effective date of this AD, replace the dive brake control mechanism with the linear type dive brake control mechanism, P/N 59A-45-717, in accordance with Slingsby Sailplanes Technical Instruction No. 75 dated May 21, 1975, or an FAA-approved equivalent.

(c) The placard required by paragraph (a) of this AD may be removed after the work specified in paragraph (b) of this AD has been accomplished.

This amendment becomes effective August 18, 1975.

### Societe Nationale Industrielle Aerospatiale "PUMA" Helicopter Models SA-330F and SA-330G

Score marks have been found on leading edges of main rotor blades of Aerospatiale "PUMA" Models SA-330F and SA-330G helicopters that could result in failure of the blades. Since this condition is likely to exist or develop in other helicopters of the same type design, an airworthiness directive is being issued which requires a one-time inspection for cracks in the main rotor blades.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of Sections 313(a), 601, and 603, of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), Section 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive.

SOCIETE NATIONALE INDUSTRIELLE AEROSPATIALE. Applies to "PUMA" helicopter models SA-330F and SA-330G, certificated in all categories, incorporating main rotor blades which have leading edge erosion protective strips.

Compliance is required within the next 100 hours time in service after the effective date of this AD, unless already accomplished in accordance wtih Puma SA-330 Service Bulletin No. 05.39.

To prevent failure of the main rotor blade due to cracks in the region of the leading-edge erosion protection, inspect for cracks, repair as necessary, and return to service, in accordance with paragraph 1C of Puma SA-330 Service Bulletin No. 05.39, dated December 5, 1974, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA Europe, Africa and Middle East Region.

This amendment becomes effective August 18, 1975.

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

On page 23765 of the FEDERAL REGISTER dated June 2, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Flint, Michigan.

Interested persons were given thirty days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective September 6, 1975.

This amendment is made under the authority of Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on July 16, 1975.

JOHN M. CYROCKI,

It being determined that good cause, with respect to safety in air commerce and air transportation, exists for making this rule effective less than 30 days after publication, this amendment shall be effective 0901 GMT, August 21, 1975.

This amendment is made under the authority of Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on July 24, 1975.

JOHN M. CYROCKI,
*Director,*
*Great Lakes Region.*

In § 71.181 (40 FR 441), the following transition area is added:

DWIGHT, ILLINOIS

That airspace extending upward from 700 feet above the surface within a five mile radius of Dwight Airport (Latitude 41°08'05" N., Longitude 88°28'30" W.); and within three miles either side of the 097° bearing from the airport extending from the five mile radius area to 3 miles from the airport.

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Designation of Transition Area

On page 23766 of the FEDERAL REGISTER dated June 2, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Marlette, Michigan.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 GMT, September 11, 1975.

This amendment is made under the authority of Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on July 16, 1975.

JOHN M. CYROCKI,
*Director,*
*Great Lakes Region.*

Accordingly, the description of the transition area for Marlette, Michigan as proposed in FR Doc. 75-14253 appearing at page 23766 in the FEDERAL REGISTER of June 2, 1975, is corrected to read as follows:

MARLETTE, MICHIGAN

That airspace extending upward from 700 feet above the surface within a 5½-mile radius of the Marlette Airport (Latitude 43°18'37" N., Longitude 83°05'31" W.).

## Title 19—Customs Duties

## CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 75-198]

## PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

### Exemption From Entry and Clearance Requirements and Customs Charges for Yachts of the British Virgin Islands

The Department of State provided information to the Department of the Treasury on April 9, 1975, that yachts of the United States are permitted to cruise in the territorial waters of the British Virgin Islands, a Caribbean entity under British jurisdiction, without charges for entering or clearance, dues, duty per ton, tonnage taxes, or charges for cruising licenses.

Pursuant to section 5 of the Act of May 28, 1908, as amended (section 5, 35 Stat. 425, as amended; 46 U.S.C. 104), following a finding by the Secretary of the Treasury that a foreign nation has granted the above-described exemptions to yachts of the United States, the Commissioner of Customs may issue cruising licenses to yachts of that nation.

It has been demonstrated to the satisfaction of the Secretary of the Treasury that yachts of the United States are granted the above-described reciprocal privileges by the British Virgin Islands. Therefore, corresponding privileges are accorded to yachts of the British Virgin Islands effective as of the date of such notification.

Accordingly, § 4.94(b) of the Customs Regulations is amended by amending the parenthetical material after "Great Britain" in the list of countries granting the previously-described reciprocal privileges to yachts of the United States to read "(including Turks and Caicos Islands, St. Vincent (including the territorial waters of the Northern Grenadine Islands), the Cayman Islands, the St. Christopher-Nevis-Anguilla Islands, and the British Virgin Islands)". (Sec. 3, 23 Stat. 119, as amended, sec. 5, 35 Stat. 425, as amended (5 U.S.C. 301, 46 U.S.C. 3, 104))

There is statutory authority for this exemption after a finding has been made that such reciprocity exists. Therefore, good cause exists for dispensing with notice and public procedure thereon as unnecessary, and good cause is found for the amendment to become effective at the earliest date possible under 5 U.S.C. 553.

[SEAL] VERNON D. ACREE,
*Commissioner of Customs.*

Approved: July 24, 1975.

## Title 20—Employees' Benefits

## CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED (1965- )

### Nonallowable Costs Related to Certain Capital Expenditures; Provider Appeals Concerning Classifications for, Exceptions to, and Exemptions From Cost Limits

On January 3, 1975, there was published in the FEDERAL REGISTER (40 FR 797) a Notice of Proposed Rule Making with proposed amendments to Subpart D of Regulations No. 5, to implement section 1122 of the Social Security Act—"Limitation on Federal Participation for Capital Expenditures." The proposed amendments provided that reimbursement would be withheld from providers of services, for depreciation, interest on borrowed funds, a return on equity capital (in the case of proprietary providers), and other costs related to certain capital expenditures that the Secretary determines have not been submitted to the designated planning agency, as required, or have been determined to be inconsistent with State and local health facility plans. The proposed amendments also included the appeals right of providers and persons pursuant to section 1122(f) of the Social Security Act.

Interested persons were given 30 days within which to submit written comments or suggestions thereon. Comments and suggestions were received from several organizations and institutions. Some of these parties expressed their full concurrence with the proposed regulations as written, and others offered recommendations which are summarized below.

It was suggested that the regulations be effective beginning with the date they are published as a final rule in the Federal Register. Others recommended that the effective date of the regulations be expressed exactly as stated in the enacting legislation. As was explained in the preamble to the proposed regulations, section 1122 is self-executing and the proposed regulations are merely conforming regulations which specify an effective date consistent with that contained in regulations already published as a final rule in the FEDERAL REGISTER, by the Public Health Service (PHS) and codified in the Code of Federal Regulations (42 CFR Part 100). For this reason, neither of these suggestions has been adopted.

A comment was made that the regulations should include the definition of capital expenditures contained in the PHS regulations, as well as the specific methods by which State agencies will evaluate capital expenditures which are subject to section 1122 of the Act, and a requirement that State agencies complete their review of capital expenditures in 30 days. We believe the cross-reference in § 405.435 to the capital expenditure definition in the PHS regulations is sufficient. As for evaluation methods that State agencies will follow and the period within which State agencies should review expenditures, both relate to the section 1122 responsibilities of the PHS and, therefore, these suggestions were forwarded to the PHS.

It was also suggested that the regulations specify, and identify, which capital expenditure planning costs are allowable costs for Medicare reimbursement purposes, even though the expenditure may be not approved or was not undertaken. Both of these concepts are expressed clearly in the last sentence of § 404.435 (a), in the proposed regulations. Another comment was that the regulations should grant providers the right to administrative and judicial review of their intermediary's determination with respect to nonallowable costs attributable to capital expenditures which are subject to, but not approved under, section 1122. The proposed regulations (paragraph (d) of § 405.435) provided for reconsideration of the reimbursement determination under §§ 405.1809–405.1883 and §§ 405.1885–405.1889 of the regulations already in force. The content of this paragraph has now been redesignated as § 405.1890 and incorporated in Subpart R instead of Subpart D. However, judicial review is specifically prohibited by section 1122(f) of the Act.

In addition, one comment indicated that the regulations do not clearly identify the parties which may be involved in provider appeals of section 1122 determinations (State agencies, intermediaries, Provider Reimbursement Review Board, the Secretary of Health, Education, and Welfare, Federal courts). The right to appeal section 1122 determinations and the parties to these appeals are explained and identified by cross-reference to existing Social Security Administration regulations.

Although not included in the Notice of Proposed Rule Making on section 1122, a revision of paragraph (e) of § 405.460 is being published in final with these regulations. This amendment concerns the rights of a provider to review of a determination concerning the classification for, exceptions to, or exemptions from the cost limits imposed under the authority of § 405.460 of Regulations No. 5, originally published at 39 FR 20164 (June 6, 1974). The revision is only a technical one which effects no substantive change in the appeals procedure. The cross-reference is being corrected to reflect the new location of the provisions referred to (Subpart R of Regulations No. 5).

With the changes noted above, the proposed amendments are adopted and set forth below.

(Sections 1102, 1122, and 1871 of the Social Security Act; 49 Stat. 647, as amended, 86 Stat. 1386, 79 Stat. 331, 42 U.S.C. 1302, 1320a–1, and 1395hh.)

*Effective date:* These amendments shall be effective with respect to all capital expenditures, the obligation for which is incurred after December 31, 1972, or after the effective date of the agreement between the State and the Secretary, whichever is later.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

*Secretary of Health, Education, and Welfare.*

Regulation No. 5 of the Social Security Administration, as amended (20 CFR Part 405), is further amended as set forth below.

1. Section 405.402 is amended by revising the material in paragraph (c) preceding paragraph (c)(1) to read as follows:

§ 405.402 Cost reimbursement; general.

* * * * *

(c) As formulated herein, the principles give recognition to such factors as depreciation, interest, bad debts, educational costs, compensation of owners, and an allowance for a reasonable return on equity capital of proprietary facilities. However, costs such as depreciation, interest on borrowed funds, a return on equity capital (in the case of proprietary providers), and other costs related to certain capital expenditures are subject to the provisions of § 405.435, "Nonallowable costs related to certain capital expenditures." With respect to allowable costs some items of inclusion and exclusion are:

* * * * *

2. Section 405.415 is amended by adding paragraph (k) to read as follows:

§ 405.415 Depreciation: Allowance for depreciation based on asset costs.

* * * * *

(k) *Limitation on Federal participation for capital expenditures.* See § 405.435, "Nonallowable costs related to certain capital expenditures" for situations where allowance for depreciation is not an allowable cost.

3. Section 405.419 is amended by adding paragraph (e) to read as follows:

§ 405.419 Interest expense.

* * * * *

(e) *Limitation on Federal participation for capital expenditures.* See § 405.435, "Nonallowable costs related to certain capital expenditures" for situations where interest on borrowed funds is not an allowable cost.

4. Section 405.429 is amended by adding paragraph (b)(3) to read as follows:

§ 405.429 Return on equity capital of proprietary providers.

* * * * *

(b) *Application.* * * *

(3) Effective with respect to any capital expenditure, the obligation for which is incurred after December 31, 1972, or after the effective date of an agreement executed between a State and the Secretary pursuant to section 1122 of the Act, whichever date is later (and subject to the exceptions in § 405.435(c)), a provider's investment in plant, property, and equipment related to patient care, and funds deposited by a provider which leases plant, property, or equipment related to patient care which are found to be expenditures which have not been submitted to the designated planning agency as required or have been determined to be inconsistent with health facility planning requirements (see 42 CFR 100.101–100.110) are not included in the provider's equity capital for computing the allowance for a reasonable return on equity capital.

5. A new § 405.435 is added to read as follows:

§ 405.435 Nonallowable costs related to certain capital expenditures.

(a) *Principle.* Effective with respect to any capital expenditure, as defined in 42 CFR Part 100, the obligation for which is incurred after December 31, 1972, or after the effective date of an agreement executed between a State and the Secretary pursuant to section 1122 of the Act, whichever date is later, the depreciation, interest on borrowed funds, return on equity capital (in the case of proprietary providers), and any other costs attributable to such capital expenditure, where the Secretary has determined that such proposed capital expenditure has not been submitted to the designated planning agency as required, or that it has been determined by such agency to be inconsistent with the standards, plans, or criteria developed to meet the need for adequate health care facilities (as defined in 42 CFR 100.101–100.110) are not allowable. Other costs related to such capital expenditures include title fees; permit and license fees; broker commissions; architect, legal, accounting, and appraisal fees; interest, finance, or carrying charges on bonds, or notes; and other costs incurred for borrowing funds. The reasonable costs incurred by a provider for studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisitions, improvement, expansion, or replacement of the plant and equipment which are conducted to enable the provider to properly determine whether the proposed capital expenditure would be in compliance with the standards, plans, or criteria developed by the designated planning agency are allowable, except if the provider makes the capital expenditure and does not receive the required approval.

(b) *Applicability.* Under the principle specified in paragraph (a) of this section, any costs related to capital expenditures, the obligation for which was incurred by or on behalf of a provider subsequent to 1972 (except as described in paragraph (c) of this section), are not allowable where the Secretary has de-

V40150 AUG 4 75 XUM

termined that the capital expenditures have not been submitted to the designated planning agency as required or that they have been determined to be inconsistent with the standards, plans, or criteria developed by the designated planning agency or other health planning agency in the State to meet the need for adequate health care facilities in the area covered by the plan or plans so developed (see 42 CFR 100.101–100.110). Costs claimed by a provider in connection with capital assets which are donated or transferred to a provider are also subject to the application of such principle. Such principle also applies to the reasonable equivalent of that portion of any rental expense incurred pursuant to a lease or a comparable arrangement (and to any amounts deposited under the terms of such a lease or comparable arrangement in computing the return on equity capital) that would have been excluded had the provider acquired such a facility or equipment by purchase. The amounts excluded are not subject to reimbursement under any other provisions of Title XVIII of the Act.

(c) *Exceptions.* The limitation on recognition of costs attributable to capital expenditures discussed in this section does not apply to:

(1) A provider furnishing health care services as of December 18, 1970, which on such date was committed to a formal plan of expansion or replacement, with respect to such expenditures as may be made or such obligations as may be incurred for capital items included in such plan where preliminary expenditures toward the plan of expansion or replacement (including payments for studies, surveys, designs, plans, working drawings, specifications, and site acquisition essential to the acquisition, improvement, expansion, or replacement of the health care facility or equipment concerned) of $100,000 or more, had been made during the 3-year period ending December 17, 1970, or,

(2) Christian Science sanatoriums operated, or listed and certified, by the First Church of Christ, Scientist, Boston, Massachusetts, or

(3) Capital expenditures the obligations for which were incurred by, or on behalf of a provider prior to 1973, or

(4) Capital expenditures the exclusion of which the Secretary has determined would:

(i) Discourage the operation or expansion of a provider which has demonstrated its capability of providing comprehensive health care services efficiently, effectively, and economically; or

(ii) Otherwise be inconsistent with the effective organization and delivery of health services or the effective administration of Title V, XVIII, or XIX of the Act.

(d) *Appeals.* See § 405.1890 for appeal rights of a provider or other person dissatisfied with a determination under section 1122 of the Act (42 U.S.C. 1320a–1).

6. A new § 405.1890 is added to read as follows:

### § 405.1890 Appeals from a determination under section 1122 of the Act.

(a) *Right to an appeal.* Any provider or person dissatisfied with a determination under section 1122 of the Act, 42 U.S.C. 1320a–1, other than a determination of amounts of reimbursement to be excluded, may request a reconsideration of such determination as provided for in 42 CFR 100.108(d). In addition, any provider or person may appeal a determination disallowing costs attributable to a nonapproved capital expenditure in accordance with applicable provisions in this Subpart R, subject to the exceptions in paragraphs (b), (c), (d) and (e) of this section.

(b) *Amount in issue is less than $10,000.* A determination of exclusion under section 1122 of the Act of an amount of less than $10,000 may be appealed to an intermediary's hearing officer or panel of hearing officers, using the mechanisms in §§ 405.1809–405.1833 and §§ 405.1885–405.1889, as applicable, except that:

(1) There is no requirement that the amount in issue disallowed under section 1122 of the Act be at least $1,000; and

(2) The period within which the provider may request review shall be 6 months, rather than the period described in § 405.1811(a).

(c) *Amount in issue is $10,000 or more.* A determination of exclusion under section 1122 of the Act of an amount of $10,000 or more (or with respect to a particular cost report, exclusion of an amount of less than $10,000, provided that the total amount in issue with respect to such cost report exceeds $10,000) may be appealed to the Provider Reimbursement Review Board, using the mechanism in §§ 405.1835 through 405.1889, except that:

(1) The period within which the provider may request review shall be 6 months, rather than the period described in § 405.1841(a); and

(2) Paragraph (a)(4) of § 405.1801 and § 405.1877 shall not apply to a determination of exclusion under section 1122 of the Act.

(d) *Other administrative review.* Except as provided in paragraphs (b) and (c) of this section, there is no administrative review of any determination of exclusion of costs under the authority of section 1122 of the Act.

(e) *Judicial review.* As provided in section 1122(f) of the Act and paragraph (c)(2) of this section, there is no judicial review of any determination made under the authority of section 1122.

7. Paragraph (e) of § 405.460 is revised to read as follows:

### § 405.460 Limitations on coverage of costs.

* * * * *

(e) *Provider rights to review.* A request by a provider for review of the determination of an intermediary concerning classification for, exceptions to, or exemptions from the cost limits imposed under the provisions of this section shall be made to the intermediary under the provisions of Subpart R of this Part 405.

## Title 36—Parks, Forests, and Public Property

## CHAPTER VI—AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

## PART 606—THE OFFICIAL COMMEMORATIVE LICENSING PROGRAM

### Policy and Guidelines

**● Purpose. The purpose of this document is to describe the official commemorative licensing program for the American Revolution Bicentennial Administration (ARBA) and to prescribe regulations for its implementation. ●**

*Background.* The Joint Resolution (Pub. L. 89–491, as amended) establishing the American Revolution Bicentennial Commission (ARBC), the predecessor organization to the American Revolution Bicentennial Administration (ARBA), anticipated that the Commission would be funded with donations and with funds *"received in pursuance of contracts hereunder"* (section 6(d)). Also, authorizations for appropriations were enacted.

The basic legislation was amended by Pub. L. 91–528 to grant the Commission exclusive rights to any logos, symbols or marks adopted by the ARBC.

Testimony by Hobart D. Lewis, Vice Chairman, ARBC, on May 6, 1970, before Subcommittee No. 4 of the House Committee on the Judiciary in support of H.R. 16408, which was enacted as Pub. L. 91–528, was as follows:

> The purpose of section 3 of the bill is to permit the Commission the exclusive use of distinctive logos, symbols, or marks, which will be designed as the hallmarks of the official Bicentennial commemoration.
>
> It is expected that these designs will become associated in the minds of people world-wide with the American Revolution Bicentennial. Advertising, information literature, travel brochures, letterheads, tickets, etc., associated with activities sanctioned by the Commission will carry such design. The Commission will be able to license use of such designs under appropriate terms and conditions in connection with promotional and identification purposes as well as in connection with souvenir items such as pennants, lighters, etc.

Senate Committee on the Judiciary Report No. 91–976, dated June 25, 1970, reporting favorably on H.R. 16408, states:

> The purpose of this section is to permit the Commission the exclusive use of distinctive logos, symbols, or marks, which will be designed as the hallmark of the official Bicentennial commemoration.
>
> It is expected that these designs will become associated in the minds of people worldwide with the American Revolution Bicentennial. Advertising, information literature, travel brochures, letterheads, tickets and so forth, associated with activities sanctioned by the Commission will carry such design. The Commission will be able to license use of such designs under appropriate terms and conditions in connection with promotional and souvenir items, such as medals, pennants, lighters, and so forth.

A similar statement is included in Report No. 91–976 of the Senate Judiciary Committee on the companion bill in the Senate (S. 3630).

Subsequent amendments to the basic ARBC legislation (Pub. L. 92–236) authorize the Commission to provide for:

> . . . the preparation, distribution, dissemination, exhibition, and sale of historical, commemorative, and informational materials and objects which will contribute to public information, awareness, and interest in the Bicentennial.

This provision constitutes broad authority for ARBC to engage in distribution and sales programs related to the Bicentennial commemoration, including the licensing of the logo for appropriate use on souvenirs and other items.

Pub. L. 92–538, approved October 23, 1972, amended the basic ARBC statute to include authorization for a program of matching grants to State Bicentennial Commissions, communities and nonprofit organizations to support their Bicentennial projects. It was anticipated that the ARBC funding for such projects would be derived from revenues from the sale of commemorative medals and from revenues from a licensing program.

The American Revolution Bicentennial Administration (ARBA) was established by Pub. L. 93–179, approved December 11, 1973, as the successor organization to the ARBC. Such legislation specifically continued in effect all of the above provisions of law and specifically directs the Administrator to perform certain duties and further empowers the Board to establish basic policy guidelines for the Administrator. With respect to licensing, Pub. L. 93–179, section 4(b)(4) provides:

> (b) In addition the Administrator shall—
>
> (4) provide for the preparation, distribution, dissemination, exhibition, and sale of commemorative medals and other historical, commemorative, and informational materials and objects which will contribute to public information, awareness, and interest in the bicentennial. In preparing the Administration's plans and programs, the Administrator shall give due consideration to any related plans and programs developed by State, local and private groups, and he may designate special committees with representatives from such bodies to plan, devlop, and coordinate specific activities.

Historically, Americans in all walks of life tend to attach a real significance to official commemorative items which memorialize for themselves and their families special events, holidays and national celebrations. Frequently, these memorabilia become family treasures to be passed from generation to generation. Recognizing this tradition, the Congress included in Pub. L. 93–179 the above authority for a licensing program.

During Congressional hearings of the former Commission, as well as hearings to establish the new ARBA, the intent of the Congress also is clear that the ARBA should develop a source of funds to further the programs and activities of States, communities, and non-profit organizations. Consistent with the legislative authorization and the legislative history, a portion of the funds derived from a commemorative licensing program will be distributed in accordance with section 9(a)(2):

> (a) The Administrator is authorized to carry out a program of grants-in-aid in accordance with and in furtherance of the purposes of this Act. The Administrator may, subject to such regulations as may be prescribed—
>
> (2) make grants of nonappropriated funds to non-profit entities, including States, territories, the District of Columbia, and the Commonwealth of Puerto Rico (or subdivisions thereof), to assist in developing or supporting bicentennial programs or projects. Such grants may be up to 50 per centum of the total cost of the program or project to be assisted.

*Adoption of Regulations.* The American Revolution Bicentennial Board was established by Pub. L. 93–179 and is empowered by section 10(h)(3) thereof to "review, approve, disapprove, or ratify from time to time, all basic policy and guidelines. . ." of the ARBA. This Part 606 constitutes ARBA basic policy and guidelines for the commemorative licensing program.

Pursuant to provisions of Pub. L. 93–179, as indicated above, the American Revolution Bicentennial Administration (ARBA) is adding Part 606, The Official Commemorative Licensing Program, to 36 CFR Chapter VI as set forth below.

Although these regulations are currently in effect, written comments from interested parties will be considered and where appropriate amendments made to these regulations as the American Revolution Bicentennial Board may determine. All comments received will be available for public inspection at the ARBA, 2401 E Street NW., Room 7240, Washington, D.C. 20276.

JOHN W. WARNER,
*Administrator.*

JULY 28, 1975.

Part 606 is added as set forth below:

Sec.
606.100 Officially recognized commemoratives.
606.101 Non-exclusive licenses.
606.102 Place of manufacture and quality.
606.103 Royalties and licenses.
606.104 Excluded products.
606.105 Initial product areas and categories.

AUTHORITY: Pub. L. 93–179.

### § 606.100 Officially recognized commemoratives.

The ARBA will not officially endorse products. Rather, it will authorize the use of the official American Revolution Bicentennial symbol as described in Part 605, 36 CFR Chapter VI (40 FR 29539, July 14, 1975) through a license agreement for use in product design or packaging with the words "Officially Recognized Commemorative of the American Revolution Bicentennial Administration."

### § 606.101 Non-exclusive licenses.

In order to provide equitable opportunity for participation, it generally will be ARBA policy to issue non-exclusive licenses. However, exclusive licenses may be issued in exceptional instances. The product must be determined to be commemorative in nature and/or educational as it relates to our Nation's heritage, the present commemoration of the Bicentennial, and our future.

### § 606.102 Place of manufacture and quality.

(a) The product must be made in the United States of America, its territories and possessions within the meaning of Federal Trade Commission "Made in USA" designation guidelines. Any exceptions to this policy must be approved by the ARBA.

(b) The product must meet high standards of quality and safety and meet all applicable industry standards, laws and regulations. The ARBA will have final determination of design and product promotion. In general, products must be available nationwide and subject to a pricing structure which will enable a wide range of income levels to make purchases.

### § 606.103 Royalties and licenses.

(a) A non-refundable advance against future royalties will normally be required from the licensee.

(b) The product license will expire April 30, 1977 with no residual rights to the manufacturer. Products manufactured on or before April 30, 1977 may be sold subsequent to such date subject to payment of applicable royalty to ARBA or its successor organization.

(c) The ARBA generally will not license limited editions by quantity of product but may, where appropriate, authorize a limited term of availability similar to the marketing format for the ARBA Commemorative Medals, authorized by the Congress of the United States, and the Philatelic-Numismatic Combinations (PNCs).

### § 606.104 Excluded products.

As implied under Pub. L. 93–179, the ARBA has the discretion to exclude product areas from the licensing program. For example, no license will be issued for consumables such as alcoholic beverages, tobacco, fresh or processed food products, and personal hygiene toiletries.

### § 606.105 Initial product areas and categories.

Licensed items may initially be limited to the following few product areas or items:

—Flags (sale restricted to Bicentennial Communities and Organizations)
—Calendars
—Craft Items
—Needlepoint Kits
—Jewelry
—Decals (pressure sensitive markings)
—Furniture
—Embroidered Cloth Patch
—China and Crystal
—Silverware and Pewter
—Wearing Apparel, limited to a few items like scarves, neckties, belts, etc.
—Maps and National Guidebooks
—Bookcovers and Bookmarks
—Toys
—Games and Puzzles
—License Plates
—Greeting Cards
—Desk Sets and Paper Weights
—Buttons
—Coin Displays

V40150 AUG 4 75 XUM

—Stamp Displays
—School Rings and Yearbooks
—Playing Cards
—Liberty Bell Reproductions
—Educational or Commemorative Premium Campaigns where the end result is the free or low-cost dissemination of Bicentennial information or keepsake materials to the general public.

### SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 409-8; PP 5E1565/R39]

### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

#### 2-[[4-chloro-6-(ethylamino)-s-triazin-2-yl]amino]-2-methylpropionitrile

On June 18, 1975, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (40 FR 25688), a notice of proposed rulemaking to increase the established tolerance for residues of the herbicide 2-[[-chloro-6-(ethylamino) - s - triazin - 2 - yl]amino] - 2 - methylpropionitrile in or on the raw agricultural commodities corn fodder and forage from 0.05 to 0.2 part per million. This notice of proposed rulemaking was published in response to a petition (PP 5E1565) submitted to the EPA by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4 State Agricultural Experiment Station, Rutgers University, New Brunswick NJ 08903 on behalf of the IR-4 Technical Committee and the Witchweed Laboratory, Animal and Plant Health Inspection Service, Plant Protection and Quarantine Programs, U.S. Department of Agriculture, Whiteville NC 24872.

No comments or requests for referral to an advisory committee were received by the EPA with respect to this proposal. It is concluded, therefore, that the proposed amendment to the regulation should be adopted without change.

Any person adversely affected by this regulation may, on or before September 3, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW, East Tower, Room 1019, Washington DC 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on August 4, 1975, Part 180, Subpart C, § 180.307 is amended as set forth below.

(Section 408(e) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 346a(e)))

Dated: July 29, 1975.

EDWIN L. JOHNSON,
*Deputy Assistant Administrator for Pesticide Programs.*

Part 180, Subpart C, is amended by revising § 180.307 to include a tolerance of 0.2 part per million in or on corn fodder and forage, thereby increasing the current tolerance for corn fodder and forage from 0.05 to 0.2 part per million. This section is amended to read as follows.

**§ 180.307 2-[[4-Chloro-6-(ethylamino)-s-triazin-2-yl] amino]-2-methylpropionitrile; tolerances for residues.**

Tolerances are established for residues of the herbicide 2-[[4-chloro-6-ethylamino) - s -triazin-2-yl]amino]-2-methylpropionitrile in or on raw agricultural commodities as follows:

0.2 part per million in or on corn fodder and forage.

0.05 part per million (negligible residue) in or on fresh corn including sweet corn (kernels plus cob with husk removed), corn grain, and sorghum fodder, forage, and grain.

### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

#### Propargite

On August 13, 1974, notice was given (39 FR 29049) that Uniroyal Chemical Company, Division of Uniroyal Inc., Amity Rd., Bethany CT 06525, had filed a pesticide petition (PP4F1521) with the Environmental Protection Agency (EPA). This petition proposed that 40 CFR 180.259 be amended to increase the established tolerance for residues of the insecticide propargite (2-(*p-tert*-butylphenoxy)-cyclohexyl 2-propynyl sulfite) in or on corn fodder and forage from 2 parts per million (ppm) to 10 ppm.

The data submitted in the petition and other relevant material have been evaluated, and it was concluded that the existing tolerance for corn fodder and forage at 2 ppm should be revoked and a tolerance for field corn fodder and forage at 10 ppm be established. Existing tolerances for residues of propargite in meat, milk, poultry, and eggs are adequate to cover these higher residues on corn fodder and forage. The increased tolerance will protect the public health.

Any person adversely affected by this regulation may on or before September 3, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW, East Tower, Room 1019, Washington DC 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on August 4, 1975, Part 180, Subpart C, § 180.259, is amended as set forth below.

(Section 408(d) (1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(1)))

Dated: July 29, 1975.

EDWIN L. JOHNSON,
*Deputy Assistant Administrator for Pesticide Programs.*

Section 180.259 is amended by 1) revising the paragraph "10 parts per million . . ." to include field corn fodder and forage, and 2) deleting the paragraph "2 parts per million in or on corn fodder and forage" as follows:

**§ 180.259 Propargite; tolerances for residues.**

10 parts per million in or on cranberries, field corn fodder and forage, and grapes.

### CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

### PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

#### Certificated Equipment for Identification Requirements

JULY 24, 1975.

Section 2.1045 of the recently adopted procedural rules for equipment authorization requires that on and after September 1, 1975, each piece of certificated equipment carry a label containing specific information.

This Notice is intended to clarify these requirements and answer the many inquiries that have been received asking what will satisfy these requirements.

The specific identification requirements for each certificated equipment are set out in the rules governing its operation. Where the rules require identification as set out in Subpart J of Part 2 (The Procedural Rules), the device must be identified by a trade name and model number. After September 1, 1975, § 2.1045 requires that the trade name and model number appear on a single label attached to the receiver.

The stricter requirements apply to equipment for which an application for certification was filed on and after September 1, 1975. The label on equipment that was certificated before September 1, 1975, need not be changed from that shown in the application for certification.

After September 1, 1975, the trade name must appear on the label. If a name appears elsewhere on the equipment, it must be identical to that on the label. One exception is permitted. If a part of the manufacturer's or vendor's name is used as the trade name, the full name may be used on the label and the partial name may be used elsewhere on the equipment. For example: Radio Devices Electric Co. on the label; RD on the front of the receiver.

In addition to the trade name, if desired, the manufacturer's or vendor's name may also appear on the label provided it is preceded by a term such as "Sold by", "Distributed by", "Manufactured by" etc. In no case may the equipment be marked so that it appears to have more than one trade name.

*Pet Names. Special Names and Marks for Sales Purposes.* The Commission has been made aware that manufacturers or vendors, in addition to a trade name, marked pet names or other marks and names on their equipment for marketing purposes. One method of meeting the new requirements would be to join the pet name with what was once the trade name forming a new identifier which would be the trade name. For example: Former trade name "ROSE"; special mark "XR-100"; New trade name "ROSE XR-100".

For consumer equipment the label must carry the words "MODEL NO." followed by the identifier specified in the application for certification as being the model number. A different model number or an identifier which appears to be a model number (i.e. any number on the front or any number preceded by the word "model"), may not be carried on the equipment. Other numbers on the label or on the receiver must be clearly separate and distinct from the model number. The words "MODEL NO." may be preceded by the term "FCC DATA" to facilitate recognition of the identifying number used by the FCC. However, use of this term does not permit contradictory or confusing labeling elsewhere.

For communications equipment the label must carry the words "FCC RECEIVER DATA" followed by the identifier specified in the application for certification as being the model number. The word RECEIVER may be abbreviated as RCVR or RX. With regard to other numbers carried on the receiver or on the label, the same requirements apply as those discussed above for consumer equipment.

The new rules will be strictly enforced. Questions concerning specific identification schemes should be directed to:

## PART 91—INDUSTRIAL RADIO SERVICES

1. The Interdepartment Radio Advisory Committee (IRAC) has requested that the frequency 40.68 MHz be deleted from Part 91 of the Commission's Rules.

2. The frequency 40.68 MHz is available in the Power, Petroleum, Forestry Products, Special Industrial, and Business Radio Services for transmitting hydrological and meteorological data. However use of the frequency is limited to stations located in the States of Pennsylvania and West Virginia and then only on a secondary basis to Government operations. The frequency has been available to licensees in these services since 1958; nevertheless, there is no one currently using the channel. Anyone needing to transmit hydrological data uses the more reliable VHF and UHF frequencies available for that purpose.

3. We have carefully reviewed this request and, in view of the limited possible use of the channel and the fact that there appears to be no apparent need for the frequency, we feel that the public interest will be served by granting the request. The associated limitation, the one limiting the frequency to the States of Pennsylvania and West Virginia, is also deleted.

4. Because there are no existing non-Government operations on this frequency which could be affected by the above-mentioned rule amendments, the prior notice, public comments, and effective date procedures of 5 U.S.C. 533 are unnecessary.

5. Accordingly, IT IS ORDERED, pursuant to the authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, that, effective August 18, 1975 Sections 91.254, 91.304, 91.354, 91.504 and 91.554 of the Commission's Rules are AMENDED as shown below. IT IS FURTHER ORDERED That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 503)

Adopted: July 22, 1975.

Released: August 1, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Secretary.*

Part 91 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 91.254(a) table 40.68 MHz is deleted, and par. (b) limitation (5) is deleted and reserved to read as follows:

## Title 4—Accounts

### CHAPTER III—COST ACCOUNTING STANDARDS BOARD

### PART 351—BASIC REQUIREMENTS

### PART 403—ALLOCATION OF HOME OFFICE EXPENSES TO SEGMENTS

#### Filing Requirements and Contract Awards

The purpose of this publication by the Cost Accounting Standards Board is to modify Part 351, Basic Requirements, of its rules and regulations and Part 403, Allocation of Home Office Expenses to Segments. A proposed modification to Part 351 was published in the FEDERAL REGISTER of April 3, 1975 (40 FR 14942).

V40I150 AUG 4 75 XUM

Twenty-seven sets of comments were received in response to that publication. After considering those comments, the most significant of which are discussed below, the Board is today publishing an amendment to its rules relative to the requirement for the submission of Disclosure Statements by defense contractors and subcontractors.

1. *Fiscal Year Coverage.* The Board's April 3 proposal provided that any company which, together with its subsidiaries, received more than $10 million in prime contracts subject to Cost Accounting Standards in Government fiscal years 1974 or 1975 would be required to file Disclosure Statements. Board regulations now require the filing of Disclosure Statements on the basis of prime contracts awarded in fiscal years 1971, 1972 or 1973. There were no objections voiced by commentators to the inclusion of fiscal years 1974 and 1975 in the filing requirement. Accordingly, the amendments being published today require that companies who exceeded the threshold amounts in either of those fiscal years will be required to file Disclosure Statements.

2. *Effective Date.* The Board's proposal established July 1, 1975, as the effective date for the requirement to include awards made in fiscal years 1974 and 1975. Most commentators pointed out that in view of the short time permitted between submission of comments on the proposal and the July 1 date, any company which met the new requirement would not have sufficient time to file a satisfactory Disclosure Statement to permit receipt of a covered contract. The Board agrees, and accordingly, the amendments being published today establish an effective date of January 1, 1976, for the new requirement. Thus, any company which, together with its subsidiaries, received more than $10 million in prime contract awards subject to Cost Accounting Standards in Government fiscal years 1974 or 1975 must submit a Disclosure Statement in order to receive a covered national defense contract after January 1, 1976.

The April 3 proposal also provided for including subcontract awards in the computation to determine if a company meets the requirement for the filing of Disclosure Statements, beginning with Federal fiscal year 1976. The proposal stated that companies which met the threshold in fiscal year 1976 would be required to file Disclosure Statements as of July 1, 1976. In view of the need for a company to determine whether or not it met the filing requirement and then have sufficient time in which to prepare a satisfactory Disclosure Statement, the effective date for filing a Disclosure Statement on the basis of fiscal year 1976 data has been changed to March 31, 1977. For fiscal years subsequent to 1976, companies will be required to file Disclosure Statements as a condition of receiving a contract by March 31 following the end of the fiscal year in which the threshold is met. This should permit contractors to make their eligibility determination in sufficient time to allow preparation of acceptable Disclosure Statements.

3. *Inclusion of Subcontracts.* The Board's proposal required that beginning with Federal fiscal year 1976 (July 1, 1975–June 30, 1976) companies would be required to include, in addition to prime contract awards, the value of subcontract awards received subject to Cost Accounting Standards in their computation to determine if they must file Disclosure Statements. Beginning with that fiscal year and for all subsequent fiscal years, the Board's proposal stated that any company which, together with its subsidiaries, received more than $10 million in prime contract awards and subcontract awards subject to Cost Accounting Standards would be required to file Disclosure Statements.

Some commentators questioned how the value of awards was to be considered in determining if a company met the threshold. The $10 million figure is to include both prime contract awards and subcontract awards and may, in fact, be met by companies receiving only subcontracts subject to Standards. There was no intention that companies must have received one or more prime contracts in order to be required to file a Disclosure Statement. The determination of whether or not a company has $10 million in awards subject to Cost Accounting Standards must include both prime contracts and subcontracts.

A number of commentators objected to the inclusion of subcontract awards in a requirement for filing Disclosure Statements. They argued that in many cases they do not have sufficient information to determine whether a subcontract is subject to Standards. Some commentators stated that in many cases prime contractors pass through to subcontractors all Standard Government contract clauses whether or not they are required to be included in the subcontract. They allege that, in some cases, when the prime contractors are contacted to determine specifically whether or not a subcontract which contains the Cost Accounting Standards Clause is, in fact, subject to Standards, the prime contractor states that it is not. Because of this, the commentators claim they would be required to establish an elaborate information-gathering system to assure that they properly identify every subcontract subject to Standards.

The argument about the adequacy of information concerning coverage of subcontracts has been made to the Board on a number of occasions. In October 1973, when the Board published an earlier revision to the Disclosure Statement filing requirement, it advised contractors that they may be required to determine the dollar value of defense subcontract awards subject to CAS, and encouraged them to begin to identify and accumulate the value of subcontract awards separately. Many contractors are in fact effectively identifying subcontracts subject to Standards. These facts persuade the Board that identification of covered subcontracts is feasible, although the Board recognizes that some firms may have to clarify their information exchange procedures with the prime contractors with whom they do business.

The Board believes that the inclusion of the amount of subcontract awards in the Disclosure Statement filing requirement is appropriate because subcontracts, unless specifically exempt, are legally subject to the Board's Standards, rules and regulations. Accordingly, the amendments being published today provide for the inclusion of subcontract awards subject to Standards in the determination made by a company as to whether or not it must file a Disclosure Statement. This requirement is effective with Government fiscal year 1976 and applies to all subsequent fiscal years.

4. *Change in Fiscal Year Period.* Several commentators noted that the Federal Government is changing the dates of its fiscal year following Federal fiscal year 1976. The new fiscal year period will be from October 1 through the following September 30. The period July 1, 1976, thru September 30, 1976, will be known as Federal fiscal period 197T. These commentators asked whether or not contracts awarded in that period should be included in some way with a normal fiscal year's contract awards. The Board feels that it is not desirable to upset the regular twelve-month fiscal year computation period and accordingly has concluded that contracts awarded in that three-month period need not be included by companies in determining the value of contract awards received in fiscal year 1976 or any subsequent fiscal year.

5. *Previously Announced Filing Requirements.* The Board's proposal included a requirement that any company which has submitted or was required to submit a Disclosure Statement to the Government under the previously announced filing requirements by virtue of having received a covered contract shall remain subject to those requirements so long as it has any contract subject to Cost Accounting Standards. The proposal also required that Disclosure Statements from those companies on file with the Government must be maintained in current form by those companies. There were virtually no comments received on this requirement. The amendments being published today contain that requirement as set out in the April 3 proposal.

6. *Applicability of CAS 403.* A number of commentators noted that the April 3 proposal deleted paragraph 351.41 of the Board's regulations. This paragraph restated the requirement that only companies that met the Disclosure Statement filing requirement for Federal fiscal year 1971 were required to comply with CAS 403, *Allocation of Home Office Expenses to Segments.* These commentators asked that the Board's position be clarified as to whether or not any current revision to the Disclosure Statement requirement also changed the coverage of CAS 403. It was not the Board's intention to broaden the coverage of CAS 403 at this time. The possibility of extending the coverage of that Standard is the subject of a separate study currently underway. To make the Board's intention wholly clear, section 403.70 of CAS 403 is being revised to state explicitly rather than by cross reference the continuing coverage of that Standard. This revision has no substantive significance whatever, but instead merely sets out specifically what was and continues to be the exemption from that Standard, which was before today accomplished by reference to section 351.40 of the Board's Basic Requirements. Contractors and subcontractors which together with their subsidiaries did not receive net awards of negotiated national defense prime contracts during Federal fiscal year 1971 totaling more than $30 million continue to be exempt from Standard 403.

7. *Amendments to Disclosure Statements.* The Board's April 3 proposal also included revised procedures for handling changes to the Disclosure Statement. Contractors would be required to submit only the Disclosure Statement pages on which changes have been made. All commentators supported these revised procedures, and they are being published today as part of the Board's regulations.

The Board's April 3 proposal also included a provision enabling procurement agencies to issue regulations prescribing criteria under which a contractor may be required to submit a complete, updated Disclosure Statement. A number of commentators expressed concern over this provision. They felt that procuring agencies perhaps would issue regulations that were not consistent with the Board's intention and for this reason they urged that the Board prescribe criteria under which procurement agencies could make such a request.

The Board appreciates the concern expressed by the commentators. It would appear, however, that agencies would have a need for a complete, updated Disclosure Statement only where the number of amended pages submitted is so great that review of a Disclosure Statement would obviously be an excessively cumbersome process. The Board urges agencies to consider these views when adopting their criteria for submittal of a complete, updated Disclosure Statement. The Board has concluded that it should not itself set criteria for this particular requirement.

8. *Computation of Dollar Amount of Contract Awards.* A number of commentators asked that the Board clarify its intent as to which contracts should be included in the computation of the dollar amounts. The Board feels that covered contracts awarded in any fiscal year in which the computation is being made should be included. This would mean that for all of fiscal year 1974, negotiated defense prime contracts in excess of $100,000 would be included by a company in determining if it met the requirement to file a Disclosure Statement.

For the first six months of fiscal year 1975 all covered contracts in excess of $100,000 would be included in the figure for that fiscal year. For the balance of fiscal year 1975 only those awards which are subject to Standards would be included. This means that if a company was not performing under a covered contract exceeding $500,000 at January 1, 1975, and did not receive an award exceeding that amount in the last six months of the fiscal year, then only the covered contracts received in the first six months would be included. Only those companies which received an award of $500,000 or more in the last six months of the year would add up their covered contracts, including those subsequently awarded in amounts of $100,000 or more, to arrive at the total amount awarded in that period, to be added to the total for the first six months.

Beginning with Federal fiscal year 1976 only companies which receive at least one award exceeding $500,000 either as a prime contract or subcontract subject to Standards will be required to include the value of awards received to determine if they must file a Disclosure Statement. In essence, it is the Board's intention that contracts subject to Cost Accounting Standards shall be included in the computation to determine if the filing requirement has been met by a company for fiscal year 1974 and all subsequent fiscal years.

9. *Summary of Disclosure Statement Filing Requirements.* The Board has amended the requirement for filing Disclosure Statements a number of times. As a convenience to those affected by CAS, there follows a tabulation showing these requirements.

| Fiscal period | Government contracts to be included in computation | Amount (million) | Effective date |
|---|---|---|---|
| Fiscal year 1971 | Net negotiated prime defense contracts | $30 | Oct. 1, 1972. |
| Fiscal year 1972, 1973 | Defense prime contracts of the type subject to CAS | 10 | Jan. 1, 1974. |
| Fiscal year 1974, 1975 | Defense prime contracts subject to CAS | 10 | Jan. 1, 1976. |
| Fiscal year 1976 | Defense prime contracts and subcontracts subject to CAS. | 10 | Mar. 31, 1977. |
| Following years | Defense prime contracts and subcontracts subject to CAS. | 10 | Mar. 31 following fiscal year. |

10. *Modification.* The modifications being adopted today are limited to those areas in which the Board considers clarification or changes warranted at the present time. From time to time the Board may announce further changes in the criteria for applicability of the disclosure requirement.

The following modifications to Part 351 of the Board's regulations are being made, effective August 1, 1975, in view of the foregoing.

1. In § 351.40 delete paragraph (a) and add new paragraphs (e) and (f) and delete § 351.41 as follows:

**§ 351.40 Filing requirement.**

(a) [Removed]

• • • • • •

(e) Any company which, together with its subsidiaries, received net awards of negotiated national defense prime contracts subject to Cost Accounting Standards totaling more than $10 million in Federal fiscal year 1974 or 1975, must submit a completed Disclosure Statement.

(f) Any company which, together with its subsidiaries, received net awards of negotiated national defense prime contracts and subcontracts subject to Cost Accounting Standards totaling more than $10 million in Federal fiscal year 1976, or which receives such awards in any subsequent Federal fiscal year, must submit a completed Disclosure Statement by March 31 of the year following the Federal fiscal year in which the threshold was met.

**§ 351.41 [Removed]**

2. Section 351.50 is amended by revising paragraphs (a) and (c) and adding paragraph (d) as follows:

**§ 351.50 Contract awards.**

(a) Effective January 1, 1976, no relevant Federal agency shall award any national defense contract subject to this regulation to any contractor required to submit a Disclosure Statement under § 351.40, unless such submission has been made or post award submission has been authorized pursuant to § 331.60.

• • • • • •

(c) Any company which has submitted a Disclosure Statement to the Government under previously effective filing requirements shall remain subject to this section so long as it has any contract subject to Cost Accounting Standards.

(d) Any company which was obligated to submit a Disclosure Statement to the Government under previously effective filing requirements by virtue of having received a covered contract shall be subject to this section so long as it has any contract subject to Cost Accounting Standards.

3. Section 351.120 is amended by revising paragraph (d) and adding paragraph (e) as follows:

**§ 351.120 Amendment to Disclosure Statement.**

• • • • • •

(d) Amendment shall be submitted to the same offices, including the Cost Accounting Standards Board, to which submission would have to be made were an original Disclosure Statement being filed. Revised responses for Items 1.4.0 through 1.7.0, 8.1.0 or 8.2.0 must be submitted at the beginning of the contractor's fiscal year only if the response to an item in the Disclosure Statement on file requires a change. If the contractor's sales were such that it would check the same boxes in the Disclosure Statement, resubmission of responses concerning these particular items is not required.

(e) For each revision of the Disclosure Statement (addition, change or deletion), only the pages containing such revision shall be resubmitted. Each resubmission shall include a new cover sheet and a signed certification. In the first line of Item 0.4 of the cover sheet, companies shall enter the date of the revision. On the next line of Item 0.4 the date of the last cover sheet that was submitted shall be entered. The numbers of the pages

V40150 AUG 4 75 XUM

being revised and submitted with the cover sheet shall be entered immediately above the certification. The upper right corner of each revised page being submitted shall be marked "Revised" and dated with the date shown in the first line of Item 0.4. Companies shall enter in the right margin of each page, an asterisk (*) alongside each line containing a revision. For continuation sheets, asterisks may be used in the right margin to identify revised material. Agencies may prescribe criteria under which submission of a complete, updated Disclosure Statement will be required.

4. Section 403.70 is revised to read as follows:

§ 403.70 Exemptions.

Any contractor or subcontractor which together with its subsidiaries did not receive net awards of negotiated national defense prime contracts during Federal fiscal year 1971 (July 1, 1970, through June 30, 1971) totaling more than $30 million is exempt from this Standard.

(84 Stat. 796, sec. 103 (50 U.S.C. App. 2168))

ARTHUR SCHOENHAUT,
*Executive Secretary.*

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Docket No. 75N-0001]

ADMINISTRATIVE PRACTICES AND PROCEDURES

Stay of Regulations

The Commissioner of Food and Drugs is staying until further notice the regulations on administrative practices and procedures published in the FEDERAL REGISTER of May 27, 1975 (40 FR 22950).

On July 23, 1975, the American College of Neuropsychopharmacology brought suit in the United States District Court for the District of Columbia seeking to invalidate the regulations on the ground that they were issued without notice of proposed rule making. At a hearing before the Honorable John H. Pratt, United States District Judge, on July 24, 1975, the Food and Drug Administration agreed, pursuant to request of the Court, to delay the effectiveness of the regulations pending a decision on the plaintiff's motion for a preliminary injunction. In a notice published in the FEDERAL REGISTER of July 28, 1975 (40 FR 31605), the Commissioner stayed the effectiveness of the regulations until August 4, 1975.

On July 31, 1975, the Court issued Findings of Fact and Conclusions of Law, and a Final Order and Judgment permanently enjoining issuance of the regulations until after compliance with the conditions set forth therein. The Commissioner will issue, for publication in the FEDERAL REGISTER in the near future, the terms of the foregoing documents.

Therefore, the Commissioner is hereby staying the effectiveness of the regulations until further notice.

Dated: July 31, 1975.

SAM D. FINE,
*Associate Commissioner for Compliance.*

INSTRUMENTS OF INTERNATIONAL TRAFFIC

Use of United States Containers Admitted as Instruments of International Traffic in Local United States Traffic

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), section 14, 67 Stat. 516, as amended (19 U.S.C. 1322), 77A Stat. 14 (19 U.S.C. 1202 (General Headnote 11, Tariff Schedules of the United States)), and section 624, 46 Stat. 759 (19 U.S.C. 1624), it is proposed to amend paragraph (d) of § 10.41a of the Customs Regulations (19 CFR 10.41a(d)) to provide that containers of United States origin which have not been increased in value or improved in condition by any process of manufacture or other means while abroad and which are released upon arrival in the United States as instruments of international traffic are not subject to entry and the payment of duty if they are thereafter withdrawn from use in international traffic for use in local traffic within the United States.

Under § 10.41a(d), if an instrument of international traffic of United States or foreign origin is diverted to point-to-point local traffic in the United States or is otherwise withdrawn in the United States from use as an instrument of international traffic, it becomes subject to entry and the payment of applicable duty. It has been determined that the provisions of § 10.41a(d) are unduly restrictive insofar as they subject United States containers released as instruments of international traffic to the same limitations on use in United States local traffic that apply to foreign containers so released. The proposed amendments to § 10.41a will necessarily require an amendment of the Bond for the Control of Certain Instruments of International Traffic, Customs Form 7587, to provide that containers of United States origin are not subject to entry and the payment of duty if they are withdrawn from use in international traffic after release under § 1041a.

Accordingly, it is proposed to amend paragraph (d) of § 10.41a of the Customs Regulations (19 CFR 10.41a(d)) to read as follows:

**§ 10.41a Lift vans, cargo vans, shipping tanks, skids, pallets, and similar instruments of international traffic; repair components.**

* * * * *

(d) If an instrument of foreign origin, or of United States origin which has been increased in value or improved in condition by a process of manufacture or other means while abroad, is released under this section and is subsequently diverted to point-to-point local traffic within the United States, or is otherwise withdrawn in the United States from its use as an instrument of international traffic, it becomes subject to entry and the payment of any applicable duties. An instrument of United States origin which has not been increased in value or improved in condition by a process of manufacture or other means while abroad and which is released under this section shall not be subject to entry or the payment of duty if it is so diverted or otherwise withdrawn.

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration of such communications, they must be received not later than September 3, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8 (b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[Docket No. AO-183-A32]

MILK IN THE PADUCAH, KENTUCKY, MARKETING AREA

Decision on Proposed Amendments to Marketing Agreement [1] and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Paducah, Kentucky, marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Paducah, Kentucky, on April 3, 1975, pursuant to notice thereof issued on March 21, 1975 (40 FR 13220).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Associate Administrator, on June 13, 1975, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under "1. Point of pricing diverted milk.", a paragraph is added immediately following the seventh paragraph, and the last paragraph is changed.

2. Under "2. Modification of "takeout-pay back" plan.", a paragraph is added immediately following the 13th paragraph, the 14th paragraph is changed, and four paragraphs are added following the last paragraph.

The material issues on the record relate to:

1. Point of pricing diverted milk.

2. Modification of "takeout-pay back" plan.

3. Need for emergency action.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Point of pricing diverted milk.* The order should be amended to price producer milk diverted from a pool plant at the location of the nonpool plant to which it is delivered. Under the terms of the order milk may be diverted only to nonpool plants and diverted milk is priced at the location of the pool plant from which diverted.

The major cooperative in the market proposed that diverted milk be priced at the location of the plant where it is actually received, as adopted in this decision. The cooperative contended the present provision provides a means of exploiting the Paducah order pool by the attachment of milk to the market that is not in fact associated with it and that is generally delivered to distant plants in the area where such milk is produced. Such milk would receive a blend price reflecting its value f.o.b. Paducah.

[1] Filed as part of the original document.

V40I150 AUG 4 75 XUM

In actual practice, milk from certain dairy farmers in southwestern Minnesota, which is delivered to a pool plant in the marketing area during part of the month, is diverted as producer milk to a southwestern Minnesota plant during the remainder of the month. The proponent cooperative held that it is inappropriate to apply the f.o.b. marketing area price to milk moved directly from the Minnesota farms on which produced to the nearby southwestern Minnesota plant.

(The Paducah order location adjustment, which is applicable to producer milk at pool plants more than 40 miles from the nearest County Courthouse in the marketing area, reduces the Class I and uniform prices at such plants by 7.5 cents plus 1.5 cents for each additional 10 miles beyond 50 miles.)

At the hearing a second cooperative proposed that milk diverted to nonpool plants within 100 miles of the nearest County Courthouse in the marketing area be priced at the plant from which diverted. However, milk diverted to plants beyond 100 miles would be priced at the plant of physical receipt. The proponent cooperative held that manufacturing plants located within the 100 miles distance can reasonably accommodate the necessary reserve associated with the Paducah market.

The present pricing of diverted milk was adopted when the order was initially promulgated and the market's milk supply was totally from local producers. No significant pricing difference would have resulted if diverted milk at that time had been priced at the location of the plant of physical receipt. However, because some producer milk now may originate at great distance from the market, the point of pricing of diverted milk can have significant impact with respect to the distribution of returns to producers.

When producer milk is received at a nonpool plant as diverted milk, its location value is the same as milk delivered by producers to a pool plant at the same location. Pricing milk at the location of the pool plant from which diverted tends to subsidize, at the expense of producers generally, the more distant producers whose milk is diverted to distant manufacturing plants rather than delivered to the market. This is because the distant producers receive the f.o.b. market uniform price on milk that is not moved to the market and on which the full cost of farm to market hauling has not been incurred.

A cooperative excepted to the recommended decision's pricing diverted milk at the plant to which diverted. The cooperative proposed at the hearing that if the point of pricing diverted milk were changed, such change should not apply to milk diverted to plants within. 100 miles of the nearest county courthouse in the marketing area. Since the recommended decision did not so provide, an exception was taken to its denial.

The order's location adjustments recognize the greater value of producer milk f.o.b. plants in the marketing area as compared to its value at other locations. In view of this, it would be inconsistent to continue to price milk at the location of the pool plant from which diverted when actually delivered to a nonpool plant where a different price based on the location adjustment would be applicable to a pool plant at the same location. This is applicable whether the plant to which milk is diverted is less than 100 miles, or at a distant location, from a designated basing point.

2. *Modification of "takeout-pay back" plan.* The order's takeout-pay back plan (commonly referred to as the Louisville plan) should not be changed.

A Louisville plan has been effective in the Paducah order continuously since May 1, 1966. The plan is intended to provide an incentive for an even milk supply throughout the year.

The Louisville plan in the Paducah order provides for retaining in the producer-settlement fund an amount representing 50 cents per hundredweight on the value of producer milk delivered during the months of April through July. One-fourth of the money thus withheld is distributed to producers on their deliveries during each of the following months of October through January. The 50-cent per hundredweight reduction in the April–July uniform prices is reflected in the higher uniform prices in the pay back months.

A proposal to modify the Louisville plan was made by a cooperative representing a substantial majority of the producers on the market. As proposed, if any milk of a producer was pooled under another order in the takeout months, he would not share in the pay back for his October–January deliveries unless at least 20 days of his production had been physically received at a Paducah order pool plant in each of the preceding takeout months. Thus a producer without the required deliveries in the takeout months would receive during the pay back months a price equal to the uniform price less the pay back rate for such month.

Proponent contended that its proposal would close a loophole whereby dairy farmers who are not regular suppliers of the market unwarrantedly share in the pay back monies. Milk of dairy farmers that is delivered to a pool plant of another order and transferred to a Paducah order pool plant, is not, of course, subject to the takeout under the Paducah order. These dairy farmers, according to the cooperative, by delivering milk from their farms directly to a Paducah order pool plant in the pay back months, could share in the pay back monies without having participated in the Louisville plan in the takeout months.

Testimony by a cooperative in opposition to the proposal to modify the Louisville plan contended that any such modification would not be consistent with the provisions of the Act, which authorizes Louisville plans.

Further, the cooperative presented at the hearing a formal motion for denial and dismissal of the proposal. The Administrative Law Judge referred this motion to the Secretary for consideration at the time he considered the record and disposition thereof. Since the proposal is denied herein, no purpose would be served by taking further action on the motion.

At the hearing, the cooperative opposing the proposed modification requested that the Louisville plan be suspended from the Paducah order. In connection therewith, the cooperative referred to its February 27, 1975, telegram to the Department requesting suspension of the Louisville plans in the Paducah, Southern Illinois, St. Louis-Ozarks, and Louisville-Lexington-Evansville orders. The Department's March 24 response denied the requested suspensions on the basis that there was no general support for that action among producers who would be affected by it. The letter also indicated that most producers supplying the Paducah market favor continuation of the Louisville plan.

The record evidence showed no changed conditions since the March 24 letter to support a different conclusion.

In addition to opposing modification of the Louisville plan and requesting its removal from the Paducah order, the cooperative proposed at the hearing that such plan be replaced with a base-excess plan.

The hearing notice contained no proposal to remove the Louisville plan from the order or to replace it with a base-excess plan. It would be inappropriate to consider the adoption of a base-excess plan to replace the Louisville plan without giving proper notice to all interested parties. Accordingly, no action is taken on the basis of the record on the proposal to adopt a base-excess plan.

The cooperative further requested that if it was determined that the notice of hearing does not permit consideration of adopting a base-excess plan, the hearing be reopened under appropriate notice to consider a base-excess plan.

No useful purpose would be served by delaying this procedure by reopening of the hearing to consider a base-excess plan. The request to reopen the hearing record to permit consideration of a base-excess plan is therefore denied.

The same cooperative excepted to the recommended decision's denial of its proposal to eliminate the Louisville plan and replace it with a base-excess plan. It also excepted to the denial of its request to reopen the hearing for further consideration of that proposal.

A proposal to eliminate the Louisville plan and adopt a base-excess plan in the Paducah order may be submitted under the usual procedure for submitting hearing proposals. If such a proposal is submitted, it will be given appropriate consideration.

A Louisville plan does not affect handlers' costs or change the aggregate amount of money they pay for producer milk for the year. The plan does alter producer returns during both the takeout and pay back months. In this regard it has the identical impact that would result from seasonal pricing and is intended to serve the identical purpose.

The money retained in a producer-settlement fund in the takeout months under the Louisville plan is not an obligation to any producer on the basis of his deliveries to the market in these months. The money thus accumulated in the producer-settlement fund is for the purpose of encouraging the delivery of milk to the market in the pay back months of seasonally low production by increasing returns to producers for their deliveries in these months.

Under a marketwide pool order, such as Paducah, the Act requires that all producers be paid the same uniform prices for their deliveries subject only to certain specified adjustments. The cooperative's proposal to modify the Louisville plan would reduce the uniform prices payable to producers in the pay back months by the applicable pay back rate. That is, if any milk of a producer was pooled under another order in the takeout months, he would not share in the pay back for his October–January deliveries unless at least 20 days of his production in each of the 4 preceding takeout months had been delivered to a Paducah order pool plant.

It cannot be concluded that the intent of the Act would be effectuated by paying a producer less than the order's uniform price in the pay back months on the basis of the marketing of his production in the preceding takeout months as described above. To adopt the cooperative's proposal in this regard would be inconsistent with the purpose for including a Louisville plan in the order.

Proponent cooperative's exceptions argue that the present Louisville plan provides an incentive to shift milk between orders to take advantage of the "pay back". The cooperative contended that a dairy farmer whose milk was pooled under another order in the takeout months should be precluded from sharing in the Louisville plan distribution in the following pay back months.

As an alternative to its proposal to modify the Louisville plan, the cooperative proposed to exclude from the "producer" definition a dairy farmer who delivered any milk to a pool plant in October through January if his milk was pooled in an order without a "takeout-pay back" plan in the preceding April through July.

As a basis for its exception, the cooperative cited the Chicago Regional order provision which provides that a dairy farmer who was a producer in the "pay back" months under an order with a Louisville plan would not be a producer with respect to his production received at a Chicago order pool plant in the following January through July.

The Chicago order provision precludes the pooling of milk in the flush production months if during the preceding short production season the dairy farmer who produced it was a producer under an order with a Louisville plan. This is different from the cooperative's proposal which, under certain conditions, would preclude a dairy farmer from pooling under the Paducah order during the short-production season. This is when supplies are generally lowest relative to the fluid needs of the market. Thus, the cooperative's alternate proposal would be inconsistent with the need for encouraging the delivery of adequate milk supplies during the months when production is normally low. The proposal therefore should not be adopted.

3. *Need for emergency action.* The notice of hearing provided for taking evidence to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision on the proposals (1) to price diverted milk at the location of the nonpool plant to which diverted and (2) to modify the "takeout-pay back" plan. At the hearing, proponent urged prompt action on the proposal to price diverted milk at the location of the nonpool plant to which diverted. However, no testimony was presented to justify omission of the recommended decision and the opportunity to file exceptions thereto. The proposal for taking emergency action is therefore denied.

### Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

### General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

### Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

### Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a MARKETING AGREEMENT regulating the handling of milk, and an ORDER amending the order regulating the handling of milk in the Paducah, Kentucky, marketing area, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

*It is hereby ordered*, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

### Determination of Producer Approval and Representative Period

May 1975 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Paducah, Kentucky, marketing area is approved or favored by producers, as defined under the terms of the order (as amended and as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on: July 30, 1975.

RICHARD L. FELTNER,
*Assistant Secretary.*

## VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

### Proposed Rulemaking

● **Purpose. To correct the language for scientific accuracy and clarity.** ●

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products, in Parts 101 and 113 of Title 9, Code of Federal

V40150 AUG 4 75 XUM

Regulations issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158).

These amendments reword the definitions of "Batch of primary cells" and "Cell line" for scientific accuracy by deleting the word "explanted" from each. They add a definition for the word "Log" to clarify the meaning of the regulations in which the term is used.

These amendments restrict submission of samples to support Outline of Production changes until requested by Veterinary Services. They reword § 113.5(a) to specify that required tests are those in the filed Outline of Production or Standard Requirements.

These amendments make an editorial change in § 113.6(a) to clarify the meaning and also to conform with terminology used in the definition of Standard Requirements in § 101.5(a). They reword § 113.6(b) to emphasize the necessity of considering all test results and to emphasize the importance of unsatisfactory test results.

1. § 101.5 is amended by adding a new paragraph (b) to read:

**§ 101.5 Testing terminology.**

• • • • •

(b) *Log.* Logarithm computed to the base of 10.

• • • • •

2. § 101.6 is amended by revising paragraphs (a) and (b) to read:

**§ 101.6 Cell cultures.**

• • • • •

(a) *Batches of primary cells.* A pool of original cells derived from normal tissue up to and including the 10th subculture.

(b) *Cell line.* A pool of cells which are 11 or more subcultures from the tissue of origin.

• • • • •

3. § 113.3 is amended by revising paragraph (b) (8) to read:

**§ 113.3 Sampling of biological products.**

• • • • •

(b) • • •

(8) *Prelicensing and Outline of Production changes.* Samples needed to support a license application or a change in the Outline of Production for a licensed product shall be submitted upon request from Veterinary Services. Such samples shall be double the number prescribed in this section for such product.

• • • • •

4. § 113.5 is amended by revising paragraph (a) to read:

**§ 113.5 General testing.**

(a) No biological product shall be released prior to the completion of tests prescribed in a filed Outline of Production or Standard Requirements for the product to establish the product to be pure, safe, potent, and efficacious.

• • • • •

5. § 113.6 is amended by revising paragraphs (a) and (b) to read:

**§ 113.6 Veterinary services testing.**

• • • • •

(a) The Deputy Administrator is authorized to cause a biological product, manufactured in the United States or imported into the United States, to be examined and tested for purity, safety, potency, or efficacy; in which case, the licensee or permittee shall withhold such product from the market until a determination has been made.

(b) The results of each test conducted by the licensee and Veterinary Services shall be considered in evaluating a product unless otherwise provided for in this Part. A serial or subserial which has been found unsatisfactory by a required test prescribed in a filed Outline of Production or Standard Requirement for the product is not in compliance with the regulations and shall not be released for market.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828–A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before September 8, 1975 will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at the above address, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27 (b)).

Done at Washington, D.C., this 30th day of July 1975.

**VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS**

**Extension of Time To Submit Written Data, Views, or Arguments**

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that the time for filing data, views, and arguments with respect to the proposed amendments to the regulations relating to viruses, serums, toxins, and analogous products in 9 CFR Part 113, as published in the FEDERAL REGISTER on June 5, 1975 (40 FR 14556) is extended to October 3, 1975 (37 Stat. 832–833; 21 U.S.C. 151–158).

Because of the newness of the requirements contained in the proposal, unexpected variations in the test results have occurred and additional time has been requested by industry to conduct more of the tests before making their comments.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828–A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before October 3, 1975, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at the above address, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 30th day of July, 1975.

**VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS**

**Proposed Rulemaking**

● **Purpose. To provide two new Standard Requirements for biological products.** ●

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Part 113 of Title 9, Code of Federal Regulations issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158).

The Master Seed Virus concept of testing viral vaccines for potency has been applied to such vaccines as rapidly as the procedures have been developed. This concept employs the use of a proven Master Seed Virus in the preparation of a vaccine and subsequent serial to serial evaluation for potency limited to virus titrations. This procedure eliminates the need for testing each serial for potency in expensive test animals.

These proposed amendments would change the requirements in § 113.137 to the Master Seed Virus testing procedure for Distemper Vaccine-Mink and would add a new section to Part 113 to provide a similar test procedure for Measles vaccine used in dogs.

Each word in the headings for § 113.137 and § 113.167 are to be capitalized.

1. § 113.137 is revised to read as follows:

**§ 113.137 Distemper Vaccine—Mink.**

Distemper Vaccine—Mink shall be prepared from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for extraneous viruses as follows:

(1) To detect virulent canine distemper virus, each of two distemper susceptible mink shall be inoculated with 1 ml. of the Master Seed Virus and observed each day for 21 days. If undesirable reactions occur in either mink, the lot of Master Seed Virus is unsatisfactory.

(2) Master Seed Virus propagated in chicken embryos shall be tested for pathogens by the chicken embryo test prescribed in § 113.37. If found unsatisfactory, the Master Seed Virus shall not be used.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five distemper susceptible mink shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serum samples tested. The mink shall be considered susceptible if the results are negative at a 1: 2 final serum dilution in a varying serum-constant virus neutralization test with less than 500 $ID_{50}$ of canine distemper virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. Twenty mink shall be vaccinated with a predetermined quantity of vaccine virus and the remaining five mink held as unvaccinated controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) At least twenty-one days postinjection, the immunity of each of the vaccinates and the controls shall be challenged with the same size dose of virulent distemper virus and observed each day for 21 days.

(i) If at least four of the five controls do not die or show severe signs of distemper, the test is inconclusive and may be repeated.

(ii) If at least 19 of the 20 vaccinates do not survive without showing clinical signs of distemper during the observation period, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest; *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in paragraph (c) (3) of this section.

(5) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be authorized by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the general requirements prescribed in § 113.135 and the requirements in this paragraph. Final container samples of completed product shall be tested. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Safety Tests.* (i) The mouse safety test prescribed in § 113.33(a) shall be conducted.

(ii) *Mink safety test.* Each of 2 mink shall be vaccinated with the equivalent of 10 doses of vaccine rehydrated with sterile diluent and administered in the manner recommended on the label. The mink shall be observed each day for 21 days. If unfavorable reactions attributable to the product occur in either of the mink during the observation period, the serial or subserial is unsatisfactory. If unfavorable reactions which are not attributable to the product occur, the test shall be declared inconclusive and may be repeated; Provided, That if the test is not repeated, the serial or subserial shall be declared unsatisfactory.

(2) *Potency Test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that, when tested at any time within the expiration period, each serial and subserial shall have a virus titer $10^{0.7}$ greater than that used in such immunogenicity test when tested by the method used in paragraph (c) (2) of this section.

2. Part 113 is amended by the addition of a new § 113.167 to read as follows:

**§ 113.167 Measles Vaccine.**

Measles Vaccine shall be prepared from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the Master Seed virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other viral agents as follows:

(1) To detect virulent canine distemper virus, each of two canine distemper susceptible ferrets shall be injected with a sample of the Master Seed Virus equivalent to the amount of virus to be used in one dog dose and observed each day for 21 days. If undesirable reactions occur in either ferret, the lot of Master Seed Virus is unsatisfactory.

(2) To detect infectious canine hepatitis virus, each of two infectious canine hepatitis susceptible dogs or foxes shall be injected with 0.05 ml of the Master Seed Virus into the anterior chamber of one eye and examined each day for 14 days for corneal opacity. If the eyes do not remain clear, the Master Seed Virus is unsatisfactory.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five dogs, less than 12 weeks of age and free of measles antibody, shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serum samples tested. The dogs shall be considered susceptible if the results are negative at a 1:2 final serum dilution in a varying serum-constant virus neutralization test with less than 500 $ID_{50}$ of measles virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. Twenty dogs shall be vaccinated with a predetermined quantity of vaccine virus and the remaining five dogs held as unvaccinated controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) On the day of challenge, serum samples shall be obtained from each vaccinate and individually tested for antibody against canine distemper virus. For a valid test, each vaccinate shall be negative at a 1:4 final serum dilution in varying serum-constant virus neutralization test using less than 500 $ID_{50}$ of canine distemper virus.

(4) At least 21 days postinoculation, the immunity of the vaccinates and controls shall be challenged by exposure to a uniform dose of aerosolized virulent canine distemper virus. All test dogs shall be observed daily for 21 days postchallenge.

(i) If at least 4 of the 5 controls do not die or show signs of distemper, including a temperature of 104.0° F or higher and at least 15 percent weight loss, the test is inconclusive and may be repeated.

(ii) If at least 19 of the 20 vaccinates do not survive without showing a temperature of 104.0° F or higher and a weight loss exceeding 15 percent after day 8 postchallenge, the Master Seed Virus is unsatisfactory.

(5) When approved in advance by Veterinary Services, a sequential test procedure may be used in lieu of the 20 dog requirement. A beta value of 0.05 and a tolerance level of 0.78 shall be required.

(6) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest; *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in this section.

(7) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the gen-

eral requirements prescribed in § 113.135 and the requirements in this paragraph. Final container samples of completed product shall be tested. Any serial or subserial found unsatisfactory be a prescribed test shall not be released.

(1) *Safety tests.* The dog safety test prescribed in § 113.40 and the mouse safety test prescribed in § 113.33(a) shall be conducted.

(2) *Potency test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and subserial shall have a virus titer sufficiently greater than the titer of the vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that, when tested at any time within the expiration period, each serial and subserial shall have a virus titer $10^{0.7}$ greater than that used in such immunogenicity test but not less than $10^{4.2}$ $ID_{50}$ per dose when tested by the method used in paragraph (c)(2) of this section.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828-A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before October 6, 1975, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at the above address, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, DC, this 30th day of July 1975.

## PRIVACY ACT OF 1974: IMPLEMENTATION

**Notice of Proposed Rulemaking**

Notice is hereby given that the Department of Agriculture (USDA) proposes to amend 7 CFR Part 1 by adding Subpart G to implement the provisions of the Privacy Act of 1974 (5 U.S.C. 552a) with regard to systems of records maintained by agencies of USDA.

These regulations set forth the procedures whereby individuals can request information about, access to, or amendment of, records pertaining to them which are contained in a system of records maintained by an agency of USDA. They also set forth the procedures agencies of USDA are to follow in processing these requests. USDA is currently considering which systems of records among those it maintains are to be exempted pursuant to 5 U.S.C. 552a (j) and (k). Sections 1.222 and 1.223 of these regulations will be issued at a later date with an opportunity for public comment.

Interested persons may submit written comments on these proposed regulations to: Director, Research and Operations Division, Office of the General Counsel, U.S. Department of Agriculture, Washington, D.C. 20250, on or before August 20, 1975. All comments submitted will be available for public inspection during regular business hours in Room 2321 of the South Building, USDA.

These regulations are proposed under the authority of 5 U.S.C. 301, 552a.

In consideration of the foregoing, it is proposed to amend Part 1 of 7 CFR by adding a Subpart G as follows:

**Subpart G—Privacy Act Regulations**

Sec.
1.110 Purpose and scope.
1.111 Definitions.
1.112 Procedures for requests pertaining to individual records in a record system.
1.113 Times, places, and requirements for identification of individuals making requests.
1.114 Disclosure of requested information to individuals.
1.115 Special procedures: medical records.
1.116 Request for correction or amendment to record.
1.117 Agency review of request for correction or amendment of record.
1.118 Appeal of initial adverse agency determination on correction or amendment.
1.119 Disclosure of record to person other than the individual to whom it pertains.
1.120 Fees.
1.121 Penalties
1.122 General Exemptions [Reserved]
1.123 Specific Exemptions [Reserved]

AUTHORITY: 5 U.S.C. 552a.

**Subpart G—Privacy Act Regulations**

**§ 1.110 Purpose and scope.**

This subpart contains the regulations of the U.S. Department of Agriculture (USDA) implementing the Privacy Act of 1974 (5 U.S.C. 552a). It sets forth the basic responsibilities of each agency of USDA with regard to USDA's compliance with the requirements of the Act, and offers guidance to members of the public who wish to exercise any of the rights established by the Act with regard to records maintained by an agency of USDA.

**§ 1.111 Definitions.**

For purposes of this subpart the terms "individual," "maintain," "record," "system of records," "statistical record," and "routine use" shall have the meanings set forth in 5 U.S.C. 552a(a). The term "agency" shall mean an agency of USDA, unless otherwise indicated.

**§ 1.112 Procedures for requests pertaining to individual records in a record system.**

(a) Any person who wishes to be notified if a system of records maintained by an agency contains any record pertaining to him, or to request access to such records, shall submit a written request in accordance with the instructions set forth in the system notice for that system of records. This request shall include:

(1) The name of the individual making the request;

(2) The name of the system of records (as set forth in the system notice to which the request relates);

(3) Any other information specified in the system notice; and

(4) When the request is one for access, a statement as to whether the requester desires to make a personal inspection of the records, or be supplied with copies by mail.

(b) Any person whose request under paragraph (a) of this section is denied may appeal that denial to the head of the agency which maintains the system of records to which the request relates.

(c) In the event that an appeal under paragraph (b) of this section is denied, the requester may bring a civil action in federal district court to seek review of the denial.

**§ 1.113 Times, places, and requirements for identification of individuals making requests.**

(a) If a person submitting a request for access under § 1.112 has asked that an agency authorize a personal inspection of records pertaining to him, and the agency has granted that request, the requester shall present himself at the time and place specified in the agency's response or arrange another, mutually convenient, time with the appropriate agency official.

(b) Prior to inspection of the records, the requester shall present sufficient identification (e.g., driver's license, employee identification card, social security card, credit cards) to establish that he is the individual to whom the records pertain. If the requester is unable to provide such identification, he shall complete and sign in the presence of an agency official a signed statement asserting his identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another individual under false pretenses is a misdemeanor punishable by fine up to $5,000. No identification shall be required, however, when the records are ones whose disclosure is required by 5 U.S.C. 552.

(c) Any person who has requested access to records about him via personal inspection, and who wishes to have another person or persons accompany him during this inspection, shall submit a written statement authorizing disclosure of the record in their presence.

(d) Any person having made a personal inspection of records pertaining to him may request the agency to provide him copies of those records or any portion thereof. Each agency shall grant such requests but may charge fees in accordance with § 1.120.

(e) If a person submitting a request for access under § 1.112 wishes to be supplied with copies of the records by mail, he shall include with his request sufficient data for the agency to verify his identity. If the sensitivity of the records warrant it, however, the agency to which the request is directed may require the requester to submit a signed, notarized statement indicating that he

is the individual to whom the records pertain and stipulating he understands that knowingly or willfully seeking or obtaining access to records about another individual under false pretenses is a misdemeanor punishable by fine up to $5,000. No identification shall be required, however, when the records are ones whose disclosure is required by 5 U.S.C. 552. If the agency to which this request is directed determines to grant the requested access, it may charge fees in accordance with § 1.120 before making the necessary copies.

**§ 1.114 Disclosure of requested information to individuals.**

(a) Any agency which receives a request or appeal under § 1.112 should acknowledge the request or appeal within 10 days of its receipt (excluding Saturdays, Sundays, and legal public holidays). Wherever practicable, the acknowledgement should indicate whether or not access will be granted and, if so, when and where. When access is to be granted, the agency should provide the access within 30 days of receipt of the request or appeal (excluding Saturdays, Sundays and legal public holidays) unless, for good cause shown, it is unable to do so. If the agency is unable to meet this deadline, it shall inform the requester of this fact, the reasons for its inability to do so, and an estimate of the date on which access will be granted.

(b) Nothing in 5 U.S.C. 552a or this subpart shall be interpreted to require that a person making a request under § 1.112 be granted access to the physical record itself. The form in which a record is kept (e.g., on magnetic tape), or the content of the record (e.g., a record indexed under the name of the requester may contain records which are not about the requester) may require that the record be edited or translated in some manner. Neither of these procedures may be utilized, however, to withhold information in a record about the requester.

(c) No agency shall deny any request under § 1.112 for information concerning the existence of records about the requester in any system of records it maintains, or deny any request for access to records about the requester in any system of records it maintains, unless that system is exempted from the requirements of 5 U.S.C. 552a(d) in § 1.123.

(d) If an agency receives a request pursuant to § 1.112(a) for access to records in a system of records it maintains which is so exempted, the system manager shall determine if the exemption is to be asserted. If he determines to deny the request, he shall inform the requester of that determination, the reason for the determination, and the title and address of the agency head to whom the denial can be appealed.

(e) If the head of an agency determines that an appeal pursuant to § 1.112(b) is to be denied, he shall inform the requester of that determination, the reason therefor, and his right under 5 U.S.C. 552a(g) to seek judicial review of the denial in federal district court.

(f) Nothing in 5 U.S.C. 552a or this subpart shall allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.

**§ 1.115 Special procedures: medical records.**

In the event an agency receives a request pursuant to § 1.112 for access to medical records (including psychological records) whose disclosure it determines would be harmful to the individual to whom they relate, it may refuse to disclose the records directly to the requester but shall transmit them to a doctor designated by that individual.

**§ 1.116 Request for correction or amendment to record.**

(a) Any person who wishes to request correction or amendment of any record pertaining to him contained in a system of records maintained by an agency shall submit that request in writing in accordance with the instructions set forth in the system notice for that system of records. This request shall include:

(1) The name of the individual making the request;

(2) The name of the system of records (as set forth in the system notice to which the request relates);

(3) A description of the nature (e.g., modification, addition or deletion) and substance of the correction or amendment requested; and

(4) Any other information specified in the system notice.

(b) Any person submitting a request pursuant to paragraph (a) of this section shall include sufficient information in support of that request to allow the agency to which it is addressed to apply the standards set forth in 5 U.S.C. 552(e)(1) and (5).

(c) Any person whose request under paragraph (a) of this section is denied may appeal that denial to the head of the agency which maintains the system of records to which the request relates.

(d) In the event that an appeal under paragraph (c) of this section is denied, the requester may bring a civil action in federal district court to seek review of the denial.

**§ 1.117 Agency review of request for correction or amendment of record.**

(a) Any agency which receives a request for amendment or correction under § 1.116 shall acknowledge that request within 10 days of its receipt (excluding Saturdays, Sundays and legal public holidays). It shall also promptly, either:

(1) Make any correction, deletion or addition with regard to any portion of a record which the requester believes is not accurate, relevant, timely or complete; or

(2) Inform the requester of its refusal to amend the record in accordance with his request; the reason for the refusal; the procedures whereby he can appeal the refusal to the head of the agency; and the title and business address of that official. If the agency informs the requester of its determination within the 10-day deadline, a separate acknowledgement is not required.

(b) If an agency is unable to comply with either paragraphs (a)(1) or (2) of this section within 30 days of its receipt of a request for correction or amendment, (excluding Saturdays, Sundays and legal public holidays), it should inform the requester of that fact, the reasons therefor, and the approximate date on which a determination will be reached.

(c) In conducting its review of a request for correction or amendment, each agency shall be guided by the requirements of 5 U.S.C. 552a(e)(1) and (5).

(d) If an agency determines to grant all or any portion of a request for correction or amendment, it shall:

(1) Advise the individual of that determination;

(2) Make the requested correction or amendment; and

(3) Inform any person or agency outside USDA to whom the record has been disclosed, and where an accounting of that disclosure is maintained in accordance with 5 U.S.C. 552a(c), of the occurrence and substance of the correction or amendments.

(e) If an agency determines not to grant all or any portion of a request for correction or amendment, it shall:

(1) Comply with paragraph (d) of this section with regard to any correction or amendment which is made;

(2) Advise the requester of its determination and the reasons therefor;

(3) Inform the requester that he may appeal this determination to the head of the agency which maintains the system of records; and

(4) Describe the procedures for making such an appeal, including the title and business address of the official to whom the appeal is to be addressed.

(f) In the event that an agency receives a notice of correction or amendment to information in a record contained in a system of records which it maintains, it shall comply with paragraphs (d)(2) and (3) of this section in the same manner as if it had made the correction or amendment itself.

**§ 1.118 Appeal of initial adverse agency determination on correction or amendment.**

(a) Any person whose request for correction or amendment under § 1.116 is denied, and who wishes to appeal that denial, shall address such appeal to the head of the agency which maintains the system of records to which the request relates, in accordance with the procedures set forth in the agency's initial denial of the request.

(b) The head of each agency shall make a final determination with regard to an appeal submitted under paragraph (a) of this section not later than 30 days (excluding Saturdays, Sundays, and legal public holidays) from the date on which the individual requests a review, unless, for good cause shown, the head of the agency extends this 30-day period and so notifies the requester, together with an estimate of the date on which a final determination will be made. Such extension should be utilized only in exceptional circumstances and should not normally ex-

ceed 30 days. The delegation of authority set forth in this paragraph may not be redelegated.

(c) In conducting his review of an appeal submitted under paragraph (a) of this section, the head of an agency shall be guided by the requirements of 5 U.S.C. 552a(e) (1) and (5).

(d) If the head of an agency determines to grant all or any portion of an appeal submitted under paragraph (a) of this section, he shall inform the requester and the agency shall comply with the procedures set forth in § 1.117(d) (2) and (d) (3).

(e) If the head of an agency determines in accordance with paragraph (c) of this section not to grant all or any portion of an appeal submitted under paragraph (a) of this section, he shall inform the requester:

(1) Of this determination and the reasons therefore;

(2) Of the requester's right to file a concise statement of his reasons for disagreeing with the agency's decision;

(3) Of the procedures for filing such a statement of disagreement;

(4) That such statements of disagreements will be made available to anyone to whom the record is subsequently disclosed, together with (if the agency deems it appropriate) a brief statement by the agency summarizing its reasons for refusing to amend the record;

(5) That prior recipients of the disputed record will be provided with a copy of the statement of disagreement, together with (if the agency deems it appropriate) a brief statement of the agency's reasons for refusing to amend the record, to the extent that an accounting of disclosures is maintained under 5 U.S.C. 552a(c); and

(6) Of the requester's right to seek judicial review of the agency's determination in accordance with 5 U.S.C. 552a(g). The agency shall insure that any statements of disagreement submitted by a requester are handled in accordance with paragraphs (e) (4) and (5) of this section.

**§ 1.119 Disclosure of record to person other than the individual to whom it pertains.**

No agency shall disclose any record which is contained in a system of records it maintains, by any means of communication to any person, or to another agency outside USDA, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains, unless the disclosure is authorized by one or more provisions of 5 U.S.C. 552a(b).

**§ 1.120 Fees.**

Any agency which provides copies of records pursuant to a request under this subpart may charge fees for the direct costs of producing such copies in accordance with Appendix A to Subpart A of this Part. No agency, however, shall charge any fee for searches necessary to locate records. Nor shall an agency charge any fees for copies or searches, when the requester sought to make a personal inspection but was provided copies instead at the discretion of the agency.

**§ 1.121 Penalties.**

The criminal penalties which have been established for violations of the Privacy Act of 1974 are set forth in 5 U.S.C. 552a(i). These penalties are applicable to any officer or employee of an agency who commits any of the enumerated acts. These penalties also apply to contractors and employees of such contractors who enter into contracts with an agency of USDA on or after September 27, 1975, and who are considered to be employees of the agency within the meaning of 5 U.S.C. 552a(m).

**§ 1.122 General exemptions.** [Reserved]

**§ 1.123 Specific exemptions.** [Reserved]

### Proposed Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would extend V-139 from Wilmington, N.C., direct to Florence, S.C.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before September 3, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

An average of eight IFR operations per day use the direct route between Wilmington and Florence. Designating this route as an airway would reduce flight plan filing time and controller/pilot coordination workload.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 29, 1975.

### HAZARDOUS MATERIALS REGULATIONS

### Proposed Exemption Procedures

The purpose of this notice is to propose an amendment to Title 49, Code of Federal Regulations, to establish a new Part 107 "Procedures" and place therein a new Subpart A "Exemptions". Future subparts to be included in Part 107 would cover sanctions, registration, and preexemption matters. The regulations now being proposed would prescribe procedures to be followed in applying for and the processing of applications for exemptions from the Materials Transportation Bureau's regulations governing the transportation of hazardous materials which, except for bulk transportation by water and certain ships' supplies, govern the movement of such materials by any mode of transportation.

Section 107 of Pub. L. 93-633, enacted in January 1975, sets up certain procedural requirements for granting of administrative relief from the regulations controlling the transportation of hazardous materials to be issued under section 105 of that law. Under § 107, applicants must establish on the basis of a safety analysis to be submitted by them as part of their application that a level of safety will be achieved which will (1) be equal to or higher than that reached by following the regulations, or (2) if there is no existing level of safety, be consistent with the public interest and the policy of Pub. L. 93-633. Unless it is shown that an emergency requires otherwise, each application is to be made the subject of a Federal Register notice and made available for public inspection and comment before action is taken to grant or deny it. The maximum period for an exemption is two years. Any application for renewal must be processed in the same manner as an original application.

An exemption, as that term is used in section 107 and in the proposed regulations, includes all forms of administrative relief from the requirements of the substantive regulations. Until July 7, 1975, when the authority to issue such relief was centralized in the Materials Transportation Bureau, it was granted by one or a combination of four of the Department of Transportation's operating administrations (U.S. Coast Guard, Federal Aviation Administration, Federal Railroad Administration, or Federal Highway Administration) under various labels including waiver, exemption, deviation and special permit. Moreover, the relief was requested, processed and granted or denied under multiple procedural schemes. (See 14 CFR 11.25, 14 CFR 103.5, 46 CFR 146.02-25 and 49 CFR 170.13.) For example, a person seeking relief from a regulation in 14 CFR Part 103 pertaining to air commerce could (1) petition the Federal Aviation Administration for an exemption under 14 CFR 11.25, (2) apply to the Federal Aviation Administrator (or in an emergency to a Flight Standards District Office) for authority for deviation, or (3) petition the Hazardous Materials Regulations Board (consisting of representatives of the four operating administrations) for a special permit for a waiver or exemption. The proposed regulations would be the exclusive body of procedures for all such future administrative relief actions.

The proposed regulations would describe in general terms, what must be included in applications for exemptions and specify that all applications are to be filed with the Bureau's Office of Hazardous Materials Operations. Except in those situations in which an applicant asserts that an existing emergency requires priority processing, applications would have to be filed at least 120 days before the proposed effective date. When an applicant asserts that an existing emergency requires priority processing, and supplies supporting facts and reasons, he would have the choice of applying in the normal fashion by written submission or he could apply by telephone with a follow-up written filing within 15 days.

Upon receipt of an application it would be reviewed for completeness and docketed if complete or returned to the applicant if incomplete. If it is asserted by the applicant that there is an existing emergency, an immediate examination of the supporting facts and reasons would be conducted and a determination made as to whether or not an emergency justifying priority processing did in fact exist. If determined that it did not exist, the applicant would be so notified and the application would be processed on a routine basis. If determined that an emergency did exist, the application would be processed on a priority basis in which case the usual public proceeding (FEDERAL REGISTER notice and opportunity for public comments) could be omitted.

The bases upon which determinations of existing emergencies would be made are set forth in proposed § 107.9.

Renewal applications would be submitted in the same manner as original applications and would be required to meet the same requirements. Under the proposed regulations the Bureau would publish a notice of each application in the FEDERAL REGISTER (probably a weekly or bi-weekly compilation in digest form) and afford an opportunity to comment. If the application is granted, notice of the grant would also be published.

No public hearing, argument or other formal proceeding would be held on an application before its disposition. Any interested person could, upon written request, appear before an appropriate official of the Bureau to discuss an application or its denial. Applications, including their related safety analyses, and public comments would be available for inspection in the Bureau's public docket room.

An exemption would be terminated upon a determination, after notice to the holder, that it was no longer consistent with the public interest; that it is no longer needed because of a change in the regulations; or that it was granted on the basis of false, fraudulent or misleading representation or information. Likewise, an exemption could be suspended upon a determination that it was not being exercised in accordance with its terms or that new information requires it to be amended to adequately protect life and property.

The proposed effective date is October 16, 1975.

Interested persons are invited to submit views and comments on the proposal. A public hearing will be held for that purpose at 9:30 a.m. on August 26, 1975, in the third floor auditorium of Federal Office Building 10A (commonly referred to as the FAA Building) located at 800 Independence Avenue SW., Washington, D.C. Interested persons not desiring to present oral presentations are invited to submit their comments in writing. Comments should refer to the docket number and be submitted to: Docket Section, Materials Transportation Bureau, U.S. Department of Transportation, Trans Point Building, Washington, D.C. 20590. All comments received before the close of business on September 12, 1975, will be considered, and will be available in the docket for examination both before and after the closing date. Comments received after the closing date and too late for consideration will be treated as suggestions for future rule making.

In consideration of the foregoing it is proposed to amend the Code of Federal Regulations as follows:

1. In Title 14, Code of Federal Regulations, revoke § 103.5.

2. In Title 46, Code of Federal Regulations, amend § 142.02-25 by (1) adding the words "Except as provided in paragraph (f) of this section," at the beginning of paragraph (a), and (2) adding a new paragraph (f) to read as follows:

(f) Petitions for exemptions or any other form of administrative relief from any requirement of this Part 146 shall be prepared and submitted to the Director, Office of Hazardous Materials Operations in accordance with 49 CFR Part 107.

**§§ 170.13 and 170.15 [Revoked]**

3. In Title 49, Code of Federal Regulations, revoke §§ 170.13 and 170.15.

4. In Subchapter B of Chapter I of Subtitle B of Title 49, Code of Federal Regulations, establish a new Part 107 and establish therein a new Subpart A as set forth below.

### Subpart A—Exemptions

**§ 107.1 Scope.**

This part prescribes procedures governing exemptions from regulations governing the transportation of hazardous materials.

**§ 107.3 Purpose.**

The purpose of this part is to provide a means by which persons who are subject to the requirements of this subchapter, Subchapter C of this chapter, 14 CFR Part 103, or 46 CFR Part 64 or Part 146 may obtain administrative relief therefrom on the basis of equivalent levels of safety or levels of safety consistent with the public interest and the policy of the Hazardous Materials Transportation Act.

**§ 107.5 Applications for exemption.**

(a) Any person who is subject to the requirements of this subchapter, Subchapter C of this chapter, 14 CFR Part 103, or 46 CFR Part 146 may apply to the Director, Office of Hazardous Materials Operations (OHMO), for an exemption from those requirements.

(b) Except as provided in paragraph (d) of this section, each application filed under this section for an exemption or the renewal of an exemption must—

(1) Be submitted in triplicate to: Office of Hazardous Materials Operations, U.S. Department of Transportation, Washington, D.C. 20590;

(2) Set forth the text or substance of the regulation from which the exemption is sought;

(3) State the name, address, and telephone number of the applicant;

(4) Include a detailed description of the proposal, including when appropriate, drawings, plans, calculations, procedures, test results, previous exemptions, approvals or permits, a list of specification

V40150 AUG 4 75 XUM

containers, if any, to be used, a list of modified specification containers, if any, to be used, and a description of the modifications, and any other supporting information;

(5) State the chemical name, common name, hazard classification, form, quantity, properties, and characteristics of the material covered by the proposal, including composition and percentage (specified by volume or weight) of each chemical, if a solution or mixture;

(6) Describe all relevant shipping or accident experience;

(7) Specify the proposed mode of transportation, and any special transportation controls which the applicant considers necessary or appropriate to compensate for any increased risks that are likely to result if the exemption is granted;

(8) Specify the proposed duration or describe the proposed schedule of events for which the exemption is sought;

(9) State why the applicant believes the proposal will achieve a level of safety which—

(i) Is at least equal to that specified in the regulation from which the exemption is sought, or

(ii) If the regulations do not contain a specified level of safety, will be consistent with the public interest and will adequately protect against the risks to life and property which are inherent in the transportation of hazardous materials in commerce;

(10) Specify any part of the information and data submitted which the applicant requests be withheld from public disclosure and the reason for the request; and

(11) If the applicant wants the application to be given priority treatment on the basis of an existing emergency, set forth the supporting facts and reasons.

(c) To permit timely consideration, an application which does not seek priority treatment on the basis of an existing emergency, must be submitted at least 120 days before the requested effective date.

(d) An application which seeks priority treatment on the basis of an existing emergency may be initiated by telephone. However, it must include all of the supporting information otherwise required by paragraph (b)(2) through (11) of this section and must be confirmed by the submission of a written application within 15 days thereafter.

### § 107.7 Administrative review of applications.

(a) The Director, OHMO, reviews each application for an exemption or renewal of an exemption to determine whether it is complete and conforms with the requirements of this part. Except as provided in paragraph (b) of this section, this determination will be made within 30 days of the receipt of the application. If it is not returned to the applicant at the end of that period, it will be processed as provided in § 107.11. If an application is returned, the applicant will be informed in what respects the application is incomplete.

(b) If the Director, OHMO, determines that an emergency exists and that the application is complete, it will be processed on a priority basis in which case the Director may waive the provisions for notice and opportunity for public comment. If the Director, OHMO, cannot determine that an emergency exists, he notifies the applicant immediately and the application, if otherwise complete, is processed on a routine basis.

### § 107.9 Determination of existing emergency.

(a) The Director, OHMO, shall determine that an emergency exists if, on the basis of information submitted in the application and his own investigation, he finds that—

(1) Existing conditions require the hazardous material concerned to be transported in commerce for the protection of life or property (other than the hazardous material to be transported); and

(2) The protection of life or property to be provided by the hazardous material would not be possible if the application is processed on a routine basis.

(b) The Director, OHMO, may determine that an emergency exists if, on the basis of information submitted in the application, he finds that—

(1) Existing conditions require the hazardous material concerned to be transported in commerce to prevent or minimize serious economic loss; and

(2) The prevention or minimizing of serious economic loss to be provided by the hazardous material would not be possible if the application is processed on a routine basis;

(c) In determining what constitutes serious economic loss under paragraph (b) of this section, the Director, OHMO, considers the nature and extent of the expected loss.

### § 107.11 Processing of applications.

(a) After an application for an exemption or renewal of an exemption is determined to be complete, the Director, OHMO, dockets the application and publishes a notice in the FEDERAL REGISTER affording an opportunity for interested persons to comment. All comments received before the close of the comment period are considered before final action is taken on an application.

(b) No public hearing, argument, or other formal proceeding is held directly on an application filed under this part before its dispositon under this section. However, during the processing of an application the Director, OHMO, may require the applicant to supply additional information.

(c) Any interested person may, upon written request, appear informally before an appropriate official of the Office of Hazardous Materials Operations to discuss an application for exemption or the action taken in response to an application.

(d) If the Director, OHMO, determines that the application does not contain adequate justification, he denies it and notifies the applicant in writing. He also publishes in the FEDERAL REGISTER a notice of the denial.

(e) If the Director, OHMO, determines that the application contains adequate justification, he grants it subject to such terms as he considers necessary, and notifies the applicant in writing. He also publishes in the FEDERAL REGISTER a notice of the grant.

(f) If the Director, OHMO, determines that an application concerns a matter of such general applicability and future effect as to warrant being made the subject of rule making, he may initiate rule making under Part 102 of this chapter in addition to or in lieu of granting or denying the application.

### § 107.13 Withdrawal of applications.

(a) An applicant may withdraw an application at any time prior to it being finally determined. When an application is withdrawn after publication of the notice of application in the FEDERAL REGISTER, the Director, OHMO, publishes a notice of withdrawal in the FEDERAL REGISTER.

(b) Withdrawal of an application does not authorize the removal of any related records from the dockets or files of the Office of Hazardous Materials Operations.

### § 107.15 Termination of exemptions.

(a) An exemption terminates according to its terms but not later than two years after the date of issuance unless terminated sooner pursuant to paragraph (b) of this section.

(b) The Director, OHMO, may suspend an exemption if he determines that—

(1) An activity under the exemption is not being performed in accordance with the terms of the exemption; or

(2) On the basis of information not available at the time it was granted, an amendment to the terms of the exemption is necessary to adequately protect against risks to life and property.

(c) The Director, OHMO, terminates an exemption if he determines that—

(1) The exemption is no longer consistent with the public interest;

(2) The exemption is no longer necessary because of an amendment to the regulations; or

(3) The exemption was granted on the basis of false, fraudulent, or misleading representations or information.

(d) Unless the Director, OHMO, believes that immediate suspension or termination is necessary to abate the risk of an imminent hazard, he notifies the holder in writing and provides the holder an opportunity to show why the exemption should not be suspended or terminated, before he suspends or terminates an exemption under paragraph (b) or (c) of this section.

### § 107.17 Availability for public inspection.

(a) Information relevant to an application under this part, including the application and supporting data, memoranda of informal meetings held with the applicant or any other interested person under § 107.11(c), and the grant or denial of the application, is available for public inspection, except as specified in paragraph (b) of this section, at the Office of Hazardous Materials Operations, Trans Point Building, 2100 2nd Street SW., Washington, D.C. 20590. Copies of available information may be obtained, as provided in Part 7 of this title.

(b) Information made available for inspection shall not include materials not relevant to the petition that are to be withheld from the public in accordance with section 552(b) of Title 5, United States Code.

Issued in Washington, D.C., on July 30, 1975.

## GENERAL SERVICES ADMINISTRATION

**Automated Data and Telecommunications Service**

**[ 41 CFR Part 101–32 ]**

**PROCUREMENT DOCUMENTS FOR ADP SYSTEMS**

**Proposed Amendment to Federal Property Management Regulations**

Notice is hereby given in accordance with the provisions of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 486(c)), that the General Services Administration (GSA) is considering amending 41 CFR Part 101–32, Government-wide Automated Data Management Services.

The proposed amendment prescribes the use of the "Solicitation Document for ADP Systems" and the "General Instructions to Offerors Governing Proposal Preparation." These two documents, when combined, form the basis of the Request for Proposal (RFP). The guidance for their use is set forth in the document entitled "Guidance to Federal Agencies on the Preparation of Specifications, Selection, and Acquisition of Automatic Data Processing Systems." These documents were developed by GSA in coordination with other Federal agencies and the ADP industry. Government-wide use of these documents should result in a shorter ADP sytems procurement cycle and should permit optimum use of procurement personnel resources.

Federal agencies are authorized to use these documents on a voluntary basis during the comment reconciliation period and for a period thereafter. The codified amendment will be effective 6 months after publication in the FEDERAL REGISTER. The "Solicitation Document for ADP Systems" and the "General Instructions to Offerors Governing Proposal Preparation" are to be used for all negotiated, competitive ADP systems procurements by Federal agencies where their RFP is scheduled for release 90 days subsequent to that 6-month period.

Anyone wishing to submit comments may write to the General Services Administration (CP), Washington, D.C. 20405, on or before October 3, 1975.

NOTE: The documents referred to in this proposed amendment are filed as part of the original document.

T. D. PUCKORIUS,
*Commissioner, Automated Data and Telecommunications Service.*

As proposed, the amendment to the regulations would read as follows:

### PART 101–32—GOVERNMENT-WIDE AUTOMATED DATA MANAGEMENT SERVICES

The table of contents for Part 101–32 is amended by the following new entries:

101–32.410 Procurement documents for ADP systems.
101–32.410–1 Use of procurement documents.
101–32.410–2 Availability of procurement documents.
101–32.410–3 GSA assistance.

**Subpart 101–32.4—Procurement and Contracting**

Sections 101–32.410 through 101–32.410–3 are added as follows:

### § 101–32.410 Procurement documents for ADP systems.

The following procurement documents shall be used for all negotiated, competitive ADP systems procurements and should be used to the maximum practicable extent for all other negotiated, competitive ADP equipment procurements. An ADP system is the total complement of individual machines and operating software that operates as an integrated group.

(a) The "Guidance to Federal Agencies on the Preparation of Specifications, Selection, and Acquisition of Automated Data Processing Systems" provides guidance to Federal agencies on the use of the solicitation document;

(b) The "General Instructions to Offerors Governing Proposal Preparation" contains the solicitation conditions, required format for proposals, and instructions on completion of price tables; and

(c) The "Solicitation Document for ADP Systems" sets forth the standard contract format and clauses required for ADP system procurements.

### § 101–32.410–1 Use of procurement documents.

The "Solicitation Document for ADP Systems" and the "General Instructions to Offerors Governing Proposal Preparation," when combined, form the basis of the Request for Proposal. The guidance for their use is as follows:

(a) The "Solicitation Document for ADP Systems" provides the flexibility needed to accommodate the unique requirements of each ADP system procurement. Section I of the document entitled "Guidance to Federal Agencies on the Preparation of Specifications, Selection, and Acquisition of Automatic Data Processing Systems" sets forth the procedures for using this solicitation document. These procedures were designed to achieve the optimum degree of uniformity among ADP systems solicitations issued by Federal agencies.

(b) The "General Instructions to Offerors Governing Proposal Preparation" prescribes the solicitation instructions, conditions, and proposal format. Usually, this document would not be revised. If, however, there is an instance in which these instructions must be changed, the agency must indicate each such change in a cover letter to the solicitation. To assist GSA in making this a more viable and useful document, a copy of the change(s) and the rationale therefor shall be forwarded to GSA.

### § 101–32.410–2 Availability of procurement documents.

The agency shall use the current edition of the procurement documents for each ADP system procurement. GSA will furnish copies of the current editions, but the agency is responsible for reproducing sufficient copies to meet its requirements. To ensure that the most recent information is available for use in each procurement, agency procurement personnel should contact GSA to verify that they have the most recent change(s).

### § 101–32.410–3 GSA assistance.

The agency shall contact the General Services Administration (CDP), Washington, D.C. 20405 (telephone: 202 343–3137), to submit revisions or changes, to request waivers, or to request any other information pertaining to the procurement documents.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 410–4]

**[ 40 CFR Part 52 ]**

**PENNSYLVANIA IMPLEMENTATION PLAN**

**Proposed Revision**

On May 15, 1975, the Commonwealth of Pennsylvania submitted to the Regional Administrator a proposal requesting that an amendment to Title 3, Air Management Code 3–207 of the Philadelphia Code be approved as a revision to the Pennsylvania Implementation Plan for the attainment and maintenance of national ambient air quality standards. The amendment delays the 0.3% sulfur-in-fuel restriction to October 1, 1975. This restriction had been scheduled for March 31, 1975, as approved in the FEDERAL REGISTER (40 FR 14595). The City of Philadelphia has justified this request for the following reasons:

(1) To provide additional time to review the present sulfur dioxide control strategy.

(2) To more accurately define the relationships between emissions and observed air quality.

(3) To provide a clearer indication of requirements to achieve and maintain standards.

V40150 AUG 4 75 XUM

The Commonwealth of Pennsylvania submitted proof that a public hearing with adequate public notice was held on February 18, 1975, for the purpose of reviewing the proposed revision, pursuant to 40 CFR Part 51, Requirements for Preparation, Adoption and Submittal of State Implementation Plans.

This notice is to advise the public of receipt of this proposal, and to request public comment. Only those comments received on or before September 3, 1975, will be considered.

The Administrator's decision to approve or disapprove this request by the Commonwealth of Pennsylvania will be based on whether or not it meets the requirements of Section 110(a)(2)(A)–(H) of the Clean Air Act and the requirements of 40 CFR Part 51.

Copies of the proposed revision are available for public inspection during normal business hours at the Offices of:

(1) The Environmental Protection Agency, Region III, Curtis Building, Second Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106.

(2) Philadelphia Air Management Services, 4320 Wissahickon Avenue, Philadelphia, Pennsylvania 19129.

(3) Pennsylvania Department of Environmental Resources, Third and Locust Streets, Harrisburg, Pennsylvania 17120.

(4) Freedom of Information Center, EPA, 401 M Street SW., Washington, D.C. 20460.

All comments should be addressed to Howard Heim, Chief, Air Planning Branch, Division of Air and Hazardous Materials, EPA–Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania, 19106, (ATT:AH003 Pa).

(42 U.S.C. 1857 c–5)

Dated: July 22, 1975.

## FEDERAL COMMUNICATIONS COMMISSION

**[ 47 CFR Part 73 ]**

[Docket No. 19720; RM–1915, etc.]

### FM BROADCAST STATIONS

**Table of Assignments; Miss.**

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Tupelo and Baldwyn, Mississippi, Docket No. 19720, RM–1915, RM–2369, RM–2412.

1. The Commission has before it the Petition for Reconsideration filed on October 10, 1973, by Town 'N' Country Broadcasting Company ("TNC"). TNC seeks reconsideration of our September 11, 1973, Report and Order in which we denied its proposal to assign Channel 240A to Tupelo, Mississippi, as its second FM assignment. In seeking reconsideration, TNC alleges that the Commission failed to give it due process because it took into account a letter from the Baldwyn, Mississippi, mayor which was submitted after the cut-off date for filing counterproposals in this docket. In refusing then to make the assignment to Tupelo, we noted that doing so would have precluded Baldwyn from having any future local FM service.

2. TNC also requests a correction of the Report and Order with respect to the statement concerning Tupelo's broadcast services. TNC is correct in noting the error which will be taken into account in the resolution of the Further Notice we here are issuing. We agree that Tupelo received local aural service from 3 AM stations (1 of which was a daytime-only service) and 1 FM station (Channel 253) but that no AM station was under construction.

3. TNC filed a supplement to its petition for reconsideration on May 7, 1974. Section 405 of the Communications Act states that petitions for reconsideration of an Order must be filed within 30 days and Section 1.106(f) of the Rules and Regulations applies this 30-day filing period to supplements to such petitions. Since the supplement was not filed within this mandated period, and no showing to support the acceptance of this late filed material was made, we shall dismiss this supplemental filing.

4. In TNC's petition it asserts that our taking cognizance of a letter submitted, after our cut-off date, by the mayor of Baldwyn, Mississippi, had the effect of depriving it of due process. The letter stated that there was interest in use of the channel at Baldwyn and that the Commission should not foreclose that community's only chance for local broadcast service. We do not agree that this action had such an effect or that it was violative of our cut-off procedure. As we stated in our Memorandum Opinion and Order in Anamosa/Iowa City, Iowa, 46 F.C.C. 2d 520 (1974):

"Unless procedural requirements are observed, we would face difficulties in exercising our regulatory responsibilities, hardly a situation to benefit the public." (at 521)

Without the cut-off procedure, the rule making process could be severely hampered. Nontheless, it must be recognized that we were not dealing with the cut-off as such, since no counterproposal was before us. Nor, of course, did we act in reliance on the submission and assign Channel 240A to Baldwyn. Rather, our decision to withhold a Tupelo assignment for a short period was on the basis of the preclusionary effect of making the proposed Tupelo assignment. It has been long recognized that providing first local FM service to a community is a most important public interest goal.[1] Since FM channels are a limited resource, we require that petitioners for FM assignments to communities (other than first assignments to small communities not located near large population centers) submit preclusion studies. Such studies are expected to show whether the cochannel and 6 adjacent channels will be precluded from future use in communities in surrounding areas.[2]

5. On occasion in the past we have denied requests to amend the FM Table of Assignments if granting the request would prevent a community, then without a local aural service, from being assigned a first FM channel in the future. In this case, we simply acted to defer, not refuse, a second Tupelo assignment so the possibility of a Baldwyn assignment could be examined if a petitioner stepped forward within a reasonable time. Failing this we indicated a readiness to again consider the Tupelo proposal by itself. This was sufficient reason for delay even if the letter from Baldwyn's mayor did not set forth the "special circumstances" or "overwhelming need" required to permit reliance upon a late-filed counterproposal, Anamosa/Iowa City, Iowa, 46 F.C.C. 2d 520, 522 (1974).

6. Now that a Baldwyn proposal is before us, no purpose would be served by a complete denial of the subject petition.[3] Instead, we can grant it to the extent of reopening the proceeding, thus permitting a comparison to be made on the proposed use of Channel 240A. Because of their location, the channel could only be used at one community, not both. Moreover, they are too far apart for the provisions of the 10-mile rule to permit the assignment to be made at Tupelo and the 307(b) choice left to a hearing between it and Baldwyn.

7. Tupelo (pop. 20,471), the seat of Lee County (pop. 46,148), is located in northeastern Mississippi, approximately 95 miles southeast of Memphis, Tennessee. Baldwyn (pop. 2,366), located on the border of Lee and Prentiss Counties (pop. 20,133), is approximately 17 miles northnortheast of Tupelo. Local broadcast service at Tupelo is provided by a VHF television station, three AM stations—WELO, WTUP, and TNC's station, WJLJ—and FM Station WELO–FM (Channel 253). Baldwyn currently receives no local aural service. Both petitioners have adduced evidence demonstrating that Tupelo and Baldwyn have sufficient amounts of economic activity to justify a second and a first FM assignment, respectively.

8. With respect to the petitions' technical feasibility, the channel may be assigned to either community without affecting any existing FM assignment. Adoption of either proposal would cause only co-channel preclusion. Baldwyn is the only community of significant size located in the area which does not have local aural service. The engineering statements submitted by both petitioners indicate that the requested channel is the only commercial channel available for that area. The transmitter site for a station operating on Channel 240A at Tupelo, however, would have to be located 5 miles northwest of that community. Intermixture of classes of channels would occur at Tupelo if Channel 240A were assigned to that community.

9. The resolution of these conflicting proposals will be determined by weighing the public interest considerations posed in each. We therefore invite discussion on the intermixture and preclusion issues mentioned in this *Notice* and other issues which might be useful for the Commission to consider.

10. Therefore the following alternative amendments to the Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, are proposed:

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Tupelo, Miss. | 253 | 240A, 253 |
| or | | |
| Baldwyn, Miss. | | 240A |

11. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are set forth below and are incorporated into this Notice of Proposed Rule Making.

12. Interested parties may file comments on or before August 21, 1975, and reply comments on or before September 1, 1975.

13. It is ordered that the subject petition for reconsideration is granted to the extent indicated and in all other respects is denied.

Adopted: July 23, 1975.

Released: August 1, 1975.

FEDERAL COMMUNICATIONS COMMISSION,[4]

[SEAL] VINCENT J. MULLINS,
*Secretary.*

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in this notice of proposed rule making.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rule making. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rule making. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filing made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

### CORPORATE OWNERSHIP REPORTING AND DISCLOSURE BY BROADCAST LICENSEES

**Order Extending Time for Filing Comments and Reply Comments**

1. On July 22, 1975, Cox Broadcasting Corporation, Gannett Co., Inc., Plough Broadcasting Company, Inc., and Twentieth Century-Fox Film Corporation (hereafter "Cox, et al.") filed a motion for extension of time in which to file comments and reply comments in the above-captioned proceeding. The Notice of Proposed Rule Making was adopted on June 11, 1975, and publication was made in the Federal Register on June 24, 1975, 40 Fed. Reg. 26543. The dates for filing comments and reply comment are presently August 11 and August 26, 1975, respectively.

2. The basis of the request by Cox, et al. is that the proposed changes in reporting requirements of certain publicly-held corporations require close analysis of the proposals by responsible officials of the reporting entities, as well as close consultations between counsel and the corporate officials, in order to prepare meaningful comments. It is contended that the coordination problem is more difficult due to previous business and vacation plans ordinarily arising during the summer months.

3. We recognize that the proposals require detailed study and coordination with corporate officials and with other investment organizations. We further recognize that this process is somewhat complicated by vacation plans. Thus, we find that the public interest would be served by a grant of the motion, and we will extend the time for periods requested. However, the Commission, because of the necessity for final action in this area, hopes to conclude the process in the next few months, and we do not contemplate granting any further extensions in this proceeding.

4. *Accordingly, it is ordered,* That the motion for extension of time filed by Cox, et al. is granted; and the dates for filing comments and reply comments are extended to and including September 11 and September 26, 1975, respectively.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's Rules.

ADOPTED: July 25, 1975.

RELEASED: July 29, 1975.

### UNMACHINED CASTINGS FOR HOSE COUPLINGS

**Country of Origin Marking; Notice of Decision**

The following is a decision recently promulgated by the United States Customs Service through its Office of Regulations and Rulings.

T.D. 75–199 *Unmachined castings for hose couplings.*—The Customs Service has been asked to review the ruling issued by its letter dated May 18, 1970 (363.2), and abstracted as T.D. 70–143 (2), regarding the country of origin marking of certain hose couplings of malleable iron imported as unmachined castings, and processed into finished hose couplings in the United States.

The hose couplings are described as two lug universal hose couplings or universal air couplings. They are imported as unmachined castings, and processed after importation by being machined at the end where the two coupling lugs appear, drilled with two safety pin holes at the same end, threaded with internal threads at the opposite end, cadmium plated, and assembled with a rubber gasket to provide a tight seal when two couplings are joined together.

The Customs Service ruled in its letter of May 18, 1970 (363.2) that the processing of the unmachined castings would not result in the manufacture of a new and different article, or such a substantial transformation of the imported castings as to render the processor the "ultimate purchaser" of the castings, within the meaning of 19 U.S.C. 1304(a).

Subsequently, the United States Customs Court issued its decision in the case of *Midwood Industries, Inc.* v. *United States*, 64 Cust. Ct. 499, C.D. 4026 (1970), holding that the processor in the United States was the "ultimate purchaser," for the purposes of 19 U.S.C. 1304(a), of certain steel forgings which were processed after importation into finished welding fittings and flanges.

The Customs Service is of the opinion that the principle of the decision in the case of *Midwood Industries, Inc.* v. *United States* is applicable to the unmachined hose coupling castings in question. Although the castings are made as close to the dimensions of ultimate finished form as possible, they must be further processed by the substantial manufacturing operations described above in order to transform them into goods which are of use to the final consumer.

Accordingly, the "ultimate purchaser" of the unmachined castings is deemed to be the processor who transforms them into finished hose couplings. Headquarters letter dated May 18, 1970 (ORR Ruling 680–70, August 31, 1970) and T.D. 70–143(2) are hereby superseded. (704822)

### DEFENSE SCIENCE BOARD TASK FORCE ON "ELECTRONIC TEST EQUIPMENT"

**Notice of Advisory Committee Meeting**

Pursuant to the provisions of Public Law 92–463, notice is hereby given that the Defense Science Board Task Force on "Electronic Test Equipment" will meet in open session on 16 and 17 September 1975 in the Casa de la Vista Building, Naval Station Treasure Island, San Francisco, California.

A visit is planned to the Alameda Naval Air Station on 16 September. Bus transportation will be provided between Treasure Island and Alameda, departing Treasure Island at 8:30 a.m. and returning to Treasure Island no later than 6:00 p.m.

The Task Force meeting on 17 September at Treasure Island will commence at 9:00 a.m.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long-range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to examine the greater use of the Department of Defense of privately-developed, commercially-available, off-the-shelf electronic test equipment, including modifications thereof, with the goal of achieving economy and reliability benefits for the several Armed Services and to recommend policies and procedures which will maximize these benefits.

This will be the sixth meeting of the Task Force. The planned agenda will cover three general areas:

1. Procurement.
2. Logistics.
3. Applications, Requirements and Equipment.

The detailed discussions and investigations into these general areas will be conducted by working groups made up of designated Task Force members of

V 40 150 AUG 4 75 XUM

their designated representatives and selected Task Force observers. Each working group will formulate proposals related to its general area of responsibility corresponding to one of the three specified above. The working group proposals as approved by the Task Force will form the basis for the ultimate Task Force recommendations.

Persons wishing to attend are advised that a reasonable quantity of seating for observers will be available on a first-come, first-seated basis. No specific arrangements or notification of desire to attend is necessary.

The Executive Secretary for the Task Force is Mr. Rudolph J. Sgro, OASD (I&L) WS, Room 2A318, Pentagon, Washington, D.C. 20301.

## ALASKA STATE MULTIPLE USE ADVISORY BOARD

### Notice of Meeting

Notice is hereby given that the Alaska State Multiple Use Advisory Board will hold business meetings on September 3 and September 5, 1975, and participate in a field trip September 4, 1975. Business meetings will be held in the East Gold Room of the Traveller's Inn in Fairbanks, Alaska. The September 3 business meeting will begin at 1:00 p.m. and last until 5:00 p.m.; discussion on the field trip is planned on the first day. On September 4, the board and selected Bureau of Land Management staff will travel from Fairbanks north along the trans-Alaska pipeline route in the utility corridor, to see first-hand, the Bureau's options in landuse management in the utility corridor. The September 5 business meeting will begin at 8:00 a.m. and last until 12:00 noon. Utility corridor management will be discussed and the board may, at its option, make resolutions concerning this topic.

The business meetings will be open to the public insofar as seating is available. Time will be available for brief statements from members of the public, but those wishing to make an oral statement must inform the Board Chairman in writing, prior to the meeting of the board. Any interested person may file a written statement with the board for its consideration. ## ENDANGERED SPECIES PERMIT

### Notice of Receipt of Addendum to Application

On November 13, 1974, a notice was published in the FEDERAL REGISTER (39 FR 40044-48) that an application had been filed with the Fish and Wildlife Service, U.S. Department of the Interior, by the Patuxent Wildlife Research Center, Laurel, Maryland, for a permit relative to studies of endangered species.

On December 23, 1974, a notice was published in the FEDERAL REGISTER (39 FR 44258) that all reference to Manatee, West Indian (Florida), *Trichechus manatus*, was deleted from that application.

Notice is hereby given that the following additional information relative to Patuxent Center's endangered species application has been received.

JUNE 16, 1975.

To: Chief, Division of Law Enforcement, Fish and Wildlife Service.
From: Acting Director, Patuxent Wildlife Research Center.
Subject: Endangered Species Permit (FWS/LW PRT 8-86-C).

Your letter of March 17, 1975, requested additional information relative to the Patuxent Center's endangered species permit application.

I hope that the information contained in the attachment is sufficiently detailed to satisfy the permit application requirements.

ENDANGERED SPECIES PERMIT INFORMATION
ENDANGERED WILDLIFE RESEARCH PROGRAM
PATUXENT WILDLIFE RESEARCH CENTER

Biologists and technicians in the Endangered Wildlife Research Program at the Patuxent Center near Laurel, Maryland, are carrying out research and propagation in varying intensity with approximately 46 endangered species of vertebrates. These studies vary from intensive and long-term monographic investigations to merely observational efforts as opportunities permit. Because of the paucity of available information on most species listed, all activities are continuing beyond FY 1976 unless otherwise noted.

The purpose of the research is to obtain information regarding each endangered species, and its habitat, that can be utilized in management efforts to prevent its extinction and, hopefully, return it to safer numbers. Studies will include the determination of status and distribution, behavior under various conditions and at all seasons of the year, competing or predator species with which the endangered forms must cope, and actually or potentially negative factors that could adversely affect essential habitat. Except where specifically listed, there is no intention to capture specimens for propagation or study in confinement, transplant or otherwise manipulate wild populations, or to collect live animals for museum specimen use, food habits study, or other terminal uses. Attempts to photograph and record sounds of endangered wildlife will be made only where such efforts can be made without apparent handicap or other adverse effects to the subject; it will only be accomplished by experienced personnel who in many cases are currently the most knowledgeable authorities on the species in question, and who are best able to avoid undue disturbance to the species. Such photography and sound recording will be for the purpose of documenting behavior, plumage and pelage patterns, and other physical and ethological characteristics of each species for its more complete understanding and management. No animals will, however, be captured for this purpose; photography and sound recordings will be made opportunistically when and where they can be safely accomplished.

Specimens found in obvious distress and unlikely to survive in the wild without assistance will be captured, confined, and treated until sufficiently recovered to be released. Upon recovery, animals will be returned to the point of capture, or if local conditions make release there unwise, to another location within their known historic range where they are most likely to survive. Any skin, skeleton, various organs, or related material from specimens found dead, or which die while in confinement, will be transferred to the National Fish and Wildlife Laboratory, Smithsonian Institution, Washington, D.C., for incorporation into its collections.

Endangered species stock brought into or produced in confinement for research and propagation purposes will be subjects of behavioral, nutritional, physiological, and pathological studies of non-terminal character; closely related but more abundant (non-endangered) species serve as surrogate or test subjects wherever terminal risks are involved. For purposes of maintaining pedigrees, conducting routine studies (for the purpose of developing behavioral, nutritional, physiological, or pathological catalogues of norms), and monitoring health of animals in confinement or caring for injuries, it may be necessary to include the drawing of blood, the taking of fecal and urine specimens, banding, wing-tagging, color-marking, administering anesthetics, performing corrective or repair surgery, confining ailing animals, and quarantine of incoming stock. All stock destined for transfer from Patuxent for release to the wild or for other purposes is examined by the staff veterinarian to assure good health and freedom from disease. Transfers of living stock are routinely made by air express or air freight, and recipients are notified by telephone of waybill numbers and carrier identity, flight number, and anticipated date and hour of arrival. Shipments of rarest or most perishable stock are usually accompanied by a staff member.

Descriptions of research activities concerned with the individual species, except for most forest birds of Hawaii (which are most effectively treated as a single group), follow:

1) Puerto Rican Boa (*Epicrates inornatus*): Attention to this species is primarily observational and photographic, as opportunities permit, including the recording of sightings by Puerto Rican residents and the collecting and preserving of any specimens found dead from various causes.

2) Hawaiian Dark-rumped Petrel (*Pterodroma phaeopygia sandwichensis*):

Although no intensive research is now being devoted to this species, observations on its status and distribution are being made by Program biologists on the islands of Hawaii and Maui as opportunities permit. Occasionally, when live specimens may be attracted to lights, it is necessary to capture them and immediately release them so they can become airborne if they are uninjured. Injured individuals may be retained until they recover, are measured and banded, parasites (if any) have been removed, and the petrel can safely be released.

3) Hawaiian Duck (*Anas wyvilliana*): No research is primarily directed toward this species, but opportunistic observations are made of its numbers and distribution at every opportunity to aid in its management.

4) Aleutian Canada Goose (*Branta canadensis leucoparela*): A productive gaggle of this endangered race of Canada goose has been established at the Patuxent Center to produce offspring that are being used to reestablish breeding populations within its former range in the outer Aleutian Islands. Goslings were obtained in 1963 and 1973 from Buldir Island, the only island where this goose remained as a breeder following its extirpation from all other formerly occupied islands. Current breeders at Patuxent consist of these birds and their offspring. Breeding pairs are held in pens approximately 30 by 60 feet supplied with running water, food shelters, and natural plant growth for nesting cover. Non-breeders and birds destined for release to the wild are maintained in large enclosures averaging more than 1000 square feet per bird. Sufficient stock is being assembled with which to produce approximately 100 releasible birds per year, to be sent to Alaska as one-, two-, or three-year-olds, preferably on islands from which introduced foxes, the principal local predator, have been removed. Aleutian Canada geese surplus to the needs of the program have, in the past, been provided on loan to qualified cooperators, the offspring of which have been utilized for research, education, and display purposes, but the use of these birds for the reestablishment of wild populations will continue to have first priority. Periodically, about every fifth year, starting in 1975, not more than 20 additional goslings would be obtained from the Buldir Island population, estimated now to be 600 to 800 geese, to maintain genetic diversity among the Patuxent breeding population. Such recruitment is necessary to avoid transplanting any stock beyond the second generation of confined birds. This would amount to a removal of only about 3 percent one year in five and should impose no undue drain on the productivity or survival of the wild population. The complement of 20 breeding pairs and about 20 replacement birds in varying stages of maturity will form the production unit at Patuxent, and also provides insurance against extinction of the wild population which now is apparently restricted to Buldir Island during the breeding season, and is found on Castle Rock Island and vicinity along the northern coast of California during late winter and early spring.

5) Hawaiian Goose (*Branta sandvicensis*): A small nucleus of this species has been kept at the Patuxent Center to produce birds for use in experimental efforts to develop wild release procedures in the Hawaii Volcanoes National Park. Any produced stock surplus to this need is made available in descending priority, for research and education at public institutions such as universities and zoos, for research by private organizations and individuals, and for display by private organizations and individuals. Three adult pairs comprise the productive unit that produces from 10 to 20 offspring annually. The eggs are removed as they are laid and then artificially incubated. The original two breeding pairs were obtained from the Hawaii Division of Fish and Game's Pohakuloa Game Farm. Replacements from Pohakuloa will be requested only upon death of any of these birds, and only after release needs have been fulfilled. The breeders are held during the breeding season (December–February) in enclosures equipped with electrically heated shelters. The breeding pairs are moved into other pens during the rest of the year to allow renovation and cleansing of the breeding enclosures in the interim. No other research is contemplated with this species, though the unit, along with other captive populations elsewhere in the United States and in England, provide a measure of species' survival insurance in case the wild population suffers a catastrophic decline.

6) Andean Condor (*Vultur gryphus*): In 1966, prior to the time that the Andean condor became classified as an endangered species, nine were captured in Argentina and shipped to the Patuxent Center for preliminary studies to obtain information of potential value to California condor management in case propagation of the latter ever becomes necessary. Because of a disparate sex ratio, and incompatibility among some of the condors, trades were arranged with zoos and three adult and one subadult pair now are on hand in flight pens measuring 40' x 40' x 17' high, equipped with perches, sheltered roosts, simulated "caves," and a flowing water supply. One condor chick was hatched and reared in 1973, and the three adult pairs nested in 1975. Offspring will be utilized to test condor release procedures in South America as young condors produced at Patuxent approach maturity; such release procedures could have potential value for application with California condors. Andean condors are long-lived and, barring unexpected losses at Patuxent, it is doubted that additional stock will be needed from South America for this program.

7) California Condor (*Gymnogyps californianus*): A biologist has been stationed in Ojai, California, by the Patuxent Center since January 1965 to study the California condor in the wild. He is attempting to determine their status, distribution, productivity, and factors affecting their productivity and survival. These studies require continuing observations of condors in the Sespe Condor Sanctuary and general vicinity as well as elsewhere throughout the condor's range, including a small population reported to still persist in Baja California. Productivity surveys require nest visitation to determine the fates of eggs or nestlings. The visits are made one to three months after hatching to avoid chilling of eggs or interference with feeding of the newly hatched condor chick. An annual condor survey is made in mid-autumn to attempt to obtain an accurate index to the wild population, thus far without success. This survey is supervised by the California Department of Fish and Game and is accomplished by observers located at scattered vantage points counting and aging condors seen during a two-day period and, by the use of two-way radios, attempting to avoid duplication in the counts of a total population now believed to range between 50 and 60 birds. None of the current research appears to be adversely affecting the California condor. One condor captured in the late 1960's following abandonment by the parents, is currently housed in the Los Angeles Zoo. There are no current plans for taking any additional Andean or California condors into captivity for research or propagation.

8) American Peregrine Falcon (*Falco peregrinus anatum*): The Patuxent Center's biologist at the Arizona Field Station in Tucson expects to participate in a general survey of eyries in Arizona to determine occupancy by peregrines. There is no intention to visit active nests, if any are found, or to handle any eggs or nestlings, capture or band adults, or in other ways interfere directly with the wild peregrine or its welfare. It is not known whether any active eyries still exist in Arizona but management of this species, including protection, requires more information on its present status and distribution. No stock will be taken into captivity, and no peregrine falcons are currently maintained by the Endangered Wildlife Research Program at Patuxent, nor is the acquisition of any anticipated in the foreseeable future.

9) Hawaiian Hawk (*Buteo solitarius*): No intensive research upon this species is envisioned in the foreseeable future. As other assignments permit, records will be kept of field observations and any nests encountered will be checked and the remains of unhatched eggs or dead nestlings will be collected for pesticidal residue analysis or determination of eggshell thickness. Remains of prey items and parasites at the nest will also be collected and identified.

10) Masked Bobwhite Quail (*Colinus virginianus ridgwayi*): The masked bobwhite apparently disappeared about 1900 from southern Arizona due to range deterioration resulting from drought and overgrazing. Production of from 500 to 1,000 young quail annually is being obtained from a total of 57 birds obtained in 1968 and 1969 from north-central Sonora, Mexico, and from their offspring used as replacement breeders. An 1800-acre research area has been set aside under a 5- to 7-year lease developed with the State of Arizona where range management practices, including deferment of grazing, are allowing regrowth of vegetative cover believed necessary for survival and reproduction of the quail. A Patuxent biologist stationed at Tucson, Arizona, has been studying this quail and certain other endangered species since 1967 in order to document their continuing status and distribution, and to determine habitat requirements and other characteristics which affect their survival and reproduction. These studies consist of observations of quail in the wild, periodic call counts and brood censuses, capturing and banding, collection of droppings for food habits analysis, the examination of cactus wren and verdin nests for feather evidence to quail presence, and the playing of quail calls to elicit responses for inventory purposes. Plant collections are being made to allow comparisons of the currently used Mexican habitats with the release sites in Arizona, and to reveal any management needed to increase comparability of the two ecological situations.

Nutritional and physiological studies at the Patuxent Center to develop captive production procedures for masked bobwhites have utilized eastern bobwhites as the test species. For protection in winter, young and adult masked bobwhites at the Patuxent Center are held in an unheated building with a concrete floor containing approximately 10 elevated holding pens. The pens measure 6 feet by 9 feet by 18 inches high, divided lengthwise into two compartments each containing a shelter measuring 3 feet square which is heated for very young birds, if necessary. Each of the two compartments of the pens can accommodate 20 masked bobwhites, the size of a large covey. The quail stock is moved to the breeding facili-

V40150 AUG 4 75 XUM

ties in late April where they remain until late November, egg-laying taking place from late May through early September. The breeding pen complex allows deployment of breeding groups of birds usually consisting of two males and three or four females per compartment in a screened area equipped with clock-controlled overhead lights. Eggs are gathered daily, held in refrigerated storage and turned twice daily for up to two weeks, and then incubated in electric incubators. Egg production terminates each year when the artificial light source is turned off.

Stock produced by the Patuxent population of masked bobwhites is shipped to Arizona as eggs, day-old chicks, or older birds for release under a variety of experimental situations in order to find the most effective method. Among those expected to be tested during the next 12 months are direct releases of captive reared, mature-plumaged birds; the gentle release of captive-produced day-old chicks fostered by sterilized Texas bobwhite cocks or bantam hens; and the substitution of masked bobwhite eggs produced at Patuxent for clutches of local, wild, native, non-endangered quail species. Conditioning procedures for stock prior to their release to the wild will include exposure to simulated predator attack by the use of manned raptors to prepare them for encounters with accipiter hawks, and the use of dogs to develop fear of coyotes, badgers, and other terrestrial predators. By these methods it is hoped that a self-sustaining population of this quail can be reestablished in the Altar Valley of southern Arizona which will reduce prospects of masked bobwhite extinction. It is estimated that a combined total of at least 500 Patuxent-produced eggs, day-old chicks, and older birds, will be utilized annually in these reintroduction efforts.

To maintain the genetic diversity of the masked bobwhite breeding stock, it will be necessary to obtain additional wild-captured birds in Mexico some years. Such birds will only be obtained when the wild population can tolerate such removals and when quarantine regulations permit their importation. Current Asiatic Newcastle Disease restrictions prevent such importations so no procurement of birds in Mexico is proposed for this year. When these restrictions are lifted, and when the status of the wild masked bobwhite population permits, the trapping and shipment to Patuxent of a number of birds not to exceed five percent of the wild population will be proposed for the enrichment of the Patuxent breeding population.

11) Hawaiian Coot (*Fulica americana alai*) and Hawaiian Gallinule (*Gallinula chloropus sandvicensis*): Studies by three Patuxent biologists of these two wetland species consist only of observations and annual counts to determine their continuing status and distribution. No animals are to be taken from the wild. Information from these studies is provided for selecting land acquisition sites and for other management efforts towards their preservation.

12) Mississippi Sandhill Crane (*Grus Canadensis pulla*): During the past several years, single eggs have been removed from two-egg clutches of this newly described, endangered race of crane in southeastern Mississippi to develop a productive nucleus flock. The eggs are gathered by a USFWS biologist and shipped air express to the Patuxent Center in an insulated container using methods that have resulted in 90 to 95 percent hatchability of greater and Florida sandhill crane eggs.

At Patuxent, the eggs are immersed in a disinfectant and then placed in an incubator where they are held until pipping by the embryo is audible, at which time they are placed in a hatching compartment. They ordinarily hatch in 24 to 36 hours, and about 12 hours later are placed in oval enclosures with starter diet, water, and infra-red lamps for supplementary heat. At about six weeks of age, the chicks are moved to an intermediate enclosure where they remain until late fall. They are then moved to outdoor enclosure where they will stay until they are two years old and are ready to cope with adult cranes and to select a mate.

Number of eggs of this subspecies shipped annually from Mississippi will not exceed six, but usually is from two to four. Hatchability of eggs in wild nests has been much lower than with other races of sandhill cranes. The U.S. Fish and Wildlife Service is now attempting to acquire land upon which to develop a Mississippi sandhill crane sanctuary and stock produced at Patuxent will become available with which to strengthen the wild population now numbering less than 50, and which seems incapable of increasing without additional help. The eggs will continue to be taken each year so long as there is no apparent adverse effect upon the wild population, and until restoration efforts are successful in increasing their numbers to levels considered safe by the Mississippi Sandhill Crane Recovery Team.

Except for monitoring their health and gathering information on their physiological characteristics, no research at Patuxent upon the Mississippi sandhill crane is anticipated—it is purely a propagation program. All sandhill crane research at this location involves only the more abundant greater, Florida, and lesser sandhill cranes. Sandhill cranes are held in spacious quarters averaging about 4,000 square feet for breeding pairs and in community pens varying from 2 to 8 acres for holding from 20 to 30 younger cranes. As with other confined populations of endangered species, this Mississippi sandhill crane gene pool will provide an alternative to extinction if the wild population were to suffer a natural catastrophe. Six years of egg-taking have had no apparent detrimental effect upon the wild population.

13) Whooping Crane (*Grus americana*): The whooping crane is one of the most endangered North American birds and for the past 35 years its wild population has increased so slowly, less than one bird per year, that there is concern for its continued genetic vitality. Five years of research with sandhill cranes revealed that one egg could be removed from each clutch of two eggs with negligible loss of productivity and survival. Egg-taking was, therefore, commenced in 1967 in Wood Buffalo National Park in 1967 and repeated in 1968, 1969, 1971, and 1974 for the purpose of assembling a population of 15 to 20 breeding pairs in confinement at the Patuxent Center. An effort is being made to obtain representation in this confined population of offspring from every nesting pair in Wood Buffalo National Park so as to preserve as much of the existing gene pool as possible. Since breeding pairs in the Park appear to exhibit perennial fidelity to specific nest sites, it is possible to establish the pedigree for future breeding purposes of cranes hatched from eggs brought to Patuxent.

The eggs are taken from wild nests by a Canadian Wildlife Service biologist. He transfers them to a U.S. Fish and Wildlife Service biologist who waits in a helicopter and who places them in an insulated, hot water bottle-warmed suitcase in which temperatures are maintained between 95 and 99 degrees Fahrenheit for the return to Fort Smith, NWT, Canada. There the eggs remain stored in an electric incubator for one to three days pending the flight by a Canadian Wildlife Service-leased airplane to Maryland. Oxygen is provided from the aircraft's supply while aloft to compensate for deficiency in the compartment atmosphere pressurized to simulate about 4,000 feet above sea level.

At Patuxent, the eggs are dipped in an iodine disinfectant solution to reduce the possibility of bacterial contamination and they are then placed in an incubator to complete the 30-day incubation period. At the onset of pipping, each egg is moved to a hatching compartment and, about 18 to 24 hours after hatching, the chick is placed in a brooding area having temperatures under an infra-red lamp of 96 degrees F. at chick level.

Food and clean water are provided *ad libitum*. At the age of approximately six weeks, the chicks are moved outdoors to an intermediate enclosure for a gentle exposure to pathogens and conditioning to the weather. At 6 months, the chicks are moved into a community enclosure where they remain for 2 or 3 years until they show indications of mate selection. Obvious pairs are then moved into visually isolated breeding enclosures where they remain indefinitely. Any eggs laid by the pairs are picked up immediately and artificially incubated so that the birds will lay additional eggs. Stock so produced will be utilized in the development of additional wild breeding population units to increase the security of the species.

Hatching success among eggs brought to Patuxent has been 84 percent, and 62 percent of 21 whooping cranes at Patuxent includes 19 obtained through the egg transfer program. Enclosures occupied by whooping cranes at Patuxent average more than twice the size of those utilized by sandhill cranes. Three other whooping cranes, all males, are located at zoos, including two at the Audubon Park Zoo in New Orleans and one at the San Antonio Zoo in Texas.

14) California Clapper Rail (*Rallus longirostris obsoletus*) and Light-footed Clapper Rail (*R. l. levipes*): Studies of these two endangered rails consist primarily of surveys of their numbers and distribution along the southern coast of California and Baja California. Field work involves visiting salt-marsh habitats along the coast and, through the use of recorded rail calls, eliciting responses from any rails present. This method has also been employed with Yuma Clapper Rails on the Lower Colorado River and appears to be the safest and most effective method of counting this secretive species during the breeding season. Some counts are also made at high tide when water levels render the rails more conspicuous. No adverse effects of these census methods on rail populations have been detected. The purpose of counting rails is to keep track of their continuing status and to determine which habitats are of greatest importance to them so that management action can be taken to preserve those marshes.

15) Yuma Clapper Rail (*R. e. yumanensis*): Except for participation in periodic status surveys involving the use of taped recordings and sightings, and providing advice regarding research approaches to the solution of problems in its management, this Program does not contemplate any studies involving the handling or disturbance of this clapper rail.

16) Hawaiian Stilt (*Himantopus h. knudseni*): Biologists of the Endangered Wildlife Research Program based in Hawaii will cooperate with the USFWS's Endangered Species Coordinator in surface and air status surveys to determine numbers and distribution of this stilt and, in accordance with study plans of the Coordinator approved by USFWS, to capture and colormark or band stilts to detect and determine the extent of interisland movements for management purposes.

17) California Least Tern (*Sterna albifrons browni*): Status and distribution studies will consist of the direct observation of terns and nesting areas to delineate essential properties required for its preservation, along with the determination of deleterious factors requiring management attention. Banding of prefight birds to determine longevity and mobility will be carried out as opportunities permit. Such banding has no known adverse effect on tern behavior or survival.

18) Puerto Rican Plain Pigeon (*Columba inornata wetmorei*): Participation in a Commonwealth-funded project to determine the status, distribution and productivity of this pigeon will be engaged in as other assignments permit. No actual trapping or handling of plain pigeons by the Program's biologist is contemplated.

19) Puerto Rican Parrot (*Amazona vittata*): The total wild population of this parrot, now exclusively limited to the Luquillo Forest, was estimated to be between 14 and 16 in January 1975. Causes of the decline from at least 200 reportedly observed in the early 1960's are not known with certainty. However, since current studies were begun in 1968, when about 25 parrots still remained in the Luquillo Forest, the decline continued until only 14 birds were actually known to be present in January 1975. Because no other management alternative to their extinction was evident in an area already under control of the U.S. Forest Service, the USFWS and USFS have jointly developed an aviary in the Luquillo Forest for parrot research and propagation with the goal of producing stock with which to bolster or restore populations in the wild. It was learned that wild nests had had an extremely low success rate, usually with only one or two chicks being fledged per year from all nests during the study, an insufficient number to offset mortality.

In 1973, four eggs were removed from two parrot nests, leaving an egg in each nest, and substituting artificial eggs for those taken. The four eggs were hatched in an incubator and four young were reared. One of the two eggs remaining in wild nests disappeared, presumably taken by a predator, and the other egg was hatched and the young was reared. When the latter was near fledgling it was taken to the aviary for the development of a captive population to be used for the production of stock to be released to the wild. In 1974, only two pairs mated and fledged young. One nest, subject to flooding, contained two eggs which were removed and mechanically incubated, artificial eggs being substituted in the wild nest. One of the eggs hatched and was returned to the nest where it was reared and fledged by the wild pair. The second pair laid four eggs, two of which were hatched, reared, and placed in the aviary for parrot production.

This spring, 1975, 10 eggs were removed from 4 wild nests, leaving 1 egg in each of 2 nests. Eight of the 9 hatched are surviving; two are being retained for the confined population, and six have been returned to the wild nests and readily adopted by the parent birds. By this technique, the principal threat of predation by pearly-eyed thrashers and rats can be avoided during the highly vulnerable incubation period. Meanwhile, the captive flock has grown to 9, and now contains offspring of all known wild breeding pairs of Puerto Rican parrots. The hatching of most parrot eggs most years with electric incubators, the return of most of the chicks to parental nests, and the development of a captive population to produce stock with which to bolster the small remnant of this species which still persists in the wild, are believed to be the main remaining alternatives to their extinction.

For FY 1976, ecological and life history studies will continue, consisting of intensive observations at the nest sites of the remaining parrot population, repair of nest cavities when they become uninhabitable, continued erection of artificial structures to attract parrots to safer nesting situations, removal of all eggs from wild nests and the substitution of artificial eggs, and the return of approximately two-thirds of the hatched chicks to nests for brooding and other care by wild parents. None of the research will be terminal in nature, and preliminary results provide the first basis for cautious optimism that the species can be saved.

20) Hawaiian Crow (*Corvus tropicus*): The total wild population of this species appears to be not more than 100 individuals, though remoteness and relative inaccessibility of much of the country inhabited by the crows, and a limited research staff, make an accurate estimate of their status impossible at this time. No sustained research by Patuxent personnel upon Hawaiian crows is anticipated in 1975, although some information on status and distribution undoubtedly will result from observations made during other assignments. This would include counting the birds and taking note of their distribution and behavior, as well as salvaging any found sick or injured that appear unlikely to survive. Such birds, and three crows previously salvaged and now recovered and in confinement at Park Headquarters of Hawaii Volcanoes National Park, will be turned over to an appropriate authorized facility for future care. None of the anticipated research, which could include the opportunistic banding of fledglings, is expected to result in the death of any crows, but should enhance management efforts in their behalf.

21) Endangered Hawaii forest birds, including Akiapolaau (*Hemignathus wilsoni*), Crested Honeycreeper (*Palmeria dolei*), Hawaii Akepa (*Loxops c. coccinnea*), Kauai Akialoa (*Hemignathus procerus*), Maui Parrotbill (*Pseudonestor xanthorphrys*), Maui Akepa (*Loxops c. ochraceu*), Molokai Creeper (*Loxops maculata flammea*), Oahu Creeper (*Loxops m. maculata*), Ou (*Psittirostra psittacea*), Palila (*Psittirostra bailleui*), Laysan and Nihoa Finches (*Psittirostra cantans*), Kauai and Maui Nukupuus (*Hemignathus lucidus*), large Kauai Thrush (*Phaeornis obscurus myadestina*), Molokai Thrush (*Phaeornis o. rutha*), small Kauai Thrush (*Phaeornis palmeri*), and Nihoa Millerbird (*Acrocephalus kingi*): Relatively little information is available regarding the status and distribution of most of these inconspicuous forest-type birds. Most of them have rather low volume vocalizations. Some have been seen only once or twice, or not at all, in recent years. Census procedures have been developed for few of them, particularly those found on the Hawaiian Leeward Islands which comprise the Hawaiian Islands National Wildlife Refuge. Three biologists of this Program are engaged in studies to determine the status and distribution of endangered Hawaiian birds, and to develop census procedures. Mist-netting to allow identification, banding, and the removal and identification of parasites of these species are integral but non-terminal segments of these studies.

22) Cape Sable Sparrow (*Ammospiza maritima mirabilis*) and Dusky Seaside Sparrow (*A. m. nigrescens*): A study of the former is in progress by the National Park Service; research on the latter by a biologist of this Program is terminating on June 30, 1975. Future Program activities will be limited to censuses and observations of birds.

23) Hawaiian hoary bat (*Lasiurus cinereus semotus*), Morro Bay kangaroo rat (*Dipodomys heermanni morroensis*), and salt marsh harvest mouse (*Reithrodontomys raviventris*): No specific study of these three species is in prospect. They will, however, be counted and observed as opportunities permit so that this information can be made available for management use. No capturing, tagging, handling, or intentional disturbance is anticipated.

24) Black-footed ferret (*Mustela nigripes*): The native ferrets are one of the least seen and most poorly known of North American mammals. Because of their habits of living in prairie dog towns and their rare appearance on the surface of the ground, little is known regarding their actual numbers, distribution, underground habits, reproductive cycle, motility and home range, and daily activities. Little purposeful management for their benefit is, therefore, possible. Control of prairie dogs and certain other rodents and predators by landowners should only be undertaken with proper safeguards for the black-footed ferret. There is, however, no positive method of determining the presence of ferrets in prairie dog towns, short of seeing them, prior to or during animal control operations, nor is it possible to determine the size of a refuge that would be adequate to protect a self-sustaining population of this species.

Field studies are in progress to attempt to determine status and distribution and to describe the life history and ecology of the black-footed ferret. An important handicap to progress has been the inability to detect ferret presence, to know when they have departed from a specific prairie dog town, or to determine where they have gone. The development of a safe harness which will carry a radio transmitter capable of penetrating 10 to 20 feet of mineral soil will be necessary to allow the detection and monitoring of ferret presence and behavior. Testing of harnesses and radio transmitter devices cannot safely be done with ferrets in the wild, but until such monitoring methods are available, returns on the biologist's time spent afield will continue to decline.

Five black-footed ferrets, 3 males and 2 females, are being maintained in confinement at the Patuxent Center. Principal research activities associated with these animals are attempts to breed them, to determine their physiological norms and reproductive cycle, and to produce offspring which can be utilized in reestablishing self-sufficient ferret populations in the wild. The research is non-terminal in nature, such activities being reserved for other related, but more abundant species, such as the Siberian polecat (*Mustela eversmanni*) or European polecat (*M. putorious*). Permission from the State of South Dakota has been received to live-trap one additional female black-footed ferret for study at Patuxent. This animal will preferably be taken from private lands where prairie dog control is being accomplished by the landowner and there is a substantial degree of risk of loss of the ferret. All other ferrets located in prairie dog towns where the landowner is determined to carry out control or eradication measures will be trapped and moved to prairie dog towns on other private or public lands where protection from prairie dog control is assured.

Black-footed ferrets destined for propagation and other studies at the Patuxent Center are live-trapped under State permit, held for at least two weeks in quarantine in the state where captured, then flown to Maryland, accompanied by a biologist. Upon arrival at Patuxent, each ferret is given a complete examination, administered killed vaccine distemper shots which had been begun in the state of origin, treated for external and internal parasites, retained in quarantine under scrutiny of the staff veterinarian an additional 30 days and, if found healthy and free of disease and parasites, is moved to the ferret research building. No terminal research or experimentation deemed detrimental to any of the ferrets brought into cap-

V40150 AUG 4 75 XUM

tivity will be attempted; studies will be primarily observational. Studies with any substantial risk to the animal will be carried out only with exotic mustelid species. Any final testing of harnessing methods for radiotelemetry studies with black-footed ferrets will only by accomplished with animals that are kept under continual visual surveillance, and the harness will be removed immediately if difficulties are encountered. All confined specimens will be permanently marked with a distinctive number on the inner side of the hind leg by the use of a tattooing device, and special efforts will be made to avoid inbreeding, particularly parent-offspring or sibling matings. The ultimate effect of the study of confined animals will be to provide information essential to their management in the wild, and to eventually furnish stock for the restoration of ferret populations in formerly occupied habitats. The identification of specific locations of black-footed ferrets in the wild has been deliberately avoided to reduce the adverse effects of visitor intrusion that could be expected if actual locations become known.

25) Eastern timber wolf (*Canis lupus lycaon*): The principal remaining U.S. population of the eastern timber wolf is located in northern Minnesota. Information needed for its effective management requires continuing the ecological, behavioral, and physiological studies in the Great Lakes region by the U.S. Fish and Wildlife Service and its contractors, collaborators, and associates. To obtain this information, it will be necessary to live-trap, anesthetize, draw blood samples, ear-tag, radio-tag, examine, weigh, track, observe from the ground and from the air, automatically monitor dens, simulate howling, photograph, examine wolf kills, translocate wolves, and in other ways intensively study them to obtain primary and supplementary information. Numbers of wolves involved will be from about 30 to 70 each year, and accidental losses of individuals will be very rare. The species will be benefited by more enlightened management which requires intensive ecological and behavioral information on factors regulating populations, survival, natality, territoriality, dispersal, prey relations, and food habits. Ordinarily wolves will be taken from the wild only from areas where they may cause livestock depredation problems and will be housed at the Minnesota State Zoo or other qualified holding facilities; their removal is expected to have negligible effect on the wild populations.

26) Key deer (*Odocoileus virginianus clavium*): No intensive studies of the key deer are planned, but observations will be made by a program biologist when in Key deer-occupied areas on other assignments. No disturbance or adverse effect upon the wild population is anticipated.

ENDANGERED SPECIES PERMIT INFORMATION
ENVIRONMENTAL POLLUTION PROGRAM PATUXENT WILDLIFE RESEARCH CENTER

Biologists and chemists in the Environmental Pollution Program at Patuxent are currently involved in research projects that deal directly with three species of birds that are endangered. These species are the Southern Bald Eagle (*Haliaeetus leucocephalus leucocephalus*), Brown Pelican (*Pelecanus occidentalis*), and Arctic Peregrine Falcon (*Falco peregrinus tundrius*). Details of these research studies follow.

*Brown Pelican:* Populations of brown pelicans have been studied in detail since 1971 at the Cape Romain National Wildlife Refuge in South Carolina. The work is a joint project with the Cape Romain Refuge through the Atlanta Office. The primary objectives of the study are 1) To assess the populations, behavior and reproductive status of the brown pelican and associated bird species at the Cape Romain Refuge and nearby areas in South Carolina, and to gather as much data as possible on the brown pelican colonies in North Carolina and Louisiana; 2) To inventory and assess the kinds and degrees of organochlorine pesticide contamination in estuarine birds, their eggs and their food; and 3) To integrate these findings into an evaluative appraisal of the pollution ecology of the Cape Romain Refuge and surrounding areas. 1975 is the final year of this 5-year study.

During 1975, 50 brown pelican eggs will be collected from each of two colonies at the Cape Romain Refuge (total: 100 eggs). Contents of eggs will be analyzed for organochlorine pesticides, and shell thickness measurements will be taken. In addition, up to 12 pelicans found dead will be saved and autopsied to determine cause of death. Exact number will depend upon how many are encountered in the field. Carcass samples will be analyzed for organochlorine pesticides, and livers will be analyzed for heavy metals.

Collection of eggs will result in the death of the developing embryo. No nestlings, juvenile, or adult birds are to be sacrificed.

Studies on the relationship between organochlorine compounds, particularly DDE, and pelicans have been instrumental in the evaluation of the detrimental effects of toxic chemicals on wild birds. The almost total reproductive failure of the pelican colonies in Southern California was attributed to the detrimental effects of DDT and its metabolites. This problem generated public awareness of the effects of these chemicals upon avian reproduction and damage to the environment in general. Data gained from field studies of pelicans in relation to environmental pollutants contributed to the case against DDT. Since the ban on DDT declines in DDT metabolites have been monitored in Pelican eggs. Continuing studies will help pinpoint other chemicals that are potentially harmful to pelicans and other species as well. Data gained from these studies will have long-range beneficial effects on pelican populations.

Eggs only will be taken from the pelican colonies at the Cape Romain National Wildlife Refuge.

No animals are to be maintained in captivity.

Collection of 50 eggs from two colonies will have a negligible effect on the status of the brown pelican in South Carolina.

*Peregrine Falcon:* The purpose of this study is to develop a small captive colony of peregrines that can potentially supply birds for experimental studies demonstrating the detrimental effects of environmental pollutants to the species. Attempts at propagation will continue during FY76, FY77, and FY78. Initial application should cover only propagation. We intend to use only offspring of the current stock in studies with environmental pollutants. Application by amendment can be made for experimental studies when that stage is reached (FY78).

Eleven adult birds (five miles and six females) are involved in the study.

This research involves propagation only and will not result in the death of the animals.

Our efforts at propagation will add to the general knowledge of breeding captive peregrines. A broad base of expertise in this area is important when considering the possibility of reintroduction into the wild of eggs or young from captive stock. If the peregrines are successfully bred at Patuxent, the offspring will eventually be used in studies of environmental contaminants. The knowledge gained can only enhance the survival of the species. The adverse effects of organochlorine pesticides, particularly DDT, on reproduction have contributed to declines of peregrines in North America and elsewhere. Peregrines occupy the upper trophic levels of their food chains and, hence, accumulate elevated amounts of persistent environmental pollutants. Moreover, the species appears to be unusually sensitive to organochlorine pesticides. Experimental studies may eventually be conducted to elucidate the effects of kinds and levels of chemicals that are hazardous to the species survival and/or reproductive success.

No additional animals are to be taken from the wild.

All animals are housed at the Patuxent Wildlife Research Center, Laurel, Maryland. Two pairs are in indoor pens that measure 20(L)x10(W)x12(H) feet. The remaining birds are in outdoor pens that measure 36(L)x72(W)x18(H) feet. All pens are equipped with perches, nesting ledges, feeding platforms and water pans.

The study will have no detrimental effect on the wild population. Knowledge gained from propagation and studies with environmental pollutants will benefit the wild population.

*Bald Eagle:* Research on the bald eagle is conducted under four separate research projects:

1) *Pesticide and other pollutant residues in bald eagle eggs:* The objective of this project is to compare the pollutant residues in eggs of bald eagles from various areas in the United States and to relate these to residues shown to be harmful in field or experimental studies of other species of birds of prey.

The primary activity with southern bald eagles under this project is the collection of non-viable bald eagle eggs from the Chesapeake Bay bald eagle population. Only eggs that have definitely been abandoned or have been incubated well beyond the normal incubation period of 35 days would be collected. The eggs will be processed and the following information obtained: 1) shell thickness; 2) stage of embryonic development; and 3) length and breadth of egg (used to estimate egg volume). The contents of eggs will be saved for chemical analysis of organochlorine insecticides and polychlorinated biphenyls. The results of the analysis of each egg would be used to determine the probable impact of the residues found on reproductive success at each nest sampled and (to a lesser degree) on the entire population. A total of one or more non-viable eggs from ten different nests in the Chesapeake Bay area would be needed to provide the desired information.

The research should not result in the death of any southern bald eagles or their young, and there should be no effect on wild populations.

Information on nests with eggs that have been abandoned and/or have definitely been incubated well beyond the normal incubation period would be provided by:

Mr. Jackson Abbott, 8501 Doter Drive, Alexandria, Virginia 22308.

Mr. Frederic R. Scott, 115 Kennondale Lane, Richmond, Virginia 23226.

If excessive residues are found in the eggs from some nests, they could indicate a source of the pollutant(s), which if found and stopped could enhance the survival of the species. Adults at such nests could be encouraged to use cleaner alternate food sources.

2) *Mortality factors, diseases, parasites, and trends of pesticides and other pollutants in bald eagles:* Bald eagles found dead or moribund are collected by Federal, State, and private cooperators and shipped to this laboratory for necropsy and pesticide analysis. The objectives of the study are 1) to determine the identities and quantities of pesticides and other environmental contaminants in bald eagles found dead, and to determine changes in contamination in succeeding years; and 2) to determine mortality factors, diseases, and parasites of the bald eagle. The necropsy procedures very somewhat from the traditional procedures used in poultry diagnostic and veterinary research laboratories because of the subsequent organochlorine pesticide analysis. The carcass remainders, liver, brain and kidney are saved and frozen for later chemical analysis. Helminth parasites are saved for later identification, and all bacterial isolates are identified by the investigator or are submitted to outside laboratories for identification.

This is a continuing study. No termination date has been established.

There is no way to predict how many eagles will be encountered dead or moribund by cooperators in the field. During 1974, 56 bald eagles were necropsied, and tissues of 35 were analyzed for organochlorine pesticides and other environmental pollutants.

All animals are either dead or near death when received. No live birds are to be sacrificed.

This work is important in the evaluation of the causes of bald eagle population declines that have occurred during past years. Knowledge of the effects of pesticides or other pollutants upon survival and reproduction of eagles is an important contribution to our understanding of population declines. Results from chemical analysis of eagle tissues allow us to identify harmful chemicals and pinpoint problem areas in regard to environmental pollution.

No live healthy animals are to be taken from the wild. Only eagles found dead or moribund are received.

There will be no detrimental effect on the wild population. Knowledge gained from these studies on mortality factors and toxic chemicals affecting eagles will be of long-term benefit to the eagle population and the environment in general.

3) *Breeding and care of captive bald eagles for pollution research:* The primary objectives of this project are: 1) to develop and maintain a group of bald eagles for use in experiments to determine the effects of environmental pollutants, and to improve maintenance techniques; and 2) to breed bald eagles in captivity and determine the factors responsible and/or necessary for their reproductive success.

At the present time we have about nine southern bald eagles in captivity. It is impossible to provide the exact number because of the overlap in size between northern and southern bald eagles, especially between northern males and southern females. This situation is complicated because of the difficulty in accurately sexing all of the eagles on hand. In addition to the above we have four captive produced northern x southern immature bald eagles plus two eggs and one eaglet as of 7 April.

We have no plans for systematically removing southern bald eagles from the wild, although we wish to be able to accept eagles that are incapable of surviving in the wild due to injuries or being hand-reared by humans. We also wish to be able to accept newly injured or sick southern bald eagles for treatment and if feasible, eventual release back into the wild.

Some southern bald eagles under this project will be utilized for propagational purposes. One southern female is already a part of a successfully breeding pair. That pair is housed in a flight cage 36x72x18 feet high, which is equipped with perches, nest platform, feeding blocks and a water pan. Her mate is a northern bird.

As many as two additional southern pairs (mostly crippled birds unable to fly) may be used in future years for additional captive breeding studies. Initial attempts at captive breeding with these pairs would probably be conducted in pens 20x50x8 feet high. Smaller pens might be used providing the disposition and welfare of the birds warranted their use. Artificial insemination and artificial incubation might be used in ths work.

The research on captive breeding could eventually result in captive produced fertile eggs or nestlings that could be placed in suitable nests in the wild to augment wild production of young, thus enhancing survival of the species.

All captive eagles are given a diet of whole fish (commercially obtained), laboratory rodents, and a commercial bird of prey diet.

The work under this project should not result in death of the birds.

There would be no adverse effects on the wild population.

Southern bald eagles not suitable for release or not needed for captive breeding would probably ultimately be transferred to projects such as that mentioned under 4 below.

(4) *Effects and persistence of dieldrin in captive bald eagles:* The objectives of this project are: (1) to determine the loss rate of dieldrin in bald eagles; and (2) to determine the relationships between plasma enzyme activity and dieldrin residues in bald eagles.

We are concerned with the loss rate of dieldrin because ten percent of the bald eagles found in the wild in the United States during the period 1964–72 that have been analyzed were suspected to have died of dieldrin poisoning. The incidence of dieldrin poisoning was especially high for the states of Maryland, Virginia, South Carolina, and Florida, where 47 percent of the specimens analyzed probably died of dieldrin poisoning.

It is not known if dieldrin is unusually toxic to bald eagles, if they are unable to metabolize and/or excrete it as rapidly as other species of birds, or if they are susceptible to dieldrin poisoning merely because of their position in food chains and the degree of exposure to the toxicant. Black ducks will be used as a comparative species.

A maximum of five southern bald eagles will be used in this project. All are crippled and unable to fly or survive in the wild. They are thought to be of minimal value in the captive breeding project. A total of six bald eagles (not all southerns) will be given a single oral dose of dieldrin at a level thought to be sublethal. Additional eagles, both northern and southern, will serve as controls. Blood samples will be taken just prior to dosage and at intervals following dosage. The samples (about 10 cc from each bird at each sampling interval) will be analyzed for plasma enzyme activity, hemoglobin, hematocrit, and residues of organochlorines including dieldrin. The loss rate of dieldrin will be determined in each eagle and will be compared to that found in the black ducks. The dosed birds will be sacrificed at the end of the study, which may last as long as two years.

Information on the loss rate of dieldrin in bald eagles could suggest ways of reducing the frequency of dieldrin poisoning in wild bald eagles, thus enhancing their survival.

The eagles will be housed in pens 20x50x6 feet high with a perch, water pan and feeding block, and will be fed the same types of food as stated above.

There will be no adverse effect on wild populations.

*General Provision:* Occasionally, over-age eggs or carcasses of endangered species are encountered in the field. In past years, such egg or carcass samples have been analyzed for organochlorine pesticides and/or other environmental pollutants. Analyses for environmental pollutants are important for identifying chemicals that may potentially have a detrimental effect upon the species' survival or reproduction. Results will suggest whether chemicals have contributed to the demise and current status of the species.

We would like to be able to continue analyzing endangered species, either over-age eggs or tissues from animals found dead, for environmental pollutants. It is not possible to estimate how many specimens will be encountered in the field.

Documents and other information submitted in connection with this addendum to the application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this addendum to the application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received within 30 days of the date of publication will be considered.

### TIMBER MANAGEMENT PLAN REVISIONS, BIGHORN NATIONAL FOREST

### Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Timber Management Plan Revisions for the Bighorn National Forest. The Forest Service Report number is USDA–FS–R2–FES (Adm) FY–75–07.

The environmental statement concerns a proposal to revise the 1962 (Rev.) Timber Management Plan for the Bighorn National Forest in northern Wyoming. Such Plans are required to regulate the flow of timber products from National Forest lands.

The draft environmental statement was transmitted to CEQ on January 7, 1975.

This final environmental statement was transmitted to CEQ on July 28, 1975.

Copies are available for inspection during regular working hours at the following locations:

## Rural Electrification Administration

### COLORADO-UTE ELECTRIC ASSOCIATION, INC.

#### Final Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Environmental Impact Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with a loan application from Colorado-Ute Electric Association, Inc., P.O. Box 1149, Montrose, Colorado 81401. The statement covers approximately 98 miles of 230 kV transmission line from Boone, Pueblo County, Colorado, to Lamar, Prowers County, Colorado; approximately 2.5 mile section of 115 kV tie line in Pueblo County, Colorado, between the proposed Boone Substation and the existing Midway-LaJunta 115 kV line; approximately 13 miles of new 115 kV transmission line in Prowers County, Colorado, from Lamar, Colorado, to South Lamar, Colorado; a new 100 MVA, 230–115 kV substation at Boone; a new 100 MVA, 230–115 kV substation at Lamar and a new 115 kV switching bay in the existing South Lamar Substation.

Additional information may be secured on request, submitted to Mr. Richard F. Richter, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. The Final Environmental Impact Statement may be examined during regular business hours at the office of REA in the South Agriculture Building, 12th Street and Independence Avenue, S.W., Washington, D.C., Room 4310, or at the borrower address indicated above.

Final REA action with respect to this matter (including any release of funds) may be taken after thirty (30) days, but only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969, have been met.

Dated at Washington, D.C., this 23rd day of July, 1975.

DAVID H. ASKEGAARD,
*Acting Administrator, Rural Electrification Administration.*

## Soil Conservation Service

### BAY CREEK WATERSHED, ILLINOIS

#### Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Bay Creek Watershed project, Johnson, Pope, and Massac Counties, Illinois.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with it. As a result of these findings, Mr. Daniel E. Holmes, State Conservationist, Soil Conservation Service, USDA, 200 West Church Street, Champaign, Illinois 61820, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvements, as described in the negative declaration, include conservation land treatment supplemented by a floodwater retarding structure.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 200 West Church Street, Champaign, Illinois 61820.

Requests for single copies of the negative declaration should be sent to the above address.

No administrative action on implementation of this proposal will be taken until 15 days after the date of this notice.

### RABON CREEK WATERSHED PROJECT, SOUTH CAROLINA

#### Availability of Final Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the Rabon Creek Watershed Project, Greenville and Laurens Counties, South Carolina, USDA–SCS–EIS–WS–(ADM)–74–28(F).

The EIS concerns a plan for watershed protection, flood prevention, municipal and industrial water supply, and recreation. The planned works of improvement provide for conservation land treatment, two single-purpose floodwater retarding structures, and one multiple-purpose structure for flood prevention, municipal and industrial water supply and recreation.

The final EIS has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, One Greystone West, 240 Stoneridge Drive, Columbia, South Carolina 29210.

### BLAKE STREET FLOOD PREVENTION RC&D MEASURE, MAINE

#### Availability of Negative Declaration

Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council of Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an Environmental Impact Statement is not being prepared for the Presque Isle-Blake Street Flood Prevention RC&D Measure, City of Presque Isle, Aroostook County, Maine.

The Environmental Assessment of this federal action indicates that the measure will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the measure. As a result of these findings, Mr. Warwick M. Tinsley, Jr., State Conservationist, Soil Conservation Service, USDA Office Building, University of Maine, Orono, Maine 04473, has determined that the preparation and review of an Environmental Impact Statement is not needed for this measure.

The measure concerns a plan for watershed protection, flood prevention, and erosion control on a small unnamed tributary of Presque Isle Stream in the City of Presque Isle, Maine. The planned works of improvement include a surface water collection and disposal system plus seeding of a 30-acre critical sediment source.

The Environmental Assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA Office Building, Orono, Maine 04473.

The Negative Declaration is available for single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until 15 days after the date of this notice.

### Food and Drug Administration

[Docket No. 75N-0169; DESI 740; NDA 4-038, etc.]

### DIETHYLSTILBESTROL AND CLOSELY RELATED CONGENERS

#### Drugs for Human Use; Drug Efficacy Study Implementation; Amended Notice

A notice (DESI 740; Docket No. FDC-D-664 (now Docket No. 75N-0169)) was published in the FEDERAL REGISTER of November 10, 1971 (36 FR 21537) and subsequently amended on September 26, 1973 (38 FR 26824) and February 26, 1975 (40 FR 8242) concerning, among other things, the labeling conditions for diethylstilbestrol and related drug products. The products are used in treatment of estrogen deficiency or other disease conditions. Because of a statistically significant association between maternal ingestion during pregnancy of diethylstilbestrol and the occurrence of vaginal carcinoma in the offspring, the labeling of all such products has previously been required to state that their use in pregnancy is contraindicated. An additional warning is now being required concerning the possible development of vaginal adenosis in postpubertal girls whose mothers received diethylstilbestrol during pregnancy.

Reports in the medical literature indicate an association between the use of diethylstilbestrol and the occurrence of vaginal adenosis in postpubertal girls and young women whose mothers received diethylstilbestrol during their pregnancy. Herbst, A. L., et al: American Journal of Obstetrics and Gynecology 40:287, 1972; Herbst, A. L., et al: American Journal of Obstetrics and Gynecology 118:607, 1974; Herbst, A. L., et al: New England Journal of Medicine 292; 334, 1975; Stafl, A., Mattingly, R. F., Foley, D. V., et al.: Obstetrics and Gynecology 43:118–128, 1974; and Sherman, A. I., et al: Obstetrics and Gynecology 44:531, 1974. Copies of these references are available for public examination in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852 and may be seen Monday through Friday from 9 a.m. to 4 p.m., eastern standard or daylight saving time, whichever is effective at the time, except on Federal legal holidays.

The Commissioner of Food and Drugs concludes that this association should be brought to the attention of physicians. Accordingly, it is required that the physicians package insert for preparations containing diethylstilbestrol or closely related congeners (including dienestrol, hexestrol, benzestrol, and promethestrol) include the following in the Warning section:

"Vaginal adenosis has been reported in 30% to 90% of postpubertal girls and young women whose mothers received diethylstilbestrol or a closely related congener during pregnancy. This condition was found most frequently in those cases where DES had been given in early pregnancy (first 12 weeks). The significance of this finding with respect to potential for development of vaginal adenocarcinoma is unknown. Periodic examination of such patients is recommended."

Appropriate revision of labeling to add the above statement shall be made on or before October 3, 1975 or at the next printing of the labeling, whichever occurs first.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended; 21 U.S.C. 352, 355) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1).

Dated: July 29, 1975.

[Docket 26494; Agreement C.A.B. 25294; Order 75-7-138]

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

#### Order Relating to Passenger Fares

Issued under delegated authority July 29, 1975.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Traffic Conference 2 of the International Air Transport Association (IATA). The agreement, adopted by mail vote, has been assigned the above C.A.B. agreement number.

The agreement would increase all TC2 basic, normal and special fares to/from Denmark, Norway and Sweden (including fares within Scandinavia) by U.K. £1.00 o.w. and U.K.£2.00 r.t. to compensate for increased charges imposed by the Scandinavian Governments during the last three months. The fares are combinable with fares to/from U.S. points and thus have indirect application in air transportation as defined by the Act.

Pursuant to authority duly delegated by the Board in the Board's Regulations 14 CFR 385.14, it is not found that resolution 200(Mail 251)005z, incorporated in Agreement C.A.B. 25294 as indicated, and which has indirect application in air transportation as defined by the Act, is adverse to the public interest or in violation of the Act.

Accordingly, IT IS ORDERED THAT:

Agreement C.A.B. 25294 be and hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

### PITTSBURGH-ATLANTA-JAMAICA CASE

#### Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of July, 1975.

By a motion filed June 4, 1975, Eastern Air Lines, requests that the Board issue an order directing all interested persons to show cause why Eastern's application for a certificate amendment at issue in the *Pittsburgh-Atlanta-Jamaica Case*, Docket 27075[1] should not be granted without a hearing. Eastern's application seeks an amendment of Condition 5 for Route 5 which, *inter alia*, requires all flights serving Pittsburgh and Atlanta to originate or terminate at Toronto, Canada. If Eastern's certificate application were approved, this condition would not apply to flights serving Kingston or Montego Bay, Jamaica, thereby permitting Eastern to operate Pittsburgh-Jamaica turnaround service, via Atlanta.

In support of its motion for a show cause order, Eastern states that grant of its application will have a minimal impact on United Air Lines, the unrestricted incumbent nonstop carrier in the Pittsburgh-Atlanta market, since the Board would merely be substituting a long-haul restriction on the southern end of a Pittsburgh-Atlanta flight (Jamaica) for a long-haul restriction on the northern end (Toronto). Eastern further alleges that eliminating the Toronto long-haul restriction for Pittsburgh-Atlanta-Jamaica flights will have no appreciable impact on the Toronto-Pittsburgh or Toronto-Atlanta markets since these markets will continue to receive the ample service currently provided. Denial of the application, however, would force Eastern to add a fourth Pittsburgh-Toronto nonstop flight, service which is unnecessary in light of Eastern's recent

[1] The Pittsburgh-Atlanta-Jamaica Case was instituted by the Board in Order 75-2-33, dated February 6, 1975. The prehearing conference has been held by Administrative Law Judge Burton S. Kolko and information responses have been submitted by both Eastern and the Bureau of Operating Rights. Since the instant motion was filed before Eastern's direct exhibits were due, the judge suspended all further hearing steps pending final action on the motion.

load factors in this market. The addition of another Toronto-Pittsburgh flight would also require Eastern to incur substantial operating expenses. Eastern claims the Toronto-Jamaica market will not be affected by grant of this application inasmuch as Air Canada and Air Jamaica already offer nonstop and one-stop service in this market, service which is clearly superior to the two-stop authority of Eastern. Finally, Eastern points out that United, the only carrier to intervene in the *Pittsburgh-Atlanta-Jamaica Case*, has indicated that it has no objection to the grant of Eastern's application by the show cause process.

Upon consideration of Eastern's motion and all the relevant facts, we tentatively conclude that the public convenience and necessity require the grant of Eastern's application for certificate amendment in Docket 27075 so as to authorize Eastern to operate Pittsburgh-Jamaica turnaround service via Atlanta. In support of our tentative conclusion, we tentatively find that amendment of Eastern's certificate, as requested, will afford that carrier increased operating flexibility without any significant impact on any other carrier. As Eastern states in its motion, requiring a Pittsburgh-Atlanta flight to serve Jamaica will serve the same purpose as the present long-haul restriction in Condition 5 for Route 5 which requires such flights to serve Toronto. Moreover, there is already ample service in the Toronto-south markets and the additional service which Eastern would be required to provide if its application were denied is clearly not needed. Furthermore, the only carrier who might possibly be affected by Board approval of this certificate application, United, has stated that it has no objection to the grant of the application.

Interested persons will be given thirty days following the date of adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

*Accordingly, it is ordered*, That:

1. All interested parties are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, amending Condition 5 of Eastern's certificate for Route 5 to read as follows:

"(5) Flights scheduled to serve (a) Buffalo, N.Y., shall originate or terminate at Toronto, Canada; or (b) Pittsburgh, Pa., and a point on route 5 pursuant to the authority granted in segment 3, shall originate or terminate at Toronto, Canada: *Provided, however*, that this condition shall not apply to turnaround flights between Pittsburgh, Pa. and Jamaica, via Atlanta, Ga.;"

2. Any interested person having objection to the issuance of an order making final the proposed findings or conclusions set forth herein shall, within 30 days after the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 5, a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [2]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein, including termination of the hearing set in Order 75-2-33; and

5. A copy of this order shall be served upon Eastern Air Lines, Inc.; United Air Lines, Inc.; the Mayor of Atlanta, Ga.; the County of Allegheny, Pa.; and the Pittsburgh Airport Advisory Committee.

This order will be published in the FEDERAL REGISTER.

## SHREVEPORT CHAMBER OF COMMERCE AND SHREVEPORT AIRPORT AUTHORITY

### Nonstop Proceedings

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of July, 1975.

Petition of Shreveport Chamber of Commerce and Shreveport Airport Authority for amendment of the certificate of public convenience and necessity for Route 82, The Shreveport-Dallas nonstop proceeding.

On November 11, 1974, the Shreveport Chamber of Commerce and the Shreveport Airport Authority (Shreveport Parties) filed a petition requesting the amendment of the certificate held by Texas International Airlines (TXI) so as to authorize the carrier to provide nonstop service between Shreveport and Dallas/Ft. Worth.[1] Concurrently, the Shreveport Parties filed a petition requesting the Board to issue an order directing interested persons to show cause why the application should not be granted.

In support of its petition, the Shreveport Parties claim that despite increases in Shreveport-Dallas traffic from 1968 through 1973, Delta Air Lines, the incumbent nonstop carrier in the market, has reduced the number of flights and available seats in the market. The Shreveport Parties assert that Delta's service is deficient in both the local Shreveport-Dallas/Ft. Worth market and beyond markets. In the local market, the Shreveport Parties allege that there are significant gaps in Delta's peak time service which could be filled by TXI. In beyond markets, Shreveport states that service to points south and west of Dallas-Ft. Worth is almost entirely connecting service, and that removing TXI's stop restriction in the Shreveport-Dallas/Ft. Worth market might permit the carrier to provide new through-plane service to points such as San Antonio, Austin, Albuquerque, and Los Angeles.

Delta filed an answer in opposition to Shreveport's petition, claiming that the Shreveport Parties have neither shown nor even alleged that competitive nonstop service in the Shreveport-Dallas/Ft. Worth market is required by the public convenience and necessity. Delta asserts that its service in the market has been more than adequate, with eight well-spaced nonstop round-trip flights per day offering jet service during the morning, noon, and evening periods of peak demand.[2] Delta claims that the 58 percent average load factor experienced on these flights is clearly reasonable for such a short-haul market, and that its flights operated with more than sufficient empty seats to accommodate additional traffic. Because of Delta's present service and the size of the market, the carrier argues that the Shreveport-Dallas/Ft. Worth market cannot support a second nonstop carrier. Finally, Delta argues that TXI has yet to exploit its existing one-stop authority in the market,[3] and that grant of competitive nonstop service here would be inconsistent with the Board's recent decision in the *Service to Richmond Case*, Order 74-9-89.

TXI has filed an answer in support of the Shreveport Parties' petition, in which the carrier essentially reiterates the arguments of the Shreveport Parties concerning the need for competitive nonstop service. TXI proposes to provide two daily nonstop round trips in the Shreveport-Dallas/Ft. Worth market, with single-plane service beyond Dallas to Albuquerque and Los Angeles to the west and San Antonio, Laredo, and McAllen to the south. The carrier claims these flights would fill in significant gaps in Delta's present schedule,[4] and would provide first single-plane service to the more than 30,000 true O&D passengers in the Shreveport-Albuquerque/Los Angeles/San Antonio markets. TXI has forecast that these services will produce a profit, after allowance for tax and return on investment, of $289,190 in 1976, and that the excess profits on these subsidy-ineligible routes would result in a reduction in future subsidy payments to the carrier.

Delta filed a motion for leave to file an unauthorized document,[5] together with a reply to TXI's answer. Delta reiterates its claim that TXI presently has authority to operate the beyond services it proposes in its answer without any new route authority, and that if Delta's service in the local market were deficient as alleged, then there is no reason why TXI could not operate as one-stop flights the two nonstop flights it proposes, thereby obtaining almost the same local and beyond benefits as claimed for the proposed nonstop service. Additionally, Delta challenges the financial viability of TXI's proposed nonstop operation, claiming that TXI's traffic forecast is overly optimstic, and TXI's cost estimates fail to take into account the effects of spiraling inflation.

Subsequently, the Shreveport Parties filed a motion for leave to file an unauthorized document,[6] together with a reply to Delta's reply. Shreveport challenges Delta's assertion that TXI presently has all the authority it needs to provide the service Shreveport desires, claiming that realities of traffic flow would make such TXI services uneconomic unless the stop restriction is removed.

Upon consideration of the pleadings and all the relevant facts, we have decided in view of Delta's objection to deny Shreveport's petition for a show cause order. We will, however, set down for hearing Shreveport's request for amendment of TXI's certificate to provide new nonstop service in the Shreveport-Dallas/Ft. Worth market.

In addition, we have determined that the proceeding instituted herein is by its very nature not one which could lead to a "major Federal action significantly affecting the quality of the environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). In a case such as the instant one, all prospective environmental effects, direct and secondary, proceed in the first instance from changes in aircraft schedules and levels of service. Our conclusion in regard to the environment is largely based, therefore, upon our finding that there are unlikely to be environmentally significant changes in such schedules and service levels should additional nonstop service be authorized. In its answer to the Shreveport application in Docket 27164, TXI proposes a service pattern in the market of two daily nonstop round trips with DC-9 aircraft, thereby raising the level of nonstop jet service in the market from eight to ten daily round trips. In view of the size of the market (about 100,000 on-line O&D passengers in 1973) and the level of existing service, it is unlikely that any other potential applicant for new Shreveport-Dallas/Ft. Worth nonstop authority would propose significantly more service. Such a service change must be considered in the context of the overall level of traffic at Dallas-Ft. Worth and Shreveport. Dallas-Ft. Worth is a large hub which in 1972 handled 109,000 jet aircraft departures, or roughly 300 jet aircraft departures per day. Although much smaller than Dallas-Ft. Worth, the Shreveport airport handled over 13,000 jet aircraft departures in 1972, or more than 35 jet departures per day.[7] In either case, the addition of two more daily jet departures, as proposed by TXI, would result in a relatively insignificant increase in jet operations at the respective airports. Therefore, it is unreasonable to conclude on the face of the matter that authorization of new nonstop service in the Shreveport-Dallas/Ft. Worth market will lead to more than very minor environmental changes.

Accordingly, we are not directing our staff to undertake the preparation of an environmental assessment. Our conclusion herein is not intended to foreclose any party from presenting evidence (subject to the usual evidentiary rules in force in C.A.B. proceedings) or from making arguments with respect to relevant environmental issues. Nor is our conclusion intended to foreclose our consideration of environmental impacts resulting from the contemplated licensing action which, although of a lesser magnitude than those required to trigger the NEPA procedures, might nonetheless be relevant to our decision.

Accordingly, it is ordered that:

1. A proceeding to be known as the *Shreveport-Dallas Nonstop Proceeding*, Docket 28122, be and it hereby is instituted and shall be set down for hearing before and Administrative Law Judge of the Board at a time and place hereafter designated;

2. The proceeding instituted by paragraph 1, above, shall include consideration of the following issues:

a. Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in additional nonstop air transportation between Shreveport, Louisiana, and Dallas-Fort Worth, Texas?

b. If the answer to (a) is in the affirmative, which air carrier(s) should be authorized to engage in such service?

c. What conditions, if any, should be placed on the operation of such carrier(s)?

3. The request of the Shreveport Chamber of Commerce and Shreveport Airport Authority in Docket 27164 be and it hereby is consolidated with the proceeding instituted by paragraph 1 above;

4. The petition of the Shreveport Chamber of Commerce and Shreveport Airport Authority for issuance of a show cause order be and it hereby is denied;

5. The motions of Delta Air Lines, Inc. and the Shreveport Chamber of Commerce and Shreveport Airport Authority for leave to file unauthorized documents be and they hereby are granted; and

6. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed twenty days from the service date of this order and answers thereto shall be filed ten days thereafter.

This order will be published in the FEDERAL REGISTER.

## TRANSPORTES AEREOS BENIANOS, S.A.

### Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of July, 1975.

Transportes Aereos Benianos, S.A. (TABSA), a Bolivian air carrier, holds a foreign air carrier permit [1] authorizing: (a) foreign air transportation with respect to property and mail between a point or points in Bolivia, the intermediate points Lima, Peru; Guayaquil, Ecuador; and Panama City, Panama; and the terminal point Miami, Florida; and (b) the performance of off-route charter trips in foreign air transportation pursuant to Part 212 of the Board's Economic Regulations.

The Board has determined that TABSA has ceased its operations to the United States pursuant to its foreign air carrier permit. Despite the existence of a shell organization in La Paz, the carrier owns no aircraft of its own and its foreign air carrier permit is effectively dormant. So long as the permit is left outstanding, there exists the possibility that it could be the object of misuse by unauthorized parties.

In view of the foregoing, the Board finds that it is in the public interest to cancel the foreign air carrier permit held by TABSA.

---

[1] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[2] Condition 4 of TXI's certificate for Route 82 requires that TXI make one intermediate stop on all flights between Shreveport and Dallas-Ft. Worth.

[3] In addition, Delta offers an early morning flight to Shreveport.

[4] TXI presently offers one daily two-stop flight from Shreveport to Dallas/Ft. Worth; it has discontinued its one one-stop and one two-stop flight per day from Dallas/Ft. Worth to Shreveport. All of these flights utilize Convair-600 aircraft. See OAG April 1, 1975.

[4] In the westbound direction, TXI proposes to inaugurate a 9:40 a.m. Shreveport departure scheduled between Delta's present 7:43 a.m. and 10:55 a.m. departures. In the afternoon TXI would operate a 5:10 p.m. departure between Delta's 3:14 p.m. and 6:36 p.m. departures. In the eastbound direction, TXI proposes to fill in other spots in Delta's midday and late afternoon schedules.

[5] We will grant Delta's motion.

[6] We will grant the motion for leave to file.

[7] C.A.B. *Airport Activity Statistics* for the 12 months ended December 31, 1972. Although these figures represent airport activity prior to the energy crisis in the fall of 1973, current airline schedules show a total of 36 daily nonstop jet arrivals at Shreveport (OAG, April 15, 1975), or roughly the same level as indicated by the 1972 Airport Activity Statistics.

[1] Order E-25697, approved September 18, 1967.

V40150 AUG 4 75 XUM

Accordingly, it is ordered that:

1. All interested persons are hereby directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and which would, subject to the approval of the President, cancel the foreign air carrier permit held by Transportes Aereos Benianos, S.A. (TABSA), issued pursuant to Order E-25697;

2. Any interested person having objection to the issuance, without hearing, of an order making final the tentative findings and conclusions stated herein shall file a statement of objections supported by evidence within 20 days of service of this order. If an evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board; *Provided*, that the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing; [3]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. Copies of this order shall be served upon Transportes Aereos Benianos, S.A. (TABSA) and the Ambassador of Bolivia in Washington, D.C.

This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

**Availability of Draft Environmental Statement**

Notice is hereby given that a Draft Environmental Statement, "U.S. Nuclear Power Export Activities" (ERDA-1542), was issued August 1, 1975, pursuant to the Energy Research and Development Administration's (ERDA) regulations for implementation of the National Environmental Policy Act of 1969.

Copies of the Draft Statement are being distributed for review and comment to Federal agencies and to organizations and individuals that have expressed an interest in U.S. nuclear power export activities. Copies of the Draft Statement are available for public inspection in the ERDA's Public Document Room at 1717 H Street NW., Washington, D.C.; Albuquerque Operations Office, Kirtland Air Force Base East, Albuquerque, New Mexico; Chicago Operations Office, 9800 South Cass Avenue, Argonne, Illinois; Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho; Nevada Operations Office, 2753 South Highland Drive, Las Vegas, Nevada; Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee; Richland Operations Office, Federal Building, Richland, Washington; San Francisco Operations Office, 1333 Broadway, Oakland, California; and Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina.

Comments and views concerning the Draft Statement are requested from other interested agencies, organizations and individuals. Single copies of the Draft Environmental Statement will be furnished for review and comment upon request addressed to W. H. Pennington, Office of the Assistant Administrator for Environment and Safety, Mail Station E-201, U.S. Energy Research and Development Administration, Washington, D.C. 20545, (301) 973-4241. Comments should be sent to the same address.

In accordance with guidelines from the Council on Environmental Quality, agencies and members of the public submitting comments on the draft environmental statement should endeavor to make their comments as specific, substantive, and factual as possible without undue attention to matters of form in the impact statement. It would assist in the review of comments if the comments were organized in a manner consistent with the structure of the draft statement. Emphasis should be placed on the assessment of the environmental impacts of nuclear power export activities, and the acceptability of those impacts on the quality of the environment, particularly as contrasted with the impacts of reasonable alternatives. Commenting entities may recommend modifications and/or new alternatives that will enhance environmental quality and avoid or minimize adverse environmental impacts

Copies of comments on the Draft Environmental Statement will be placed in the above referenced Document Rooms and will be considered in the preparation of the Final Environmental Statement if received at ERDA by September 22, 1975.

Dated at Germantown, Maryland, this 1 day of August 1975.

## CROSS-LINKED POLYUREA TYPE ENCAPSULATING MATERIAL

### Establishment of Temporary Exemption From the Requirement of a Tolerance

On June 19, 1975, Stauffer Chemical Co., 1200 S. 47th St., Richmond CA 94804, submitted a pesticide petition (PP 5G1645) to the Environmental Protection Agency (EPA). This petition requested establishment of a temporary exemption from the requirement of a tolerance for residues of the cross-linked polyurea type encapsulating material, formed by the reaction of toluene diisocyanate and polymethylene polyphenylisocyanate, when used as an inert encapsulating material in connection with the herbicide S-ethyl diisobutylthiocarbamate applied to growing corn (field and sweet) in an experimental use program. This temporary exemption would permit the marketing of corn treated in accordance with such experimental use permit.

The data submitted in the petition and other relevant material have been evaluated. This temporary exemption from the requirement of a tolerance will protect the public health. Therefore, the temporary exemption is being established on the condition that the encapsulated herbicide be used in accordance with the experimental use permit being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act which provides for distribution under the Stauffer Chemical Co. name and with the following provisions:

1. The total amount of the encapsulated herbicide to be used must not exceed the quantity authorized by the experimental use permit.

2. Stauffer Chemical Co. will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or Food and Drug Administration.

This temporary exemption from the requirement of a tolerance expires December 31, 1975. Residues remaining in or on the above raw agricultural commodity after expiration of this tolerance will not be considered actionable if the pesticide is legally applied during the term and in accordance with the provisions of the experimental use permit and temporary exemption.

(Section 408(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(j))).

## MICHIGAN STATE UNIVERSITY

### Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issue to Michigan State University, East Lansing, Michigan 48824. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the Federal Register on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 26590–EUP–1) allows the use of 200 grams of Ethephon (2-chloroethyl) phosphonic acid) on cherries. A total of 0.4 acres is involved; the program is authorized only in Michigan. The experimental use permit is effective from July 16, 1975, to December 31, 1975.

Interested parties wishing to review the experimental use permit are referred to Room E–315, Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St., Washington, D.C. 20460. It is suggested that such interested persons call 202/755–4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 am.. to 4:00 p.m. Monday through Friday.

## FEDERAL COMMUNICATIONS COMMISSION

[Report No. 764]

### COMMON CARRIER SERVICES INFORMATION [1]

### Domestic Public Radio Services Applications Accepted for Filing [2]

JULY 28, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to Section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

## AMERICAN TELEPHONE AND TELEGRAPH CO.

[Docket No. 20288; FCC 75-872]

### Memorandum Opinion and Order Modifying Issues

In the matter of American Telephone and Telegraph Company. Investigation into the lawfulness of Tariff F.C.C. No. 267, offering a Dataphone Digital Service among five cities.

1. The presiding Administrative Law Judge in the above-captioned proceeding has certified to us two modifications of the procedures for conduct of the hearing which he believes are required in order to complete the proceeding without prejudicing the parties of denying them due process. He has indicated in a Memorandum Opinion and Order released June 20, 1975, FCC 75M-1116, (39 FR 45317) that the nature of certain of the interrogatories has necessitated numerous extensions of time for responses beyond the 20 days specified in our December 16, 1974 designation Order, 50 F.C.C. 2d 501.

2. As the termination of the hearing approaches, the presiding Judge states the failure to grant additional extensions of time for the filing of proposed findings of fact and conclusions of law will prejudice the parties, and it appears to him that it is necessary to grant a further round of interrogatories after the expiration of the time specified in our December Order for the filing of interrogatories. Accordingly, he asks that he be authorized, upon good cause shown, to permit such an additional round of interrogatories. He further requests permission to adjust the dates for the filing of proposed findings and reply findings as may be appropriate in the light of any extensions granted for the filing of interrogatories and responses thereto.

3. While we agree with the presiding Judge that the requested extensions are necessary to avoid prejudice to parties to this case, we are disappointed that the procedures prescribed in our December Order have not expedited conclusion of this proceeding as we had anticipated. We had hoped that the use of evidentiary-type oral proceeding as a supplement to written interrogatories would reduce the total number of interrgotories by permitting clarification of difficult points through the traditional oral hearing process. Unfortunately, the use of oral argument was generally limited to resolution of disputes regarding the interrogatories themselves. Additionally, when we establish the twenty-day period for responses, we had anticipated that extensions of time would be the exception rather than the rule and that the parties would assist by allowing time for preparation of responses before filing further rounds of interrogatories.

4. Under the circumstances presented by the presiding Judge, we believe we have no choice but to permit him to grant the parties a further round of interrogatories and such extensions of time for the filing of proposed findings and replies as he finds are required to avoid prejudice. However, in granting any such extensions of time, the presiding Judge should bear in mind our continued desire to complete this proceeding at the earliest possible date. To that end, we would hope that the presiding Judge will be able to render his initial decision no later than thirty days from the filing of reply findings.

5. Accordingly, IT IS ORDERED, That the procedures specified in the above-captioned proceeding ARE MODIFIED as indicated in paragraph 4 above.

Adopted: July 22, 1975.

Released: July 29, 1975.

## NORJUD BROADCASTING, INC.

### Order Designating Application for Hearing on Stated Issues

In re application of Norjud Broadcasting, Incorporated, McMinnville, Oregon, for renewal of license for Radio Station KMCM.

1. The Commission has before it for consideration: (a) the captioned application; and (b) its inquiries into the operation of radio station KMCM, McMinnville, Oregon.

2. Information before the Commission raises serious questions as to whether the applicant possesses the qualifications to be or to remain a licensee of the Commission. In view of these questions, we are unable to find that a grant of the captioned renewal application would serve the public interest, convenience and necessity, and must, therefore, designate the application for hearing.

3. Accordingly, IT IS ORDERED, That pursuant to Section 309(e) of the Communications Act of 1934, as amended, the application IS DESIGNATED FOR HEARING, at a time and place to be specified in a subsequent Order, upon the following issues:

(a) To determine whether, and, if so, the extent to which the applicant broadcast personal attacks and thereafter failed to meet its obligations as a licensee with respect to Section 73.123(a) of the Commission's Rules and Regulations.

(b) To determine whether, and, if so, the extent to which the applicant broadcast political editorials and thereafter, failed to meet its obligations as a licensee with respect to Section 73.123(c) of the Commission's Rules.

(c) To determine whether, and, if so, the extent to which the applicant having offered legally qualified candidates for public office an opportunity to respond personally to political editorials, thereafter engaged in censorship over the material intended to be broadcast by such candidates in violation of 47 U.S.C. 315 (a) and Section 73.120(b) of the Commission's Rules.

(d) To determine whether, and, if so, the extent to which the applicant engaged in conduct which discriminated between candidates in its practices, regulations, facilities or services for or in connection with the services required to be rendered in permitting legally qualified candidates for public office to respond to the applicant's political editorials, or in its practices related thereto otherwise subjected any such legally qualified candidate for public office to any prejudice or disadvantage in violation of Section 73.120(c)(2) of the Commission's Rules.

(e) To determine whether, and, if so, the extent to which the applicant has tape-recorded telephone conversations with individuals, not employees of the applicant, and thereafter broadcast said conversations or portions thereof without informing those individuals that it was the licensee's intention to broadcast the conversations of portions thereof in violation of Section 73.1206 of the Commission's Rules.

(f) To determine whether the applicant, or any of its officers, directors, shareholders, or employees made misrepresentations to, or has been lacking in candor with the Commission.

(g) To determine, in light of the evidence adduced under the preceding issues in (a) through (f), *supra*, whether the licensee has the requisite qualifications to be or to remain a licensee of the Commission and whether a grant of the application would serve the public interest, convenience and necessity.

4. IT IS FURTHER ORDERED, That the Chief of the Broadcast Bureau shall serve upon the captioned applicant, within thirty (30) days of the release of this document, a Bill of Particulars with respect to the issues specified in (a) through (f), *supra*.

5. IT IS FURTHER ORDERED, That the Broadcast Bureau proceed with the initial presentation of evidence with respect to the issues specified in (a) through (f), *supra*, and that the applicant then proceed with its evidence and have the burden of establishing that it possesses the requisite qualifications to

be and to remain a licensee of the Commission and that a grant of its application would serve the public interest, convenience and necessity.

6. IT IS FURTHER ORDERED, That to avail itself of the opportunity to be heard, the applicant, pursuant to Section 1.221(c) of the Commission's Rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issue specified in this Order.

7. IT IS FURTHER ORDERED, That the applicant herein, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and Section 1.594 of the Commission's Rules, shall give notice of the hearing within the time and in the manner prescribed in such Rule and shall advise the Commission thereof as required by Section 1.594 (g) of the Rules.

8. IT IS FURTHER ORDERED, That the Secretary of the Commission shall send a copy of this Order by Certified Mail—Return Receipt Requested to Norjud Broadcasting, Incorporated.

Adopted: July 8, 1975.

Released: July 28, 1975.

## RUST COMMUNICATIONS GROUP, INC.

### Memorandum Opinion and Order Enlarging Issues

In re Applications of Rust Communications Group, Inc., for renewal of license of Stations WHAM and WHFM (FM) Rochester, New York.

1. By Memorandum Opinion and Order, FCC 75-537, released May 22, 1975, published at 40 FR 22882, the Commission designated the renewal application of Rust Communications Group, Inc. (Rust) for hearing on issues relating to the licensee's ascertainment of community needs, its public affairs and other non-entertainment programming, and its equal employment opportunity policies. Now before the Review Board is petition to enlarge issues, filed June 11, 1975, by Rust, seeking the addition of a meritorious programming issue.[1] The Broadcast Bureau, in its comments, does not oppose petitioner's request; however, the Bureau asserts that Rust's showing under the meritorious programming issue must be limited to the period between May 22, 1969 (the date the last renewals of WHAM and WHFM were granted) and May 1, 1972, when, according to the Bureau, petitioner first learned that its licenses were in jeopardy.[2] Action for a Better Community (Action) opposes the addition of a meritorious programming issue on the grounds that the issues in this proceeding allegedly involve discrimination against minorities in Rust's service area which, Action contends, "is a form of moral turpitude which cannot and should not be mitigated by other programs."

2. The Review Board will add a meritorious programming issue. In so doing, we see no restriction in the application of the mitigating effect, if any, of the evidence adduced pursuant to such an issue to any of the existing issues.[3] The showing the licensee is allowed to make is generally limited to programming instituted before the licensee received notice that the Commission was contemplating action against it. *Chronicle Broadcasting Co.*, 18 FCC 2d 120, 16 RR 2d 494 (1969) and *Midwest Radio–TV*, 18 FCC 2d 1011, 16 RR 2d 987 (1969). However, since a determination of when such notice was actually received should be made by the Presiding Judge in the first instance, the Board will not attempt to resolve this question. See *Chesapeake-Portsmouth Broadcasting Corp.*, 42 FCC 2d 1030, 28 RR 2d 703 (1973). Finally, we note that the parties are free to argue the weight which should be accorded the evidence adduced under the issue. *Oil Shale Broadcasting Company*, FCC 75R–192, —— FCC ——, 33 RR 2d 1227; *Cosmopolitan Broadcasting Corp.*, 39 FCC 2d 698, 26 RR 2d 1172 (1973).

3. ACCORDINGLY, IT IS ORDERED, That the petition to enlarge issues, filed June 11, 1975, by Rust Communications Group, Inc. IS GRANTED; and

4. IT IS FURTHER ORDERED, That the issues in this proceeding ARE ENLARGED by the addition of the following issue:

To determine whether the programming of Stations WHAM and WHFM (FM) has been meritorious, particularly with regard to public service programs.

5. IT IS FURTHER ORDERED, That the burdens of proceeding with the introduction of evidence and proof under the issue added herein SHALL BE on Rust Communications Group, Inc.

Adopted: July 23, 1975.

[1] Also before the Board are the following related pleadings: (a) Broadcast Bureau's comments, filed June 23, 1975; (b) opposition, filed June 24, 1975, by Action for a Better Community; and (c) reply, filed July 1, 1975, by Rust.

[2] The Bureau asserts that on May 1, 1972, Metro Act of Rochester, Inc. and Action for a Better Community, parties to this proceeding, filed a "Formal Complaint" and a "Petition to Deny and to Intervene," respectively, against Rust.

[3] With respect to Action's contention, we believe the only issues in this proceeding that could arguably involve moral turpitude are the equal employment opportunity issues, and, in our view, those issues do not necessarily involve the element of culpable conduct which renders consideration of past programming inappropriate.

Released: July 25, 1975.

## FEDERAL POWER COMMISSION

[Docket No. RP74-94-3]

### ARKANSAS LOUISIANA GAS CO.

#### Notice of Petition for Interim Relief Pendente Lite

JULY 28, 1975.

Take notice that on June 27, 1975, the City of Winfield, Kansas (Petitioner) filed in Docket No. RP74-94-3 a petition pursuant to Section 1.7 of the Commission's Rules of Practice and Procedure requesting interim relief *pendente lite* pertaining to its request concerning the shifting of gas volumes between petitioner's two municipal electric generating plants which are served by Arkansas Louisiana Gas Company (Arkla).

On March 31, 1975, Petitioner filed with the Commission a petition for the transfer of natural gas in which it requested that it be allowed to transfer volumes of gas currently being delivered to Winfield's less efficient electric generating plant (Plant No. 1) to its more efficient electric generating plant (Plant No. 2). Petitioner stated that this would lead to a more efficient use of natural gas without causing any increase in its total gas allotment from Arkla.

Petitioner has a maximum daily entitlement of 3,000 Mcf at each generation plant. Petitioner asserts that if it is permitted to utilize volumes in its more efficient plant which are currently used in its less efficient plant, it can generate more electricity using similar volumes of gas or in some instances use less gas than if both plants were to utilize gas. Petitioner requests that the Commission grant relief in the form of permitting the shifting of volumes from one plant to another *pendente lite* so that it can make more efficient use of its natural gas purchases during the summer period of peak demand.

The instant petition for interim relief, requesting transfer of volumes *pendente lite*, reiterates Petitioner's previously expressed position that the granting of this relief not affect its Priority 4 status under Arkla's currently effective curtailment plan.

Any person desiring to be heard or to make any protest or answer to said petition should on or before August 11, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a protest or answer in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.9 or 1.10). All answers or protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make them a party to the proceeding. In addition, further notice should be taken that hearings on the March 31, 1975, petition filed by Petitioner seeking permanent, as opposed to interim, relief, have been concluded and are awaiting briefing and decision.

### CENTRAL ILLINOIS PUBLIC SERVICE CO.

#### Notice of Filing of Supplemental Rate Schedule

JULY 29, 1975.

Take notice that on July 23, 1975, the Central Illinois Public Service Company (Central Illinois) tendered for filing a supplemental Rate Schedule W-2[1] to be applicable to service provided the City of Newton (Newton) on and after June 1, 1975, pursuant to an Agreement[2] between Newton and Central Illinois. Central Illinois states that Rate Schedule W-2 was accepted for filing by the Commission, to become effective June 1, 1975, in Docket No. E-9415. Central Illinois also states that the filing accepted in E-9415 provided that Rate Schedule W-2 was to be applicable to service provided to municipalities upon expiration of the effective period for the rates and charges specified in the various agreements on file with the Commission, and that the Agreement between Central Illinois and Newton does not provide any rates and charges for service beyond May 21, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 13, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

### CITY OF SEATTLE

#### Application for Change in Land Rights

JULY 29, 1975.

Public notice is hereby given that an application was filed on May 23, 1975, under the Federal Power Act (16 U.S.C. §§ 791a-825r) by the City of Seattle, Department of Lighting (City) (Correspondence to: Mr. Gordon Vickery, Superintendent, City of Seattle, Department of Lighting, 1015 Third Avenue, Seattle, Washington 98104, and Honorable Jack Crampton, Mayor, Town of Metaline, Metaline, Washington 99152) for a change in land rights for the constructed Boundary Project No. 2144, located on the Pend Oreille River in Pend Oreille County, Washington.

City, Licensee for the Boundary Project No. 2144, requests permission to grant an easement to the Town of Metaline for construction of a recreation area at the project. The recreation area would consist of a public swimming area and marina area at the mouth of Linton Creek. Facilities would also include camping and picnic areas, restroom facilities, a playground area, and parking areas.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR § 1.8 of § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act (16 U.S.C. § 825g, § 825h) and the Commission's Rules of Practice and Procedure, specifically Section 1.32(b) (18 CFR § 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of Section 1.32(b) be used. If an issue of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or initial pleader to appear or be represented at the hearing before the Commission.

### COLUMBIA GAS TRANSMISSION CORP.

#### Order Establishing Hearing Procedures and Granting Interventions

JULY 29, 1975.

On May 8, 1975, Columbia Gas Transmission Corporation (Columbia), pursuant to Section 154.38(d)(5)(a) of the Commission's Regulations, filed a request

V40150 AUG 4 75 XUM

for advance Commission approval for accounting and rate treatment of expenditures to be made in a program Columbia states is in the nature of research and development. Columbia proposes to undertake this program for the purpose of determining reservoir and production characteristics achieved through the application of existing and new stimulation techniques on gas shales of the Upper and Middle Devonian Age Formations in the Appalachian Basin. More specifically, Columbia states that the questions to which Columbia is addressing itself in this research and development program are "whether commercial amounts of gas can be recovered, the method to be employed and the resultant cost thereof." Columbia estimates that, based upon 1975 cost levels, the proposed experimental test program will cost $8,500,000 over a 36-month period. Columbia further requests the earliest possible approval for this project so that Columbia can use the technology developed from this experiment in the Appalachian and other areas.

The filing was noticed on May 15, 1975, with comments due on or before May 29, 1975. Petitions to Intervene were received from the parties listed in Appendix A. A Notice of Intervention was received from the Public Service Commission of the State of New York wherein a hearing was requested concerning the instant filing.

Our review of Columbia's request indicates that the proposed project may not be in the nature of research and development. Accordingly, we shall establish hearing procedures to determine the propriety of granting or denying Columbia's request for accounting and rate approval of its proposed project. In light of the urgency cited in Columbia's request, we shall establish an expedited procedural schedule.

*The Commission finds:*

Good cause exists to set the issues raised by Columbia's request for rate and accounting treatment for its proposed R&D project as hereinafter provided.

*The Commission orders:*

(A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, and 8 thereof, and the Commission's Regulations under the Natural Gas Act, a public hearing shall be held in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the reasonableness and appropriateness of granting Columbia's request for advance approval of rate and accounting treatment for the proposed project set forth in its May 8, 1975, filing.

(B) On or before August 8, 1975, Columbia shall present its direct case in this proceeding. The Commission Staff or any intervenors shall serve prepared testimony and exihibits on August 22, 1975. Any rebuttal evidence by Columbia shall be served on or before September 3, 1975. The public hearing herein ordered shall convene on September 16, 1975, at 10:00 A.M. Initial briefs shall be filed on October 3, 1975, and reply briefs shall be filed on October 15, 1975. The Initial Decision shall be issued on or before October 31, 1975.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's Rules of Practice and Procedure.

(D) The petitioners listed in Appendix A are hereby permitted to intervene in these proceedings, subject to the Rules and Regulations of the Commission: *Provided, however,* that the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene and *Provided, further,* that the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in these proceedings.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

## ELECTRIC AND WATER PLANT BOARD VS. KENTUCKY UTILITIES CO.

### Filing of Complaint

JULY 29, 1795.

Pursuant to Section 2.1(a)(1)(I) of the Commission's Regulations, notice is hereby issued of the filing of a complaint by the Electric and Water Plant Board of the City of Frankfort, Kentucky and the City of Falmouth, Kentucky (Cities) in the above-captioned docket.

Cities alleges that Kentucky Utilities Company (KU) is billing them pursuant to fuel adjustment clause which is not in compliance with Section 35.14 of the Commission's Regulations. Cities is requesting the Commission to refund illegal overcharges and to restrict to the legally filed rate the operation of the fuel adjustment clause in KU's rate schedule FPC Nos. 69 and 85 under which KU provides wholesale for resale service to the Cities.

We are forwarding a copy of this complaint to KU, which shall have 30 days to answer it in writing. Upon receipt of the answer to this complaint, the Commission will take such additional action as may be necessary.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before August 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

## GRAND RIVER DAM AUTHORITY

### Application for Approval of Change in Land Rights

JULY 29, 1975.

Public notice is hereby given that an application for approval of sale of project lands was filed on June 2, 1975, under the Federal Power Act (16 U.S.C. §§ 791a–825r) by Grand River Dam Authority (GRDA) (Correspondence to: Mr. Richard W. Lock, General Manager, Grand River Dam Authority, P.O. Drawer G, Vinita, Oklahoma 74301) for its Markham Ferry Project No. 2183, located in Mayes and Craig Counties, Oklahoma, near the City of Pryor on the Grand River, a navigable waterway of the United States.

GRDA seeks Commission approval of the proposed sale of a tract of land within the project boundary to a private individual. The 1.141-acre tract of land is located in the following described subdivision: Indian Meridian, T. 23 N., R. 20 E., Section 25, NW¼NE¼SE¼, Mayes County, Oklahoma.

The individual, who wishes to purchase the above-described tract within the project boundary, has constructed three homes thereon without the knowledge or consent of GRDA, according to the application. The construction of the homes has not been approved by the Federal Power Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will

not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act (16 U.S.C. § 825g, § 825h) and the Commission's Rules of Practice and Procedure, specifically Section 1.32(b) (18 CFR § 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of Section 1.32(b) be used. If an issue of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or initial pleader to appear or be represented at the hearing before the Commission.

## GAS EXPLORATION, DEVELOPMENT AND PRODUCTION

[Docket Nos. R-411 and RM74-4]

### Order Making Certain Producers Respondents to This Investigation and Establishing Comment Dates

Issued JULY 29, 1975.

On April 28, 1975, we issued an order in the above referenced proceeding which, *inter alia* indicated that by further order the Commission would set dates for initial and reply comments on the data gathered by the pipelines from the respective producers to whom the advance payments were made. The responses have been compiled and are available for inspection in the Commission's Office of Public Information, 825 North Capitol Street N.E., Washington, D.C. 20426, during regular business hours.

The April 28, 1975, order also indicated that we would make all producers respondents to this proceeding who had received advance payments (as determined by the data compiled and filed by the pipeliner). Attached [1] is a list of such producers and we hereby order that such producers be made respondents to this proceeding.

Moreover, all producer-respondents and pipeline-respondents to this proceeding shall, within the time set below for the filing of initial comments, file responses as required by the April 28, 1975, order.

All parties filing initial comments shall file such comments on or before August 20, 1975. All parties filing responding comments shall file such comments on or before September 20, 1975.

The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

### Further Extension of Procedural Dates

JULY 29, 1975.

On July 14, 1975, Chicopee Electric Light Department filed a motion to extend the procedural dates fixed by order issued August 9, 1974, as most recently modified by notice issued June 17, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor, Testimony, September 22, 1975.
Service of Company, Rebuttal, October 1, 1975.
Hearing, October 13, 1975 (10:00 a.m. EST).

By direction of the Commission.

## INTER-CITY MINNESOTA PIPELINES, LTD., INC.

### Petition To Amend Orders

JULY 29, 1975.

Take notice that on July 16, 1975, Inter-City Minnesota Pipelines, Ltd., Inc. (Inter-City) filed a petition with the Federal Power Commission (the Commission) to amend its import authorization under Section 3 of the Natural Gas Act issued in the above-entitled proceeding to authorize the continued importation of natural gas at Sprague, Manitoba at a new rate of $1.40 per MMBTU effective August 1, 1975, and at $1.60 per MMBTU effective November 1, 1975, and at a rate of $1.30 per MMBTU for gas imported at Fort Francis, Ontario. Inter-City's petition recites that on May 21, 1975, the Canadian National Energy Board amended its export authorizations to increase the price of Canadian natural gas exported to the United States as set forth above. The petition concludes that if Inter City's import authorization is not amended prior to August 1, 1975, Inter-City will be faced with the termination of its natural gas supply from Canada and the loss of its Canadian supplies would result in a substantial curtailment of its markets.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before August 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

## MICHIGAN WISCONSIN PIPE LINE CO.

### Order Accepting for Filing and Making Effective Without Suspension Proposed Rate Increase, Amending Import Authorizations, Granting Interventions and Granting Waiver

JULY 29, 1975.

On May 15, 1975, Michigan Wisconsin Pipe Line Company (Mich-Wisc), filed a petition to amend its import authorization to permit it to continue the importation of natural gas from Canada at increased prices. Mich-Wisc's petition is predicated on the fact that on May 5, 1975, the Canadian government announced that export licenses would be amended to provide that the export price for natural gas would be increased to $1.40 per MMBtu (Canadian) effective August 1, 1975, and to $1.60 per MMBtu (Canadian) effective November 1, 1975. Mich-Wisc purchases gas from TransCanada Pipelines Limited and from two importers of Canadian gas, Midwestern Gas Transmission Company and Great Lakes Gas Transmission Company.

Notice of Mich-Wisc's petition to amend its import authorization was issued on May 22, 1975, with protests and petitions to intervene due on or before June 17, 1975. Petitions to intervene were filed by Madison Gas and Electric Company, Michigan Consolidated Gas Company, North Central Public Service Compahy, TransCanada Pipelines Limited, Wisconsin Gas Company, Wisconsin Michigan Power Company, Wisconsin Natural Gas Company, and Wisconsin Public Service Corporation. No petitioner has expressed opposition to Mich-Wisc's petition.

Examination of Mich-Wisc's gling in-

Examination of Mich-Wisc's filing indicates that the company has no available alternative supply of natural gas to replace the volumes imported from Canada. Upon review, we find that continua-

V40I150 AUG 4 75 XUM

tion of importation under the increased prices would be consistent with the public interest, subject, however, to the condition that any further increase in the price Mich-Wisc is required to pay will require further amendment to its import authorizations.

In addition to its petition to amend its import authorizations, Mich-Wisc, on June 10, 1975, tendered for filing, at Docket No. RP73-102 (PGA 75-4), a proposed adjustment in its rates[1] to flow through the increase in its cost of purchased gas attributable to the $1.40 per MMBtu (Canadian) price to become effective August 1, 1975. The estimated annual effect of this increase will approximate $47.2 million. Mich-Wisc requests waiver of Part 154 of the Regulations to permit the filing to be made effective on August 1, 1975.

Notice of Mich-Wisc's proposed PGA change was issued on June 17, 1975, with protests and petitions to intervene due on or before July 4, 1975. A petition to intervene was filed by Wisconsin Michigan Power Company and Wisconsin Natural Gas Company.

Our review of Mich-Wisc's proposed increase indicates that it should be permitted to reflect the increase in its cost of purchased gas attributable to the $1.40 per MMBtu (Canadian) price effective as of August 1, 1975.

*The Commission finds:*

(1) Mich-Wisc's authorizations for the importation of natural gas from TransCanada should be amended to permit Mich-Wisc to continue such importation at a price of $1.40 per MMBtu (Canadian), effective August 1, 1975, and $1.60 per MMBtu (Canadian), effective November 1, 1975, as hereinafter ordered, as such importation has been shown to be consistent with the public interest.

(2) It is necessary and proper in the public interest that Mich-Wisc's proposed rate increase should be accepted for filing, to be placed into effect as of August 1, 1975.

(3) Good cause exists to grant waiver of Part 154 of the Regulations to allow Mich-Wisc's rate increase application to be placed into effect on August 1, 1975.

(4) Good cause exists to permit the intervention of the above-mentioned petitioners at those dockets in which their petitions were filed.

*The Commission orders:*

(A) Pursuant to the authority of the Natural Gas Act, particularly Section 3 thereof, Mich-Wisc's import authorizations for importation of natural gas from TransCanada is hereby amended to permit Mich-Wisc to import natural gas at the price of $1.40 per MMBtu (Canadian) effective August 1, 1975, and $1.60 per MMBtu (Canadian) effective November 1, 1975, as hereinafter ordered and conditioned.

(B) Mich-Wisc's proposed PGA increase filing of June 10, 1975, set forth as Second Substitute Ninth Revised Sheet No. 57 to FPC Gas Tariff First Revised Volume No. 27F, is hereby accepted for filing as of August 1, 1975, to be placed into effect on August 1, 1975, and Part 154 of the Regulations is hereby waived.

(C) Any further change in the price Mich-Wisc is to pay for the importation of Canadian gas will require further amendment to its import authorization.

(D) The above-mentioned petitioners to intervene are hereby permitted to intervene at those dockets in which their respective petitions were filed subject to the Rules and Regulations of the Commission; *provided, however,* that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *provided, further,* that the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

## MIDWESTERN GAS TRANSMISSION CO.

### Order Amending Import Authorizations and Granting Interventions

JULY 29, 1975.

On May 19, 1975 Midwestern Gas Transmission Company (Midwestern), filed a petition to amend its import authorizations to permit it to continue the importation of natural gas from Canada at increased prices. Midwestern's petition is predicated on the fact that on May 5, 1975, the Canadian government announced that export licenses would be amended to provide that the export price for natural gas would be increased to $1.40 per MMBtu (Canadian) effective August 1, 1975, and to $1.60 per MMBtu (Canadian) effective November 1, 1975. Midwestern purchases gas from TransCanada Pipelines Limited under three contracts covered by Licenses GL-1, GL-18, and GL-37, and resells the gas in its Northern System.

Notice of Midwestern's petition to amend its import authorizations was issued on May 23, 1975, with protests and petitions to intervene due on or before June 6, 1975. Petitions to intervene were filed by Michigan Consolidated Gas Company, Wisconsin Public Service Corporation, North Central Public Service Company, Wisconsin Gas Company, Northern States Power Company of Minnesota and Northern States Power Company of Wisconsin. No petitioner has expressed opposition to Great Lakes' petition. The Northern States companies request that this Commission take whatever action is necessary to protect their supply of Canadian gas at the lowest reasonable rate.

Examination of Midwestern's filing indicates that the company has no available alternative supply of natural gas to replace the volumes imported from Canada. Upon review, we find that continuation of importation under the increased prices would be consistent with the public interest, subject, however, to the condition that any further increase in the price Midwestern is required to pay will require further amendment to its import authorizations.

*The Commission finds:*

(1) Midwestern's authorizations for the importation of natural gas from TransCanada should be amended to permit Midwestern to continue such importation at a price of $1.40 per MMBtu (Canadian), effective August 1, 1975, and $1.60 per MMBtu (Canadian), effective November 1, 1975, as hereinafter ordered, as such importation has been shown to be consistent with the public interest.

(2) Good cause exists to permit the intervention of the above-mentioned petitioners at those dockets in which their petitions were filed.

*The Commission orders:*

(A) Pursuant to the authority of the Natural Gas Act, particularly Section 3 thereof, Midwestern's import authorizations for importation of natural gas from Trans-Canada is hereby amended to permit Midwestern to import natural gas at the price of $1.40 per MMBtu, (Canadian) effective August 1, 1975, and $1.60 per MMBtu, (Canadian) effective November 1, 1975, as hereinafter ordered and conditioned.

(B) The above-mentioned petitioners to intervene are hereby permitted to intervene at those dockets in which their respective petitions were filed subject to the Rules and Regulations of the Commission; *Provided, however,* that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further* that the admission of such intevenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

## NORTHWEST PIPELINE CORP.

### Order Accepting for Filing and Making Effective Without Suspension Proposed Rate Increase, Amending Import Authorizations, Granting Interventions Granting Waiver, and Consolidating Proceeding

JULY 28, 1975.

On May 15, 1975 Northwest Pipeline Corporation (Northwest), filed a petition to amend its import authorizations to permit it to continue the importation of natural gas from Canada at increased prices. Northwest's petition is predicated on the fact that on May 5, 1975, the Canadian government announced that export licenses would be amended to provide that the export price for natural gas would be increased to $1.40 per MMBtu (Canadian) effective August 1, 1975, and to $1.60 per MMBtu (Canadian) effective November 1, 1975. Northwest purchases gas from Westcoast Transmission Company Limited at Sumas, Washington and Kingsgate, British Columbia. Such importation accounts for most of Northwest's annual gas supply.

Notice of Northwest's petition to amend its import authorizations was issued on May 22, 1975, with protests and petitions to intervene due on or before June 17, 1975. Petitions to intervene were filed by Cascade Natural Gas Corporation, Colorado Interstate Gas Company, Intermountain Gas Company, Mountain Fuel Supply Company, Northwest Natural Gas Company, and the Washington Utilities and Transportation Commission. No petitioner has expressed opposition to Northwest's petition.

Examination of Northwest's filing indicates that the company has no available alternative supply of natural gas to replace the volumes imported from Canada. Upon review, we find that continuation of importation under the increased prices would be consistent with the public interest, subject, however, to the condition that any further increase in the price Northwest is required to pay will require further amendment to its import authorizations.

In addition to its petition to amend its import authorizations, Northwest, on May 15, 1975, tendered for filing, at Docket No. RP72-154 (PGA75-5), a proposed adjustment in its rates[1] to flow through the increase in its cost of purchased gas attributable to the $1.40 per MMBtu (Canadian) price to become effective August 1, 1975. The estimated annual effect of this increase will approximate 115.9 million. Northwest requests waiver of applicable Commission Regulations so as to permit an August 1, 1975 effective date.

Notice of Northwest's proposed PGA changes was issued on May 17, 1975, with protests and petitions to intervene due on or before June 5, 1975. Petitions to intervene were filed by Cascade Natural Gas Corporation, Northwest Natural Gas Company and the Washington Water Power Company. No petitioner expresses opposition to Northwest's rate increase application.

On May 16, 1975, Northwest filed a motion requesting consolidation for purposes of decision of the PGA increase proceedings with those relating to its application for amendments to its import authorization. Northwest also requests expedition in our rendering of a decision. For purposes of these two applications, we shall grant these requests.

Our review of Northwest's proposed increase indicates that it should be permitted to reflect the increase in its cost of purchased gas attributable to the $1.40 per MMBtu (Canadian) price effective as of August 1, 1975.

*The Commission finds:*

(1) Northwest's authorizations for the importation of natural gas from Canada should be amended to permit Northwest to continue such importation at a price of $1.40 per MMBtu (Canadian), effective August 1, 1975, and $1.60 per MMBtu (Canadian), effective November 1, 1975, as hereinafter ordered, as such importation has been shown to be consistent with the public interest.

(2) Good cause exists to grant Northwest's request to consolidate its PGA rate increase application proceedings with those relating to its application for amendment of import authorizations for purposes of rendering a decision and to expedite the rendering of such decision.

(3) It is necessary and proper in the public interest that Northwest's proposed rate increase should be accepted for filing, to be placed into effect as of August 1, 1975.

(4) Good cause exists to grant waiver of those Regulations necessary to allow Northwest's rate increase application to be placed into effect as of August 1, 1975.

(5) Good cause exists to permit the intervention of the above-mentioned petitioners at those dockets in which their petitions were filed.

*The Commission orders:*

(A) Pursuant to the authority of the Natural Gas Act, particularly Section 3 thereof, Northwest's import authorizations for importation of natural gas from Canada are hereby amended to permit Northwest to import natural gas at the price of $1.40 per MMBtu, (Canadian), effective August 1, 1975, and $1.60 per MMBtu, (Canadian) effective November 1, 1975, as hereinafter ordered and conditioned.

(B) Northwest's request to consolidate and expedite the subject proceeding is hereby granted.

(C) Northwest's proposed PGA increase filing of May 15, 1975 set forth as Eight Revised Sheet No. 10 to FPC Gas Tariff Original Volume No. 1, is hereby accepted for filing as of August 1, 1975, to be placed into effect on August 1, 1975, and waiver of the Commission's Regulations to allow such effective date is hereby granted.

(D) Any further change in the price Northwest is to pay for the importation of Canadian gas will require further amendment of its import authorization.

(E) The above-mentioned petitioners to intervene are hereby permitted to intervene at those dockets in which their respective petitions were filed subject to the Rules and Regulations of the Commission; *provided, however,* that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *provided, further,* that the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

## PAN AMERICAN PETROLEUM CORPORATION, ET AL.

### Order Directing Release of Refunds

JULY 29, 1975.

On December 2, 1974, as amended on January 31, 1975, Columbia Gas Transmission Corporation (Columbia) as successor to United Fuel Gas Company (United Fuel), filed in the above-referenced dockets a petition requesting the Commission to order the release of certain refund monies being retained by Pan American Petroleum Corporation (Pan American).

Notice of Columbia's petition was issued on December 16, 1974, providing for protests or petitions to intervene to be filed on or before December 23, 1974. No protests, petitions to intervene or other comments have been received in response to the notice.

The refunds here in question arise from the Commission's order issued on Docket No. G-9279 on April 13, 1966, (35 FPC 502), approving a rate settlement encompassing 257 of Pan American's then-effective FPC gas rate schedules. On September 11, 1969, (38 FPC 586), the Commission ordered the partial release of refunds in accordance with the above settlement. Pan American was directed to refund $5,610,142.77 to United Fuel in Docket No. G-9279, but was directed to retain the balance of $2,572,-229.77, representing payments for gas purchased by United Fuel under Pan American rate schedules which became effective subsequent to June 1, 1961. These amounts were required to be retained because United Fuel had not agreed to flow them through to its jurisdictional customers. The Commission stated that these funds ". . . will be dealt with in separate proceedings concerning the claims of the respective customers that they are entitled to retain such amounts . . ." (38 FPC 588). Pan American was directed to pay interest on the retained refunds at the rate of 5½ percent per annum from May 20, 1966 until the date of payment.

Columbia bases its claim of entitlement to the refunds in question on the terms of United Fuel's Commission-approved rate settlement in Docket No. G-20270. Article II(2) of the approved Stipulation and Agreement provides, in pertinent part, that "United shall not be required in this docket to pass on any refunds it may receive from suppliers as a

V40I150 AUG 4 75 XUM

result of the final determination of gas purchase increases which became effective after June 1, 1961, and which are not reflected in United's rates in this docket, No. G–20270." Pan American's rate increases which became effective subsequent to June 1, 1961, and which give rise to the refunds here at issue, were in fact not reflected in United's rates during the applicable refund period.

It follows from the foregoing that Columbia is entitled to retain the refunds plus accrued interest under the terms of the above-mentioned rate settlement agreement, and Columbia's petition seeking the release of these refunds will accordingly be granted.

*The Commission orders:*

(A) Pan American Petroleum Corporation is hereby directed to disburse to Columbia, within 30 days from the date of this order, the sum of $2,572,229.77, together with interest thereon at the rate of 5½ percent per annum for the period May 20, 1966, until the date of payment.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. E–8224; Opinion No. 730–A]

## SIERRA PACIFIC POWER CO.

### Opinion and Order Granting Rehearing in Part and Reopening the Record

JULY 16, 1975.

On May 15, 1975, the Commission issued Opinion No. 730 which resolved numerous issues related to the May 22, 1973, wholesale rate increase filing of Sierra Pacific Power Company (Sierra). Then on June 16, 1975, intervenors Truckee-Donner Public Utility District, California and the City of Fallon, Nevada (T-D and Fallon) applied for rehearing of Opinion No. 730, though only as to the Commission's rate of return determination.

In establishing a fair rate of return in Opinion No. 730 the Commission accepted the 12.50% return on common equity provided in the initial decision but increased the overall rate of return from the 8.6% set in the initial decision to 8.9%.[1] In affirming the 12.5% return on common equity the Commission found the following: (1) 12.5% return is sufficient to insure Sierra's financial integrity; therefore, Sierra's higher proposal is excessive. (2) Staff's lower proposal appears reasonable when compared to the utility averages employed for the 1972 test year; however, post-1972, beyond-the-record financial data[2] demonstrates that Sierra needs a 12.5% return on equity. (3) There is prior Commission precedent for looking beyond the record for financial data, when, as here, the rate filing does not encompass a "locked-in" period. (4) In particular 1973 data was gleaned from the Commission's *A Study of the Electric Utility Industry*, while 1974 data came from *Moody's Public Utility*. (5) This same beyond-the-record data was employed in updating Sierra's capital structure and embedded cost of long-term debt, which had increased over that in the record, resulting in a higher overall rate of return of 8.9%.

[1] See table below.

| | Return on equity (percent) | Overall return (percent) |
|---|---|---|
| Staff | 11.75 | 8.34 |
| Sierra | 13.62 | 9.0 |
| Initial decision | 12.5 | 8.6 |
| Opinion No. 730 | 12.5 | 8.9 |

T-D and Fallon contend that only Staff's rate of return recommendation is supported by the record, arguing primarily that the Commission has no legal authority to consider material not included in the record. It advances several supporting rationale: (1) This beyond-the-record financial data neither existed before the close of the record nor was in the contemplation of the parties during the hearing. As a result, this data was not subjected to the essential scrutiny of cross-examination. (2) The parties had stipulated to the capital structure and embedded cost of debt, and this stipulation, pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure, should control the hearing unless good cause exists to modify it. (3) They attempt to distinguish the prior Commission precedent relied upon in Opinion No. 730,[3] to-wit: no approved stipulations were present; the rationale of those cases, that use of post-test year embedded costs of debt would prevent repeated rate filings, is no longer applicable for such filings are more frequent today, as indicated by the new two-year period for amortizing rate case expenses approved in Opinion No. 730; and the beyond-the-record data in those cases was not employed to increase the return on common equity, as it was in the present case. (4) The parties have allegedly been denied their right to a fair hearing as is mandated by section 205(e) of the Federal Power Act and Due Process.[4]

We find that T-D and Fallon's application for rehearing in part justifies modification of Opinion No. 730; therefore, we grant rehearing for the limited purpose of reopening the record in order to provide a hearing to test the credibility of the beyond-the-record financial data[5] relied upon by the Commission in establishing rate of return. In all other respects, however, the Commission's use of beyond-the-record financial data in Opinion No. 730 is reaffirmed.

The foundation for this approach to rate of return determination is our holdings in *Union Electric* and *Algonquin Gas*, *supra* Note 3. In both opinions the Commission utilized the utilities' most recent capital structure and embedded cost of debt, even though this was subsequent to the test year, the closing of the record, and the issuance of the initial decision. The following factors were instrumental in these holdings: (1) Such post-test year additional financing was "no longer either future or speculative." (2) It has already occurred and is of "public knowledge." (3) To ignore actual beyond-the-record debt issues would be "self defeating regulatory policy" for it would stimulate frequent successive filings having an unstabilizing price impact. (4) Capitalization costs should be an exception to the normal requirement of synchronized revenues, expenses and investment because they differ from other costs (i.e., construction, labor, equipment, and fuel), which change in predictable directions and are offset by predictable changes in efficiency, technology and market growth. "Interest rates and other security yields have tended to rise and fall rather sporadically and often unexpectedly over time without equally visible and convincing evidence of offsetting cost trends."

The treatment of capital costs in *Union* and *Algonquin* is, in terms of regulatory policy, a rational and sound divergence from the traditional requirement that all evidence be subject to hearing and cross-examination. Although this approach is a dramatic departure from traditional rate case procedure, the unrealistic and greatly askewed results caused by ignoring this subsequent capital activity precipitated this Commission action. These opinions directly support the increase of the overall rate of return from 8.6% to 8.9% due to the change in capital structure and embedded cost of debt from March 31, 1973, the date used in the stipulation, to December 31, 1974. While these opinions were expanded upon when the Commission considered 1973 and 1974 financial data (realized return on common equity, price/earnings ratio and market/book ratio) in arriving at a return on common equity, the previously enumerated rationale of *Union* and *Algonquin* also applies to equity financing.

T–D and Fallon's reliance upon the approved stipulation as to capital structure is not determinative. The Commission is not necessarily precluded from going beyond the stipulation. Good cause has been shown to not rely completely on this stipulation which the Commission was aware of in Opinion No. 730.[6] This

[2] In particular the Commission considered Sierra's end of 1974 capital structure and embedded costs of debt, as well as Sierra's realized return on common equity, price/earnings ratio and market/book ratio for 1973 and 1974.

[3] *Union Electric Company*, Opinion No. 669, 47 FPC 144, 155 (1972); and *Algonquin Gas Transmission Company*, Opinion No. 571; 43 FPC 53, 60 (1970).

[4] *U.S.* v. *Florida East Coast Railroad Company*, 410 U.S. 224, 245 (1973); and *Morgan* v. *U.S.*, 304 U.S. 1, 18–19 (1937).

[5] *Supra*, Note 2.

data, which is of public knowledge and is not speculative, should be considered so as to reflect the actual up-to-date financial condition of Sierra, thereby not unnecessarily stimulating another rate filing.

It should be emphasized that the financial data gleaned from the financial reporting services and Sierra's annual report in Opinion No. 730 possesses independent reliability which further justifies use of this beyond-the-record evidence: Sierra is motivated to not report an artificially pessimistic financial picture (which would tend to increase the rate of return allowed by the Commission) since investors in the capital market rely upon these services and Sierra's annual report, which means that false reporting of financial troubles would only serve to increase Sierra's capital costs.

In spite of these justifications the use of beyond-the-record financial data in Opinion No. 730 to set a rate of return may conflict with procedural Due Process guaranteed by the Fifth Amendment. To begin with, Due Process clearly applies to adjudicatory administrative proceedings,[7] and it requires that agency findings be based upon record evidence. This is not, however, an absolute rule: "the mere fact that the determining body has looked beyond the record proper does not invalidate its action unless substantial prejudice is shown to result."[8] For example, in certain situations agency consideration of a beyond-the-record regulated company's report filed with the agency has been approved.[9] The financial data at issue here does not, however, seem to fit this exemption from the Due Process hearing requirement.

In order to retain the salutary regulatory effect of considering this beyond-the-record data but at the same time affording all parties a fair hearing we are going to reopen the record to permit any party to impeach the reliability and credibility of this data. A hearing will be convened before an Administrative Law Judge, who will thereafter certify the record of that hearing to the Commission so that it may reassess the financial data employed. The following beyond-the-record material was considered by the Commission and may be subjected to both cross-examination and rebuttal evidence:

(1) Sierra's capital structure and embedded costs of long term debt and preferred stock as of December 31, 1974 were supplied by Sierra upon Commission request and are also essentially reiterated in Sierra's 1974 annual report:

| | Amount | Ratio | Cost factor | Weighted component |
|---|---|---|---|---|
| | *Dollars* | *Percent* | *Percent* | *Percent* |
| Long-term debt | 130,360,491 | 57.23 | 7.26 | 4.15 |
| Preferred stock | 24,025,000 | 10.55 | 6.79 | .72 |
| Common equity | 73,380,226 | 32.22 | | |
| Total | 227,765,717 | 100.00 | | |

(2) Sierra's 1974 return on common equity of 11.53% was ascertained by the Commission from the following calculation using common equity data found in Sierra's annual report:

$$\frac{\$8,463,000 \text{ (Net income for common equity)}}{\$73,380,000 \text{ (Common equity)}} = 11.53\%$$

(3) In arriving at Sierra's 1974 price/earnings ratio of 6 the Commission first of all derived the average market price from the price range as reported in Standard and Poor's *Listed Stock Reports* and employed the earnings per average share as found in both Sierra's annual report and Standard and Poor's:

$$\frac{\$9.75 \text{ (Average market price per share, computed from a 1974 high of } 11\tfrac{7}{8} \text{ and a low of } 7\tfrac{5}{8})}{\$1.60 \text{ (Earnings per average share)}} = 6$$

(4) In arriving at Sierra's 1974 market/book ratio of .70 the Commission took the above-derived average market price, as well as computing the average book value per share from data found in Sierra's annual report:

$$\frac{\$9.75 \text{ (Average market price per share)}}{\$13.88 \text{ (Average book value per share, as calculated by dividing Sierra's common equity of } \$73,380,000 \text{ by the average number of outstanding shares of common stock, } 5,288,351)} = .70$$

(5) Sierra's 1973 return on common equity, price/earnings ratio, and market/book ratio were all taken directly from *A Study of the Electric Utility Industry*, Appendix G, page 3, line 33, prepared by the Division of Finance and Statistics, Office of Accounting and Finance, Federal Power Commission in September 1974.

The reopening of the record shall be limited to consideration of the aforementioned items. Inquiry into the computations made and the base data employed will be permitted, but no other matters shall be entertained. The Commission hopes that the parties will be able to complete this reopening by use of interrogatories answered under oath, although a hearing will be established.

The Commission foresees that the major focus of any party participating in the reopening will be upon Sierra's agent who is responsible for the financial data appearing in its annual reporting and provided to the financial reporting services. This agent should be in attendance at the hearing for purposes of cross-examination.

*The Commission further finds:*

T–D and Fallon's June 16, 1975, application for rehearing of Opinion No. 730 presents a ground for rehearing which warrants a modification in Opinion No. 730 to the extent that the record should be reopened for the limited purpose of permitting examination of the beyond-the-record financial data considered by the Commission in establishing a rate of return for Sierra.

*The Commission orders:*

(A) T–D and Fallon's June 16, 1975, application for rehearing of Opinion No. 730 is hereby granted in part.

(B) The record in this proceeding is hereby reopened for the limited purpose of and solely to the extent that the previously enumerated financial data may be subjected to cross-examination and rebuttal evidence going to its reliability and credibility.

(C) A public hearing for this reopening shall be commenced if necessary August 18, 1975, at 10:00 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 C.F.R. § 3.5d) shall preside over this reopening of the record.

(E) Any interested party shall file and serve any evidence on or before August 11, 1975.

(F) The Presiding Administrative Law Judge shall certify to the Commission all written evidence and the record of the hearing at the close of the hearing.

By the Commission.

## J. G. STONE

### Order Setting Hearing Date and Prescribing Procedure

JULY 29, 1975.

On October 31, 1974, J. G. Stone (Stone) filed in Docket No. CI75–277 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas to United Gas Pipeline Company (United) from certain acreage in the Keeran Field, Victoria County, Texas, R. R. District No. 2 (Texas Gulf Coast Area).

[6] "There is no dispute concerning either Sierra's capital structure or the embedded cost of debt and preferred stock." Opinion No. 730, *supra*, slip op. at 3.

[7] *Ohio Bell Telephone Company* v. *Public Utilities Commission of Ohio*, 301 U.S. 292, 304 (1937).

[8] *U.S.* v. *Pierce Auto Freight Lines, Inc.*, 327 U.S. 515, 530 (1946).

[9] *Market Street Railway Company* v. *Railroad Commission of California*, 324 U.S. 548, 562 (1945); and *Wisconsin* v. *F.P.C.*, 201 F.2d 183, 186 (D.C. Cir. 1952), *cert. denied*, 345 U.S. 934 (1953).

V40I150 AUG 4 75 XUM

Stone requests abandonment authorization for a sale of gas to United covered under a contract dated January 8, 1941—Sun Oil Company's (Sun), the predecessor's, FPC Gas Rate Schedule No. 293. By agreement dated October 17, 1971, United has agreed to the cancellation of the subject contract, inasmuch as no gas has been delivered from the subject properties to United since May 17, 1962.

By letter dated March 14, 1975, in reply to the Staff's inquiry, Stone advised that when the field declined to the point where Sun intended to plug and abandon the subject wells because it was not economically feasible to continue operations, he acquired the properties for salvage value. Before plugging the wells, Stone, together with a few other individuals, decided to risk completing "wildcat" sands in the existing wells. The group's efforts resulted in the production of a small amount of shallow gas from oil sands. Stone presumes that Sun's expert geologists, engineers and other personnel felt that these small sands were not worth producing or else Sun would not have sold the properties to Stone for salvage value. Upon receipt of abandonment authorization, Stone contemplates negotiating with local companies to sell whatever residue gas he has available rather than having to plug the small sands and lose the gas.

An alternative in a situation such as that faced by Stone is to submit a request for special relief pursuant to Section 2.76 of the Commission's General Policy and Interpretations (18 CFR 2.76), which permits independent producers to apply for relief from area rates with respect to sales of natural gas from reservoirs where reduced pressures, the need for reconditioning or deeper drilling make further production uneconomical at existing prices. Section 2.76 provides that applicants for relief under such policy shall establish economic justification for their request, including information on additional costs, the unit price which would justify the additional expenditure and the amount of gas to be recovered and sold in the interstate market.

*The Commission finds:*

It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

*The Commission orders:*

(A) Pursuant to the authority of the Natural Gas Act, particularly Sections 7 and 15 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on September 9, 1975, at 10:00 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, concerning the issue of whether the available supply of natural gas is depleted to the extent that the continuance of service is unwarranted, or that the present or future public convenience or necessity permit such abandonment.

(B) On or before August 25, 1975, Stone and any supporting party shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(C) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's Rules of Practice and Procedure and the purposes expressed in this order.

By the Commission.

## B. JOHN YEAGER

### Supplemental Application

JULY 28, 1975.

Take notice that on July 10, 1975, B. John Yeager (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to Section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Chairman of the Board, The Cincinnati Gas & Electric Company, Public Utility.

Chairman of the Board, The Union Light, Heat and Power Company, Public Utility.

The Cincinnati Gas & Electric Company (Cincinnati Gas) whose principal place of business is located in Cincinnati, Ohio, and is engaged in electric production, distribution and gas distribution.

The Union Light, Heat and Power Company (Union Light) whose principal place of business is located in Covington, Kentucky is engaged in electric and gas distribution.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 18, 1975 file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

[Rate Schedule Nos. 53, etc.]

## GENERAL AMERICAN OIL CO. OF TEXAS, ET AL.

### Rate Change Filings

JULY 29, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974. Pursuant to Opinion No. 699-H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before August 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's Rules.

## McDOWELL COUNTY CONSUMERS COUNCIL, INC., ET AL.

### Order Instituting Investigation and Establishing Procedures

In the matter of McDowell County Consumers Council, Inc. v. American Electric Power Company, *et al.*, American Electric Power Service Corporation, Appalachian Power Company, Central Appalachian Coal Company, Cedar Coal Company, Central Coal Company, Central Operating Company, Kanawha Valley Power Company, Southern Appalachian Coal Company, West Virginia Power Company, Franklin Real Estate Company, Indiana Franklin Realty, Inc., Indiana & Michigan Electric Company, Indiana & Michigan Power Company, Kentucky Power Company, Kingsport Power Company, Ohio Power Company, Beech Bottom Power Company, Inc., Southern Ohio Coal Company, Cardinal Operating Company, Central Operating Company, Central Ohio Coal Company, Windsor Power House Coal Company, Ohio Electric Company, Ohio Valley Electric Corp., Indiana-Kentucky Electric Corporation, Twin Branch Railroad Company, Wheeling Electric Company, Michigan Power Company, Michigan Gas Exploration Company, Michigan Electric Power Company.

JULY 29, 1975.

On January 16, 1975, we issued a Notice of Filing of Complaint in this docket. In the notice we stated that we had received a letter dated October 25, 1974, which we would treat as a complaint in the above-captioned docket concerning certain practices of Appalachian Power Company (APCO) which may be contrary to the Federal Power Act. The letter signed by an attorney for the Appalachian Research and Defense Fund, Inc. was forwarded to this Commission by letter dated November 6, 1974, by the office of the Subcommittee on Budget, Management and Expenditure of the Senate Committee on Government Operations.

We forwarded a copy of the complaint to APCO on January 16, 1975 and required an answer within thirty days. On February 18, 1975, APCO filed a motion to dismiss the complaint. By order issued March 17, 1975, we denied APCO's motion to dismiss and ordered APCO to answer the complaint. On April 30, 1975, APCO filed its answer to the complaint and renewed its motion to dismiss. McDowell County Consumer Council, Inc. filed a response to the motion to dismiss on May 30, 1975.

In response to the Notice of Complaint three other parties have filed comments and requests to participate in any investigation which we may order. These parties are Richmond Power and Light of the City of Richmond, Indiana (RP&L), Environmental Action Foundation (EAF), and the State of Michigan (Michigan). We shall treat all these responses as petitions to intervene and grant them. All of the petitioners noted that APCO is a subsidiary of American Electric Power Company (AEP) and each urged that any investigation be broadened in scope to encompass the activities of the entire AEP system. RP&L and Michigan expressed direct concern with the practices of the AEP subsidiary Indiana & Michigan Electric Company (I&M). RP&L requests a prehearing conference to define the scope of any investigation and set procedures for discovery.

The original complaint raised questions concerning the pricing of APCO's affiliate produced coal for the purposes of implementing the fuel adjustment clause applied to retail consumers; the purchasing by APCO of coal on the spot market at prices above the cost of affiliate produced coal at a time when such affiliate produced coal was being sold to I&M, the shifting of coal between or among AEP subsidiaries; the conducting of an advertising campaign by AEP concerning strip mining regulation and Clean Air Act standards; and the purchasing and bargaining for coal contracts generally. In connection with the last question, the complaint noted the disparity between the terms of AEP contracts for Western coal and Eastern coal and the possibility of abuse arising over differing sulphur concentrations in coal.

In its motion to dismiss and answer to the complaint APCO questioned the standing of the McDowell County Consumers Council, Inc. (McDowell) to lodge a complaint with this Commission. APCO noted that questions concerning the implementation of the fuel adjustment clause in use for retail consumers are beyond the jurisdiction of this Commission, and that in any event, APCO has been following the orders of the West Virginia Public Service Commission in implementing the retail fuel adjustment clause. APCO also contends that the pricing of coal purchased from affiliates is regulated by the Securities and Exchange Commission (SEC). Further, APCO denied any wrongdoing in the purchasing, contracting for, or shifting of coal among its affiliates.

With respect to APCO's questioning of the standing of McDowell to lodge a complaint, McDowell has answered that it is an organization designed to protect the consumers of McDowell County, West Virginia. Many consumers in McDowell County are served by wholesale customers[1] of APCO. These consumers are directly affected by the actions and practices of APCO. We find that an organization which represents these consumers has standing to file a complaint.

With respect to the allegations concerning APCO's retail fuel adjustment clause, we find that this Commission is without authority to remedy abuses related to retail fuel adjustment clauses because this is a matter subject to state jurisdiction. This Commission has jurisdiction over AEP affiliates' wholesale fuel adjustment clauses and is exercising that authority in the investigation we herein undertake. Accordingly, we shall not investigate the operation of retail fuel adjustment clauses in this proceeding. With respect to the allegations concerning AEP's advertising policies, practices and expenditures, we find it appropriate to include such a part of the investigation herein instituted, provided, however, that the investigation into AEP advertising be limited to matters affecting the coal procurement practices and policies of AEP and its affiliates.[2]

APCO contends that the prices charged for coal by affiliated companies is subject to the regulation of the SEC. The investigation herein instituted is for the purpose of fulfilling this Commission's statutory obligation as expressed in Sections 202, 205, 206, 301, 306, 307 and 309 of the Federal Power Act which are in no way repugnant to the exercise of any authority which the SEC may choose to assert under its statute.

APCO's answer however is not sufficient to lay to rest the basic allegations concerning its coal-related policies, practices and procedures. There are contradictory statements in the various pleadings as to cost of coal purchased from nonaffiliated sources.[3] The question of the prudence of APCO's purchases cannot be settled on the basis of the pleadings. Moreover, a review of the complainant's pleadings indicate that an investigation of the entire AEP system as it relates to coal is required. APCO is but a single member of a large complex system of interconnected companies which operate as a single integrated operating system. In order to understand the operations of any affiliated company, such as APCO, it is obvious that the structure of the AEP system and the relationship between the affiliates in the system will have to be examined as each relates to coal. Accordingly, we shall make AEP and the operating companies within its system respondents in this proceeding. In order that this investigation be limited to the items heretofore specified, we shall confine the examination of the structure of and relationships in the AEP system to questions related to coal purchasing, shifting, and production, the wholesale fuel adjustment clauses, and advertising policies, practices and expenditures as they relate to coal procurement and use.

Accordingly, an investigation shall be instituted concerning the following:

(A) The reasonableness and prudence of AEP's and its affiliate's coal purchase policies and practices as well as all factors influencing or affecting the delivered price of coal including but not limited to:

---

[1] Kimball Light and Water Company and Elkhorn Public Service Company.

[2] Advertising practices of APCO as well as other AEP affiliates unrelated to coal procurement policies, practices and expenditures may be subject to review in individual rate proceedings involving the affiliates.

[3] See APCO Answer filed April 30, 1975, at pages 12-13, McDowell Response, filed May 30, 1975, at page 5, APCO amendment and answer filed June 13, 1975.

V40150 AUG 4 75 XUM

(1) the price paid for non-affiliate produced coal
(2) the price paid for affiliate produced coal
(3) the relation of prices paid for affiliate produced coal to cost of producing the coal
(4) the contracts for coal which have been executed and the circumstances and policy related to their execution
(5) the conditions, policies, and practices which determine whether coal is purchased on the spot market, under long term contract, or from affiliates
(6) the conditions, policies, and practices which determine whether coal is purchased in the Eastern or Western markets.
(7) the conditions, policies and practices which determine whether and to what degree coal is shifted from one AEP affiliate to another
(8) the reasonableness and prudence of such shifts from one affiliate to another
(B) The manner in which AEP and its affiliates implement their wholesale fuel adjustment clauses.
(C) The relationships betwen AEP's advertising expenditures and the system's policies and practices with respect to coal.

In order to expedite this investigation we shall order a pre-hearing conference at which a Presiding Administrative Law Judge shall set further procedural dates, establish procedures for expeditious discovery of the relevant facts, and receive the views of the parties on such other matters as affect the conduct of the investigation herein ordered.

*The Commission finds:*

(1) Good cause exists to enter upon an investigation of certain practices and policies of the AEP system.

(2) Good cause exists to grant RP&L's, EAF's and Michigan's petitions to intervene.

(3) Good cause exists to designate those parties listed in Appendix I as party respondents.

*The Commission orders:*

(A) Pursuant to Sections 205, 206, 301, 306, 307, and 309 of the Federal Power Act we hereby institute and enter upon an investigation into the complaint of the McDowell County Consumer Council, Inc. The investigation herein ordered shall concern:

(A) The reasonableness and prudence of AEP's and its affiliate's coal purchase policies and practices as well as all factors influencing or affecting the delivered price of coal including but not limited to:
(1) the price paid for non-affiliate produced coal
(2) the price paid for affiliate produced coal
(3) the relation of prices paid for affiliate produced coal to cost of producing the coal
(4) the contracts for coal which have been executed and the circumstances and policy related to their execution [4]
(5) the conditions, policies, and practices which determine whether coal is purchased on the spot market, under long term contract, or from affiliates
(6) the conditions, policies, practices which determine whether coal is purchased in the Eastern or Western markets
(7) the conditions, policies and practices which determine whether and to what degree coal is shifted from one AEP affiliate to another
(8) the reasonableness and prudence of such shifts from one affiliate to another
(B) The manner in which AEP and its affiliates implement their wholesale fuel adjustment clauses.
(C) The relationships between AEP's advertising expenditures and the system's policies and practices with respect to coal.
(B) A prehearing conference shall be held at 10:00 A.M., August 26, 1975, for the purposes of setting further procedural dates, establishing procedures for expeditious discovery of the relevant facts, and receiving the views of the parties on the such other matters as affect the conduct of the investigation herein ordered.
(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the pre-hearing conference and at the later hearings, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies and limitations expressed in this order.
(D) The above-named petitioners are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however*, that participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further*, that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.
(E) The parties listed in Appendix I are hereby designated party respondents.
(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[4] The coal contracts subject to this investigation shall include all coal contracts whether or not required to be submitted pursuant to Commission Order No. 517.

## FEDERAL RESERVE SYSTEM

### CENTRAL BANCORPORATION, INC.

#### Order Approving Acquisition

The Central Bancorporation, Inc., Cincinnati, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of The Shawnee Life Insurance Company, Phoenix, Arizona ("Shawnee"), a company that will engage *de novo* in the activity of reinsuring credit life and credit accident and health insurance issued to borrowers in connection with extensions of consumer credit by subsidiaries of Applicant. Such activity has been determined by the Board to be closely related to banking (12 C.F.R. § 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (40 Federal Register 23544). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. § 1843(c)(8)).

Applicant, the ninth largest banking organization in Ohio, controls eight banks with aggregate deposits of approximately $986 million, representing 3.4 per cent of the total deposits in commercial banks in the State.[1]

[1] All banking data are as of December 31, 1974, and reflect holding company formations and acquisitions approved by the Board through June 30, 1975.

Shawnee will engage *de novo* in the activity of acting as reinsurer of credit life and credit accident and health insurance directly related to extensions of consumer credit by Applicant's present and future subsidiaries. Credit life and credit accident and health insurance is generally made available by banks and other lenders and is designed to assure repayment of a loan in the event of death or disability of the borrower. Since Applicant proposes to engage *de novo* in this activity, consummation of the proposal would not have any significant adverse effects on existing or potential competition in any relevant area.

Applicant has stated that, in the event of approval of its proposal, Shawnee would offer various types of credit insurance at rates below those permitted under State law. In particular, Shawnee would offer credit life insurance at a premium rate 4 percent below the statutory maximum and, if credit disability insurance is reinsured, credit disability insurance at a premium rate 5 percent below the statutory maximum. In addition, Shawnee would extend the maximum age for purchasing credit life insurance to the borrower's 66th birthday. Presently, Applicant's subsidiaries' customers can only purchase from Applicant or its subsidiaries credit life insurance prior to their 65th birthday and at the statutory maximum rates.

The Board regards Applicant's proposed premium rate reductions and increase in policy coverage as procompetitive and in the public interest and expects that such rate reductions and increase in policy coverage will be instituted immediately upon Shawnee's commencement of credit insurance underwriting.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in section 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Cleveland, pursuant to authority hereby delegated.

By order of the Board of Governors,[2] effective July 25, 1975.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[2] Voting for this action: Governors Holland, Wallich, Coldwell and Jackson. Absent and not voting: Chairman Burns and Governors Mitchell and Bucher.

### FEDERATED CAPITAL CORP.

#### Proposal To Engage in Underwriting of Credit-Related Insurance

Federated Capital Corporation, Houston, Texas, has applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to engage in the activities of underwriting, as a Texas insurer, credit life and credit accident and health insurance for Applicant's banking system through Financial Protection Insurance Company of Texas, Houston, Texas, a proposed new company. Notices of the application were published between June 19 and June 26, 1975, inclusive, in newspapers of general circulation in the following locations: Austin, Houston, San Antonio, Corpus Christi, and New Braunfels, Texas.

Applicant states that the proposed subsidiary would engage in those activities at the aforementioned locations in Texas. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 27, 1975.

Board of Governors of the Federal Reserve System, July 25, 1975.

### NORTHWEST BANCORPORATION

#### Order for Hearing

On March 21, 1975, the Board of Governors of the Federal Reserve System ordered a hearing, pursuant to a decision by the United States Court of Appeals for the Eighth Circuit, on the application of Northwest Bancorporation to acquire T. G. Evansen and Associates, a corporation which provides financial and investment advice to State and local governments. Pursuant to that Board Order (40 FR 14376), Philip J. LaMacchia, former Administrative Law Judge, now retired, has been appointed as the Presiding Officer to conduct the hearing in accordance with the Board's Rules of Practice for Formal Hearings (12 CFR Part 263).

The hearing will commence at 10:00 a.m. on September 16, 1975, at the Federal Reserve Bank of Minneapolis, and it will be open to the public.

By Order of the Secretary of the Board, acting pursuant to delegated authority from the Board of Governors, effective July 24, 1975.

### SOUTHERN ILLINOIS BANCORPORATION, INC.

#### Formation of Bank Holding Company

Southern Illinois Bancorporation, Highland, Illinois, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 95 per cent or more of the voting shares of Farmers and Merchants Bank of Highland, Highland, Illinois. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Southern Illinois Bancorporation, Inc., Highland, Illinois has also applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to act as broker for insurance directly related to extensions of credit by its proposed subsidiary bank. Notice of the application was published on June 25, 1975 in Highland News Leader, a newspaper circulated in Highland, Illinois.

Applicant states that the proposed subsidiary would engage in insurance activ-

ities as broker for insurance directly related to extension of credit by a bank, such as credit life and credit accident and health insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 29, 1975.

## GENERAL SERVICES ADMINISTRATION

### EXECUTIVE BRANCH POSITION ON COMMISSION ON GOVERNMENT PROCUREMENT

#### Recommendations D–16 and D–17

Recommendation D–16 is to—"Assign responsibility for consistent and equitable implementation of legislative policy concerning food acquisition to the Office of Federal Procurement Policy or to an agency designated by the President."

Recommendation D–17 is to—"Establish by legislation a central coordinator to identify and assign individual agency responsibilities for management of the Federal food quality assurance program."

The enactment of the Office of Federal Procurement Policy Act (Public Law 93–400) resulted in the acceptance by the executive branch of Recommendations D–16 and D–17. The Act has the effect of vesting in the Administrator for Federal Procurement Policy the responsibility for food acquisition policy and the authority to assign individual agency responsibilities for management of the Federal food quality assurance program. Consequently, Recommendations D–16 and D–17 were implemented when the Office of Federal Procurement Policy was activated on December 31, 1974.

Dated at Washington, D.C. on July 25, 1975.

## REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

### Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 7, August 18, 1975, from 9:30 a.m. to 4:00 p.m., Room 12A01, Fritz G. Lanham Federal Building, 819 Taylor Street, Fort Worth, Texas. The meeting will be concerned with the review of the conceptual design for the Border Patrol Sector Headquarters, Marfa, Texas. Frank and open critical analysis of the proposed design is essential to insure that the design approach produces the best possible design solution. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b)(5) the meeting will not be open to the public.

## INTERNATIONAL TRADE COMMISSION

[AA1921-148]

### VINYL CLAD FENCE FABRIC FROM CANADA

#### Investigation and Hearing

Having received advice from the Department of the Treasury on July 24, 1975, that vinyl clad fence fabric from Canada, other than that produced and sold by General Wire and Cable Co., Ltd., is being, or is likely to be, sold at less than fair value, the United States International Trade Commission on July 29, 1975, instituted investigation No. AA1921–148 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

*Hearing.* A public hearing in connection with the investigation will be held in the Commission's Hearing Room, U.S. International Trade Commission Building, 8th and E Streets NW., Washington, D.C. 20436, beginning at 10:00 a.m. EDT, on Tuesday, September 9, 1975. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Commission, in writing, at its office in Washington, D.C., not later than noon Friday, September 5, 1975.

By order of the Commission.

Issued: July 30, 1975.

## NATIONAL SCIENCE FOUNDATION

### WORKSHOP ON INCREASING EFFICIENCY AND EFFECTIVENESS IN ELECTRICAL POWER GENERATION

#### Open Meeting

The National Science Foundation is convening a Workshop on Increasing Efficiency and Effectiveness in Electrical Power Generation on August 21 and 22, 1975, in the Main Conference Center, the MITRE Corporation, Westgate Research Park, McLean, Virginia. Both sessions will begin at 9:00 a.m. and the Workshop will adjourn at 4:00 p.m. on August 22. The purpose of the Workshop is to provide a forum for discussion of electrical power generation efficiency and effectiveness. While this ad hoc informal session is not considered to be a meeting of an "advisory committee" as that term is defined in Section 3 of the Federal Advisory Committee Act (P.L. 92–463), this Workshop is believed to be of sufficient importance and interest to the general public to be announced in the FEDERAL REGISTER as a meeting open for public attendance and participation. The agenda for the meeting is as follows:

AUGUST 21

Introduction and Overview
Technical Factors in Reducing Time and Cost of Construction
(a) Construction Factors
(b) Economies of Scale vs. Mass Production

AUGUST 22

Increasing Load Factors, Availability and Reliability
Future Electrical Systems and Peak Loading

Summary

The Workshop will be chaired by Mr. David Cope, Federal Energy Administration, and is open to the public. Individuals who wish to attend should inform Dr. Hans L. Hamester, Energy Policy Analyst, Office of Energy R&D Policy, Rm. 537, National Science Foundation, Washington, D.C. 20550 telephone 202/632–7804, prior to the Workshop. Dr. Hamester should be contacted for further information concerning the Workshop or for summary proceedings.

## NUCLEAR REGULATORY COMMISSION

### STUDY OF FINANCIAL ASSISTANCE TO INTERVENORS

#### Availability of Report

Notice is hereby given that the Nuclear Regulatory Commission has received a report from the consultants retained to study the question of providing financial assistance to intervenors in NRC licensing cases and other proceedings.

In November 1974, the former Atomic Energy Commission (AEC) decided that requests for financial assistance to intervenors in several proceedings then pending before it raised several broadly applicable questions which should be explored in a public rulemaking proceeding. Subsequently, competitive proposals were solicited by the AEC. In keeping with this solicitation, and after the establishment of the Nuclear Regulatory Commission (NRC), the firm of Boasberg, Hewes, Klores and Kass was selected to perform an independent study of the matter to provide information for the rulemaking proceeding. The report by the Boasberg firm should serve to provide data and background for focusing the issues to be considered during the rulemaking proceeding.

The study was commissioned to address such questions as:

1. What are the considerations in favor of and against such financial assistance?
2. What is the financial assistance experience of other Federal and state agencies?
3. If the NRC decides to implement a policy of financial assistance:
   a. What kinds of expenses should qualify for Commission assistance—experts' fees, attorneys' fees, other expenses?
   b. Should assistance be granted before or after an intervenor's presentation?
   c. What criteria should govern grants for assistance?
   d. Should assistance be granted to more than one intervenor in a particular proceeding?
   e. Given limited availability of funds, what should be the maximum amounts of assistance?
   f. Given limited availability of funds, how should they be allocated?
   g. What kinds of proceedings should be covered—licensing, rulemaking, other proceedings?
4. Are there preferable alternatives to financial assistance to intervenors, such as establishment of an agency Office of Public Counsel, or provision for other forms of NRC assistance?

The Commission expects to announce, in a separate FEDERAL REGISTER notice, the scheduling and procedures which will apply to the rulemaking proceeding which will consider the matter of financial assistance to intervenors. Issuance of the report and the fact of the projected rulemaking proceeding should not be taken as an expression of Commission viewpoints on any of the issues involved. The Commission's decision on the issues will come only after review of the rulemaking record. Notice of the availability of the consultant's report is being issued at this time in order to afford interested persons the opportunity to study the report and formulate comments for later submission and consideration in the rulemaking proceeding.

The study is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W. Single copies of the study may be obtained, to the extent of supply, by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Washington, D.C. this 29th day of July 1975.

SAMUEL J. CHILK,
*Secretary of the Commission.*

### WESTINGHOUSE ELECTRIC CORP.

#### Application for and Nuclear Regulatory Commission Consideration of Issuance of Facility Export License

Please take notice that Westinghouse Electric Corporation submitted to the Nuclear Regulatory Commission an application for a license to authorize the export of a pressurized water reactor with a thermal power level of 1876 megawatts to Yugoslovia and that the issuance of such license is under consideration by the Nuclear Regulatory Commission.

No license authorizing the proposed reactor export will be issued until the Nuclear Regulatory Commission determines that such export is within the scope of and consistent with the terms of an applicable agreement for cooperation arranged pursuant to Section 123 of the Atomic Energy Act of 1954, as amended (Act), nor until the Nuclear Regulatory Commission has found that:

(a) The application complies with the requirements of the Act, and the Commission's regulations set forth in 10 CFR Chapter 1, and

(b) The reactor proposed to be exported is a utilization facility as defined in said Act and regulations.

In its review of applications solely to authorize the export of production or utilization facilities, the Nuclear Regulatory Commission does not evaluate the health and safety characteristics of the facility to be exported.

Unless on or before August 19, 1975, a request for a hearing is filed with the Nuclear Regulatory Commission by the applicant, or a petition for leave to intervene is filed by any person whose interest may be affected by the proceeding, the Director of the Office of Nuclear Material Safety and Safeguards may, upon the determinations and findings noted above, cause to be issued to Westinghouse Electric Corporation a facility export license and may cause to be published in the FEDERAL REGISTER a notice of issuance of the license. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in the notice, the Nuclear Regulatory Commission will issue a notice of hearing or an appropriate order.

A copy of the application is on file in the Nuclear Regulatory Commission's Public Document Room located at 1717 H Street, N.W., Washington, D.C.

Dated at Bethesda, Maryland this 16th day of July, 1975.

For the Nuclear Regulatory Commission.

### ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; SUBCOMMITTEE ON STANDARDIZED NUCLEAR UNIT POWER PLANT SYSTEM

#### Meeting

In accordance with the purposes of Sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the ACRS Subcommittee on Standardized Nuclear Unit Power System (SNUPPS) will hold a meeting on August 19, 1975 in Room 1046 at 1717 H Street NW., Wash., D.C. 20555. The purpose of this meeting is to review the applications by the Kansas City Power and Light Company, Kansas Gas and Electric Company, Northern States Power Company, Rochester Gas and Electric Company, and the Union Electric Company for permits to construct the standardized portion of the SNUPP System. Site-specific issues will be discussed at separate future meetings with individual applicants.

The agenda for the subject meeting shall be as follows:

*Tuesday, August 19, 1975, 9:00 a.m. until the conclusion of business.*

The Subcommittee will hear presentations by representatives of the Applicants and by the NRC Staff and will hold discussions with these groups pertinent to the common aspects of the SNUPPS design.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above

V40150 AUG 4 75 XUM

application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold closed sessions with representatives of the NRC Staff and Applicants for the purpose of discussing privileged information concerning plant physical security and other matters related to plant design, construction, and operation, if necessary.

I have determined, in accordance with Subsection 10(d) of Public Law 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing a readily reproducible copy thereof, postmarked no later than August 12, 1975, to the Executive Secretary, ACRS, NRC, 1717 H St. NW., Wash., D.C. 20555. Background information concerning items to be discussed at the meeting can be found in the Preliminary Safety Analysis Reports for these projects and related documents on file and available for public inspection at the NRC Public Document Room, 1717 H St. NW., Wash., D.C. 20555, and at the Olin Library of Washington University, Skinker and Lindell Boulevards, St. Louis, MO 63130, the Fulton City Library, 709 Market St., Fulton, MO 65251, the Oswego City Library, 120 East Second St., Oswego, NY 13126, the University of Wisconsin Stout Library, Menomonie, WI 54751, and the Coffey County Courthouse, Burlington, KS 66839. Comments which fail to meet the specified mailing date noted above will be considered to the extent practicable.

(b) Persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement so that appropriate arrangements can be made. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements at an appropriate time, chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for opportunity to present oral statements and the time allotted, can be obtained by a prepaid telephone call on August 18, 1975 to the Office of the Executive Secretary of the Committee (telephone 202/634-1920, ATTN: Mr. John C. McKinley) between 8:15 a.m. and 5:00 p.m., Eastern Daylight Time.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) Seating for the public will be available on a first-come, first-served basis.

(f) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(g) Persons desiring to attend portions of the meeting where proprietary information, other than plant security information, is to be discussed may do so by providing to the Executive Secretary, ACRS, NRC, 1717 H Street, N.W., Wash., D.C. 20555, seven days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(h) A copy of the transcript of the open portion of the meeting will be available for inspection on or after August 25, 1975 at the NRC Public Document Room, 1717 H St. NW., Wash., D.C. 20555, and at the Olin Library of Washington University, Skinker and Lindell Boulevards, St. Louis, MO 63130, the Fulton City Library, 709 Market St., Fulton, MO 65251, the Oswego City Library, 120 East Second St., Oswego, NY 13126, the University of Wisconsin Stout Library, Menomonie, WI 54751, and the Coffey County Courthouse, Burlington, KS 66839. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second St. NE., Wash., D.C. 20002 (telephone 202/547-6222) upon payment of appropriate charges.

(i) On request, copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., NW., Wash., D.C. 20555, after November 19, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: July 31, 1975.

### PERMIAN BASIN CAPITAL CORP.

#### Filing of Application for Approval of Conflict of Interest Transaction Between Associates

Notice is hereby given that Permian Basin Capital Corporation (Permian), 303 West Wall Avenue, Midland, Texas 79701, a Federal Licensee under the Small Business Investment Act of 1958, as amended (Act), has filed an application pursuant to Section 107.1004 of the Regulations governing small business investment companies (13 CFR 107.1004 (1975)), for approval of a conflict of interest transaction.

It is proposed that Permian provide $45,000 in financing to Mr. Sam Raddabinko to purchase equipment and inventory from Western United Equipment Company (Western), 500 West Industrial, Midland, Texas for the purpose of starting his own business.

Western is a wholly owned subsidiary of FNB Development Corporation (FNB), a publicly held corporation. The president, secretary-treasurer and two directors of Permian also serve FNB in the same capacity. There are no common shareholders of Permian and FNB. Pursuant to the provisions of § 107.3(f) of the SBA Rules and Regulations, FNB is considered to be an Associate of Permian. As such, the transaction falls within the purview of § 107.1004(b) (5) of the Regulations and will require the prior written approval of the Small Business Administration (SBA).

Notice is further given that any interested person may, not later than fifteen days from the date of the publication of this notice submit to SBA, in writing, relevant comments on the proposed transaction. Any such communications should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published by Permian in a newspaper of general circulation in Midland, Texas.

Dated: July 25, 1975.

## IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

### Elimination of Gateway Letter Notices

JULY 30, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before August 14, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

## EMPLOYEE RESPONSIBILITIES AND CONDUCT

V40150 AUG4 75 XUM

## Title 18—Conservation of Power and Natural Resources

## CHAPTER VI—WATER RESOURCES COUNCIL

## PART 706—EMPLOYEE RESPONSIBILITIES AND CONDUCT

### Notice of Rulemaking

Chapter VI, Title 18 of the Code of Federal Regulations is amended by the addition of a new Part 706 entitled, "Employee Responsibilities and Conduct", as set forth below.

This rulemaking is made by authority of the Water Resources Planning Act of 1965 (Sec. 402, Pub. Law 89–80, 79 Stat. 254 (42 USC 1962d–1)). Executive Order 11222 (30 FR 6469, 3 CFR Proc. 3279, as amended); and 5 CFR pt. 735, (33 FR 12487).

Executive Order 11222 prescribes standards of ethical conduct for government officers and employees. The Civil Service Commission, by authority delegated to it under Secs. 602, 701, and 702 of the Executive Order, has issued regulations (5 CFR pt. 735) under which each agency head must issue regulations covering the agency's employees and special Government employees; prescribing standards of conduct and responsibilities; and governing statements reporting employment and financial interests. This new Part 706 implements, and is otherwise consistent with, the requirements of law, the order, and 5 CFR pt. 735.

As this Part 706 has application solely to the Water Resources Council personnel, the relevant provisions of the Administrative Procedure Act (5 USC 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable.

In accordance with the spirit of the public policy set forth in 5 USC 553, interested persons may submit written comments, suggestions, or arguments to the Director, Water Resources Council, 2120 L Street, N.W., Washington, D.C. 20037 on or before September 2, 1975. Material submitted will be evaluated and acted upon in the same manner as if this document were a proposal. Until such time as further changes are made, however, Part 706 as set forth below shall remain in effect.

These Employee Responsibilities and Conduct Regulations are effective August 4, 1975.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A–107.

PETER P. RAMATOWSKI,
*Acting Director,*
*U.S. Water Resources Council.*

A new Part 706 is added to 18 CFR Chapter VI, as follows:

### Subpart A—General Provisions

**§ 706.101 Purpose.**

The maintenance of unusually high standards of honesty, integrity, impartiality, and conduct by employees and special Government employees is essential to assure the proper performance of the Water Resources Council's (hereafter referred to as the Council) business and the maintenance of confidence by citizens in their Government. The avoidance of misconduct and conflicts of interest on the part of employees and special Government employees through informed judgment is indispensable to the maintenance of these standards. To accord with these concepts, this part sets forth the Council's regulations prescribing standards of conduct and responsibilities and governing statements of employment and financial interests for employees and special Government employees.

**§ 706.102 Definitions.**

In this part:

(a) "Employee" means the Director and an employee of the Council employed by the Director under the authority of § 701.78(a)(4) of this chapter.

(b) "Special Government employee" means a special Government employee as defined in section 202 of title 18 of the United States Code who is employed by the Council.

**§ 706.103 Remedial action.**

(a) A violation of this part by an employee or special Government employee may be cause for remedial action. Remedial action may include, but is not limited to:

(1) Changes in assigned duties;

(2) Divestment by the employee or special Government employee of his conflicting interest;

(3) Disciplinary action which may be in addition to any penalty prescribed by law; or

(4) Disqualification for a particular assignment.

(b) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive orders, and regulations.

**§ 706.104 Interpretation and advisory service.**

The General Counsel will serve as Counselor for the purpose of providing interpretation and advisory assistance to the Council staff on matters covered in this Part 706.

### Subpart B—Conduct and Responsibilities of Employees

**§ 706.201 Proscribed actions.**

An employee shall avoid any action which might result in, or create the appearance of:

(a) Using public office for private gain;

(b) Giving preferential treatment to any person;

(c) Impeding Government efficiency or economy;

(d) Losing complete independence or impartiality;

(e) Making a Government decision outside official channels; or

(f) Affecting adversely the confidence of the public in the integrity of the Government.

**§ 706.202 Gifts, entertainment, and favors.**

(a) Except as provided in paragraphs (b) and (c) of this section, an employee shall not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value, from a person who:

(1) Has, or is seeking to obtain, contractual or other business or financial relations with the Council;

(2) Conducts operations or activities that are regulated by the Council; or

(3) Has interests that may be substantially affected by the performance or nonperformance of his official duty.

(b) The restrictions set forth in paragraph (a) of this section do not apply to:

(1) Obvious family or personal relationships, such as those between the employee and his parents, children, or spouse, when the circumstances make it clear that those relationships rather than the business of the persons concerned are the motivating factors;

(2) The acceptance of food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting or on an inspection tour where an employee may be properly in attendance;

(3) The acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans; and

(4) The acceptance of unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value.

(c) An employee shall not solicit a contribution from another employee for a gift to an official superior, make a donation as a gift to an official superior, or accept a gift from an employee receiving less pay than himself (5 USC 7351). However, this paragraph does not prohibit a voluntary gift of nominal value or donation in a nominal amount made on a special occasion such as marriage, illness, or retirement.

(d) An employee shall not accept a gift, present, decoration, or other thing from a foreign government unless authorized by Congress as provided by the Constitution and in 5 U.S.C. 7342.

(e) Neither this section nor § 706.203 precludes an employee from receipt of bona fide reimbursement, unless prohibited by law, for expenses of travel and such other necessary subsistence as is compatible with this part for which no Government payment or reimbursement is made. However, this paragraph does not allow an employee to be reimbursed, or payment to be made on his behalf, for excessive personal living expenses, gifts, entertainment, or other personal benefits, nor does it allow an employee to be reimbursed by a person for travel on official business under Council orders when reimbursement is proscribed by Decision B–128527 of the Comptroller General dated March 7, 1967.

**§ 706.203 Outside employment and activity.**

(a) An employee shall not engage in outside employment or other outside activity not compatible with the full and proper discharge of the duties and responsibilities of his Government employment. Incompatible activities include, but are not limited to:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances wherein acceptance may result in, or create the appearance of, a conflict of interest;

(2) Outside employment or activity which tends to impair his mental or physical capacity to perform the duties and responsibilities of his position in an acceptable manner;

(3) Outside employment or activity which is in violation of a statute, Executive order, or regulation, including applicable State and local statutes and ordinances.

(b) Employees are encouraged to engage in teaching, lecturing, and writing that is not prohibited by law, Executive Order 11222 of May 11, 1965, as amended by Executive Order 11590 of April 27, 1971, this part or other Council regulations. However, an employee shall not, either for or without compensation, engage in teaching, lecturing, or writing, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or Board of Examiners for the Foreign Service, that depends on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request, or when the agency head gives written authorization for use of non-public information on the basis that the use is in the public interest.

(c) An employee shall not receive any salary or anything of monetary value from a private source as compensation for his services to the Government.

(d) An employee shall not engage in outside work or activity which may be construed by the public to be official acts of the Council, or of a nature closely paralleling the work of the Council.

(e) An employee who engages in any kind of outside paid employment on a substantially regular basis shall submit to his immediate supervisor a memorandum describing the employment and stating approximately how many hours per week he is so employed. The immediate supervisor shall forward the memorandum through the Director for inclusion in the employee's Official Personnel Folder.

(f) This section does not preclude an employee from:

(1) Participation in the activities of national or State political parties not proscribed by law;

(2) Participation in the local self-government activities in the community in which he resides to the extent permitted by law; or,

(3) Participation in the affairs of, or acceptance of an award for meritorious public contribution or achievement given by, a charitable, religious, professional, social, fraternal, nonprofit educational, recreational, public service, or civic organization.

**§ 706.204 Financial interests.**

(a) An employee shall not:

(1) Have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his Government duties and responsibilities; or

(2) Engage in, directly or indirectly, a financial transaction as a result of or primarily relying on, information obtained through his Government employment.

(b) This section does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government so long as it is not prohibited by law, Executive Order 11222, as amended, 5 CFR 735, or this part.

**§ 706.205 Misuse of information.**

For the purpose of furthering a private interest an employee shall not, except as provided in § 706.203(b), directly or indirectly use, or allow the use of, official information obtained through or in connection with his Government employment which has not been made available to the general public.

**§ 706.206 Support of Council programs.**

(a) When a Council program is based on law or Executive order, every employee has a positive obligation to make it function as efficiently and economically as possible and to support it as long as it is a part of recognized public policy. An employee may, therefore, properly make an address explaining and interpreting such a program, citing its achievements, defending it against uninformed or unjust criticism, pointing out the need for possible improvements, or soliciting views for improving it.

(b) An employee shall not, either directly or indirectly, use appropriated funds to influence a Member of Congress to favor or oppose legislation in violation of 18 U.S.C. 1913. However, an employee is not prohibited from:

(1) Testifying as a representative of the Council on pending legislation proposals before congressional committees on request; provided, that the relevant provisions of the current OMB Circular A–14 ("Legislation Coordination and Clearance") are complied with; or

(2) Assisting congressional committees in drafting bills or reports on request, when it is clear that the employee is serving solely as a technical expert under the direction of committee leadership.

**§ 706.207 Use of Government property.**

An employee shall not directly or indirectly use, or allow the use of, Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property including equipment, supplies, and other property entrusted or issued to him.

**§ 706.208 Indebtedness.**

(a) An employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law, such as Federal, State, or local taxes. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court or one imposed by law such as Federal, State or local taxes.

(b) When an employee has a levy placed against his salary for failure to pay an indebtedness for Federal income taxes, he shall be issued a written reprimand stating that failure to make satisfactory arrangements regarding future tax liabilities will be grounds for removal.

(c) When an employee is the subject of a letter of complaint stating that he has not paid his State or local taxes and

has failed to make satisfactory arrangements regarding the debt, he shall be interviewed by the Assistant Director, Division of Program Coordination and Management. In this interview he shall be instructed to make satisfactory arrangements for the payment of his debt immediately and informed that failure to do so will be grounds for removal.

(d) When an employee is the subject of a letter of complaint regarding any other kind of indebtedness to a unit of government, Federal, State, or local, the procedure prescribed in paragraph (c) of this section shall be observed.

(e) When a creditor who holds a legal judgment against an employee requests that the Council assist in collecting the debt, the employee shall be interviewed by the Assistant Director, Division of Program Coordination and Management. In this interview he shall be instructed to pay the debt in full within 90 days, or within whatever longer period is specified by the Assistant Director, Division of Program Coordination and Management if he determines that a 90-day limit would impose undue hardship on the employee, and informed that failure to do so will be grounds for removal.

(f) When an employee is the subject of a letter of complaint from a creditor who does not hold a legal judgment against the employee, the Assistant Director, Division of Program Coordination and Management shall forward a copy of the letter to the employee together with a memorandum calling the employee's attention to the provisions of this section. However, the Council will not assist the creditor in collecting the debt.

**§ 706.209 Gambling, betting, and lotteries.**

An employee shall not participate, while on Government-owned or leased property or while on duty for the Government, in any gambling activity, including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or ticket.

**§ 706.210 Coercion.**

An employee shall not use his Government employment to coerce, or give the appearance of coercing, a person to provide financial benefit to himself or another person, particularly one with whom he has family, business, or financial ties.

**§ 706.211 General conduct prejudicial to the Government.**

An employee shall not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudical to the Government.

**§ 706.212 Miscellaneous statutory provisions.**

The attention of each employee is directed to the following statutory provisions:

(a) House Concurrent Resolution 175, 85th Congress, 2d Session, 72 Stat. B12, the Code of Ethics for Government Service.

(b) Chapter 11 of title 18, United States Code, relating to bribery, graft and conflicts of interest.

(c) The prohibition against lobbying with appropriated funds (18 U.S.C. 1913).

(d) The prohibitions against disloyalty and striking (E.O. 10450, 18 U.S.C. 1918).

(e) The prohibition against the employment of a member of a Communist organization (50 U.S.C. 784).

(f) The prohibitions against:

(1) The disclosure of classified information (18 U.S.C. 798, 50 USC 783); and and

(2) The disclosure of confidential information (18 U.S.C. 1905).

(g) The provision relating to the habitual use of intoxicants to excess (5 USC 7352).

(h) The prohibition against the misuse of a Government vehicle (31 U.S.C. 638a (c)).

(i) The prohibition against the misuse of the franking privilege (18 U.S.C. 1719).

(j) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (18 U.S.C. 1917).

(k) The prohibition against fraud or false statements in a Government matter (18 U.S.C. 1001).

(l) The prohibition against mutilating or destroying a public record (18 U.S.C. 2071).

(m) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(n) The prohibitions against:

(1) Embezzlement of Government money or property (18 U.S.C. 641);

(2) Failing to account for public money (18 U.S.C. 643); and

(3) Embezzlement of the money or property of another person in the possession of an employee by reason of his employment (18 U.S.C. 654).

(o) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(p) The prohibitions against political activities in subchapter III of chapter 73 of title 5, United States Code and 18 U.S.C. 602, 603, 607, and 608.

(q) The provision relating to the denial of the right to petition Congress (5 U.S.C. 7102).

(r) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219).

(s) The prohibition against a public official appointing or promoting a relative, or advocating such an appointment or promotion (5 U.S.C. 3110).

(t) The prohibition against the employment of an individual convicted of felonious rioting or related offenses (5 U.S.C. 7313).

(u) The tax imposed on certain employees (e.g., Presidential appointees, employees excepted under Schedule C, employees in GS–16 or above, or a comparable pay level) who knowingly engage in self-dealing with a private foundation (26 U.S.C. 4941, 4946). "Self-dealing" is defined in the statute to include certain transactions involving an employee's receipt of pay, a loan, or reimbursement for travel or other expenses from, or his sale to or purchase of property from a private foundation.

## Subpart C—Conduct and Responsibilities of Special Government Employees

**§ 706.301 Use of Government employment.**

A special Government employee shall not use his Government employment for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for himself or another person, particularly one with whom he has family, business, or financial ties.

**§ 706.302 Use of inside information.**

A special Government employee shall not use inside information obtained as a result of his Government employment for private gain for himself or another person either by direct action on his part or by counsel, recommendation, or suggestion to another person, particularly one with whom he has family, business, or financial ties. For the purpose of this section, "inside information" means information obtained under Government authority which has not become part of the body of public information.

(b) A special Government employee may engage in teaching, lecturing, and writing to the same extent, and subject to the same restrictions, as provided in § 706.303(b) for employees.

**§ 706.303 Gifts, entertainment, and favors.**

(a) Except as provided in paragraph (b) of this section a special Government employee, while so employed or in connection with his employment, shall not receive or solicit from a person having business with the Council anything of value as a gift, gratuity, loan, entertainment, or favor for himself or another person, particularly one with whom he has family, business, or financial ties.

(b) The exceptions from the restrictions as set forth in § 706.202(b) for employees apply in the same manner to special Government employees.

**§ 706.304 Applicability of other provisions.**

The provisions of §§ 706.206 through 706.211 apply to special Government employees in the same manner as to employees.

## Subpart D—Statements of Employment and Financial Interests

**§ 706.401 Employees required to submit statements.**

(a) Employees in the following named positions shall submit statements of employment and financial interest to the Director:

(1) Employees in Grade GS–16 or above of the General Schedule established by the Classification Act of 1949, as amended;

(2) The General Counsel and Administrative Officer;

(3) The Staff Specialists assigned to review applications by States for planning grants under Title III of the Water Resources Planning Act;

(4) Special Government employees, as defined in § 706.102; and

(5) Employees classified at GS–13 or above under 5 U.S.C. 5332, or at a comparable pay level under another authority, who are in positions which the Director may determine have duties and responsibilities which require the incumbent to report employment and financial interests in order to avoid involvement in possible conflicts-of-interest situation and carry out the purpose of law, Executive order, and Council regulations.

(b) A statement of employment and financial interest is required from the Director and shall be submitted by the Director to the Chairman of the Council.

**§ 706.402 Employee's complaint on filing requirement.**

An employee who feels that his position has been improperly included in the list in § 706.401 as one requiring the submission of a statement of employment and financial interests may obtain a review of his complaint under the Council's internal grievance procedure.

**§ 706.403 Form of statements.**

An employee required to submit a statement of employment and financial interests shall submit that statement in the format prescribed by the Division of Management.

**§ 706.404 Time for submission of statements.**

An employee required to submit a statement of employment and financial interests by § 706.401 shall submit that statement no later than 30 days after the date of entrance on duty in the position covered by § 706.401.

**§ 706.405 Supplementary statements.**

Changes in, or additions to, the information contained in an employee's statement of employment and financial interests shall be reported in a supplementary statement, in the format prescribed by the Division of Management, as of June 30 each year. If no changes or additions occur, a negative report is required. Notwithstanding the filing of the annual report required by this section, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result in a violation of the conflicts-of-interest provisions of section 18 U.S.C. 208, or Subpart B of this part.

**§ 706.406 Interests of employees' relatives.**

The interests of a spouse, minor child, or other member of an employee's immediate household are considered to be interests of the employee. For the purpose of this section, "member of a employee's immediate household" means those blood relations who are residents of the employee's household.

**§ 706.407 Information not known by employees.**

If any information required to be included on a statement of employment and financial interests or on a supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit the information in his behalf.

**§ 706.408 Information not required.**

An employee is not required to submit on a statement of employment and financial interests, or on a supplementary statement, any information relating to the employee's connection with, or interest in, a professional society or a charitable, religious, social, fraternal, recreational, public service, civic, or political organization or a similar organization not conducted as a business enterprise. For the purpose of this section, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

**§ 706.409 Opportunity for explanation of conflict or appearance of conflict.**

When a statement submitted under § 706.401 indicates a conflict or an appearance of conflict, between the interests of an employee and the performance of his services for the Government, the employee concerned shall be given an opportunity to explain the conflict or appearance of conflict before remedial action is initiated.

**§ 706.410 Confidentiality of statements.**

Each statement of employment and financial interests, and each supplementary statement, shall be held in confidence and retained in limited access files of the reviewing official. The use of information on the statements shall be limited to that necessary to carry out the purposes of this part. Information from a statement or a supplementary statement shall not be disclosed except by decision of the Director for good cause shown: Provided, that information from a statement or a supplementary statement of the Director shall not be disclosed except by decision of the Chairman for good cause shown.

**§ 706.411 Effect of statements on other requirements.**

The statements of employment and financial interests and supplementary statements required of employees are in addition to, and not in substitution for or in derogation of any similar requirement imposed by law, order, or or regulation. The submission of a statement or supplementary statement by an employee does not permit him or any other person to participate in a matter in which he or the other person's participation is prohibited by law, order, or regulation.

**§ 706.412 Submission of statements by special Government employees.**

(a) Each special Government employee shall submit a statement of employment and financial interests not later than the time of his employment. Each special Government employee shall keep his statement current throughout his period of employment by the submission of supplementary statements.

(b) A special Government employee shall submit his statement of employment and financial interests in the format prescribed by the Division of Management. The statement will be filed with the Division of Management and is accorded the confidentiality prescribed in § 706.410.

(c) The provisions of § 706.406 through 706.411 apply to special Government employees in the same manner as to employees.

(d) The Director may waive the requirement in paragraph (a) of this section for the submission of a statement of employment and financial interests in the case of a special Government employee who is not a consultant or an expert when he finds that the duties of the position held by that special Government employee are of a nature and at such a level of responsibility that the submission of the statement by the incumbent is not necessary to protect the integrity of the Government. For the purposes of this paragraph "consultant" and "expert" have the meanings given those terms by Chapter 304 of the Federal Personnel Manual.

**§ 706.413 Submission of statements by River Basin Commission Chairmen.**

A statement of employment and financial interest is not required under this part from Chairmen of River Basin Commissions created by the President pursuant to Title II of the U.S. Water Resources Planning Act. The Commission Chairmen are subject to Sec. 401 of Executive Order 11222, as amended, and are required to file a statement with the Chairman of the Civil Service Commission.

### Title 7—Agriculture

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Avocado Reg. 17, Amdt. 6]

### PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

#### Maturity Requirements

This amendment revises the maturity requirements for the Peterson and Trapp varieties of avocados. Weight or diameters and picking dates are indices used at harvest to assure that avocados are mature and will ripen satisfactorily after picking.

*Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the maturity requirements for the handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the amendment stems from the current avocado crop maturity situation. Maturity studies on the specified varieties completed recently indicate that avocados of such varieties are now mature at the hereinafter specified dates, minimum weights, or diameters.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of specified varieties of avocados.

*Order.* The provisions of subparagraph (a) (2) of § 915.317 (Avocado Regulation 17; 40 FR 24006; 26501; 28048; 29068; 29812; 30793) are amended by revising in Table I the dates applicable to the Peterson and Trapp varieties so that after such revision the portion of Table 1 relating to such varieties of avocadoes reads as follows:

**§ 915.317 Avocado Regulation 17.**

* * * * *

| Variety (1) | Date (2) | Minimum weight or diameter (3) | Date (4) | Minimum weight or diameter (5) | Date (6) | Minimum weight or diameter (7) | Date (8) |
|---|---|---|---|---|---|---|---|
| Peterson | 7-28-75 | 12 oz 3 9/16 in | 8- 4-75 | 10 oz 3 3/16 in | 8-25-75 | 8 oz 2 13/16 in | 9-8-75 |
| Trapp | 8- 4-75 | 14 oz 3 9/16 | 8-11-75 | 12 oz 3 3/16 in | 9-15-75 | | |

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, July 31, 1975, to become effective August 4, 1975.

[Avocado Reg. 23, Amdt. 3]

## PART 944—FRUITS; IMPORT REGULATIONS

### Maturity Requirements

This amendment revises the maturity requirements applicable to imported avocados of the Trapp variety. It permits the importation of such avocados at specified weights or diameters two weeks earlier than is now permitted. The requirements are the same as those applicable to avocados produced in South Florida and regulated pursuant to Marketing Order 915.

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) (4) of § 944.15 (Avocado Regulation 23; 40 FR 24008) are hereby amended to read as follows:

**§ 944.15 Avocado Regulation 23.**

(a) • • •

(4) Avocados of the Trapp variety shall not be imported (i) prior to August 4, 1975; (ii) from August 4, 1975, through August 10, 1975, unless the individual fruit in each lot of such avocados weighs at least 14 ounces or measures at least 3 19/16 inches in diameter; and (iii) from August 11, 1975, through September 15, 1975, unless the individual fruit in each lot of such avocados weighs at least 12 ounces or measures at least 3 7/16 inches in diameter.

• • • • •

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this regulation beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) the maturity requirements of this amended import regulation are the same as those to be in effect beginning August 4, 1975, on domestic shipments of avocados grown in South Florida under Avocado Regulation 17, Amendment 6 (§ 915.317); and (c) this amendment relieves restrictions on imports of avocados.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, July 31, 1975, to become effective August 4, 1975.

CHARLES R. BRADER,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## Title 13—Business Credit and Assistance

### CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 13, Amdt. 5]

### PART 121—SMALL BUSINESS SIZE STANDARDS REGULATION

### Certain Definitions

On June 5, 1975, there was published in the FEDERAL REGISTER (40 FR 24210) a notice that the Small Business Administration proposed to adjust upward those definitions of small business expressed in terms of dollars in order to account for the effects of inflation during the years that such standards have been in effect.

The public was given until July 7, 1975, in which to file written comment.

Having evaluated all comment in response to the above notice, we have decided to adopt the proposed changes. Accordingly, Part 121 of Chapter I of Title 13 of the Code of Federal Regulations is further amended by:

1. Revising § 121.3–8(a) to read as follows:

**§ 121.3–8 Definition of small business for Government procurement.**

• • • • •

(a) Construction. Any concern bidding on a contract for work which is classified in Division C, Contract Construction, of the Standard Industrial Classification Manual, as amended, prepared by the Office of Management and Budget, Executive Office of the President, is:

(1) Small if its average annual receipts for its preceding 3 fiscal years do not exceed $12 million: Provided, however, That, if 75 percent or more (by value) of the work called for by the contract is classified in one of the industries, subindustries, or class of products set forth in Schedule H of this Part, it is small if it does not exceed the size standard established therein for that industry. (Notwithstanding the above proviso, for a period of 1 year from the effective date of this amendment, any concern which from March 18, 1973, to March 18, 1974, was primarily engaged in performing small business set-aside contracts, is small for the purpose of any contract covered by the proviso if its average annual receipts for its preceding 3 fiscal years did not exceed $7.5 million. For the purpose of this rule, a concern was primarily engaged in performing small business set-aside contracts if 50 percent or more of its receipts, including receipts of its affiliates, were attributable to such contracts.)

(2) Small, if it is bidding on a contract for dredging and (i) its average annual receipts for its preceding 3 fiscal years do not exceed $9.5 million and (ii) it performs the dredging of at least 40 percent of the yardage advertised in the plans and specifications with dredging equipment owned by the bidder or obtained from another small business dredging concern.

2. Revising § 121.3–8(e) to read as follows:

**§ 121.3–8 Definition of small business for Government procurement.**

• • • • •

(e) Services. Any concern bidding on a contract for services (including but not limited to services set forth in Division I, Services, of the Standard Industrial Classification Manual), not elsewhere rine engineering service is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $2 million.

(1) Any concern bidding on a contract for engineering services other than marine engineering service is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $7.5 million.

(2) Any concern bidding on a contract for motion picture production or motion picture services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $8 million.

(3) Any concern bidding on a contract for janitorial and custodial services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $4.5 million.

(4) Any concern bidding on a contract for base maintenance is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $7.5 million.

(5) Any concern bidding on a contract for marine cargo handling services is classified as small if its annual receipts do not exceed $7.5 million for its preceding 3 fiscal years.

(6) Any concern bidding on a contract for naval architectural and marine engineering services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $9 million.

(7) Any concern bidding on a contract for food services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $5.5 million.

(8) (i) Any concern bidding on a contract for laundry services including linen supply, diaper services, and industrial laundering, is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $4 million.

(ii) Any concern bidding on a contract for cleaning and dyeing including rug cleaning services, is classified as small if its average annual receipts for the preceding 3 fiscal years do not exceed $1.5 million.

(9) Any concern bidding on a contract for computer programming services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $4 million.

(10) Any concern bidding on a contract for flight training services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $7 million.

(11) Any concern bidding on a contract for motorcar rental and leasing services or truck rental and leasing services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $7 million.

(12) Any concern bidding on a contract for tire recapping services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $4 million. This section applies only to procurements requiring the services of tire retreading and repair shops (Standard Industrial Classification Industry No. 7534, Tire Retreading and Repair Shops) and not to procurements for the repairing and/or retreading of pneumatic aircraft tires which, by reason of the extent and nature of the equipment and operations required, are considered for size standards purposes to be manufactured within the meaning of Standard Industrial Classification Industry No. 3011, Tires and Inner Tubes.

(13) Any concern bidding on a contract for data processing services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $4 million.

(14) Any concern bidding on a contract for computer maintenance services is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $7 million.

(15) Any concern bidding on a contract for services requiring the use of one or more helicopters or fixed-wing aircraft is classified as small if its average annual receipts for its preceding 3 fiscal years do not exceed $3.5 million.

3. Revising § 121.3–8(f)(3) to read as follows:

**§ 121.3–8 Definition of small business for Government procurement.**

• • • • •

(f) Transportation • • •

• • • • •

(3) As small if it is bidding on a contract for either trucking (local and/or long distance) and/or warehousing and/or packing and crating and/or freight-forwarding, and its annual receipts do not exceed $7 million.

4. Revising § 121.3–9(a)(3) to read as follows:

**§ 121.3–9 Definition of small business for sales of Government property.**

• • • • •

(a) Sales of Government-owned property other than timber • • •

• • • • •

(3) Stockpile purchasers. Any concern primarily engaged in the purchase of materials which are not domestic products is small if its annual receipts for its preceding 3 fiscal years do not exceed $42 million.

5. Revising § 121.3–10(a) to read as follows:

**§ 121.3–10 Definition of small business for SBA loans.**

• • • • •

(a) Construction. Any construction concern is small if its average annual receipts do not exceed $9.5 million for its preceding 3 fiscal years: Provided, however, That, if it is primarily engaged in an industry set forth in Schedule I of this part, it is small if its average annual receipts do not exceed the size standard established therein for that industry.

6. Revising § 121.3–10(c) to read as follows:

**§ 121.3–10 Definition of small business for SBA loans.**

• • • • •

(c) Retail. Any retailing concern is classified:

(1) As small if it is primarily engaged in an industry or subindustry set forth in Schedule D of this part and its annual receipts do not exceed the size standard established therein for that industry or subindustry.

(2) As small if it is primarily engaged in an industry or subindustry not set forth in Schedule D of this part and its annual receipts do not exceed $2 million.

(k) Agricultural production (livestock). Any concern (except custom beef cattle feedlots) primarily engaged in raising livestock for human consumption such as cattle, hogs, sheep, goats, poultry of all kinds, and animal specialties such as horses, rabbits, bees, or fish in captivity, and which, as a result of animal disease, has suffered substantial economic injury due to its inability to market such livestock (or the product of such livestock) for human consumption, is classified as small for the purpose of receiving a disaster loan under section 7 (b) (4) of the Small Business Act if its annual receipts do not exceed $275,000.

13. Revising § 121.3–11 to read as follows:

**§ 121.3–11 Definition of small business for assistance by small business investment companies or by development companies.**

A small business concern for the purpose of receiving financial or other assistance from small business investment companies or development companies is one which:

(a) Together with its affiliates, is independently owned and operated, is not dominant in its field of operation, does not have assets exceeding $9 million, does not have net worth in excess of $4 million, and does not have an average net income, after Federal income taxes, for the preceding 2 years in excess of $400,000 (average net income to be computed without benefit of any carryover loss); or

(b) Qualifies as a small business concern under § 121.3–10.

14. Revising Schedule C to read as follows:

SCHEDULE C—ANNUAL RECEIPTS SIZE STANDARDS FOR CONCERNS PRIMARILY ENGAGED IN WHOLESALING

(The following size standards are to be used when determining the size status of wholesaling concerns for the purpose of SBA business loans, displaced business loans, economic opportunity loans, and as alternate standards for Sections 501 and 502 loans and SBIC assistance. **CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

[Docket No. 14864; Amdt. 39–2323]

**PART 39—AIRWORTHINESS DIRECTIVES**

**Hawker Siddeley Aviation Ltd., DH/BH–125 Airplanes**

There have been two reported cases of complete displacement of cabin pressure seal bungs on DH/BH–125 airplanes in flight with resultant rapid loss of cabin pressure which required emergency descent. There have also been numerous reports of significant displacement of cabin pressure seal bungs on other airplanes of this type which if left undetected could result in full displacement (blow out) in flight with similar results. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection and rework as necessary of all Hellerman type pressure seal bungs installed in the cabin pressure vessel of DH/BH–125 airplanes.

Since a condition exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Sec. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION, LTD. Applies to DH–125 and BH–125 airplanes certificated in all categories.

Compliance required as indicated.

To prevent possible rapid loss of cabin pressurization, accomplish the following:

Within 50 hours time in service after the effective date of this AD, unless already accomplished, inspect all Hellerman type cabin pressure seal bungs for displacement and rework as necessary in accordance with the following:

(a) Locate all Hellerman type cabin pressure seal bungs for the particular aircraft being inspected.

Note: Refer to the relevant aircraft wiring diagram manual (2 volumes) and to the maintenance practices in the Maintenance Manual, Chapter 24–00 (all series pre–600) and Chapter 24–01 (series 600). Pressure bung installations may be of the normal or reverse type assembly as defined in the Maintenance Manual reference noted in paragraph (c) of this AD. The total number may vary from one airplane to another depending on the electrical equipment installed.

(b) Gain access to the bungs in accordance with the procedures in the Maintenance Manual, Chapters 24 and 25.

(c) Inspect the bungs (both normal and reverse assemblies) for displacement and reinspect and/or rework as necessary in accordance with the instructions contained in Part B of temporary revision dated April 1, 1975, to HSA Maintenance Manual, Chapter 24–00 (all series except 600) and Chapter 24–01 (series 600), or the appropriate sections of the referenced chapters if the temporary revision has been incorporated into the HSA Maintenance Manual, or an PAA-approved equivalent.

(d) Where pressure bung(s) have been removed for rework, upon re-installation of the pressure bung(s) conduct a cabin leak rate check in accordance with the appropriate provisions of chapter 21 of the HSA Maintenance Manual prior to further flight to ensure the integrity of the pressure cabin.

This amendment becomes effective August 19, 1975.

Issued in Washington, D.C. on July 29, 1975.

**PART 39—AIRWORTHINESS DIRECTIVES**

**Lockheed Model 382 Series**

There have been cracks in the main frames of the Lockheed Model 382 series airplanes which could result in wing failure, in-flight decompression, or landing gear failure. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection of the main frames on Lockheed Model 382 series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

LOCKHEED. Applies to all Model 382 series airplanes.

Compliance required within the next 325 hours' time in service on airplanes which have accumulated 10,000 or more flight hours and thereafter at each "C" check inspection.

(a) To detect cracks in the main frames, inspect the frames in accordance with Lockheed Service Bulletin A382–189, or later FAA approved revision, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

(b) In the event a crack or cracks are found, before further flight, contact the Chief, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320.

(Sec. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)))

This amendment becomes effective August 8, 1975.

Issued in East Point, Georgia on July 25, 1975.

**Patten/Pan Avion LSR–174 ( ) and LSR–174 (2) Evacuation Slides**

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring replacement of the inflation hoses on Patten/Pan Avion models LSR–174 ( ) and LSR–174 (2) evacuation slides was published in 31 FR 25479.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PATTEN/PAN AVION, Applies to Pan Avion and Patten/Pan Avion models LSR–174 ( ) and LSR–174 (2) Evacuation Slides, Serial Numbers 473 through 524.

Compliance required as indicated.

To prevent loss of pressure in the evacuation slide inflation system, within 500 hours' time in service after the effective date of this AD, unless already accomplished, replace the Patten/Pan Avion inflation hoses, part numbers 1500–11A on model LSR–174 ( ) and 1600–19 on model LSR–174 (2), with inflation hoses, part numbers 1500–54 on model LSR–174 ( ) and 1600–26 on model LSR–174 (2) in accordance with Patten/Pan Avion Service Bulletin 27–75 dated February 20, 1975, or later FAA-approved revision.

This amendment becomes effective August 11, 1975.

Issued in East Point, Georgia on July 25, 1975.

**SIAI Marchetti F.260 Series Airplanes**

There have been cracks of the landing gear actuator brackets on SIAI Marchetti F.260 and F.260B airplanes that could result in failure of the landing gear. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued which requires inspection and replacement of the landing gear actuator brackets on SIAI Marchetti F.260 and F.260B airplanes.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1343(c), 1421, and 1423); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR

V40I151 AUG 5 75 XUM

11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SIAI MARCHETTI. Applies to SIAI Marchetti F.260 airplanes, serial numbers 101 through 125; 2-26 through 2-57; 2-59 through 2-61; 3-76 through 3-81 and 502, certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent possible failure of the landing gear, accomplish the following:

(a) Within the next 25 hours' time in service after the effective date of this AD, and thereafter at intervals not to exceed 50 hours' time in service from the last inspection, until replaced in accordance with paragraph (b) or (c) of this AD, inspect the landing gear actuator brackets, P/N 260-05-14-13 and -14, or P/N 260-05-14-25 and -26, installed on Bulkhead No. 5, for cracks in accordance with paragraph (a) of SIAI Marchetti Service Bulletin No. 260B13, dated March 10, 1975, or an FAA-approved equivalent.

(b) If cracks are found during an inspection required by paragraph (a) of this AD, before further flight, replace the rbackets with new brackets, P/N 260-05-201-03, in accordance with paragraph (b) of SIAI Marchetti Service Bulletin No. 260B13, dated March 10, 1975, or an FAA-approved equivalent.

(c) If no cracks are found during an inspection required by paragraph (a) of this AD, within the next 500 hours' time in service after the effective date of this AD, replace the brackets with new brackets, P/N 260-05-201-03, in accordance with paragraph (b) of SIAI Marchetti Service Bulletin No. 260B13, dated March 10, 1975, or an FAA-approved equivalent.

This amendment becomes effective August 19, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Socata Models Rallye 100S and MS (Morane Saulnier) 880B, 892E-150, 893E and 894E Airplanes

There has been jamming of the aileron control crank lever due to wing flap control sector interference on Socata Models Rallye 100S and MS (Morane Saulnier) 880B, 892E-150, 893E and 894E airplanes that resulted in loss of aileron control. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require modification of the wing flap control system on Socata Models Rallye 100S and MS (Morane Saulnier) 880B, 892E-150, 893E and 894E airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Sec. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SOCATA. Applies to Socata Models Rallye 100S, serial number 2294; MS. 880B, serial numbers 2299 through 2531; and MS. 892E-150, 893E and 894E, serial numbers 12121 through 12531 airplanes, certificated in all categories.

Compliance is required within the next 25 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent loss of aileron control due to interference with the wing flap control system, modify the wing flap control system, re-rig the wing flap control system, and check for freedom from interference between the wing flap control system and aileron control system in accordance with Socata Service No. 311 GR. 27-11, dated April 1974, or an FAA-approved equivalent.

This amendment becomes effective August 19, 1975.

Issued in Washington, D.C. on July 29, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Socata Models MS (Morane Saulnier) 880B and 885 Airplanes

There have been cracks of the lateral front horizontal stabilizer attachment brackets on Socata Models MS (Morane Saulnier) 880B and 885 airplanes that could result in failure of the horizontal stabilizer attachment structure. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require an inspection for cracks and replacement of aluminum brackets with steel brackets on Socata Models MS (Morane Saulnier) 880B and 885 airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Sec. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c))

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SOCATA. Applies to Socata models MS880B and MS885 airplanes, certificated in all categories, serial numbers 1 through 395 which have aluminum lateral front horizontal stabilizer attachment brackets installed.

Compliance is required as indicated, unless already accomplished.

To prevent failure of the aluminum lateral front horizontal stabilizer attachment brackets, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD, inspect the left and right lateral front horizontal stabilizer attachment brackets for cracks in accordance with Socata Service Rallye No. 12/1, Gr. 55.01 dated January 1972 or an FAA-approved equivalent.

(b) If cracks are found in either bracket, before further flight, comply with paragraph (d) of this AD.

(c) If no cracks are found, within the next 100 hours' time in service after the effective date of this AD, comply with paragraph (d) of this AD.

(d) Replace the left and right aluminum lateral front horizontal stabilizer attachment brackets with steel brackets, P/Ns 880.33.0.-106.1 and 880.33.0.106.2, respectively.

This amendment becomes effective August 19, 1975.

Issued in Washington, D.C., on July 29, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Societe Nationale Industrielle AEROSPATIALE Model SA-341G "Gazelle" Helicopters

Incidents have occurred in which main rotor blade torsion strip stacks have elongated in service beyond acceptable limits without detection, which could result in loss of helicopter control. Since this condition is likely to exist or develop in other helicopters of the same type design, an airworthiness directive is being issued which requires installation of an elongation "tell-tale" device for each torsion strip stack, and daily check of the "tell-tale" device for condition.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SOCIETE NATIONALE INDUSTRIELLE AEROSPATIALE. Applies to model SA-341G "Gazelle" helicopters, serial numbers 1299 and lower, certificated in all categories.

Compliance is required within the next 100 hours' time in service, unless already accomplished in accordance with SA-341 Service Bulletin No. 65.10.

To detect excessive elongation of main rotor blade torsion strip stacks in service, and prevent consequent loss of helicopter control, accomplish the following:

(a) Install three "tell-tale" devices on the main rotor hub in accordance with subparagraph 1C (1) of SA-341 Service Bulletin No. 65.10 dated February 27, 1975, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

(b) Prior to first flight of the day, visually check "tell-tale" device for condition of the frangible screw. If the frangible screw is found broken, rectify "tell-tale" installation and replace associated torsion strip stack in accordance with subparagraph 1C (2) of SA-341 Service Bulletin No. 65.10, dated February 27, 1975, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

The check required by this AD may be performed by the pilot.

This amendment becomes effective August 19, 1975.

Issued in Washington, D.C., on July 29, 1975.

## PART 39—AIRWORTHINESS DIRECTIVES

### Sikorsky Model S-61N Helicopters, Serial Numbers 61742 Through 61746 Inclusive, Certificated in All Categories

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on July 17, 1975 and made effective immediately as to the operators of Sikorsky S-61N helicopters, serial numbers 61742 through 61746, inclusive. The directive requires that a certain lot of main rotor blade attachment bolts be removed from service.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest, and good cause existed for making the airworthiness directive effective immediately as to the operators of Sikorsky S-61N helicopters, serial numbers 61742 through 61746 by individual telegrams dated July 17, 1975. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations.

SIKORSKY. Applies to S-61N helicopters, serial numbers 61742 through 61746, inclusive.

To prevent operation with defective main rotor blade attachment bolts, accomplish the following:

Within 5 hours time in service, remove from service all S1510-23133-0 main rotor blade attachment bolts identified by gold color and replace them with S1510-23133-0 bolts identified by light gray/silver color. These bolts must be replaced in accordance with the Sikorsky Aircraft S-61N maintenance manual. The above replacement of gold colored bolts with gray/silver colored bolts is a one time replacement. The installed gold colored bolts are suspected to contain manufacturing defects.

This amendment becomes effective August 5, 1975, for all persons except those to whom it was made effective immediately by telegram dated July 17, 1975.

(Sections 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); section 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Burlington, Massachusetts, on July 29, 1975.

## PART 63—CERTIFICATION: FLIGHT CREWMEMBERS OTHER THAN PILOTS

### Flight Engineer Knowledge and Aeronautical Experience Requirements

This amendment to Part 63 of the Federal Aviation Regulations provides that the holder of at least a commercial pilot certificate with an instrument rating who has at least 5 hours of flight training in the duties of a flight engineer, meets the experience requirements of § 63.37 of the Federal Aviation Regulations. In addition, § 63.35 has been amended to clarify the requirement that an applicant for a flight engineer certificate with a class rating must pass both the basic test and a class rating test prior to completing the practical test required by § 63.39 for the original issuance of a flight engineer certificate with a class rating.

Interested persons have been afforded an opportunity to participate in the making of these amendments by a notice of proposed rule making (Notice 74-1; 39 FR 1780; January 14, 1974), and due consideration has been given to all comments received in response to that Notice. Except as specifically discussed herein, these amendments and the reasons therefor are the same as those proposed in the Notice.

The FAA received fifty-one comments in response to the Notice. Thirty-five commentators concurred with the proposed amendments, and generally stated that the current requirements are too restrictive in not permitting the holder of a commercial pilot certificate with an instrument rating to take the written tests for a flight engineer certificate.

Several comments objected to the proposals in the Notice based on the belief that they would result in an individual being recognized by the FAA as being qualified to serve as a flight engineer, but who in fact would not possess sufficient background and knowledge to safely act in that capacity. Several of these commentators further contended that the experience accumulated by a commercial pilot certificate holder with an instrument rating should only qualify him to take the basic written test, but not qualify him to take a written test for a flight engineer class rating.

The FAA disagrees with these comments, and believes that the holder of a commercial pilot certificate with an instrument rating possesses an equivalency in aeronautical experience and understanding of the duties and responsibilities required of a flight engineer with individuals who have complied with § 63.37(b)(1), (2), and (3), and should be permitted to take the written tests for a flight engineer certificate and the associated class ratings.

One commentator stated that a primary function of a flight engineer is to monitor in flight the various aircraft systems. This commentator asserted that to perform this function the flight engineer must be knowledgeable in the mechanical aspects of aircraft and that the proposed rule dilutes this necessary mechanical experience and training. The FAA agrees that a flight engineer must be able to monitor in flight the various aircraft systems and maintain currency in the performance of this function. However, with respect to mechanical experience and training, the FAA does not concur that such experience and training are required. It should be noted that the flight engineer no longer functions as an in-flight maintenance man, and that the principal function of a flight engineer is to assist the pilot in command and second in command in the operation of the aircraft.

One comment, in objecting to the proposed amendment, asserted that the preamble to the notice is contradictory to the proposed amendment. It was asserted that the proposal would permit a holder of a commercial pilot certificate with an instrument rating to be qualified not only to take the written tests but also to be considered experience qualified under § 63.37, without being required to meet any of the present qualifications of § 63.37. The commentator contended that this was not discussed in the notice and is a very crucial point, since these applicants need not attend a flight engineer ground and flight course of instruction as required in § 63.37(b)(6). It was asserted that an individual who has obtained a commercial pilot certificate with an instrument rating by meeting the minimum required flight hours, does not possess the experience necessary to be a flight engineer on air carrier aircraft. Furthermore, the commentator contended that air carrier flight engineer training programs are not designed to train inexperienced individuals, but to train those crewmembers who are certificated and experienced on an airplane of a different type from the one on which they have been serving as crewmembers.

The FAA does not agree that the language of the preamble is contradictory to the proposed amendment. As pointed out

V40151 AUG 5 75 XUM

in the notice, the FAA proposed to amend Part 63 to permit an applicant for a flight engineer certificate and a class rating to meet the prescribed aeronautical experience requirements in an additional manner to those now specified in § 63.37. In making the proposal, the FAA was not contending that these applicants necessarily satisfied the experience requirements of § 63.37 without further training. Therefore, as pointed out in the notice, the FAA proposed to amend § 63.37 to require these applicants to have at least 5 hours of flight training in the duties of a flight engineer, and at least a commercial pilot certificate with an instrument rating. This flight training is the same as the in-flight training requirements of § 63.37(b)(1), (2), and (3). It should be pointed out that this amendment merely provides an alternate method of satisfying the experience requirement of § 63.37(b). In adopting this amendment, the FAA has not eliminated any of the other alternative experience requirements of current § 63.37(b). An applicant will still be eligible to take the written tests by attending a flight engineer ground and flight course of instruction as provided in § 63.37(b)(6). As previously discussed, the FAA believes that an applicant who is made eligible under this amendment is as well qualified to take the written tests for a flight engineer certificate as those applicants who qualify to take the written tests by meeting the experience requirements of § 63.37(b)(1), (2), or (3).

That same commentator further asserted that the proposal would allow simulator training to be substituted for the required 5 hours of flight training in the duties of a flight engineer. On the contrary, the 5 hours of flight training required by § 63.37 must be accomplished in flight, and no provision is made for substitution of simulator training.

With respect to the commentator's point that the proposed 5 hours of flight experience is inconsistent with the 100 hours required under ICAO, the FAA intends to file a notice of difference with ICAO as to this discrepancy.

Another commentator asserted that the pilot in command and second in command are overloaded with compounding critical decisions which can lead to accidents. The commentator stated that the solution to this problem is to delegate duties of the flight crew to the flight engineer thereby giving him more responsibility in the operation of the aircraft. It was contended that the proposals in the Notice would not assure a sufficiently qualified flight engineer to assume this increased responsibility.

The FAA is aware of the importance of the flight engineer in the operation of complex modern aircraft. The FAA agrees that the flight engineer must be well trained in order to carry out his primary task of monitoring in flight the various aircraft systems and supply the pilot in command and with current information. The FAA does not agree however, that the proposals in the Notice fail to recognize the need for such training, nor that the flight engineer certificate has been degraded in any way. The FAA believes that applicants certificated and rated under the provisions of this amendment will be at least as well qualified as those applicants who qualify under § 63.37(b) (1), (2), or (3).

Finally, as proposed in the Notice, § 63.35 is being amended to clearly state the requirement that an applicant for a flight engineer certificate with a class rating must take both the basic test and a class rating test prior to completing the practical test required by § 63.39 for the original issuance of a flight engineer certificate with a class rating.

(Sections 313(a), 601, and 602 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1422); Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing, Part 63 of the Federal Aviation Regulations is amended, effective September 4, 1975, as follows:

1. By amending paragraphs (c) and (d) of § 63.35 to read as follows:

§ 63.35 Knowledge requirements.

• • • • •

(c) Before taking the written tests prescribed in (a) and (b) of this section, an applicant for a flight engineer certificate must present satisfactory evidence of having completed one of the experience requirements of § 63.37. However, he may take the written tests before acquiring the flight training required by § 63.37.

(d) An applicant for a flight engineer certificate must have passed the written tests required by (a) and (b) of this section within the 24-month period before the date he takes the flight test. However, this limitation does not apply to an applicant who, after passing the written tests, has continuously participated in a maintenance, flight engineer, or pilot training program of a United States air carrier or commercial operator conducted under Part 121 of this chapter, or conducted by a United States scheduled military air transportation service.

• • • • •

2. By redesignating paragraphs (4), (5), and (6) of § 63.37(b) as paragraphs (5), (6), and (7), and by inserting a new paragraph (4) to read as follows:

§ 63.37 Aeronautical experience requirements.

• • • • •

(b) • • •

(4) At least a commercial pilot certificate with an instrument rating and at least 5 hours of flight training in the duties of a flight engineer.

• • • • •

Issued in Washington, D.C., on July 25, 1975.

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

### PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

**Levamisole Hydrochloride and Piperazine Dihydrochloride**

The Commissioner of Food and Drugs has evaluated a new animal drug application (93-668V) filed by American Cyanamid Co., Agricultural Division, P.O. Box 400, Princeton, NJ 08540, proposing safe and effective use of levamisole hydrochloride and piperazine dihydrochloride solution as an anthelmintic for the treatment of horses. The application is approved, effective August 5, 1975.

The Commissioner is amending Part 520 (formerly Part 135c prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)) to reflect the approval as set forth below.

Therefore, under provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b (i))), and under authority delegated to the Commissioner (21 CFR 2.120), Part 520 is amended by adding § 520.1242c, to read as follows:

§ 520.1242c Levamisole hydrochloride-piperazine dihydrochloride.

(a) *Specifications.* The drug is an aqueous solution which contains per fluid ounce 0.36 gram levamisole hydrochloride and piperazine dihydrochloride equivalent to 3.98 grams of piperazine base.

(b) *Sponsor.* See No. 010042 in § 510.600(c) of this chapter.

(c) [*Reserved*].

(d) *Conditions of use.* It is used as a drench for horses as follows:

(1) *Indications for use.* An anthelmintic effective against infections of large strongyles (*Strongylus vulgaris, S. edentatus*), small strongyles (*Cylicocercus spp., Cyclicocyclus spp., Cylicodontophorus spp., Cyliostephanus spp., Cylicotetrapedon spp.*), ascarids (*Parascaris equorum*), and pinworms (*Oxyuris equii*).

(2) *Limitations.* Administer by stomach tube or drench 1 fluid ounce per 100 pounds of body weight. If reinfection occurs, re-treat animals at 6 to 8 week intervals. Do not treat animals intended for food. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

*Effective date.* This order shall become effective August 5, 1975.

### PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEED

**Bambermycins**

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (44-759V) filed by Hoechst-Roussel Pharmaceuticals, Inc., Route 202-206 North, Somerville, NJ 08876, proposing safe and effective use of bambermycins premix for manufacturing feed supplements and complete feeds for growing and finishing swine. The supplemental application is approved, effective August 5, 1975.

The Commissioner is amending Part 558 (formerly Part 135e prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)) to reflect this approval.

The data submitted regarding use of this drug show that no residues are reflected from the conditions of its use or any foreseeable condition of misuse. Therefore, in accordance with § 556.1(a)(4) (21 CFR 556.1(a)(4), formerly 21 CFR 135g.1(a)(4)) a tolerance is deemed unnecessary pursuant to its use in swine feed.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), Part 558 is amended in § 558.95 (formerly § 135e.65), by revising paragraph (e) to read as follows:

§ 558.95 Bambermycins.

• • • • • •

(e) *Conditions of use.* (1) *Broiler chicken feed.* It is used as follows:

(i) *Amount per ton.* 1 to 2 grams.

(ii) *Indications for use.* For increased rate of weight gain and improved feed efficiency.

(iii) *Limitations.* Feed continuously as the sole ration.

(2) *Growing-finishing swine feed.* It is used as follows:

(i) *Amount per ton.* 2 grams.

(ii) *Indications for use.* For increased rate of weight gain and improved feed efficiency.

(iii) *Limitations.* Feed continuously as sole ration.

(iv) *Special considerations.* Finished growing-finishing swine feeds processed from feed supplements that contain up to 40 grams of bambermycins per ton and conform to the requirements of this section are not required to comply with the provisions of section 512(m) of the act.

*Effective date.* This amendment shall become effective on August 5, 1975.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

### CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER D—TARIFFS AND SCHEDULES

[Ex Parte No. 261]

### FREIGHT TARIFFS AND SCHEDULES

#### Filing and Publishing Joint Rates Over International-Domestic Routes

This rulemaking proceeding concerns new and revised tariff rules pertaining to export and import traffic moving via rail, motor, or part III water common carriers which operate within the United States in conjunction with vessel-operating common carriers by water operating in foreign commerce which are subject to the jurisdiction of the Federal Maritime Commission and the acts which it administers, especially the Shipping Act of 1916 and the Merchant Marine Act of 1920.

In the instant report on further reconsideration, the Commission promulgates several new and revised tariff publishing rules concerning rate reductions, new or initial rates, and other tariff changes. It also reaffirms its authority to suspend joint international rates in their entirety, and it prescribes various substantive rules concerning shipper allowances and currency surcharges. Finally, the Commission institutes a new proceeding, designated at Ex Parte No. 261 (Sub-No. 1), to reconsider the participation of freight forwarders and non-vessel operating water common carriers in tariffs containing joint rates and through routes for the transportation of property between points in the United States and points in foreign commerce.

The promulgation of the above-described new and revised rules necessitated the recission of Special Permission Nos. 70-275 and 73-123, and amendment No. 1 thereto, in the Order accompanying the report on further reconsideration.

Upon consideration of petitions for reconsideration or clarification of the report and order of the Commission on further hearing, decided August 12, 1974, filed on or before October 9, 1974, by the Federal Maritime Commission, Sea-Land Service, Inc., the Freight Forwarders Institute and individual freight forwarders, the New York Foreign Freight Forwarders & Brokers Association, Inc., the Trans-Pacific Freight Conference of Japan/Korea Seatrain Lines, Inc., the Pacific Westbound Conference, IML Freight, Inc., and the joint reply of The Atchison, Topeka and Santa Fe Railway Company, Burlington Northern Inc., and Southern Pacific Transportation Company, filed October 29, 1974:

*It appearing,* That the Commission has reviewed the record in the above-captioned proceedings and the said petitions for reconsideration, and revised certain of the proposed rules as described in this report; therefore:

*It is ordered,* That, pursuant to section 4 of the Administrative Procedure Act [5 U.S.C. 553], and sections 1(1)(a), 6(5), 6(6), 6(12), 202(a), 203(a)(11), 216(c), 217(a), 220(a), 302, 303, 305(b), 306, and 313 of the Interstate Commerce Act, in 49 CFR Chapter X,

(2) Part 1305 be, and it is hereby, amended as follows:

(a) Section 1305.0 [preamble to rule 33 of Tariff Circulars No. 20] be revised to read as set forth below.

(The provisions of Subpart A of Part 1305 issued under sec. 6, 24 Stat. 380, sec. 12, 24, Stat. 383; 49 U.S.C. 6, 12.)

(3) Part 1307 be, and it is hereby, amended as follows:

(a) Section 1307.22 [preamble to Tariff Circular MF No. 3] be revised to read as set forth below.

(b) Section 1307.49 be added as a new section in the said part as set forth below.

(The provisions of Subpart B of Part 1307, issued under secs. 204, 217, 49 Stat. 546, as amended, 560, as amended, sec. 210a, as amended, 52 Stat. 1238, as amended; 49 U.S.C. 304, 317, 310a.)

(4) Part 1308 be, and it is hereby, amended as follows:

Section 1308.0 [preamble to Tariff Circular No. 22] be amended by revised paragraphs below.

(The provisions of Part 1308 issued under secs. 304, 306, 54 Stat. 933, 935, 49 U.S.C. 904, 906.)

*And it further appearing,* That petitioners seek clarification of proposed rule § 1300.67(b)(2) which requires, among other things, that intermodal tariffs conform to the regulations contained in Tariff Circular No. 20, and in particular they inquire whether rule 66 of Tariff Circular No. 20 applies to minimum containerloads as well as "minimum carloads";

*We further find,* That rule 66 of Tariff Circular No. 20 applies only to minimum carloads and not minimum containerloads;

*It is further ordered,* That the petitions be, and they are hereby, denied in all other respects for the reason that sufficient grounds have not been shown to warrant granting the action sought.

*It is further ordered,* That Special Permission No. 70-275, be, and it is hereby, rescinded.

*It is further ordered,* That Special Permission No. 73-123 and Amendment No. 1 thereto, be and they are hereby, rescinded.

*It is further ordered,* That all prior orders in Ex Parte No. 261 be, and they are hereby, vacated and set aside.

*It is further ordered,* That this order shall become effective 35 days from date of service, and shall remain in effect until modified or revoked in whole or in part by further order of this Commission.

*And it is further ordered,* That notice of this order shall be given to the general public by mailing a copy of this order to each party of record in this proceeding, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, for public inspection, and by delivering a copy to the Director, Office of the Federal Register, as notice to all interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

### PART 1300—FREIGHT TARIFFS; RAILROADS, WATER CARRIERS, AND PIPELINE COMPANIES SUBJECT TO SECTION 6 OF THE INTERSTATE COMMERCE ACT AND CARRIERS JOINTLY THEREWITH

1. In § 1300.0 paragraph (a)(1) is revised to read as follows:

**§ 1300.0 General provisions; definitions.**

(a) *General application; conformation to rules; reissue.* (1) This part contains regulations issued by the Interstate Commerce Commission, under authority of section 6 of the Interstate Commerce Act, as amended, to govern the construction,

and filing of freight rate tariffs and classifications of railroads, water carriers, and pipeline companies filing under section 6 of the act, and under authority of sections 217 and 306 of the act to govern the construction and filing of freight rate tariffs and classifications naming or governing joint rates and routes over motor and water carriers jointly with such carriers subject to part I of the act. The regulations in this part shall also govern the construction and filing of tariffs naming through routes and joint rates over the lines of common carriers by railroad, water, or pipeline, or by railroad or pipeline jointly with common carriers by motor vehicle, subject to the Interstate Commerce Act, on the one hand, and vessel-operating common carriers by water engaged in the foreign commerce of the United States, as defined in the Shipping Act, 1916, on the other hand, for the transportation of property between any place in the United States and any place in a foreign country. See § 1300.67.

* * * * *

2. Section 1300.67 is revised to read as follows:

**§ 1300.67 Export and import traffic—ocean carriers.**

(a) *Ocean carriers not subject to Act.* Common carriers by water, or conference of such carriers, engaged in the foreign commerce of the United States, as defined in the Shipping Act, 1916, that operates between ports of the United States and foreign countries are not subject to the terms of the Interstate Commerce Act or to the jurisdiction of the Interstate Commerce Commission.

(b) *Through routes and joint routes.* (1) A common carrier by railroad, pipeline, or water, or a common carrier by railroad or pipeline jointly with a common carrier by motor vehicle, subject to the Interstate Commerce Act (hereinafter referred to in this section as the domestic carrier), may establish a through route and joint rate with a vessel-operating common carrier by water engaged in the foreign commerce of the United States (hereinafter referred to in this section as the ocean carrier), as defined in the Shipping Act, 1916, for the transportation of property between any place in the United States and any place in a foreign country. Every tariff naming such a through route and joint rate shall be filed with this Commission. The tariff may be filed in the name of the ocean carrier, a conference of ocean carriers, or the domestic carrier or its tariff publishing agent.

(2) The tariff shall be constructed, filed, and posted in conformity with the Interstate Commerce Act, and except as otherwise specifically authorized, with the regulations in Parts 1300 and 1305 (regulations in both parts included in Tariff Circular No. 20) of this chapter. The tariff shall be printed in the English language, show all rates and charges in terms of lawful money of the United States, and include the names of all participating carriers, a description of the services to be performed by each participating carrier, a statement of the joint rate, and a clear and definite statement of the division, rate, or charge to be received by the domestic carrier for its share of the revenue covering a through shipment or aggregate of shipments under the tariff. If shipments and/or loaded containers are to be permitted to be aggregated which are rated under more than one tariff published by the carrier or for its account each tariff so affected must contain a specific rule, providing for the aggregation, in connection with the statement of the land carrier's divisions and identifying by ICC number each of the other tariffs. The requirement that rates and charges be stated in the lawful currency of the United States does not pertain to detention, demurrage, per diem, or terminal charges not included in the line-haul rate for services performed at locations outside the territorial limits of the United States. A tariff filed in the name of a conference shall show "Agent" after the name of the conference wherever it appears. If the tariff provides less-than-carload, less-than-containerload, or less-than-trailerload service, such service must be defined. If the tariff provides containerload rates, such rates must be made subject to a specified minimum weight or minimum measure per container, or a specified minimum charge per shipment per container, and a maximum weight per container. Where the freight is to be packed (loaded) or unpacked (unloaded) into or from the containers by the domestic or ocean carrier, the tariff must clearly state that the joint rate includes this service or must provide a separate charge to apply when said service is provided.

(3) Rates or charges may be stated to apply on a unit other than a United States unit provided the unit is defined in the tariff where used. A rate or charge applying on a unit of measure may be published, but if the tariff also includes a rate or charge applying on a unit of weight on the same traffic, the charges on the weight basis must alternate with the charges on the measurement basis. In every case, the tariff shall provide a definite method for determining the measurement of the shipment and the applicable charges. "Cargo, N.O.S." may be provided as a commodity description provided the term is clearly defined in the tariff where used. The tariff may provide for a percentage increase or reduction in the rates or charges for the purpose of (i) restoring or maintaining the relationship of United States currency to the foreign currency involved; (ii) covering the cost of bunker fuel used by the vessel; or (iii) covering the higher cost caused by the risk incurred by a vessel entering or leaving a war zone, or caused by the congestion at the port to or from which a vessel moves. Tariffs governing the application of the rate tariff need not show a carrier as a participant when none of the provisions therein apply for such carrier's account.

(4) Allowances, cargo administrative charges, or reductions shall not be provided for payment to shippers or other parties for services performed by or facilities furnished by other than the carriers parties to the through transportation unless (i) such carriers by tariff publication hold themselves out to perform such services and furnish such facilities, (ii) such carriers are able to perform such services and furnish such facilities upon reasonable demand, and (iii) the performance of such services and furnishing of such facilities are included in the through joint-rate or charge.

(5) A domestic carrier desiring to become a participant in a tariff filed in the name of a conference of ocean carriers may, in lieu of giving a power of attorney to the conference, give to an ocean carrier participating in such conference tariffs a concurrence in tariffs issued and filed by the ocean carrier or the conference, or both. A limited concurrence may provide for only those limitations authorized in § 1300.19. The concurrence forms prescribed by § 1300.19 shall be modified to show that the authority extends to amendments to the tariff(s) and to tariffs filed in the name of the conference (agent), and to show the types of tariffs (such as tariffs containing joint rail-ocean rates, joint rail-motor-ocean rates, et cetera) in which the domestic carrier desires to participate.

(6)(i) The tariff may be amended on 5 days' notice to this Commission and the public to provide changes in rates, charges, rules, regulations, or other provisions therein to meet reductions in charges to the shipper resulting from changes in rates, charges, rules, regulations, or other provisions filed on less than 30 days' notice in the all-water tariffs of competing carriers not subject to the jurisdiction of this Commission but subject to the jurisdiction of the Federal Maritime Commission. When the amending publication is transmitted to this Commission for official filing, it shall be accompanied by an exact copy of the competing carrier's tariff amendment(s), or in the alternative a copy of the all-water conference bulletin or tariff circular notice, or both, on file with the Federal Maritime Commission. The publication shall also be accompanied by a specific explanation of the changes being made and a notarized certification that the charges resulting from the changes are not lower than the competing carrier's all-water (ocean) charges.

(ii) There shall be no inconsistencies in the effective dates on the tariff publications filed jointly with the Federal Maritime Commission and the Interstate Commerce Commission.

(iii) The tariff(s) being amended shall contain an effective cargo, n.o.s. rate or similar general cargo rate, which rate would otherwise be applicable to the specific commodity from and to the same points, via the route, and the established specific commodity rate shall be equal to or lower than the previously applicable rate.

(iv) The division, rate, or charge to be collected by the domestic carrier(s) for its portion of the through service shall be

V40I151 AUG 5 75 XUM

no less than the existing division, rate, or charge on the same commodity in like quantity from and to the same points and by the same route.

(v) If this Commission receives a petition which requests suspension of any change filed under authority of paragraph (b)(6) of this section and if the petition is received before the change becomes effective, the protested change shall, within 10 days after notification from this Commission to the carrier or publishing agent, be canceled on 1 day's notice. The protested change may not be republished under authority of paragraph (b)(6) of this section.

(vi) The following may not be filed under authority of paragraph (b)(6) of this section:

(*a*) Tariff publication providing new or initial rates, charges, routes, rules, regulations, or other provisions.

(*b*) Tariff publications which provide new points or ports of origin or destination, or both.

(*c*) Tariff publications which provide for the elimination or cancellation of a specific commodity, rate, charge, route, or service, except where such elimination or cancellation produces a reduction in a rate or charge, and except where authorized by paragraph (b)(6)(v) of this section.

(*d*) Tariff publications seeking to meet a competing rate, charge, rule, regulation, or other provision established in an all-water tariff filed in the name of an ocean carrier also publishing in its own name the intermodal tariff naming the through route and joint rate, or filed in the name of any subsidiary or affiliate thereof.

(*e*) Tariff publications which bear an effective date of more than 30 days later than the effective date of the reduction by the competing ocean carrier.

(vii) Rates, charges, rules, regulations, or other provisions need not be effective for 30 days prior to being changed under authority of paragraph (b)(6) of this section.

(*c*) *Port combination basis.*—Domestic and ocean carriers may enter into joint rate arrangements, as authorized by paragraph (b) of this section, and domestic carriers may at the same time maintain in effect rates applicable only from and to the ports, usable in combination with ocean carriers' independently established rates. Publication of such rates by the domestic carrier shall be subject to the following:

(1) The domestic carriers shall file their rates to the ports and from the ports, and such rates must be the same for all, regardless of which ocean carrier may be designated by the shipper, except as otherwise provided by section 28 of the Merchant Marine Act (41 Stat. 988, 46 U.S.C. 884).

(2) When the domestic carriers publish rates which are indicated to apply only on export or import traffic, the tariffs containing such rates shall specify by inclusion or exclusion the countries to or from which traffic subject to such rates shall move, regardless of whether such countries are, or are not, adjacent to the United States. Tariffs shall also specify whether or not property destined to or coming from the Republic of Cuba, the Commonwealth of Puerto Rico, Guam, Hawaii, or the Canal Zone is subject to such rates. In the absence of a statement in tariffs limiting the application of export or import rates, such rates will apply on traffic destined to or coming from them.

(3) As a matter of convenience to the public, the domestic carriers may also publish as information in their tariffs the ocean carriers' rates or charges that will apply to or from a foreign country in connection with the domestic carriers' rates. When this is done, the ocean carriers' rates or charges are in no manner subject to the jurisdiction of this Commission, but the rates of the domestic carriers applying to or from the ports are subject to all provisions of the Interstate Commerce Act and to this Commission's regulations.

(d) *Through export and import billing.*—Export and import shipments may be forwarded under through billing. Through bills of lading must clearly separate the liability of the carriers included therein, where different, and must show (1) the tariff rates or charges of the domestic carriers to or from the port or (2) the joint rates or charges when such rates or charges are established and are named in tariffs on file with this Commission as provided in paragraph (b) of this section. The name of the domestic carrier shall appear in a prominent place on the face of the bill of lading when that carrier originates the shipment. Tariffs which provide for the use of a specified kind of bill of lading shall reproduce all of the terms and conditions thereof.

## PART 1305—POSTING TARIFFS AT STATIONS

1. Section 1305.0 is revised to read as follows:

**§ 1305.0 Application—posting of tariffs defined.**

(a) The regulations in this subpart shall also govern the posting (by carriers subject to the jurisdiction of the Interstate Commerce Commission) of any tariff containing a through route and joint rate over the lines of a common carrier by railroad, pipeline, or water, or by railroad or pipeline jointly with a common carrier by motor vehicle, subject to the Interstate Commerce Act, on the one hand, and a vessel-operating common carrier by water engaged in the foreign commerce of the United States, as defined in the Shipping Act, 1916, on the other hand, and all other tariffs governing the application of the rate tariff, for the transportation of property between any place in the United States and any place in a foreign country. See § 1300.67.

(b) The term "post" as used in this part means the maintenance of a file of tariffs in the custody of an agent of the carrier in a complete, accessible, and usable form, and keeping such file of tariffs available to the public upon request during ordinary business hours. The term "tariff" as used in this part includes tariff supplements or amendments.

## PART 1307—FREIGHT RATE TARIFFS, SCHEDULES, AND CLASSIFICATIONS OF MOTOR CARRIERS

1. Section 1307.22 is revised to read as follows:

**§ 1307.22 Application of regulations.**

(a) The regulations in Subpart B will also apply to tariffs containing joint rates of common carriers of property by motor vehicle and common carriers by water subject to part III of the Interstate Commerce Act, other than railroad-owned or railroad-controlled water carriers.

(b) The regulations in Subpart B will also apply to tariffs containing through routes and joint rates over the lines of common carriers by motor vehicle or by motor vehicle jointly with common carriers by water whether or not the water carriers are railroad-owned or railroad-controlled, subject to the Interstate Commerce Act, on the one hand, and vessel-operating common carriers by water engaged in the foreign commerce of the United States, as defined in the Shipping Act, 1916, on the other hand, for the transportation of property between any place in the United States and any place in a foreign country. See § 1307.49.

(c) The regulations in Subpart B will not apply (i) to tariffs containing joint rates between motor carriers and common carriers by rail or by water when such water carriers are railroad-owned or railroad-controlled and operate under the provisions of section 5(16) of the Interstate Commerce Act; or (ii) to tariffs containing joint motor-rail-water rates whether or not the water carrier is railroad-owned or railroad-controlled. See paragraph (b) of this section for exception.

2. Section 1307.49 is added to read as follows:

**§ 1307.49 Export and import traffic—ocean carriers.**

(a) *Ocean carriers not subject to Act.*—Common carriers by water or conferences of such carriers, engaged in the foreign commerce of the United States, as defined in the Shipping Act, 1916, that operate between ports of the United States and foreign countries are not subject to the terms of the Interstate Commerce Act or to the jurisdiction of the Interstate Commerce Commission.

(b) *Through routes and joint rates.* (1) A common carrier by motor vehicle or by motor vehicle jointly with a common carrier by water, subject to the Interstate Commerce Act (hereinafter referred to in this section as the domestic carrier), may establish a through route and joint rate with a vessel-operating common carrier by water engaged in the foreign commerce of the United States (hereinafter referred to in this section as the ocean carrier), as defined in the Shipping Act, 1916, for the transportation of property between any place in the United States and any place in a foreign country. Every tariff naming such a through route and joint rate shall be filed with this Commission. The tariff may be filed in the name of the ocean carrier, a conference of ocean carriers, or the domestic carrier or its tariff publishing agent.

(2) The tariff shall be constructed, filed, and posted in conformity with the Interstate Commerce Act, and, except as otherwise specifically authorized, with the regulations in Parts 1300 and 1305 (regulations in both parts included in Tariff Circular No. 20) of this chapter. The tariff shall be printed in the English language, show all rates and charges in terms of lawful money of the United States, and include the names of all participating carriers, a description of the services to be performed by each participating carrier, a statement of the joint rate, and a clear and definite statement of the division, rate, or charge to be received by the domestic carrier for its share of the revenue covering a through shipment or aggregate of shipments under the tariff. If shipments and/or loaded containers are to be permitted to be aggregated which are rated under more than one tariff published by the carrier or for its account each tariff so affected must contain a specific rule, providing for the aggregation, in connection with the statement of the land carrier's divisions and identifying by I.C.C. number each of the other tariffs. The requirement that rates and charges be stated in the lawful currency of the United States does not pertain to detention, demurrage, per diem, or terminal charges not included in the line-haul rates for services performed at locations outside the territorial limits of the United States. A tariff filed in the name of a conference shall show "Agent" after the name of the conference wherever it appears. If the tariff provides less-than-carload, less-than-containerload, or less-than-trailerload service, such service must be defined. If the tariff provides containerload rates, such rates must be made subject to a specified minimum weight or minimum measure per container, or a specified minimum charge per shipment per container and a maximum weight per container. Where the freight is to be packed (loaded) or unpacked (unloaded) into or from the containers by the domestic or ocean carrier, the tariff must clearly state that the joint rate includes this service or must provide a separate charge to apply when said service is provided.

(3) Rates or charges may be stated to apply on a unit other than a United States unit provided the unit is defined in the tariff where used. A rate or charge applying on a unit of measure may be published, but if the tariff also includes a rate or charge applying on a unit of weight on the same traffic, the charges on the weight basis must alternate with the charges on the measurement basis. In every case, the tariff shall provide a definite method for determining the measurement of the shipment and the applicable charges. "Cargo, N.O.S." may be provided as a commodity description provided the term is clearly defined in the tariff where used. The tariff may provide for a percentage increase or reduction in the rates or charges for the purpose of (i) restoring or maintaining the relationship of United States currency to the foreign currency involved; (ii) covering the cost of bunker fuel used by the vessel; or (iii) covering the higher costs caused by the risk incurred by a vessel entering or leaving a war zone, or caused by the congestion at the port to or from which a vessel moves. Tariffs governing the application of the rate tariff need not show a carrier as a participant when none of the provisions therein apply for such carrier's account.

(4) Allowances, cargo administrative charges, or reductions shall not be provided for payment to shippers or other parties for services performed by or facilities furnished by other than the carriers parties to the through transportation unless (i) such carriers by tariff publication hold themselves out to perform such services and furnish such facilities, (ii) such carriers are able to perform such services and furnish such facilities upon reasonable demand, and (iii) the performance of such services and furnishing of such facilities are included in the through joint-rate or charge.

(5) A domestic carrier desiring to become a participant in a tariff filed in the name of a conference of ocean carriers may, under authority of § 1307.47(c), give to an ocean carrier participating in such conference tariffs a concurrence in tariffs issued and filed by the ocean carrier or the conference, or both. Such a concurrence may be limited only to the extent authorized by that section, except that the concurrence may further limit the authority to specified tariffs. The concurrence form prescribed by § 1307.47(e) shall be modified to show that the authority extends to amendments to the tariff(s) and to tariffs filed in the name of the conference (agent), and to show the types of tariffs (such as tariffs containing joint motor-ocean rates, joint motor-water-ocean rates, et cetera) in which the domestic carrier desires to participate.

(6)(i) The tariff may be amended on 5 days' notice to this Commission and the public to provide changes in rates, charges, rules, regulations, or other provisions therein to meet reductions in charges to the shipper resulting from changes in rates, charges, rules, regulations, or other provisions filed on less than 30 days' notice in the all-water tariffs of competing carriers not subject to the jurisdiction of this Commission but subject to the jurisdiction of the Federal Maritime Commission. When the amending publication is transmitted to this Commission for official filing, it shall be accompanied by an exact copy of the competing carrier's tariff amendment(s), or in the alternative a copy of the all-water conference bulletin or tariff circular notice, or both, on file with the Federal Maritime Commission. The publication shall also be accompanied by a specific explanation of the changes being made and a notarized certification that the charges resulting from the changes are not lower, than the competing carrier's all-water (ocean) charges.

(ii) There shall be no inconsistencies in the effective dates on the tariff publications filed jointly with the Federal Maritime Commission and the Interstate Commerce Commission.

(iii) The tariff(s) being amended shall contain an effective cargo, n.o.s. rate or similar general cargo rate, which rate would otherwise be applicable to the specific commodity from and to the same points, via the same route, and the established specific commodity rate shall be equal to or lower than the previously applicable rate.

(iv) The divison, rate, or charge to be collected by the domestic carrier(s) for its portion of the through service shall be no less than the existing division, rate, or charge on the same commodity in like quantity from and to the same points and by the same route.

(v) If this Commission receives a petition which requests suspension of any change filed under authority of paragraph (b)(6) of this section and if the petition is received before the change becomes effective, the protested change, shall, within 10 days after notification from this Commission to the carrier or publishing agent, be canceled on 1 day's notice. The protested change may not be republished under authority of paragraph (b)(6) of this section.

(vi) The following may not be filed under authority of paragraph (b)(6) of this section:

(*a*) Tariff publications providing new or initial rates, charges, routes, rules, regulations or other provisions.

(*b*) Tariff publications which provide new points or ports of origin or destination, or both.

(*c*) Tariff publications which provide for the elimination or cancellation of a specific commodity, rate, charge, route, or service, except where such elimination or cancellation produces a reduction in a rate or charge, and except where authorized by paragraph (b)(6)(v) of this section.

(*d*) Tariff publications seeking to meet a competing rate, charge, rule, regulation, or other provision established in an all-water tariff filed in the name of an ocean carrier also publishing in its own name the intermodal tariff naming the through route and joint rate, or filed in the name of any subsidiary or affiliate thereof.

(*e*) Tariff publications which bear an effective date of more than 30 days later than the effective date of the reduction by the competing ocean carrier.

(vii) Rates, charges, rules, regulations, or other provisions need not be effective for 30 days prior to being changed under authority of paragraph (b)(6) of this section.

V40151 AUG 5 75 XUM

(c) *Port combination basis.* Domestic and ocean carriers may enter into joint rate arrangements, as authorized by paragraph (b) of this section, and domestic carriers may at the same time maintain in effect rates applicable only from and to the ports, usable in combination with ocean carriers' independently established rates. Publication of such rates by the domestic carrier shall be subject to the following:

(1) The domestic carriers shall file their rates to the ports and from the ports, and such rates must be the same for all, regardless of which ocean carrier may be designated by the shipper, except as otherwise provided by section 28 of the Merchant Marine Act (41 Stat. 988, 46 U.S.C. 884).

(2) When the domestic carriers publish rates which are indicated to apply only on export or import traffic, the tariffs containing such rates shall specify by inclusion or exclusion the countries to or from which traffic subject to such rates shall move, regardless of whether such countries are, or are not, adjacent to the United States. Tariffs shall also specify whether or not property destined to or coming from the Republic of Cuba, the Commonwealth of Puerto Rico, Guam, Hawaii, or the Canal Zone is subject to such rates. In the absence of a statement in tariffs limiting the application of export or import rates, such rates will apply on traffic destined to or coming from them.

(3) As a matter of convenience to the public, the domestic carriers may also publish as information in their tariffs the ocean carriers' rates or charges that will apply to or from a foreign country in connection with the domestic carriers' rates. When this is done, the ocean carriers' rates or charges are in no manner subject to the jurisdiction of this Commission, but the rates of the domestic carriers applying to or from the ports are subject to all provisions of the Interstate Commerce Act and to this Commission's regulations.

(d) *Through export and import billing.* Export and import shipments may be forwarded under through billing. Through bills of lading must clearly separate the liability of the carriers included therein, where different, and must show (1) the tariff rates or charges of the domestic carriers to or from the port or (2) the joint rates or charges when such rates or charges are established and are named in tariffs on file with this Commission as provided in paragraph (b) of this section. The name of the domestic carrier shall appear in a prominent place on the face of the bill of lading when that carrier originates the shipment. Tariffs which provide for the use of a specified kind of bill of lading shall reproduce all of the terms and conditions thereof.

## PART 1308—FREIGHT TARIFFS AND SCHEDULES OF WATER CARRIERS

1. In § 1308.0, paragraphs (b) and (c) are revised to read as follows:

**§ 1308.0 General provisions; definitions.**

• • • • •

(b) *Conformation to regulations,* et cetera. All tariffs applicable on traffic subject to the regulations in this subpart must conform to all of their provisions, except as otherwise authorized by the Commission. They shall state and arrange the rates, charges, rules, and regulations clearly and explicitly in such manner that there will be no doubt of their proper application. Carriers or their agents may not publish rates or provisions which duplicate or conflict with rates or provisions published by or for account of such carriers.

(c) *Nonapplication.* Tariffs governed by the regulations in this subpart must not contain:

Joint water-rail rates;
Joint water-motor rates;
Joint water-rail-motor rates;
Passenger fares;
Contract carrier rates or charges.

Furthermore, tariffs published under this subpart must not contain joint rates and through routes over the lines of common carriers by water subject to the Interstate Commerce Act, on the one hand, and vessel-operating common carriers by water engaged in the foreign commerce of the United States, as defined in the Shipping Act, 1916, on the other hand, for the transportation of property between any place in the United States and any place in a foreign country. For applicable regulations, see §§ 1300.67 and 1307.49.

### UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

### Clarification of Procedure for Computing Replacement Housing Payment for Displaced Homeowners

Notice is hereby given that the Department of the Army (acting through the Chief of Engineers) proposes to amend its regulations in Title 32, Part 641, Code of Federal Regulations, governing administration of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894, 42 U.S.C. 4601).

The proposed amendment clarifies procedures concerning computation of the replacement housing payment for homeowners displaced by Government acquisition from tracts larger than the average residential lot in the area or from tracts having a fair market value based on a higher and better use than residential use.

It is the policy of the Department of the Army, whenever practicable, to afford the public the maximum opportunity to participate in the rule making process. Accordingly, interested persons may submit their written comments, suggestions, or objections with respect to the proposed change to Headquarters, Department of the Army (ATTN: DAEN-REH-O), Washington, D.C. 20314, on or before 1 September 1975.

Dated: July 25, 1975.

For the Chief of Engineers.

RUSSELL J. LAMP,
*Colonel, Corps of Engineers*
*Executive.*

Subpart E of Part 641 of Subchapter J of Chapter V of Title 32 of the Code of Federal Regulations is amended as follows:

1. Section 641.104 is amended as follows: Paragraph (c)(5) is revised and (c)(6) is deleted as set forth below:

**§ 641.104 Different payment for replacement housing.**

• • • • • •

(c) • • •

(5) Even though a dwelling may be located on a tract larger than the average residential lot in the area or on a tract having a fair market value based on a higher and better use than residential, the replacement housing payment, under section 203 of the Act, must be based on the "acquisition cost" to the Government for the dwelling, including a homesite typical in size for the area. In such cases, the appraiser will be requested to insert a statement in the appraisal report reading substantially as follows: "The total appraised value of this property is $_____, which includes $_____ as the value of the dwelling on a homesite of typical size for the area." To avoid undue administrative costs and complications, the dwelling and homesite value indicated in the appraisal will be used as the acquisition cost of the dwelling and homesite in calculating the replacement housing payment regardless of the amount which may finally be paid for the property as a whole.

### DRAWBRIDGE OPERATION REGULATIONS

### Tombigbee River, Ala.

At the request of the Alabama Department of Highways, the Coast Guard is considering revising the regulations for the U.S. Highway 80 drawbridge across the Tombigbee River, mile 201.6, to require at least 24 hours notice from 1 May through 30 November, however when high water occurs during this period, the draw shall open on signal. This change is being considered because of infrequent openings from May through November.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Eighth Coast Guard District, Customhouse, New Orleans, La. 70130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Eighth Coast Guard District.

The Commander, Eighth Coast Guard District, will forward any comments received before September 5, 1975, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.245(l)(15-a) immediately after § 117.245(l)(15) to read as follows:

**§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.**

### AIRWORTHINESS DIRECTIVES

### Hawker Siddeley Aviation Ltd., DH-114 Series Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Hawker Siddeley Aviation Ltd., DH-114 series airplanes. Three have been cracks of the nose gear adjusting screws on Hawker Siddeley Aviation Ltd., DH-114 airplanes, that could result in an inability to lower the gear. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require the adjusting screw to be replaced with an improved part on Hawker Siddeley Aviation Ltd., DH-114 series airplanes.

V40I151 AUG 5 75 XUM

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW Washington, D.C. 20591. All communications received on or before September 4, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION. Applies to DH-114 series airplanes certificated in all categories except those modified in accordance with Hawker Siddeley Modification 1610.

Compliance required within the next 400 hours time in service after the effective date of this AD unless already accomplished.

To prevent cracking of the nose gear adjusting screw, replace P/N 4U.493 with P/N 4U.567 in accordance with paragraph No. 5 of Hawker Siddeley Technical News Sheet No. U.16, dated March 19, 1973, or with an FAA-approved equivalent part and procedure.

Issued in Washington, D.C., on July 29, 1975.

## AIRWORTHINESS DIRECTIVES

### Pilatus Aircraft Ltd., Model PC-6 Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Pilatus Model PC-6 airplanes. There have been reports of hazardous fuel leaks at the elbow fittings connecting the fuel line to the fuel pump and carburetor on Pilatus Model PC-6 airplanes that could result in engine fire. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require replacement of aluminum fuel line and elbow fittings with stainless steel parts, on Pilatus Model PC-6 airplanes manufactured by Pilatus Aircraft Ltd. The proposed AD would not be applicable to Pilatus Model PC-6 airplanes manufactured by Fairchild Hiller.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591. All communications received on or before September 4, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

This amendment is proposed under the authority of Sections 313(a), 601, and 603, of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

PILATUS AIRCRAFT LTD. Applies to Pilatus model PC-6 airplanes, serial numbers 685 and below (all variants) manufactured by Pilatus Aircraft Ltd., powered by Lycoming G60-480-B1A6 engines.

NOTE: This AD does not apply to Pilatus PC-6 airplanes manufactured by Fairchild Hiller.

Compliance is required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent hazardous fuel leaks from developing at the elbow fittings connecting the fuel line to the fuel pump and carburetor and to prevent a broken fuel line, accomplish the following:

(a) Replace aluminum fittings (AN 822-8D and AN 823-8D) with stainless steel fittings (MS 20822-8C and MS 20823-8C), or FAA-approved equivalents.

(b) Replace aluminum fuel line P/N 6238.0094.80 with a stainless steel fuel line P/N 6238.0094.80C, or an FAA-approved equivalent.

Issued in Washington, D.C., on July 29, 1975.

## AIRWORTHINESS DIRECTIVES

### Pilatus Aircraft Ltd. and Fairchild Hiller Model PC-6 Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Pilatus Model PC-6 airplanes. There have been reports of cracks in the rudder bar junction welded seam of Pilatus Model PC-6 airplanes that could result in weakening and eventual failure of the rudder bar. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require repetitive inspections, interim repair and replacement of the rudder bar, as necessary, on Pilatus Model PC-6 airplanes manufactured by Pilatus Aircraft Ltd. and Fairchild Hiller.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before September 4, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

PILATUS AIRCRAFT LTD. AND FAIRCHILD HILLER. Applies to Pilatus model PC-6 airplanes (all variants), serial numbers 338 through 623, manufactured by Pilatus Aircraft Ltd. and serial numbers 2001 through 2067, manufactured by Fairchild Hiller.

Compliance is required as indicated.

To prevent a fatigue failure of the pilot and copilot rudder bar junction welded seam, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD, unless already accomplished, visually inspect the junction fillet welds (P/Ns 6232.145, 6232.241, and 116.35.06.004) of the pilot and copilot rudder bars and determine whether the weld covers the full 360° of the rudder bar tube circumference or only 250° of the rudder bar tube circumference. If the weld is determined to be of the improved 360° design, no further action is required by this AD.

(b) If the fillet weld is found to be of the non continuous (250°) weld design, visually inspect the rudder bar junction weld for cracks by applying magnaflux or by the dye check method in accordance with paragraph 2.1 of Pilatus Aircraft Ltd. Service Bulletin No. 120, dated January 1973, or an FAA-approved equivalent.

(c) If no cracks are found during the inspection required by paragraph (b) of this AD, within the next 100 hours' time in service and thereafter at intervals not to exceed 100 hours' time in service, visually inspect the rudder bar junction weld for cracks using a 10 power magnifying glass in accordance with paragraph 2.2 of Pilatus Aircraft Ltd. Service Bulletin No. 120 dated January 1973, or an FAA-approved equivalent.

(d) If cracks are found during an inspection required by paragraphs (b) or (c) of this AD, either repair the rudder bar junction weld in accordance with paragraph 2.3 of Pilatus Aircraft Ltd. Service Bulletin No. 120 dated January 1973, or an FAA-approved equivalent, or replace the rudder bars with new rudder bars of the same part number but with improved 360° weld design.

(e) Within the next 100 hours' time in service after accomplishing the repair described in paragraph (d) of this AD, or, if no cracks were found during the inspections required by paragraphs (b) or (c) of this AD, within the next 300 hours' time in service after complying with the inspection requirements of paragraph (b) of this AD, replace the rudder bars, P/N 6232.145, 6232.241, or 116.35.06.004, with new rudder bars of the same part number incorporating the continuous full 360° fillet weld around the rudder bar circumference.

Issued in Washington, D.C., on July 29, 1975.

## ALTERATION OF TRANSITION AREA

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Litchfield, Minnesota.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018. All communications received on or before September 4, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018.

A new instrument approach procedure has been developed for the Litchfield Municipal Airport, Litchfield, Minnesota. The transition area requires alteration to protect this procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (40 FR 441), the following transition area is amended to read:

LITCHFIELD, MINNESOTA

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Litchfield Municipal Airport (latitude 45°08'18" N., longitude 94°30'56" W.); and within 3½ miles each side of the Darwin VORTAC 139° radial, extending from the 6-mile radius to 11½ miles southeast of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Des Plaines, Illinois, on July 17, 1975.

## ALTERATION OF VOR FEDERAL AIRWAY SEGMENT

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would realign the segment of V-229 from Hartford, Conn., to Gardner, Mass.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803. All communications received on or before September 4, 1975, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would realign the segment of V-229 between Hartford and Gardner via the INT of the Hartford 044°(057°M) and the Gardner 195°(209°M) radials.

The proposed realignment would enhance control of air traffic and provide an operational advantage by reducing the airway distance between Hartford and Gardner.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

## COMMODITY FUTURES TRADING COMMISSION

[ 17 CFR Part 146 ]

### THE REQUIREMENTS OF THE PRIVACY ACT OF 1975

#### Proposal To Adopt Rules

The Commodity Futures Trading Commission proposes to adopt rules concerning records maintained by the Commission concerning individuals. If adopted, the rules will reflect the Commission's implementation of the requirements of the Privacy Act of 1975, 5 U.S.C. 552a (Pub. L. 93-579), and will comprise a new Part 146 of Title 17 of the Code of Federal Regulations. It is proposed to make these rules effective September 27, 1975, the effective date of the Privacy Act.

SUMMARY OF THE RULES' PROVISIONS

The Privacy Act and the rules being proposed by the Commission generally relate to an individual's right to know what information the Commission has in its files concerning him and his right not to have that information disseminated to unauthorized persons. For this purpose the Act and rules provide for the annual publication by the Commission of notices of each "system of records" it maintains on individuals. The individual may then examine these system notices, determine which system might contain records pertaining to him, and, following procedures established in the proposed rules, ask the Commission to determine whether those systems do in fact contain any information about him.

If the system of records has information concerning an individual, the individual may request and obtain access to those records. Upon payment of specified charges, he may also obtain copies of the records. Furthermore, if he believes information contained in the records is not accurate, relevant, timely, or complete, procedures are established whereby he may seek amendment or correction.

The proposed rules restrict access by others to personal information concerning an individual that is contained in the Commission files. The information is available to members of the Commission and the Commission staff who need it in the pursuit of their duties. Disclosure of the record as required under the Freedom of Information Act, 5 U.S.C. 552, is also permitted without restriction. Beyond that, a record may be disclosed only for purposes specifically authorized under the Privacy Act, or for "routine uses," which must be described and published

V 40 151 AUG 5 75 XUM

by the Commission in the FEDERAL REGISTER for each system of records it maintains. Furthermore, the Commission is required to keep a record of each disclosure, except those made to Commission employees or made pursuant to the Freedom of Information Act. Upon request, it must provide that record to the individual.

The proposed rules exempt certain kinds of records from some of the provisions of the Privacy Act. The exemptions relate primarily to investigatory material compiled for a law enforcement purposes and limited kinds of information which may be found in personnel files maintained by the Commission.

Finally, the proposed rules prescribe certain information that the Commission must give to an individual whenever the Commission requests personal information from him, and standards that the Commission will meet in maintaining its files.

### SCOPE OF RULES

Section 146.1 of proposed Part 146 generally describes the scope and purpose of the rules which follow. Section 146.2 contains definitions of terms as they are used in the Privacy Act and in the Commission's rules as well. An understanding of several key terms is essential to an understanding of the scope of the remainder of the provisions.

Of central importance to the Privacy Act and to the Commission's proposed rules, is the concept of a "system of records." A "record" is defined as any item, collection or grouping of information about an individual that contains his name or other identifying particular. A "system of records" is defined as a group of records: (1) which is under the control of the agency; (2) from which information may be retrieved by the name of the individual or some other identifying particular unique to the individual. Thus, information about an individual might be contained in a Commission record, but unless the information is filed under or indexed by the name of the individual, or an individual identifier, it will not come within many of the provisions of the Privacy Act.

The Privacy Act and these rules apply only to records concerning individuals. An "individual" is defined under the Act and for purposes of this Part to mean a citizen of the United States or an alien lawfully admitted for permanent residence. Thus the Privacy Act and these proposed rules will not apply to records of corporations and business organizations. There is some indication in its legislative history that the Privacy Act is not intended to apply to individuals acting in an entrepreneurial capacity. As a practical matter, however, it will usually be difficult to distinguish between personal and entrepreneurial records concerning an individual, and the Commission does not intend to rely upon the distinction as a basis upon which it will deny an individual access to records that concern him.

Among the other important definitions included in § 146.2 are "routine use," which describe a use of a record for a purpose which is compatible with the purpose for which it was collected, and "system notice," which is the description of a system of records that an agency is required to publish in the FEDERAL REGISTER.

### PROCEDURES FOR REQUESTING INFORMATION OR ACCESS TO RECORDS PERTAINING TO AN INDIVIDUAL, AND FOR DISCLOSURE OF THE REQUESTED INFORMATION TO THE INDIVIDUAL

Section 146.3 of the proposed rules establishes procedures by which an individual may request information as to whether a system of records maintained by the Commission contains any information relating to him and may request access to his records. Requests are to be made in writing and are to be directed to a Privacy Unit established in the Commission's Washington, D.C. office. To assist the Commission staff in identifying the requested records, certain information is required to be supplied with respect to each system of records from which information is sought. The individual is also required to include in his request certain other information which is designed to enable the Commission to: (1) identify the individual to whom the records pertain; and (2) select the particular information sought by the individual within a record which may contain other types of personal information as well. To assist in properly preparing requests, the Commission offers individuals, free of charge, a compilation of its systems notices. A description of the information included in the system notice and instructions on how to obtain these compilations are set forth in Section 146.11.

Requests will be processed promptly, and the individual will be informed whether any information available to him is contained in the systems of records the Commission maintains. If the individual has requested access, he will be advised where and when he may inspect the records or be given the name and address of the person with whom he should communicate to make further arrangements.

The Commission's proposed rules are designed not only to give an individual access to information about himself, but also to protect him against unauthorized disclosure of that information to others. Section 146.4 of the proposed rules sets forth the methods by which an individual must identify himself in order to gain access to his records. Generally, an individual will be able to satisfy those requirements with forms of identification that he may be expected to have in his possession, *e.g.*, a driver's license or credit cards. However, provision is made for the use of other types of identification in appropriate circumstances. Of course, no identification will be required where access is requested to records that are available to any person under the Freedom of Information Act.

Section 146.5 of the proposed rules establishes procedures by which information will be supplied to the individual, after the request for access has been granted. The individual will normally be given access to his records during the normal business hours in the Commission office where the records are maintained, but exceptions will be granted for good cause. The individual may be accompanied by persons of his own choosing when reviewing the records, but will be required to provide the Commission with a statement in writing authorizing access by these persons.

The Privacy Act makes no special provision for access by a second person unless accompanied by the individual to whom the record pertains and the legislative history suggests that the Privacy Act was in fact directed toward personal participation by the individual in the process. However, the Commission anticipates that in most cases it will honor a request by the individual that another person be granted access in his absence, so long as the authority and identity of the other person are unambiguously demonstrated.

As an alternative to personal inspection of the record, or in addition thereto, the individual may obtain copies of the records which pertain to him. The fees which the Commission has established for copies are set forth in an appendix to Part 146.

The individual is entitled to the information he requests in a meaningful form. Under some circumstances, this may not be possible through direct access to the record itself. For example, the record may contain information concerning matters which do not pertain to the individual and which he is not entitled to see. To extract only the information relating to that individual may not be a satisfactory solution. Accordingly, where necessary to make the record meaningful, the staff is authorized to prepare a report of the relevant information and present that to the individual.

### DISCLOSURE OF THE INDIVIDUAL'S RECORD TO THIRD PARTIES

To protect against disclosure of personal information to unauthorized persons, § 146.6 of the proposed rules implements the provisions of the Privacy Act limiting disclosure without the written consent of the individual whose record is involved, except in certain specified circumstances.

There are three situations in which disclosure is authorized under the rules that can be expected to arise frequently: disclosure to those persons within the Commission who need to have access to the information in order to perform their jobs; disclosure required under the Freedom of Information Act; and disclosure that has been established as a routine use for that system of records, through publication in the FEDERAL REGISTER. The Commission expects to publish for public comment an initial list of routine uses in about 30 days.

When disclosures are made of individual information contained in a system of records, the Commission's rules, consistent with the Privacy Act, will require

that an accounting be kept of such disclosures. This accounting serves two purposes: (1) to enable the individual, with certain exceptions, to determine to whom disclosures about him are being made, and (2) to enable the Commission to notify prior recipients of subsequent corrections to records or of the existence of a dispute concerning their accuracy. No accounting is required, however, for disclosures made with the consent of the individual, for internal disclosures, and for disclosures pursuant to the Freedom of Information Act.

### PROCEDURES FOR CORRECTION OR AMENDMENT OF RECORDS

If an individual believes that records concerning him are not accurate, relevant, timely and complete, he may request an amendment to these records following procedures established in proposed § 146.8. If the staff grants a request to amend a record, not only will the individual be notified of the decision, but prior recipients of the record identified in the accounting of disclosures will be notified of the correction and of its substance. If the request for amendment should be denied, the individual will be given the reasons for that decision and notified that he may seek review of the denial by the Commission itself, in accordance with procedures set forth in § 146.9.

### PROCEDURES FOR APPEALS TO THE COMMISSION

In order to assure that all persons will have direct access to the Commission to complain about an alleged failure of the Commission or members of its staff to comply with the requirements of the Privacy Act and of the proposed rules, § 146.9 creates a right to petition the Commission in writing to seek correction of the deficiency. The individual may petition for review of a denial of access or denial of a request to amend a record. This section also authorizes a petition to the Commission when it is claimed that a determination was made previously on the basis of inaccurate, incomplete, irrelevant, or out of date information about the individual contained in Commission records. Commission review may also be sought with respect to other matters as well. The procedures established are not, however, intended to permit the reopening of litigated cases although, under exceptional circumstances, if injustice has been done, the Commission may treat a petition under this section as a petition to reopen an otherwise finally decided matter.

Instructions on preparing and filing a petition are contained in § 146.9. While the word "petition" is used in the rule, the Commission will consider any written complaint, however informally presented, if the complainant indicated it is being submitted pursuant to § 146.9 or if it plainly encompasses a complaint remediable under that provision. The Commission has undertaken in its rule to make a determination of the matter within thirty business days after it is received.

In those situations where an individual has sought review of the denial of a request to amend a record, which was made pursuant to § 146.8, certain special provisions apply. If the Commission determines that the record should be amended, prior recipients of the record will be notified of the change and its substance. If the petition is denied, the individual will be advised of that determination, the reasons for the denial and of his right to obtain judicial review. The proposed rules also permit an individual to file a statement indicating why he disagrees with the Commission's refusal to amend the record. Subsequent disclosures of the disputed record will note the dispute and include a copy of the statement of disagreement.

### EXEMPTIONS

The Privacy Act, 5 U.S.C. 552a(k), authorizes the Commission by rule to exempt certain systems of records from some of the provisions of the Act, primarily those provisions relating to disclosure to the individual of information about himself contained in Commission files. Pursuant to that authority the Commission is proposing in § 146.2 of the rules to exempt investigatory material compiled for law enforcement purposes. In addition, a narrow exemption relating to personnel records is being proposed.

### OTHER MATTERS

The individual is entitled, pursuant to Section 146.10 of the proposed rules, to certain information from the Commission when it seeks personal information from him. This includes information about: (1) the Commission's authority to request the information; (2) the purposes and uses which will be or may be made of the data; (3) whether the disclosure is mandatory or voluntary; and (4) the effect, if any, of not providing the information.

Section 146.7 provides that the Commission's records shall be timely, relevant, accurate and complete, and that the Commission shall not maintain information in the files which is not relevant or necessary to accomplish statutory objectives. The proposed rules also circumscribe the collection of material by the Commission relating to the exercise of First Amendment rights, and require that the Commission should collect information directly from the individual—rather than secondary sources—where fairness so requires.

The text of the proposed rules is as follows:

**Part 146—Records Maintained on Individuals**

**§ 146.1 Purpose and scope.**

(a) This part contains the rules of the Commodity Futures Trading Commission implementing the Privacy Act of 1974 (Pub. L. 93-579, 5 U.S.C. 552a). These rules apply to all records maintained by this Commission which are not excepted or exempted as set forth in § 146.12, insofar as they contain personal information concerning an individual, identify that individual by name or other symbol and are contained in a system of records from which information is retrieved by the individual's name or identifying symbol. Among the primary purposes of these rules are to permit individuals to determine whether information about them is contained in Commission files and, if so, to obtain access to that information; to establish procedures whereby individuals may have inaccurate and incomplete information corrected; and to restrict access by unauthorized persons to that information.

(b) In this part the Commission is also exempting certain Commission systems of records from some of the provisions of the Privacy Act of 1974 that would otherwise be applicable to those systems.

**§ 146.2 Definitions—for purposes of this Part 146.**

(a) The term "Commission" means the Commodity Futures Trading Commission;

(b) The term "Executive Director" refers to the executive level staff official appointed pursuant to section 2(a)(5) of the Commodity Exchange Act and whose responsibilities are set forth in 17 CFR ;

**§ 146.3 Requests by an individual for information or access.**

(a) Any individual may request information on whether a system of records maintained by the Commission contains any information pertaining to him, or may request access to his record or to any information pertaining to him which is contained in a system of records. All requests shall be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036.

(b) A request for information or for access to records under this Part may be made by mail or in person. The request shall (1) be in writing and signed by the individual making the request; (2) include the full name (including the middle name) of the individual seeking the information or record, his home address and telephone number, his business address and telephone number; and (3) if he is or ever has been registered with the Commission or its a predecessor agency, or associated with a firm so registered as a partner, officer or director or 10 percent shareholder, state in what capacity he is or was registered.

(c) For each system of records from which information is sought, the request shall (1) specify the title and identifying number as it appears in the system notice published by the Commission; (2) provide such additional identifying information, if any, as may be required by the system notice; (3) describe the specific information or kind of information sought within that system of records; and (4) set forth any unusual arrangements sought concerning the time, place, or form of access. A description of the information contained in a system notice and instructions on how to obtain copies of the Commission's system notices appear in § 146.11(b).

(d) The Commission will respond in writing to a request made under this section within ten days (excluding Saturdays, Sundays and legal public holidays) after receipt of the request. If a definitive reply cannot be given within ten days, the request will be acknowledged and an explanation will be given of the status of the request. Since some materials are exempt from disclosure to the individual to whom they relate, an inquiry as to whether a system of records contains any information pertaining to an individual will be responded to in terms of whether or not the system contains any information which is available to the individual under the Privacy Act and the rules of this Part.

(e) The individual either will be notified in writing of where and when he may obtain access to the records requested or will be given the name, address and telephone number of the member of the Commission staff with whom he should communicate to make further arrangements for access.

**§ 146.4 Procedures for identifying the individual making the request.**

When a request for information or for access to records has been made pursuant to § 146.3, before information is given or access is granted pursuant to § 146.5 of these rules the Commission shall require reasonable identification of the person making the request to insure that information is given and records are disclosed only to the proper person.

(a) An individual may establish his identity by:

(1) Submitting with his request for information or for access a photocopy of two pieces of identification bearing his name and signature, one of which shall bear his current home or business address; or

(2) Appearing at any office of the Commission (located at the addresses set forth in § 145.6) during the regular working hours for that office and presenting either:

(i) One piece of identification containing a photograph and signature, such as a drivers license or passport; or

(ii) Two pieces of identification bearing his name and signature, one of which shall bear his current home or business address;

(3) Providing such other proof of identity as the Commission deems satisfactory in the circumstances of a particular request.

(b) If the Executive Director or other designated Commission official determines that the data in a requested record is so sensitive that unauthorized access could cause harm or embarrassment to the person whose record is involved, or if the person making the request is unable to produce satisfactory evidence of identity under subsection (a) above, the individual making the request may be required to submit a notarized statement attesting to his identity and that he is familiar with and understands the criminal penalties provided under section 1001 of Title 18 of the United States Code for making false statements to a Government agency and under the Privacy Act, section 552a(i)(3) of Title 5 of the United States Code, for obtaining records under false pretenses. Copies of these statutory provisions and forms for such notarized statements may be obtained upon request from the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036.

(c) The parent or guardian of a minor or a person judicially determined to be incompetent, in addition to establishing the identity of the person he represents as described in the previous paragraphs of this subsection, shall establish his own identity and his parentage or guardianship by furnishing a copy of a birth certificate showing parentage or a court order establishing the guardianship.

(d) Nothing in this section shall preclude the Commission from requiring additional identification before granting access to the records if there is reason to believe that the person making the request may not be the individual to whom the record pertains, or where the sensitivity of the data warrants it.

(e) The requirements of this § 146.4 shall not apply if the records involved would be available to any person under the Freedom of Information Act. The Commission's rules implementing the Freedom of Information Act are set forth in Part 145 of this Title.

**§ 146.5 Disclosure of requested information to individuals; fees for copies of records.**

(a) Any individual who has requested access to his record or to any information pertaining to him in the manner prescribed in § 146.3, and has identified himself as prescribed in § 146.4, shall be permitted to review the record and have a copy made of all or any portion thereof in a form comprehensible to him, subject to fees for copying services set forth in Appendix A to this Part (§ 146a). Upon his request persons of his own choosing may accompany him, but the individual shall first furnish a written statement authorizing discussion of that individual's record in the accompanying persons' presence.

(b) Access will generally be granted in the office of the Commission where the records are maintained during normal business hours, but for good cause shown the Commission may grant access at another office of the Commission or at different times for the convenience of the individual making the request.

(c) Where a document containing information about an individual also contains information not pertaining to him, the portion not pertaining to the individual shall not be disclosed to him except to the extent the information is available to any person under the Freedom of Information Act. If the records sought cannot be provided for review and copying in a meaningful form, the Commission shall provide to the individual a report of the information concerning the individual contained in the record or records which shall be complete and accurate in all material aspects.

(d) Where the disclosure involves medical records, the records may be provided only to a physician designated in writing by the individual.

(e) Requests for copies of documents may be directed to the Privacy Unit or to the member of the Commission's staff through whom arrangements for access were made.

(f) Fees for copies of records shall be charged as set forth in the schedule of fees contained in Appendix A of this Part 146. Copies of the schedule may be obtained upon request from the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036. Payment should be made by check or money order payable to the Treasury of the United States. Advance payment of all or part of the fee may be required at the discretion of the Commission, but generally this will not be required for requests where the anticipated fee is less than $25.

(g) Nothing in this § 146.5 or in § 146.3 shall:

(1) Require the disclosure of records exempted under § 146.12 of these rules, including the exemption relating to investigative records;

(2) Allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding or a criminal proceeding;

(3) Require the furnishing of information or records which cannot be retrieved by the name or other identifier of the individual making the request.

**§ 146.6 Disclosure to third parties.**

(a) The Commission shall not disclose to any agency or to any person by any means of communication a record pertaining to an individual which is contained in a system of records, except under the following circumstances:

(1) The individual to whom the record pertains has given his written consent to the disclosure;

(2) The disclosure is to officers and employees of the Commission who need it in the performance of their duties;

(3) Disclosure is required under the Freedom of Information Act (5 U.S.C. 552);

(4) Disclosure is for a routine use as defined in § 146.2(g) of these rules and described in the system notice for that system of records;

(5) The disclosure is made to the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity;

(6) The disclosure is made to a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(7) The disclosure is made to another agency or to an instrumentality of any Governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law and if the head of the agency or instrumentality has made a written request to the Commission specifying the particular portion desired and the law enforcement activity for which the record is sought;

(8) The disclosure is made to a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(9) The disclosure is made to either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(10) The disclosure is made to the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(11) Pursuant to the order of a court of competent jurisdiction.

(b) The Commission will make reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record.

(c) The Commission, with respect to each system of records under its control, shall keep an accurate accounting of certain disclosures:

(1) A record shall be kept of all disclosures made under paragraph (a) of this § 146.6, except disclosures made with the consent of the individual to whom the record pertains [paragraph (a)(1)], disclosures to authorize employees (subparagraph (a)(2) and disclosures required under the Freedom of Information Act (subparagraph (a)(3))).

(2) The record shall include:

(i) The date, nature, and purpose of each disclosure of a record made to any person or to another agency;

(ii) The name and address of the person or agency to whom the disclosure was made.

(3) The accounting will be retained for at least five years or the life of the record, whichever is longer, after the disclosure for which the accounting is made.

(d) The accounting described in paragraph (c) will be made available to the individual named in the record upon his written request, directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036, except that the accounting will not be revealed with respect to disclosures made under paragraph (a)(7) of this § 146.6, pertaining to law enforcement activity, and to disclosures involving systems of records exempted under § 146.12 of these rules.

(e) Whenever an amendment or correction of a record or a notation of dispute concerning the accuracy of records is made by the Commission in accordance with §§ 146.8 and 146.9 of these rules, the Commission will inform any person or other agency to whom the record was previously disclosed, if an accounting of the disclosure was made pursuant to the requirements of paragraph (c) of this § 146.6.

**§ 146.7 Content of systems of records.**

(a) The Commission will maintain in its records only such information about an individual as is relevant and necessary to accomplish the purposes of the Commodity Exchange Act and other purposes required to be accomplished by statute or by executive order of the President.

(b) The Commission will maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity.

(c) The Commission will collect information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual's rights, benefits, and privileges under Federal programs.

(d) The Commission will maintain all records which are used by the Commission in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination.

**§ 146.8 Amendment of a record.**

(a) Any individual may request amendment of information pertaining to him which is contained in a system of records maintained by the Commission and which is filed under his name or other individual identifier if he believes the information is not accurate, relevant, timely or complete. A request for amendment shall be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036.

(b) A request for amendment may be made by mail or in person and shall (1) be in writing and signed by the person making the request; (2) describe the particular record to be amended with sufficient specificity to permit the record to be located among those maintained by the Commission; and (3) specify the nature of the amendment sought and the justification for the requested change. The person making the request may be required to provide the information specified in § 146.3 and § 146.4 of these rules in order to simplify identification of the record and permit verification of the identity of the person making the request for amendment.

(c) Receipt of a request for amendment will be acknowledged in writing within ten days (excluding Saturdays, Sundays and legal public holidays) except that, if the individual is given notice within the ten day period that his request will or will not be complied with, no acknowledgement is required.

(d) Assistance in preparing a request to amend a record may be obtained from the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036.

(e) Upon receipt of a request for amendment the Executive Director of the Commission or a person designated by the Executive Director shall promptly determine whether the record is materially inaccurate, incomplete, misleading, or is irrelevant or not timely, as claimed by the individual, and, if so, shall cause the record to be amended in accordance with the individual's request.

(f) If the Executive Director or designee grants the request to amend the record, the individual shall promptly be advised of the decision and of the action taken, and notice shall be given of the correction and its substance to each person or agency to whom the record had previously been disclosed, as shown on the record of disclosures maintained in accordance with § 146.6(c) of these rules.

(g) If the Executive Director or designee disagrees in whole or in part with a request for amendment of a record, the individual shall promptly be notified of the complete or partial denial of his request and the reasons for the refusal. The individual shall also be notified of the procedures for administrative review

V40151A AUG 5 75 XUM

by the Commission of any complete or partial denial of a request for amendment, which are set forth in § 146.9 of these rules.

(h) If a request is received for amendment of a record prepared by another agency which is in the possession or control of the Commission, the request for amendment will be forwarded to that agency. If that agency determines that the correction should be made, the Commission will amend its records accordingly and notify the individual making the request for amendment of the change. If the other agency declines to make the amendment, the Executive Director or designee will independently determine whether the amendment will be made to the record in the Commission's possession or control, considering any explanation given by the other agency for its decision.

**§ 146.9 Appeals to the Commission.**

(a) Any individual may petition the Commission:

(1) To review a refusal to comply with an individual request for access to records pursuant to the Privacy Act, 5 U.S.C. 552a(d)(1), and §§ 146.3 and 146.5 of the rules in this part;

(2) To review denial of a request for amendment made pursuant to § 146.8;

(3) To correct any determination that may have been made adverse to the individual based in whole or in part upon inaccurate, irrelevant, untimely or incomplete information;

(4) To correct a failure to comply with any other provision of the Privacy Act, 5 U.S.C. 552a, and the rules of this Part 146, which has had an adverse effect on the individual.

(b) The petition to the Commission shall be in writing and shall (1) state in what manner it is claimed the Commission or any Commission employee has failed or refused to comply with provisions of the Privacy Act or of the rules contained in this Part 146, and (2) set forth the corrective action the petitioner wishes the Commission to take. The petitioner may, if he wishes, state such facts and cite such legal or other authorities as he considers appropriate.

(c) The petition should be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036.

(d) The Commission will make a determination of any petition filed pursuant to this § 146.9 within thirty days (excluding Saturdays, Sundays and legal public holidays) after receipt by the Privacy Unit of the petition, unless for good cause shown, the Commission extends the 30-day period. If a petition is denied, the Commission will notify the petitioner in writing and state the reasons therefor.

(e) Where the petition is made for review of a denial of a request for amendment made pursuant to § 146.8, the following additional procedures shall apply:

(1) If upon review the Commission grants the petition to amend the record, notice of the correction and its substance shall be given to each person or agency to whom the record had previously been disclosed, as shown on the record of disclosures maintained in accordance with § 146.6(c) of these rules.

(2) If upon review the initial denial of the request for amendment is upheld in whole or in part, the individual shall be notified of the provisions for judicial review of that determination which are set forth in Section 552a(g)(1)(A) and (2)(A), of Title 5 of the United States Code and the provisions for disputed records set forth in subparagraph (e)(3) of this § 146.7.

(3) If after review the Commission has declined to amend the records as the individual has requested, the individual may file with the Privacy Unit a concise statement setting forth why he disagrees with the Commission's denial of his request. Any subsequent disclosure containing information about which a statement of disagreement has been filed shall clearly note the portion which is disputed, and include a copy of the individual's statement. The Commission may also include a copy of a concise statement explaining its reasons for not making the amendments requested.

**§ 146.10 Information supplied by the Commission when collecting information from an individual.**

The Commission will inform each individual whom it asks to supply information, on the form which it uses to collect the information or on a separate form that can be retained by the individual of:

(a) The authority (whether granted by statute, or by executive order of the President) which authorizes the solicitation of the information and whether disclosure of such information is mandatory or voluntary;

(b) The principal purpose or purposes for which the information is intended to be used;

(c) The routine uses which may be made of the information, as published in the FEDERAL REGISTER; and

(d) The effects on him, if any, of not providing all or any part of the requested information.

**§ 146.11 Public notice of records systems.**

(a) The Commission will publish in the FEDERAL REGISTER at least annually a notice of the existence and character of each of its system of records, which notice shall include:

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The categories of records maintained in the system;

(4) Each routine use of the records contained in the system, including the categories of users and the purpose of such use;

(5) The policies and practices of the Commission regarding storage, retrievability, access controls, retention, and disposal of the records;

(6) The title and business address of the Commission official who is responsible for the system of records;

(7) The procedures whereby an individual can be notified at his request if the system of records contains a record pertaining to him;

(8) The procedures whereby an individual can be notified at his request how he can gain access to any record pertaining to him contained in the system of records, and how he can contest its content; and

(9) The categories of sources of records in the system.

(b) Copies of the notices as printed in the Federal Register will be available in each office of the Commission. Locations of Commission offices are listed in § 145.6 of these rules. Mail requests should be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036. The first copy will be furnished free of charge. A charge of $3.00 will be made for each additional copy.

**§ 146.12 Exemptions.**

(a) Investigatory materials compiled for law enforcement purposes are exempt from portions of the Privacy Act of 1974 and of these rules as set forth in subsection (c) of this § 146.12, on the basis and to the extent that individual access to these files could impair the effectiveness and orderly conduct of the Commission's enforcement program. Provided, however, that if any individual is denied any right, privilege, or benefit to which he would otherwise be entitled by Federal law, or for which he would otherwise be eligible, as a result of the maintenance of such material, such material shall be provided to the individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence. Materials exempted under this paragraph are contained in the system of records entitled "Exempted Investigatory Materials."

(b) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for employment with or contracts with the Commission are exempt from portions of the Privacy Act of 1974 and of these rules as set forth in paragraph (c) of this § 146.12, to the extent that it identifies a confidential source. This is done in order to encourage persons from whom information is sought to provide information to the Commission which absent assurances of confidentiality they would be unwilling to give. However, if practicable, material identifying a confidential source shall be extracted or summarized in a manner which protects the source and the summary or extract shall be provided to the requesting individual. Materials exempted under this paragraph are included in the system of records entitled "Exempted Employee Background Investigation Material."

(c) The systems set forth in paragraphs (a) and (b) of this § 146.12 are hereby exempted from the provisions of sections 552a(c)(3), d, (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f) of Title 5 of the United States Code (the Privacy Act of 1974), and are also exempted from the following sections of these rules: § 146.3 [requests for information and for access]; § 146.5 [access to records]; § 146.6(d) [accounting of disclosures to be made available to the individual]; § 146.11(a)(7), (8), (9) [content of the system notice]; and § 146.7(a) [relevancy of records].

**146-APPENDIX A—FEES FOR COPIES OF RECORDS REQUESTED UNDER THE PRIVACY ACT OF 1974**

(a) The following schedule of fees shall apply to copies of records requested by individuals pursuant to the Privacy Act of 1974, 5 U.S.C. 552a and § 146.5(f).

(1) No fee shall be charged for copies of documents if the number of pages requested by that individual totals less than 10. This limit applies to the total requests under this section during any 180-day period.

(2) For requests for copies of documents in excess of 10 pages the charge will be $0.10 per page.

(3) For computer material charges:

| | |
|---|---|
| (A) One-part paper per 1,000 | $11.00 |
| (B) Two-part paper per 1,000 | 17.63 |
| (C) Three-part paper per 1,000 | 28.95 |
| (D) Four-part paper per 1,000 | 37.52 |
| (E) Five-part paper per 1,000 | 50.83 |
| (F) Stock Hollerith cards per 1,000 | 1.78 |
| (G) Magnetic tape per reel | 9.50 |
| (H) Disk pack, each | 775.00 |

(4) for tape recordings and other audio records:

| | |
|---|---|
| (A) 45 minute cassette | $0.56 |
| (B) 60 minute cassette | .60 |
| (C) 90 minute cassette | .77 |

(5) For materials other than those described in paragraphs (2), (3), (4), the direct cost of the materials shall be charged, but only with the prior specific approval of the person making the request.

(6) The Commission may, upon application by the individual, furnish any records without charge or at a reduced rate, if it determines that such waiver or reduction of fee is in the public interest.

(b) Requests for copies of documents should be addressed to Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036, or may be made to the member of the Commission's staff through whom requests for access were made.

(c) Payment must be made by check or money order payable to the Treasury of the United States. No employee of the Commission is authorized to accept payment of fees in cash.

(d) Advance payment of all or part of the fee may be required at the discretion of the Commission. Generally, advance payment will not be required where the anticipated fee is less than $25.

* * * * *

Interested persons are invited to submit written comments, suggestions, or objections to the proposed rules to the Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036. Comments should be submitted on or before August 15, 1975 to permit publication of final rules by August 28, 1975. Comments received after August 15 will nevertheless be fully evaluated. All such communications will be available for public inspection.

Issued in Washington, D.C. on July 30, 1975.

By the Commission.

## CONSUMER PRODUCT SAFETY COMMISSION

**[ 16 CFR Part 302 ]**

**MATTRESSES**

**Exemption From Flammability Testing for Physician Prescribed Mattresses**

The purpose of this document is to propose an amendment to 16 CFR 302.20, the rules and regulations issued under the Standard for the Flammability of Mattresses (FF 4–72, 38 FR 15095), by adding a new paragraph which would allow an exemption from the testing requirements of the Standard for certain "one of a kind" mattresses manufactured in accordance with a physician's written prescription.

This proceeding was commenced in response to a January 23, 1974 petition submitted by Bay Area Mattress Company and Keva Mattress Company of Oakland, California. The Petitioners sought an exemption, under section .2(d) of FF 4–72, from testing "one of a kind" mattresses with specific reference to those mattresses manufactured to a customer's own specifications which might contain wool, cotton, hair and kapok core material, as well as mattresses of odd size and shape. Petitioners also sought a comprehensive explanation of the term "one of a kind" mattress.

Section .2(d) of the Standard, which enables "one of a kind" mattresses to be exempted from testing, reads as follows:

One of a kind mattress, such as nonstandard sizes or shapes, may be excluded from testing under this standard pursuant to rules and regulations established by the Consumer Product Safety Commission.

Since June 22, 1973, the effective date of the Standard for the Flammability of Mattresses (FF 4–72, as amended), the Commission has received numerous inquiries with regard to what is included in the category of "one of a kind" mattress.

When answering these inquiries, the Commission has noted that Section .1(h) of the Standard, which defines "mattress prototype," specifies that a difference in size is not relevant to the issue of qualification testing and, thus, mattresses of different sizes may be included in a single mattress prototype. Also, the Commission has stated that a difference in mattress size does not result in a new "mattress type" as that term is defined in Section .1(l) of the Standard (mattresses of varying sizes or shapes may thus comprise a single mattress type or a single mattress prototype). As long as the components of a mattress are placed in a mattress in the same configuration as the prototype, the size and shape of the mattress is irrelevant for cigarette ignition test purposes. Therefore, a nonstandard size or a nonstandard shape mattress is not necessarily a "one of a kind" mattress.

After careful consideration of these inquiries, the Commission has concluded that at this time only those mattresses which are manufactured in accordance with a physician's written prescription, for use in connection with the treatment or management of a named individual's physical illness or injury, should be proposed for exemption from testing as provided in Section .2(d) of the Standard. Accordingly, the Commission proposes to amend 16 CFR 302.20 to state that the exemption from testing is limited to mattresses which are manufactured in accordance with a physician's written prescription for the treatment of an illness or injury. For the purposes of this regulation a physician is an authorized practitioner of medicine including osteopaths. Not included within the meaning of the term physician are podiatrists, chiropodists, chiropractors, dentists, veterinarians, and optometrists. The proposed amendment also contains a requirement that any mattress which is exempted from the requirements of the Standard for testing shall bear a permanent, conspicuous and legible label which states:

WARNING: This mattress may be subject to ignition and hazardous smoldering from cigarettes. It was manufactured in accordance with a physician's prescription and has not been tested under the Federal Standard for the Flammability of Mattresses (FF 4–72).

Size dimensions are specified for the label and lettering; and all letters on the label are required to be in a color which contrasts with the background of the label. There is a provision that the warning statement which appears on the label must also be conspicuously displayed on the invoice or other sales papers that accompany the mattress in commerce from the manufacturer through the final point of sale to the consumer.

The Commission realizes that any exemption from the Standard for the Flammability of Mattresses carries with it some degree of consumer exposure to the hazards the Standard was designed to eliminate. However, the Commission does recognize the practical necessity of exempting physician prescribed "one of a kind" mattresses from the testing requirements. The cost of testing both prototype and production samples of mattresses, such tests being necessarily destructive, could make the medically required mattresses prohibitively expensive. The Commission is of the opinion that any further expansion of the "one of a kind" exemption to include mattresses manufactured to the customer's own specifications would seriously reduce the effectiveness of the mattress standard. However, the Commission is interested in receiving comments on this issue.

V 40 151 AUG 5 75 XUM

Therefore, pursuant to section 5(c) of the Flammable Fabrics Act, as amended (Sec. 5(c), 81 Stat. 568; 15 U.S.C. 1191), and under authority vested in the Consumer Product Safety Commission by section 30(b) of the Consumer Product Safety Act (sec. 30(b), 86 Stat. 1231; 15 U.S.C. 2079(b)), the Commission proposes to amend the section heading and add a new paragraph (i) to 16 CFR 302.20 as follows:

§ 302.20 Mattresses—labeling, record-keeping requirements, guaranties, and "one of a kind" exemption under FF 4–72.

* * * * *

(i) *"one of a kind" exemption.*

(1) *Physician prescribed mattresses.* (i) A mattress manufactured in accordance with a physician's written prescription, to be used in connection with the treatment or management of a named individual's physical illness or injury, shall be considered a "one of a kind mattress" and shall be exempt from testing under the standard pursuant to .2(d) thereof, provided that in lieu of the labeling required by paragraph (b)(3) of this section, the mattress bears a permanent, conspicuous and legible label which states:

WARNING: This mattress may be subject to ignition and hazardous smoldering from cigarettes. It was manufactured in accordance with a physician's prescription and has not been tested under the Federal Standard for the Flammability of Mattresses (FF 4–72).

Such label must be attached to the mattress so as to remain on or affixed thereto for the useful life of the mattress. The label must be at least 250 square centimeters (40 square inches) with no linear dimension less than 12.5 centimeters (5 inches). The letters in the word "WARNING" shall be no less than 1.2 centimeters (½ inch) in height and all letters on the label shall be in a color which contrasts with the background of the label.

The warning statement which appears on the label must also be conspicuously displayed on the invoice or other sales papers that accompany the mattress in commerce from the manufacturer through the final point of sale to the consumer.

(ii) The manufacturer of a mattress exempted from testing under this paragraph shall, in lieu of the records required to be kept by paragraph (c) of this section, retain a copy of the written prescription for such mattress during a period of three years measured from the date of manufacture.

(2) For purposes of this regulation, a physician is an authorized practitioner of medicine including osteopaths. Excluded from the term physician are podiatrists, chiropodists, chiropractors, dentists, veterinarians and optometrists.

All interested persons are invited to submit written comments or suggestion, preferably with five copies, to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, on or before September 4, 1975. Comments received after that date will be considered insofar as practicable. Those materials which are received will be available for public inspection at the Office of the Secretary, 10th Floor, 1750 K Street, N.W., Washington, D.C. 20207 during working hours Monday through Friday.

Dated: July 31, 1975.

### PUEBLOS OF ZIA, JEMEZ AND SANTA ANA

**Plan for the Use and Distribution of Pueblos of Zia, Jemez and Santa Ana Judgment Funds Awarded in Docket 137 Before the Indian Claims Commission**

JULY 22, 1975.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DN 2.

The Act of October 19, 1973 (P.L. 93–134, 87 Stat. 466), requires that a plan be prepared and submitted to Congress for the use or distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated by the Act of June 8, 1974, 88 Stat. 195, in satisfaction of an award granted to the Pueblos of Zia, Jemez and Santa Ana in Indian Claims Commission Docket 137. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated April 3, 1975, and was received (as recorded in the Congressional Record) by the House of Representatives on April 7, 1975, and by the Senate on April 8, 1975. Neither House of Congress having adopted a resolution disapproving it, the plan became effective on June 17, 1975, as provided by section 5 of the 1973 Act, *supra*.

The plan reads as follows:

"The funds appropriated by the Act of June 8, 1974, 88 Stat. 195, in satisfaction of the award granted to the Pueblos of Zia, Jemez and Santa Ana in Docket 137 before the Indian Claims Commission, less attorney fees and litigation expenses,

V 40 151 AUG 5 75 XUM

shall be used and distributed as herein provided.

As soon as possible after the effective date of this plan, the Secretary of the Interior (hereinafter 'Secretary') shall divide the funds, including all interest and investment income accrued, in three equal sums among the three Pueblos of Zia, Jemez and Santa Ana. The funds so divided shall be invested by the respective governing bodies of the Pueblos subject to the approval of the Secretary. Investment income shall be programed and budgeted on an annual basis by the governing bodies for purposes such as, but not limited to, economic, community, industrial, commercial, social and cultural development and land development and land purchase.

Any of the governing bodies may, as regards their respective share of the funds, utilize portions of the principal, subject to the approval of the Secretary, for the same purposes for which investment income is budgeted. With the approval of the Secretary, a tribal governing body may also utilize principal funds for purposes other than those specified for the investment income therefrom. No portion of the principal nor of interest nor investment income accrued shall be utilized for per capita payments."

## AVAILABILITY OF DRAFT ENVIRONMENTAL IMPACT STATEMENT

### Trial Boll Weevil Eradication Program

This document gives public notice that the Trial Boll Weevil Eradication Program Draft Environmental Statement (USDA–APHIS, (ADM–75–1)) was sent to the Council on Environmental Quality on July 25, 1975, pursuant to section 102 (2)(c) of the National Environmental Policy Act of 1969.

The notice of the Department's intent to prepare the draft statement was published in the Federal Register (39 FR 37079) on October 17, 1974. Comments were invited. Responses expressing support of the program were received from individual growers; grower organizations, including the National Cotton Council, State grower groups, and farm bureaus; and National and State governmental agencies, including the Atomic Energy Commission, State cooperative extension services, State experiment stations, and State departments of agriculture. Responses received from environmental groups or individuals affiliated therewith were noncommital as to the feasibility of the program, but asked for the opportunity to review the draft. All comments were given full consideration in preparing the draft statement.

The issues involved, results of the pilot experiment, and other pertinent information considered at preliminary conferences involving other agencies and the cotton industry are fully discussed in the draft statement.

The proposed action is to conduct a 3-year trial boll weevil eradication program on approximately 500,000 acres of cotton in Virginia, North Carolina, and South Carolina to determine if the technical and operational requirements for eradication can be executed successfully in a large-scale operational program. The boll weevil is the most important agricultural pest in the United States. It costs cotton producers and the U.S economy $200 to $300 million annually in losses and control. Approximately one-third of the insecticide applied in the United States each year for control of agricultural pests is for boll weevil control.

The population suppression technology that will be utilized in the trial program involves the integration of chemical, biological, and cultural control measures in a precisely timed program.

Scientific data have established, and are reported in the draft environmental statement, that the use of the population suppression techniques that will be employed in the program will result in no excessive or irreversible impact on the environment.

Alternatives considered to the proposed program are: (1) Organizing and implementing an areawide boll weevil management program; (2) Continue present control strategy where growers apply repeated pesticide treatments throughout each growing season.

Copies of the draft are available for public inspection at the following locations:

Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 620, Federal Building, New Bern Avenue, Raleigh, N.C.
Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 302–E, Administration Building, 14th and Independence Avenue, Washington, D.C.

Interested persons may obtain a copy of the draft statement by writing the Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are invited and should be addressed to the Deputy Administrator by September 30, 1975.

Done at Washington, D.C., this 30th day of July 1975.

J. F. SPEARS,
*Acting Deputy Administrator, Plant Protection and Quarantine Programs.*

## CENSUS ADVISORY COMMITTEE OF THE AMERICAN ECONOMIC ASSOCIATION

### Meeting

The Census Advisory Committee of the American Economic Association will convene on October 3, 1975, at 9:15 a.m. in Room 2424, Federal Building 3 at the Bureau of the Census in Suitland, Maryland.

The Census Advisory Committee of the American Economic Association advises the Director, Bureau of the Census, on technical matters, accuracy levels, and conceptual problems concerning the economic censuses; reviews major aspects of the Bureau's programs, and advises on the role of analysis within the Bureau and the need for providing data in more detail.

The Committee is composed of 15 members of the American Economic Association.

The agenda for the meeting is: 1) Topics of current interest at the Bureau of the Census, 2) data needs for the new Congressional Budget Process, 3) framework for establishing the income/labor force data package for the 1980 census, 3) housing and construction statistics—new and needed data, and 4) review of the Census Bureau's Program of Energy Statistics.

The meeting will be open to the public, and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days prior to the meeting.

Persons planning to attend the meeting and wishing additional information concerning the meeting should contact the Committee Control Officer, Mr. Melvin A. Hendry, Acting Assistant Director for Economic Censuses, Bureau of the Census, Room 2081, Federal Building 3, Suitland, Maryland. (Mail address: Washington, D.C. 20233.) Telephone (301) 763–7356.

Dated: July 31, 1975.

### Social and Rehabilitation Service

## WORK INCENTIVE PROGRAM—SOCIAL AND SUPPORTIVE SERVICES

### Interim Funding Limits

Notice is hereby given of interim annual limits of entitlement for States for Federal financial participation in expenditures for child care and supportive services under the Work Incentive (WIN) Program pursuant to sections 402(a)(19)(G) and 403(d) of the Social Security Act, 42 U.S.C. § 602(a)(19)(G) and 603(d), for the period from July 1, 1975 to June 30, 1976. Public Law 94–41, the joint resolution making continuing appropriations for the fiscal year 1976, and for other purposes, makes available such amounts as are necessary to continue activities under Title IV part C of the Social Security Act including child care and supportive services pursuant to § 402(a)(19)(G) at a rate of $94,349,000 per year.

Accordingly, limits of entitlement have been calculated on the basis of the allocation formula published in the FEDERAL REGISTER on August 5, 1975 (40 FR 32861 (HEW/SRS)) and the amount made available under the Public Law 94–41. The annual limits of entitlement promulgated herein are an interim measure and will be replaced and superseded when the annual appropriation of the Department is enacted and the funds thus appropriated are made available to the Department for obligation. Grant Awards for the first fiscal quarter, and each subsequent quarter of fiscal year 1976 will not exceed one-fourth of the limits promulgated herein as long as these limits remain effective. The limit of entitlement for each State for child care, other supportive services and administration under section 402(a)(19)(G) for the period from July 1, 1975 to June 30, 1976 are as follows:

## WORK INCENTIVE PROGRAM; SOCIAL AND SUPPORTIVE SERVICES

### Distribution of Funds

On December 2, 1974, this Department published in the Federal Register (39 FR 41757) a proposed formula for distribution of funds under section 403(d) of the Social Security Act for States' Social and Supportive Service program costs in the Work Incentive (WIN) program under

V40I151 AUG 5 75 XUM

section 402(a)(19)(G) of the Act during Fiscal Year 1976. This action was necessary to assure that States operate their programs within the amount available under this Department's appropriation.

A number of comments were received during the comment period prescribed for the proposed FY 76 allocation formula. Essentially all of the comments were based upon the probability that the States will receive less funds in FY 76 than they believe is necessary. Given the fact that there are less funds available than many States would prefer, there is no allocation formula that will satisfy every State. The Department feels the proposal is the most equitable that can be developed under the circumstances. Furthermore, allocating 50 percent of the funds on the basis of a measurement of performance, provides States with an incentive to improve their programs. Therefore, after considering all the comments, no changes are being made in the proposed FY 76 allocation formula. Annual limits of entitlement for Fiscal Year 1976 of State expenditures for support services under the Work Incentive (WIN) program under sections 402(a)(19)(G) and 403(d) of the Social Security Act will be calculated on the basis of the following formula:

1. Fifty percent of the total limit of entitlement for all the States will be distributed on the basis of the ratio of each State's total program costs under section 402(a)(19)(G) for the four most recent quarters to the total of such program costs for all States during the four most recent fiscal quarters. (Such program costs shall be based on information available in Central office at the time of promulgation of the limits.)

2. Fifty percent of the total limit of entitlement for all the States shall be distributed on the basis of the ratio of the amount of funds allocated by the Secretary of Labor in support of the WIN manpower agency for each State in Fiscal Year 1976. (Such allocations of the Secretary of Labor shall be those available at the time of promulgation of the limits.)

Requests for Federal financial participation in expenditures incurred pursuant to section 402(a)(19)(G) during Fiscal Year 1976 will not be honored to the extent they exceed limits promulgated on this basis.

On May 1, 1976 the Department will reallocate on the basis of the same formula established for Fiscal Year 1976 funds which a survey of all States indicates will not be expended during Fiscal Year 1976. Such funds will be allocated to those States which indicate a necessity for additional funds to operate their program under 402(a)(19)(G) for the remainder of Fiscal Year 1976.

### QUALIFICATION OF SCHLUMBERGER TECHNOLOGY CORPORATION AS A CITIZEN OF THE UNITED STATES

This is to give notice that pursuant to 46 CFR 67.23-7, issued under the provisions of section 27A of the Merchant Marine Act, 1920, as added by the Act of September 2, 1958 (46 U.S.C. 883-1), Schlumberger Technology Corporation of 5000 Gulf Freeway, Houston, Texas 77001, incorporated under the laws of the State of Texas, did on 23 June 1975, file with The Commandant, United States Coast Guard, in duplicate, an oath for qualification of a corporation as a citizen of the United States following the form of oath prescribed in form CG-1260.

The oath shows that:

(a) A majority of the officers and directors of the corporation are citizens of the United States (list of names, home addresses, and citizenship attached to the oath);

(b) Not less than 90 percent of the employees of the corporation are residents of the United States;

(c) The corporation is engaged primarily in a manufacturing or mineral industry in the United States, or in a Territory, District, or possession thereof;

(d) The aggregate book value of the vessels owned by the corporation does not exceed 10 percent of the aggregate book value of the assets of the corporation; and

(e) The corporation purchases or produces in the United States, its Territories or possessions not less than 75 percent of the raw materials used or sold in its operations.

The Commandant, United States Coast Guard, having found this oath to be in compliance with the law and regulations on 23 June 1975 issued to Schlumberger Technology Corporation a certificate of compliance on form CG-1262, as provided in 46 CFR 67.23-7.

The certificate and any authorization granted thereunder will expire three years from the date thereof unless there first occurs a change in the corporate status requiring a report under 46 CFR 67.23-7.

### SFO HELICOPTER AIRLINES, INC. CONTROL RELATIONSHIPS

#### Order To Show Cause

In the matter of application of Jack A. Erickson, SFO Helicopter Airlines, Inc., and United Technologies Corp. pursuant to sections 408 and 409 of the Federal Aviation Act of 1958, as amended.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of July, 1975.

Jack A. Erickson, SFO Helicopter Airlines, Inc. (SFOH), and United Technologies Corp. (UTC)[1] request approval under section 408 of the Federal Aviation Act of 1958, as amended (the Act), of the acquisition by Mr. Erickson of 111,095 shares (15.3 percent) of SFOH class B voting stock from UTC.[2] Mr. Erickson presently owns 17,000 shares of this class of stock purchased on the open market. Upon consummation of the proposed transfer of the UTC shares, Mr. Erickson will own a total of 128,095 class B common shares, representing approximately 18.2 percent of the total outstanding voting securities of SFO.[3] Transfer of the UTC shares has been deferred pending action on the instant application.

Mr. Erickson is engaged principally in the lumbering business in Oregon, Washington, and California. He is president and sole owner of Indian Creek Lumber Co., which has engaged in wholesale lumbering operations.[4] Indian Creek is the parent of two wholly owned subsidiaries, Plymouth Lumber Co., now inactive, and Erickson Air-Crane Co. The latter owns timber rights in Oregon, Washington, and California and engages in the cutting of standing timber which it transports by helicopter or truck for sale to various lumber mills. This operation is performed with Sikorsky S-64 helicopters having a payload capacity of 20,000 pounds. Air-Crane also operates two three-seat Bell-47 helicopters for crew transportation and other suport requirements.

Air-Crane has a wholly owned subsidiary, Erickson Air Crane of Washington, Inc. (EAC/Washington), which owns one S-64 helicopter used in power line construction and support operations. The applicants state that there is no overlap between the operations of the two Erickson companies and SFOH, even though the latter has developed a program called its "Sky Hook" service, under which it provides externally slung cargo operations involving, for example, the removal of abandoned or wrecked automobiles from remote locations and the placement of electric power line towers. According to the applicants, these operations are not competitive because of the limited payload of 7,000 pounds of SFOH's S-61 helicopters compared with the 20,000 pounds of the S-64 operated by the Erickson companies.

UTC is an applicant in this proceeding, according to the applicants, only because of its interest in prompt approval of the transfer of its stock in SFOH and because it desires the removal of certain conditions imposed by the Board in connection with UTC's acquisition of the SFOH shares.

Based on the foregoing factors and the uncomplicated and noncontroversial nature of the transaction, the following relief is requested by the applicants:

(a) That the Board grant expeditious treatment of the application under nonhearing procedures used in similar cases.[5]

(b) That Mr. Erickson's acquisition of SFOH stock not be limited to the shares contemplated by the instant application. In this connection SFOH and Mr. Erickson would accept a condition under which the Board retained jurisdiction in this matter and imposed a requirement that Mr. Erickson report the acquisition of additional SFOH stock in increments of 10,000 shares within 14 days after purchase. In the alternative, SFOH and Mr. Erickson request that the Board grant anticipatory approval of the acquisition by Mr. Erickson of up to 50 percent of SFOH's shares.

(c) That, since UTC is disposing of its entire interest in SFOH, the Board delete the conditions imposed by order 73-8-5 on relationships between SFOH and UTC or otherwise determine that the requirements no longer apply.[6]

(d) That, in the event the Board should decide not to approve the acquisition under expedited procedures and thereby creates an affiliate relationship between SFOH and the various Erickson enterprises which would exempt the interlock pursuant to sections 287.3e and 287.4, or should the Board decide to disclaim jurisdiction or set the matter for hearing, the Board would grant expedited approval of the interlocking relationships of Mr. Erickson.

According to the applicants, the proposed transaction at issue will have no impact at all on SFOH, the public which SFOH serves, or upon any other air carrier, since the transaction merely involves the transfer of a block of SFOH's outstanding stock from one holder or holders to another. The applicants view the basic question as whether Mr. Erickson's acquisition of controlling interest in SFOH may involve the entrance into air transportation of a person whose interests are inconsistent with the sound development thereof. The applicants respond that no such possibility exists or is threatened here. They see Mr. Erickson's interest as a director and major shareholder of SFOH as wholly coterminous with SFOH's sound development and success, and that Mr. Erickson's other business activities neither overlap SFOH's nor present any potential conflict of interest between the separate unrelated operations.[7]

In addition the slung cargo operations of SFOH are only an adjunct to its scheduled services in the San Francisco/Oakland Bay area.

No comments relative to the application have been received.

Upon consideration of the application the Board concludes that SFOH is a certificated air carrier and that the acquisition of 10 percent or more of its stock by Mr. Erickson, a person engaged in a phase of aeronautics, raises the presumption of control over SFOH under sections 408(a) and 408(f) of the Act. However, we have tentatively concluded that the relationship between Mr. Erickson and SFOH should be approved pursuant to section 408 subject to an intercompany transaction condition. Because of the less-than-arm's-length relationship created by the affiliation between SFOH and the companies owned by Mr. Erickson, we will require that substantial transactions between SFOH and any other company owned or controlled by Mr. Erickson be subject to the prior approval of the Board.

Because of the ability of SFOH and Air-Crane/EAC-Washington to handle externally slung cargo, there exists the possibility that SFOH and the Erickson helicopter companies may be competing for contracts for this type of service. However there is a wide disparity in the lift capacity of SFOH's S-61 helicopters (7,000 pounds) as compared to the S-64's operated by the Erickson companies (20,000 pounds), and there appears to be little likelihood of significant competition between the parties for this type of business. It also appears reasonable to conclude that Mr. Erickson's wide experience and contacts in this field, together with his substantial investment in SFOH, could produce opportunities for the profitable use of SFOH's smaller helicopters in contract operations to which they are suited.

With regard to Mr. Erickson's expressed intention to acquire additional voting stock of SFOH, we have decided to accept applicant's offer to report such acquisitions, with two modifications. Instead of reporting in 10,000-share increments, we will limit such reports to additions of 10 percent of SFOH's issued and outstanding shares, and we will limit such acquisitions, in toto, to 40 percent of such shares unless prior Board approval of the acquisition of more than that amount has been obtained. In similar cases, Pan American has been permitted to acquire 45 percent of the vot-

[1] UTC was formerly United Aircraft Corp.

[2] UTC acquired this stock in November 1973 as part of a reorganization of SFOH approved by orders 73-7-101 and 73-8-5.

[3] As of April 30, 1975, SFO had 703,400 common shares issued and outstanding, including 578,400 class B shares which were issued to unsecured creditors and 125,000 class A shares issued to Trans World Airlines, Inc., in conjunction with the 1973 chapter X reorganization. The two different classes of common stock have identical voting rights per share for purposes of calculating the percentage distribution herein. The class A shares have certain additional rights, including a preference in liquidation, in recognition of TWA's prior senior creditor status.

[4] At the present time, Indian Creek is not actively engaged in any operations, and its assets consist solely of its investment in subsidiaries.

[5] SFO Helicopter Airlines, Inc. Reorganization, orders 73-7-101 and 73-8-5; Black and Decker Manufacturing Co., orders 73-11-5 and 73-12-108.

[6] Order 73-8-5, in ordering paragraph 4, imposes the following requirements upon SFO:

(a) SFOH and its affiliates and subsidiaries, shall make no purchase of goods and services from UAC, (former name of UTC) or its subsidiaries and affiliates, except at prices offered to other air carriers.

(b) SFOH shall file with the Board within ten days thereof a report of any transactions or negotiations that might lead to (1) the modification, in whole or in part, purchase, or lease of any aircraft manufactured, owned or modified by UAC, or its subsidiaries or affiliates, or (2) the purchase, lease or modification of aircraft for which UAC or its subsidiaries or affiliates manufactures a component part or produces subassemblies.

[7] The fact that both SFO and Air-Crane perform externally slung cargo operations presents no potential for conflict of interest, in view of the markedly different scope, purpose, and capabilities of the two operations. Apart from the unique and specialized nature of Air-Crane's helicopter logging operations, the divergent lift capacities of the two aircraft types (up to 20,000 pounds by the S-64 versus a 7,000-pound limit for the S-61) renders them suitable for wholly noncompetitive cargo-lifting activities.

V40151 AUG 5 75 XUM

ing stock of New York Airways' and TWA, in connection with previous acquisitions of SFOH stock, contemplated the acquisition of up to 34 percent of such stock.[9] There is no particular significance to the 40-percent limitation except to provide the Board with an opportunity to review SFOH's operating and financial status in the light of Mr. Erickson's participation in SFOH's ownership and management.

Finally we shall grant applicant's request that SFOH and UTC be relieved of the requirements of subparagraphs (a) and (b) of ordering paragraph 4 of order 73-8-5 to the extent that such order required reports or otherwise limited transactions between SFOH and UTC.

Upon consideration of the foregoing, the Board finds that the acquisition of 15.3 percent of the stock of SFOH by Mr. Erickson constitutes the acquisition of control of an air carrier within the meaning of sections 408(a)(5) and 408(f) of the Act. However, the Board has tentatively decided that the acquisition is consistent with the public interest and will not result in creating a monopoly and thereby restrain competition nor jeopardize another air carrier not a party to the transaction and should be approved pursuant to section 408(b) of the Act, subject to conditions.[10] Otherwise there does not appear to be any disputed facts in issue which require a hearing for their resolution; the salient facts are a matter of public record since they are fully set forth in the application; and a protracted hearing on the matter could adversely affect the interests of the parties to the transaction and result in delays or prevent the acquisition. In its final order, the Board intends to retain jurisdiction in this proceeding for the purpose of taking such further action as may be required in the public interest.

Therefore, consistent with similar past procedures utilized by the Board,[11] the Board has decided to direct all interested persons[12] to show cause why the tentative findings, conclusions, and proposed approval should not be made final.

Accordingly, it is ordered that:

1. Interested persons are directed to show cause why the Board should not issue an order granting approval under section 408 of the Federal Aviation Act of the proposed transaction described herein;

2. Any person disclosing a substantial interest in the acquisition described herein and supporting or objecting to the issuance of an order making final the tentative findings and conclusions set forth herein or desiring the imposition of additional conditions upon approval shall file such comments with the Board within 20 days of the date of service of this order;[13] and

3. A copy of this order shall be served on the Departments of Justice and Transportation.

This order shall be published in the FEDERAL REGISTER.

## PRIORITY RESERVED AIR FREIGHT RATES OF EASTERN AIR LINES, INC. ET AL.

### Priority Reserved Air Freight Rates Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day of July, 1975.

*Eastern's proposal*

By tariff revisions[1] issued June 27 and scheduled for effectiveness August 1, 1975, Eastern Air Lines, Inc. (Eastern) proposes, *inter alia*, to establish an online priority air freight service. The proposed rates are 130 percent of the otherwise applicable general or specific commodity rate, including minimum charges, currently in effect.[2] Eastern has concurrently filed for a 6 percent systemwide rate increase, also effective August 1. Thus, the proposed priority rates actually represent a premium of about 22.6 percent of the proposed increased rates.

The proposed service consists of loading priority freight after express and small-package shipments, but ahead of regular freight, provides for reservation of space aboard a particular flight subject to a 90-minute advance tender requirement, and, with certain exceptions,[3] for a refund to the shipper of the difference between the priority rate and the otherwise applicable rate in the event the shipment does not move on the specified flight.

In support of the proposal and in answer to the complaints, the carrier asserts that the proposal is not intended as a substitute for shipments it presently moves jointly with REA Express, Inc. (REA), but may be easily adapted as such, in the event of the dissolution of the air express agreement between the carriers and REA, or the removal of the court stay of Order 73-12-36, terminating REA's exemption authority; and that the proposal is designed basically to match that of Delta Air Lines, Inc. (Delta), which the Board permitted to go into effect by Order 75-7-81. The carrier estimates that the proposal will yield $500,000 per year in additional revenue.

*Southern's proposal*

By tariff revisions[4] issued June 30 and scheduled to become effective August 1, 1975, Southern Airways, Inc. (Southern) proposes to publish point-to-point priority rates at 130 percent of the otherwise applicable general and specific commodity rates currently in effect. Like Eastern, Southern has concurrently filed a systemwide increase of 6 percent on regular freight rates, for August 1 effectiveness, and the proposed priority rates are thus a premium of approximately 22.6 percent. Southern currently constructs priority rates by tariff rule, at a 30 percent premium. Its priority service rules are similar to Eastern's. The carrier asserts that the proposed rates are equal to those of Delta previously permitted by the Board.

*Complaints*

Complaints requesting suspension and investigation of the above proposals, or alternatively, in the case of Southern, rejection, have been submitted by United Air Lines, Inc. (United). The complainant contends, *inter alia*, that Eastern has failed to justify a premium of less than 30 percent; that the priority rates of Delta, which Eastern is purporting to meet, are themselves unreasonable; that Southern has never justified point-to-point priority rates, but only rates constructed by rule, and has submitted no justification whatsoever for reducing the priority premium from 30 to 22.6 percent; and that the rates of both carriers fail to recover costs and thus pose an additional burden upon regular air freight.

*Board's findings*

Southern's proposed rates come within the scope of the *Priority Reserved Air Freight Rates Investigation* (PRAFRI), Docket 26838, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend them or to permit them to become effective pending investigation.[5] Eastern's rates are not currently under investigation.

There are significant questions as to the level and structure of the proposed rates and whether the proposals, both as to rates and service, are consistent with the Board's finding that the carriers are under an obligation to offer highly expedited inter-carrier priority service as a replacement for air express service (Order 73-12-36). Consequently, upon consideration of all relevant factors, the Board finds that Eastern's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and shold be investigated. This investigation will be consolidated into PRAFRI.

The Board will also, for the foregoing reasons, institute an investigation of similar priority rate provisions in effect but not under investigation for Northwest Airlines, Inc.

We will, however, permit the proposed rates of both Eastern and Southern to become effective pending investigation, and will dismiss United's requests for suspension. United presents no valid argument that a 30 percent priority premium is *prima facie* more reasonable than a lower premium. Our conclusion here is identical to that in Order 75-7-81, dealing with Delta's proposed point-to-point priority rates, involving a 22.6 percent premium above standard rates. The Board asserted, "We cannot find that Delta's rates for priority service are unduly low, or that their relationship to its general or specific commodity rates warrant suspension." The Board takes the same position here.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204(a), 403, 404, and 1002 thereof,

IT IS ORDERED THAT:

1. An investigation is instituted to determine whether the (1) rates, charges, and provisions in Rule No. 75 on 7th Revised Page 40 applicable for the account of "NW"; and (2) provisions in Rule No. 76 on 8th Revised Page 41 and "GCX" and "SCX" rates, charges, and provisions on pages 477 through 612 making reference to Rule No. 76 for application for the account of "EA" in Tariff C.A.B. No. 169, issued by Airline Tariff Publishing Company, Agent, and rules, regulations, or practices affecting such rates, charges, and provisions, including subsequent reissues or revisions thereof are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful rates, charges, and provisions and rules, regulations, and practices affecting such provisions;

2. The investigation instituted herein is hereby consolidated into Docket 26838, *Priority Reserved Air Freight Rates Investigation;*

3. Except to the extent granted herein, the complaints of United Air Lines, Inc. in Dockets 28074 and 28075 are hereby dismissed; and

4. Copies of this order shall be served upon Eastern Air Lines, Inc. and Northwest Airlines, Inc., which are hereby made parties to Docket 26838.

This order will be published in the Federal Register.

[9] Order 73-10-92, Oct. 24, 1973.

[10] Order 70-7-50, July 10, 1970.

[11] These conditions will be essentially as follows:

(a) Transactions between SFOH and any company owned or controlled by Mr. Erickson shall not exceed $100,000 a year in the aggregate without prior Board approval.

(b) SFOH and Mr. Erickson shall report the acquisition of a beneficial interest by Mr. Erickson in additional voting stock of SFOH at any time such additional interest exceeds 10 percent of the then outstanding total voting shares of SFOH stock provided that Mr. Erickson's total beneficial interest in SFOH voting stock shall not exceed 40 percent without prior Board approval.

[12] See San Francisco and Oakland Helicopters Airlines, Inc., order 73-7-101, July 20, 1973; Black and Decker Mfg. Co., order 73-11-5, Nov. 1, 1973.

[13] We anticipate that such persons will support their objections with detailed answers specifically setting forth the tentative findings and conclusions to which they object. Persons supporting approval are similarly expected to document their positions.

[14] Such comments shall comply with the requirements of the Board's Procedural Regulations, 14 CFR 302.

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 169.

[2] Rates on human remains shipments are to be set equal to current rates, since such shipments already receive priority treatment, while exception ratings applied to live-animal shipments will not be applied to those receiving priority service.

[3] Adverse weather conditions, mechanical delay of the aircraft, and other conditions not under the control of the carrier.

[4] Revisions to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 169.

[5] Southern's proposed point-to-point rates are equal to the currently effective rates published by tariff rule, and do not constitute a substantive change. We therefore find no basis for rejection on the grounds of lack of justification.

## COMMODITY FUTURES TRADING COMMISSION

### CFTC ADVISORY COMMITTEE PROGRAM

#### Establishment

The Commodity Futures Trading Commission has determined that establishment of a "CFTC Advisory Committee Program" would be in the public interest in connection with the performance of duties imposed on the Commission by the Commodity Exchange Act ("Act"), 7 U.S.C. 1 et seq., as amended, by the Commodity Futures Trading Commission Act of 1974 ("CFTC Act"), Pub. L. 93-463, 88 Stat. 1389 (1974). As required by Section 9(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. 1, 9(a)(2), the Commission has consulted with the Committee Management Secretariat of the Office of Management and Budget, and the Commission certifies that creation of the CFTC Advisory Committee Program is in the public interest in connection with duties imposed on the Commission by law.

The CFTC Advisory Committee Program will be comprised of four separate advisory committees of limited duration. The nature, purposes and designations of each of these advisory committees are as follows:

1. *"The Commodity Futures Trading Commission Advisory Committee on Regulation of Commodity Futures Trading Professionals"* (*"Advisory Committee on Commodity Futures Trading Professionals"*). The objectives and scope of activities of the Advisory Committee on Commodity Futures Trading Professionals will be to consider and submit reports and recommendations to the Commission on the following subjects: Standards for regulation under the Commodity Exchange Act, as amended by the CFTC Act, of domestic and foreign commodity futures trading professionals, including commodity trading advisors, commodity pool operators, futures commission merchants, floor brokers, and associated persons. The advisory committee will consider:

(1) Definition, role and function of commodity futures trading professionals.

(2) Recordkeeping, reporting, and financial responsibility requirements for commodity futures trading professionals.

(3) Training and fitness standards for commodity futures trading professionals.

(4) Regulation of non-member futures commission merchants.

(5) Customer/investor protection stand

(5) Customer/investor protection standards for commodity futures trading professionals including: (i) Investor information needs, availability, content, timeliness, format and accuracy; and (ii) Responsibilities to customers: rules on suitability/know your customer or other alternatives; customer rights.

2. *"The Commodity Futures Trading Commission Advisory Committee on Definition and Regulation of Market Instruments"* (*"Advisory Committee on Market Instruments"*). The objectives and scope of activities of the Advisory Committee on Market Instruments will be to consider and submit reports and recommendations to the Commission on the following subjects:

(1) Appropriate standards to be utilized by the Commission in regulating forms of transactions that are subject to the Commodity Exchange Act, as amended by the CFTC Act, including consideration of such matters as: (i) Appropriate standards to be utilized by the Commodity Futures Trading Commission regarding the definition of commodity futures contracts; and (ii) Appropriate restrictions or prohibitions for options relating to commodity transactions and margin or leverage transactions subject to section 217 of the CFTC Act.

(2) Responsibilities of the Commission over cash commodity markets. This will include consideration of such matters as: (i) Contracts for forward delivery; (ii) Cash market manipulations; and (iii) Data and reporting needs for cash markets.

3. *"The Commodity Futures Trading Commission Advisory Committee on Regulation of Contract Markets and Self-Regulatory Associations"* (*"Advisory Committee on Market Regulation"*). The objectives and scope of activities of the Advisory Committee on Market Regulation will be to consider and submit reports and recommendations to the Commission on the following subjects:

(1) Rulemaking and enforcement roles of contract markets and futures associations subject to section 301 of the CFTC Act. This will include consideration of such matters as: (i) Streamlining regulations and rules; (ii) Uniformity considerations; (iii) Cost-effectiveness; and (iv) Duplication, coordination, and cooperation.

(2) Adequacy of contract market practices including: (i) Procedures for emergency actions by contract markets; (ii) Desirability of prohibiting or restricting dual broker-dealer activities; and (iii) Adequacy of transaction records (including time-stamping of executions).

4. *"The Commodity Futures Trading Commission Advisory Committee on the Economic Role of Contract Markets"* (*"Advisory Committee on Economic Role of Contract Markets"*). The objectives and scope of activities of the Advisory Committee on Economic Role of Contract Markets will be to consider and submit reports and recommendations to the Commission on the following subjects:

(1) Economic functions of futures trading. This will include consideration of such matters as: (i) Benefits of commodity futures trading; (ii) Appropriate standards to be utilized by the Commission under the Commodity Exchange Act, as amended by the CFTC Act, in developing a definition of bona fide hedging transactions or positions;

(iii) Appropriate standards to be utilized by the Commission under the Commodity Exchange Act, as amended by the CFTC Act, in developing a definition of international arbitrage; and (iv) Appropriate policy criteria to be utilized by the Commission in establishing trading and position limits under the Commodity Exchange Act, as amended by the CFTC Act.

(2) Criteria for economic evaluation of existing contracts and new contract applications, including such matters as: (i) Proliferation of contracts; (ii) Commercial viability of contracts (including delivery points); and (iii) Trading potential (new and inactive contracts).

Each of the proposed advisory committees will have as members persons from the following interest groups: industry, which may include representatives from contract markets, producers, processors, or financial institutions; persons with professional or academic expertise in commodities futures trading; and representatives of other interest groups such as labor, consumers, or communications. The Commission will appoint at least one of its members to serve as chairman of each advisory committee and may also select as members to the advisory committees, public officials having duties connected with the areas regulated by the Commission. The Commission believes that representatives from these interest groups will provide background and experience that will be of significant importance in considering appropriate regulatory measures to implement the requirements of the Commodity Exchange Act, as amended by the CFTC Act.

Interested persons may obtain additional information or make comments by writing the Commodity Futures Trading Commission, 1120 Connecticut Avenue, Washington, D.C. 20036.

Issued in Washington, D.C. August 5, 1975.

By the Commission:

WILLIAM T. BAGLEY,
*Chairman, Commodity Futures Trading Commission.*

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 409-5; OPP-33000/296]

### NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

#### Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by each applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before October 3, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under Section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW., Washington D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after October 3, 1975.

Dated: July 28, 1975.

## FEDERAL POWER COMMISSION

[Docket Nos. RI75-81, *et al.*]

### AMOCO PRODUCTION CO. ET AL.

**Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]**

JULY 29, 1975.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

*The Commission finds:* It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

*The Commission orders:* (A) Under the Natural Gas Act, particularly Sections 4 and 15, the Regulations pertaining thereto [18 CFR, Chapter I], and the Commission's Rules of Practice and Procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and Section 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

### BANGOR HYDRO-ELECTRIC CO.

**Filing of Supplemental Rate Schedule**

JULY 30, 1975.

Take notice that on June 19, 1975, Bangor Hydro-Electric Company (Bangor) tendered for filing a Rate Schedule for Wheeling Service and supporting materials. Bangor states that power is wheeled for Eastern Maine Electric Cooperative (Eastern) which Eastern purchased from sources outside of Bangor's power supply system. Bangor also states that the proposed tariff rate of $14 per KW per annum is based upon a fully allocated cost of service study.

Bangor states that prior to January 1, 1973, Eastern "agreed to pay for such wheeling on an allocated cost of service basis," and that the proposed rate is supported by the cost of service materials accompanying its filing. Accordingly, Bangor requests waiver of the notice requirements of the Commission's Regulations to permit the filed tariff for Wheeling Service to become effective on January 1, 1973. If the notice requirements are waived, Bangor agrees that it will voluntarily refund to Eastern all sums in excess of the proper rate as found by the Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

## CONSOLIDATED GAS SUPPLY CORP.

### Further Extension of Procedural Dates

JULY 29, 1975.

On June 30, 1975, Staff counsel filed a motion to extend procedural dates fixed by order issued June 24, 1974, as most recently modified by notice issued June 10, 1975.

On July 7, 1975, Rochester Gas and Electric Corporation responded to staff's motion of June 30, 1975 and requested that the dates for service of intervenor testimony and for company rebuttal be still further extended.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff testimony in RP73-107, August 1, 1975.
Service of Intervenor Testimony, August 28, 1975.
Service of Company Rebuttal, September 11, 1975.
Hearing, September 30, 1975 (10:00 a.m. EDT).

By direction of the Commission.

## CRAB RUN GAS CO. AND WASHINGTON GAS LIGHT CO.

### Application

JULY 30, 1975.

Take notice that on July 18, 1975, Crab Run Gas Company (Crab Run), 6801 Industrial Road, Springfield, Virginia 22151, and Washington Gas Light Company (WGL), 1100 H Street, NW., Washington, D.C. 20080, jointly Applicants, filed in Docket No. CP76-24 a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale in interstate commerce by Crab Run of natural gas produced in the Vatican Field, Lafayette Parish, Louisiana, to WGL, and authorizing the sale by WGL of approximately 3.8 percent of said gas to Transcontinental Gas Pipe Line Corporation (Transco), all as more fully set forth in the application on file with the Commission and open to public inspection.

Crab Run proposes to sell to its affiliate, WGL, approximately 70,000 Mcf of gas per month at 51.0 cents per Mcf at 15.025 psia, plus 0.5 cent per Mcf for gathering and subject to downward Btu adjustment from a base of 1,000 Btu per cubic foot, and to deliver said gas to Florida Gas Transmission Company for redelivery to Transco in Vermilion Parish, Louisiana, for transportation to WGL. WGL proposes to sell to Transco for compressor fuel and line loss 3.8 percent of the gas purchased from Crab Run at the same price paid to Crab Run.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[Docket No. E-9422]

## MISSOURI UTILITIES CO.

### Order Denying Rehearing

JULY 30, 1975.

On May 2, 1975, Missouri Utilities Company (Missouri) tendered for filing proposed changes in its wholesale electric power purchase agreement with the City of California, Missouri (California), which Missouri states would result in increased rates and charges in the amount of $112,372, or 45.34%, for the twelve months ended December 31, 1974.

Upon review of Missouri's May 2, 1975 filing and the currently effective contract between Missouri and the City of California we found that the Mobile-Sierra[1] doctrine compelled us to reject the filing. By order issued May 30, 1975, we rejected Missouri's May 2, 1975 filing.

On June 30, 1975, Missouri filed an application for rehearing of our May 30, 1975 order rejecting its rate increase filing. In support of its application Missouri argues that the Commission applied an improper construction to the power contract between Missouri and the City of California and that the Mobile-Sierra doctrine did not require the rejection of the filing. Missouri contends that, since a provision in the contract permits the City of California to terminate and cancel the contract at any time after an increase in rates by order of a governmental regulatory body, the consent of the City is not a prerequisite to a revision of the contract.

Missouri further states that the company has had conversations with officials of the City of California with reference to possible changes in their wholesale contract and that it would be advantageous to the parties if this proceeding was to remain open until the results of such conversations were finalized and made known to the Commission.

Upon consideration of Missouri's application for rehearing we find that nothing is included therein which convinces us that our order of May 30, 1975 was in error. We shall therefore reaffirm that order and deny Missouri's application for rehearing.

It is true, as Missouri contends, that Article IX, Section 1 of the 1954 Missouri-City of California agreement provides the City of California with a right to terminate the contract.[2] Indeed that right of termination is conferred upon both parties to the contract upon a twelve-month notice of termination. The record offers no evidence that either party has given notice of termination. In the absence of notice bringing Article IX, Section 1 into play, we are obligated to give full consideration to the import of Article IX, Section 2 of the Missouri-City of California agreement. That Section provides:

[1] United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956); Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956).

[2] Article IX, Section 1, provides that the "term of this agreement is for five (5) years beginning on the day when power and energy is first delivered hereunder by the Company to the Board [of the City of California] and ending five years from that date (referred to as 'Primary Period') and thereafter from year to year (referred to as 'Yearly Period') unless and until terminated by either party giving twelve (12) months' written notice prior to the expiration of primary period or of any yearly period thereafter."

Due to unforeseen conditions relative to power costs which may change from time to time, or at any time, during the term of this contract, rates, terms and provisions herein may be reviewed and revised by *mutual consent of parties hereto*, subject, always, to the approval of the Public Service Commission of the State of Missouri. (emphasis supplied)

It is the opinion of this Commission that this language unquestionably requires both parties to the contract to assent to a rate increase and that such assent by the City of California is a condition precedent to the lawful filing of a request for a rate increase by Missouri. Missouri, in its application for rehearing, ignores this crucial provision in the contract, thereby offering no other reasonable interpretation of the language.

As for Missouri's allegation that it would be advantageous to the parties if the Commission held this proceeding open pending the outcome of discussions between Missouri and the City of California, we find we have no authority to do so by means of granting this application for rehearing. We have concluded that the Mobile-Sierra doctrine required us to reject Missouri's proposed rate increase filing. We are therefore unable to ignore that finding.[3] Moreover, even if we were able to keep this proceeding open for this purpose we note that on July 11, 1975, Counsel for the City of California filed with this Commission a letter informing us that "the City of California, Missouri, has had no conversations with the Applicant, Missouri Utilities, which would in any way have any bearing upon the above-styled proceedings." The City of California further requested that Missouri's application for rehearing be denied.

Upon review of Missouri's application for rehearing and upon further review of the contract existing between Missouri and California we conclude that our action of May 30, 1975 in this docket, by which we rejected Missouri's rate increase filing under the Mobile-Sierra doctrine was proper and without error. We shall therefore deny Missouri's application for rehearing of that order.

*The Commission finds.* good cause does not exist to grant Missouri's June 30, 1975 application for rehearing of our May 30, 1975 order in this docket.

*The Commission orders.* (A) Missouri's June 30, 1975 application for rehearing of our order issued May 30, 1975 in this docket is hereby denied.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

### Filing of Supplemental Data

JULY 30, 1975.

Take notice that on July 17, 1975, Missouri Utilities Company tendered supplemental data intended to make complete its original tender for filing of June 2, 1975. This action is in response to a deficiency letter issued by the Secretary of the Federal Power Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 7, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

## NEW ENGLAND POWER CO.

### Order Accepting and Suspending Revised Fuel Adjustment Clause, Consolidating Proceedings, Granting Interventions and Granting Waiver

JULY 30, 1975.

On June 30, 1975, New England Power Company (NEPCO) tendered for filing in the above captioned dockets amendments[1] to NEPCO's FPC Electric Tariff, Original Volume No. 1, revising the R-9 Rate as effective June 1, 1975. The amendments are intended to revise the fuel clause as originally filed in Docket No. E-9140 to conform with Section 35.14 of the Commission's Regulations, as amended by Order No. 517. Moreover, the amendments allow for a new base cost of fuel of 14.3 mills per kilowatt hour, reflecting 1974 fuel costs, and provide for a corresponding increase in the basic R-9 energy charge from 6.1 mills per kilowatt hour to 18.3 mills per kilowatt hour. NEPCO further requested a waiver of Section 35.13(b)(1) of the Commission's Regulations providing for revenue comparisons for the twelve month periods preceding and following the proposed effective date of the amendments. August 1, 1975, inasmuch as the tendered rate design change does not significantly affect wholesale revenues for the test period.

[1] Designated as: Schedule II-A, Fifth Revised Page No. 1; Schedule II-A, Fifth Revised Page No. 2.

Notice of NEPCO's filing was issued July 7, 1975 with responses due on or before July 22, 1975. On July 18, 1975 a protest and petition to intervene was jointly filed by the NEPCO Customer Rate Committee, the Manchester Electric Company, the New Hampshire Electric Cooperative, Inc., and some twenty-five municipal electric plants and departments (See Appendix A). The Petitioners request that they be permitted as intervenors in this proceeding, that the proceeding be consolidated with the R-9 rate matter in Docket Nos. E-9136 and E-9140, and that the proposed amendments be suspended for one day.

By order issued December 31, 1975[2], we accepted NEPCO's filings in Docket Nos. E-9136 and E-9140 which included, *inter alia*, the originally proposed fuel clause, consolidated the dockets for purposes of hearing and decision, suspended the proposed rates and charges for five months permitting them to become effective June 1, 1975, subject to refund, and set all matters for hearing. By subsequent order issued May 30, 1975 in these dockets[3], we accepted for filing, *inter alia*, a revision, filed by NEPCO pursuant to Section 35.17 of the Commission's Regulations, to NEPCO's suspended R-9 rate design. That revision had the effect of increasing the proposed energy charge from 2.1 mills to 6.1 mills/kwh, and decreasing the proposed demand charge from $7.69 to $5.72 per Kw/month. As noted above, the fuel clause amendments herein under consideration would reflect a new base cost of fuel of 14.3 mills per kwh and result in a further increase of the presently effective energy charge from 6.1 mills to 18.3 mills per kwh.

Our review indicates that the format of NEPCO's fuel clause amendments proposed herein are in conformance with Order No. 517. We find, however, that inasmuch as the tendered amendments are reflective of a rate level and structure that was suspended and placed into effect subject to refund, these amendments have likewise not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. We shall, therefore, accept the proposed amendments for filing and suspend their effect for one day, pending the hearing in this proceeding and decision thereon. Furthermore, since certain issues of law and fact raised in NEPCO's proposed fuel clause amendments are substantially the same as those in Docket Nos. E-9136 and E-9140, it is appropriate that these proceedings be consolidated for purposes of hearing and decision.

[2] Order Accepting Tariff Sheets For Filing, Suspending Use Thereof, Consolidating Proceedings And Providing For Hearing, Permitting Intervention and Denying Motions To Reject.

[3] Order Accepting For Filing Change In Suspended Rate, Accepting Proposed Amendment To Supplemental Agreement For Filing, Suspending Same, Consolidating Proceedings And Granting Interventions.

V40N151 AUG 5 75 XUM

*The Commission find.* (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the proposed amendments to NEPCO's filings in Docket Nos. E–9136 and E–9140, and that the proposed amendments be suspended as hereinafter ordered.

(2) Good cause exists for consolidation of the investigation of NEPCO's proposed fuel clause amendments filed June 30, 1975 with Docket Nos. E–9136 and E–9140.

(3) Good cause exists to grant NEPCO's requested waiver of Section 35.13(b) (1) of the Commission's Regulations. However, since our order of June 18, 1975, in these dockets required NEPCO to furnish additional data with respect to its May 16, 1975 submission of revised Period II data, we will also require NEPCO to submit within 10 days revised revenue comparisons for Period II to reflect the effects of its revised fuel adjustment clause.

(4) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

*The Commission orders.* (A) Pending a hearing and decision thereon, NEPCO's proposed fuel clause amendments are hereby accepted for filing, suspended for one day, and permitted to become effective August 2, 1975, subject to refund.

(B) NEPCO's proposed fuel clause amendments are hereby consolidated with the related matters in Docket Nos. E–9136 and E–9140, with procedural dates as established therein to govern.

(C) NEPCO's requested waiver of the filing requirements of Section 35.13(b) (1) of the Commission's Regulations is hereby granted.

(D) Within 10 days of the issuance of this order, NEPCO is directed to file revised revenue comparisons for Period II to reflect the effect of its revised fuel adjustment clause.

(E) The petitioners mentioned above and in Appendix A are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission; *Provided, however*, that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene; and *Provided, further*, that the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(F) The Secretary shall cause prompt publication of this order in the Federal Register.

By the Commission.

## PACIFIC GAS TRANSMISSION CO.

### Amendment to Application

JULY 30, 1975.

Take notice that on July 17, 1975, Pacific Gas Transmission Company (Applicant), 245 Market Street, San Francisco, California 94105, filed in Docket No. CP74–241 an amendment to the application filed in said docket pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a natural gas pipeline extending from the Kingsgate Meter Station on the international boundary between the United States and Canada to the Malin Meter Station on the border of Oregon and California, all as more fully set forth in the amendment on file with the Commission and open to public inspection.

Applicant states that it filed an application for a certificate of public convenience and necessity authorizing the construction and operation of a 42-inch pipeline on March 21, 1974, in the instant docket.[1]

Applicant states that it amended its application on March 3, 1975, because it could not expect to receive gas from Alberta in 1975, and accordingly requested that it be certificated to construct the proposed pipeline in one phase. Applicant states that it also submitted an alternative pipeline design since the exact quantities of gas to be transported had not been determined. The alternative proposal was for a 36-inch pipeline to be operated at a maximum pressure of 1440/1250 psig to transport up to 850,000 Mcf of gas per day. The alternate proposal is stated to have allowed Applicant a maximum flexibility once the final volumes of natural gas available for import were established.

In the instant amendment, Applicant proposes two further alternative pipelines, the first designated as the "1180 Design, would consist of a 36-inch pipeline partially looping and parallel to Applicant's existing pipeline on its existing right-of-way. The proposed construction would require the construction of approximately 319.6 miles of pipeline at twelve locations to be operated at the maximum pressure of 911 psig.[2] It is alleged that this design would allow Applicant to transport up to 200,000 Mcf of gas per day, and that this is the approximate volume of gas that Pacific Gas and Electric Company would have available to it under contractual arrangements with Exxon Company, U.S.A., from natural gas produced in Alaska. The estimated cost of this alternative is stated to be approximately $129,025,000.

| *Length* | *Location* |
|---|---|
| 7.9 miles | Boundary County, Idaho. |
| 29.6 miles | Boundary and Bonner Counties, Idaho. |
| 6.9 miles | Bonner County, Idaho. |
| 62.6 miles | Spokane and Whitman Counties, Washington, Kootenai County, Idaho. |
| 8.9 miles | Whitman County, Washington. |
| 8.6 miles | Columbia and Walla Walla Counties, Washington. |
| 5.7 miles | Umantilla County, Oregon. |
| 35.4 miles | Umantilla and Morrow Counties, Oregon. |
| 60.4 miles | Gilliam, Wasco and Jefferson Counties, Oregon. |
| 43.9 miles | Deschutes and Klamath Counties, Oregon. |
| 18.2 miles | Klamath County, Oregon. |
| 31.5 miles | Klamath County, Oregon. |

The second alternative, designated as the 1580 Design, it is stated, consists of a complete looping of Applicant's 36-inch pipeline and requires the construction of approximately 591.9 miles of 36-inch pipeline, parallel to Applicant's existing pipeline, which would be operated at a maximum pressure of 911 psig.[3] Applicant alleges that this pipeline would be capable of transporting up to 600,000 Mcf of gas per day, which would be in excess of the volumes of natural gas currently committed to Applicant but which Applicant believes would become available to it from additional exploration and development of reserves in Alaska and northern Canada. The estimated cost of this alternative is stated to be approximately $235,254,000.

[1] Notice was published in the FEDERAL REGISTER on April 15, 1974 (39 FR 13596). The original proposal was for the construction in stages of a 42-inch pipeline to operate at the maximum pressure of 1440/1250 psig. It is stated that the design was expected to accommodate the importation of an additional annual average daily volume of 1.2 million Mcf of gas and would have been constructed as volumes of gas became available from Alaska and the McKenzie delta region of Canada and the Province of Alberta.

[2] All of the twelve proposed pipeline loops for the 1180 Design alternative are 36-inch O.D. pipe and they would parallel the existing pipeline. They are as follows:

[3] All of the proposed pipeline loops for the 1580 Design alternative are 36-inch O.D. pipe and they parallel the existing pipeline. The proposed facilities would be constructed in the Counties of Boundary, Bonner and Kootenai, in Idaho, the Counties of Spokane, Whitman, Columbia and Walla Walla in Washington, and the Counties of Umantilla, Morrow, Gilliam, Wasco, Jefferson, Crook, Deschutes and Klamath in Oregon.

It is stated that both of these alternatives would require the acquisition of additional right-of-way for one segment of the proposed construction, but that they would use existing right-of-way for most of the proposed pipeline. These alternatives are stated to use also existing compressor station properties and to utilize the 36-inch pipeline that was previously installed at various major river crossings. The proposed pipeline facilities are alleged to also result in a total saving in fuel gas over the present levels of consumption. Further, it is stated that the facilities proposed would allow flexibility since the construction could progress in stages to conform to delivery requirements as additional supply became available and have the potential for expansion. The proposed full-looping pipeline is stated to be capable of expansion with the addition of compression, to accommodate up to 1.1 million Mcf of gas per day.

The application states that the pipeline designs proposed in the instant amendment would promote security of supply to California consumers. It is stated that because of the compatibility of design between Applicant's existing facilities and the proposed facilities, an outage in either pipeline could be compensated for in the parallel facility with a minimum reduction in throughput.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before August 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Any person who has heretofore filed a petition to intervene, notice of intervention or protest in the instant docket or in the consolidation proceeding in Docket No. CP75–96, *et al.*, need not file again.

## REGIS GAS SYSTEMS, INC.

### Application

JULY 30, 1975.

Take notice that on July 18, 1975, Regis Gas Systems, Inc. (Applicant), 1616 West Loop South, Houston, Texas 77027, filed in Docket No. CP76–22 an application for permission and approval to abandon the facilities known as the Maetze system in the Maetze Field, Goliad County, Texas, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it acquired the Maetze system from Valley Gas Transmission, Inc., after their continued operation was economically infeasible for Valley. Applicant alleges that it intended to provide inducements to producers for well recompletions and the drilling of new wells as a basis for the continued operations of the gas system. It is stated that a higher wellhead price was offered to the producer by Applicant but that the producer failed to take any action to extend the life of the field and allowed the leases to lapse. Applicant alleges that it has sought to contact all potential sources of new gas in the Maetze Field area but that no gas has been available in that area. Applicant states that the last time it transported gas in its Maetze System was May 1974.

Applicant states that it should be permitted to abandon the service that is rendered by the Maetze system because the supply of natural gas is depleted to such an extent that the continuance of the service is unwarranted and so that it can presently recover the salvage value of the facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed with the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

## SOUTHERN NATURAL GAS CO.

[Docket No. RP72–91 (Phase II), *et al.* (AP 5/16/74)]

### Further Postponement of Hearing

JULY 29, 1975.

On July 16, 1975, Southern Natural Gas Company filed a motion to postpone the hearing date fixed by order issued July 19, 1974, as most recently modified by notice issued July 8, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the date of hearing in the above matter is further postponed until November 5, 1975, at 10:00 a.m., EST.

## SOUTHERN NATURAL GAS CO.

### Motion To Terminate Proceedings

JULY 29, 1975.

On February 12, 1975, Staff filed a statement of position and motion to terminate the above-referenced proceedings.

On August 27, 1974, Southern Natural Gas Company (Southern) tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1. This filing reflected, *inter alia*, the inclusion in Southern's rate base of additional advance payments in excess of advance payments theretofore included in Southern's rate base. Notice of this filing was issued on September 9, 1974, with protests, comments and petitions to intervene due on or before September 17, 1974. Staff filed comments relating to this filing on September 17, 1974. Staff indicated in those comments that the filing did not demonstrate that the producers would make the expenditures of the amounts advanced within a reasonable time from the date such advances would be included in Southern's rate base and therefore recommended that the rate increase associated with the inclusion of these advance payments be made subject to refund and that the matter be set for hearing.

The Commission, by order issued October 9, 1974, accepted Southern's rate change for filing, effective subject to refund and set the matter for hearing. After an extension of the procedural dates Southern filed the testimony of Mr. J. C. Jones and one exhibit sponsored by Mr. Jones, both in support of including the subject advances in Southern's rate base.

In Order No. 499,[1] this Commission stated that in order for advances to be considered reasonable and appropriate for inclusion in rate base, the producers

[1] Docket No. RM74–4, issued December 28, 1973.

V40151 AUG 5 75 XUM

must incur the costs for exploration, development and production within a reasonable time from the date the advances are included in the pipeline's rate base.

Staff, in its statement of position filed February 12, 1975, states it has consistently maintained that the producers should incur these costs within thirty days from the time the advances are included in rate base. Staff reports in its motion that their review of Southern's exhibit sponsored by Mr. Jones, filed on January 15, 1975, and of information provided by Southern subsequent to the filing of this exhibit indicates that as of November 11, 1974, thirty days from the time these advances were included in Southern's rate base, 91% or $4,431,402 of a total advance included in this filing of $4,867,000 had been spent. Based on those facts, Staff has submitted that the amount advanced is reasonable and appropriate within the meaning of Order No. 499 and that the refund obligation associated with those advances should be removed.

Further, Staff states that the amount not spent by the producers before November 11, 1974, equals $435,598 and has a revenue impact on jurisdictional cost of service of $54,885, an amount so low as to have no effect on Southern's rates and charges. In its motion Staff reserves the right to question the reasonableness and appropriateness of the amounts not spent by the producers within thirty days of the inclusion of those amounts in Southern's rate base in Southern's next filing whether pursuant to Article III of its Stipulation and Agreement or any other filing pursuant to Section 4 of the Natural Gas Act.

Our review of Staff's motion indicates that no purpose would be served by further proceedings in this matter and accordingly we find that it would be in the public interest to grant Staff's motion and terminate this proceeding. The instant filing complies with Order No. 499 to the extent that the producers have incurred the costs associated with exploration, development and production within a reasonable time from the date the advance payments were included in Southern's rate base.

*The Commission finds:*

Good cause exists to terminate the proceedings relating to the advance payments contained in Southern's August 27, 1974, filing and to relieve Southern of refund liability associated with the inclusion in Southern's rate base of amounts spent by producers within 30 days of their inclusion pursuant to the advances included in the August 27, 1974 filing, to wit: $4,431,402, at the same time recognizing Staff's reserved right to question the reasonableness and appropriateness of the amounts not so expended in Southern's next filed rate increase, whether pursuant to Article III of its Stipulation and Agreement or as a general rate increase under Section 4 of the Natural Gas Act.

*The Commission orders:*

(A) The refund liability with respect to the inclusion in Southern's rate base of amounts spent by producers within 30 days of their inclusion pursuant to the advances included in the August 27, 1974, filing, to wit: $4,431,402, is hereby terminated.

(B) The proceedings relating to the advance payments contained in Southern's August 27, 1974, filing are hereby terminated subject to such further proceedings as may be required pursuant to ordering paragraph (C) below.

(C) Staff's specific reservation of its right to challenge the reasonableness and appropriateness of the amounts not so expended in Southern's next filed rate increase, whether pursuant to Article III of its Stipulation and Agreement or as a general rate increase under Section 4 of the Natural Gas Act is hereby recognized.

(D) The Secretary shall cause prompt publication of this to be made in the FEDERAL REGISTER.

By the Commission.

## SUN OIL CO.

### Procedural Dates and Date for Formal Hearing

JULY 29, 1975.

On May 12, 1975, Sun Oil Company (Applicant) filed in Docket No. CI75-695[1] an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon a sale of natural gas to El Paso Natural Gas Company (El Paso) from the V. T. McCabe Well No. 14, located in the North Jameson (Strawn) Field, Noland County, Texas, all as more fully set forth in the application.

Applicant proposes to abandon the sale from the subject well made pursuant to Applicant's FPC Gas Rate Schedule No. 150, which provides for the sale of gas-well gas to El Paso. The subject well has been reclassified from a gas well to an oil well by the Texas Railroad Commission. As an oil well the casinghead gas therefrom is dedicated to a contract dated November 18, 1952, with Lone Star Gas Company (Lone Star) for an intrastate sale.

After due notice by publication in the Federal Register, no petitions to intervene, notices of intervention, or protests to the granting of the application have been filed.

The subject proposal if approved would cause a diminution of gas to El Paso, which is currently experiencing curtailment of service, and to the interstate market, which is experiencing a gas shortage, We believe that there arises legal and factual issues, which require an evidentary record to be developed to determine whether the public convenience and necessity warrant the abandonment of service requested herein. The Applicant should address himself *inter alia* to the need of Lone Star and El Paso for the subject gas, the location and history of the subject well, the amount of reserves concerned herein, the revenue impact of the abandonment including the price of gas and the necessity for additional facilities in order for Lone Star to take the gas and the circumstances surrounding the reclassification.

*The Commission finds:*

It is necessary and appropriate and in the public interest that the proceeding in Docket No. CI63-13 be set for formal hearing.

*The Commission orders:*

(A) Pursuant to the provisions of the Natural Gas Act particularly, Sections 7 and 15 thereof, a formal hearing shall be convened in Docket No. CI63-13 in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 on September 16, 1975, at 10:00 a.m. (EDT). The Presiding Administrative Law Judge for the purpose—See Delegation of Authority 18 CFR 3.5(d)—shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

(B) The direct case of Sun Oil Company and all persons in support of the application to abandon shall be filed and served on all parties of record, including the Commission Staff on or before August 27, 1975.

By the Commission.

[1] Application was incorrectly assigned and noticed in Docket No. CI75-695. The application applies to only one of the wells covered by the certificate authorization issued in Docket No. CI63-13. The authorization for sales from the other wells is not concerned by the instant order.

### REGULATORY REPORTS REVIEW

#### Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO on July 29, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the Federal Register is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed ICC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before August 25, 1975, and should be addressed to Mr. Carl F. Bogar, Assistant Director, Office of Special Programs, United States General Accounting Office, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL COMMUNICATIONS COMMISSION

Request for clearance of a revision of FCC Form 301-A, Application for Authority to Operate a Broadcast Station by Remote Control or to Make Changes in a Remote Control Authorization. The use of this form is required by Section 15.48 of the Commission's Rules. FCC Form 301-A is required to be filed by licensees or permittees of Standard FM (commercial and noncommercial) and Television (commercial and noncommercial) Broadcast Stations when applying for authority to operate a broadcast station by remote control or to make changes in a remote control authorization. It is estimated that respondent burden would average 16 hours per response. The FCC receives approximately 175 applications annually.

INTERSTATE COMMERCE COMMISSION

Request for clearance of OP-OR-9, Application for Motor Carrier Certificate or Permit, as revised by Commission proceeding in Ex Parte No. 55 (Sub-No. 10), decided November 20, 1974. Revisions adopted made no change to the basic data included in the form, but concern a change in Rule 247 of the Commission's General Rules of Practice, whereby the entire Commission prescribed requirements as to shipper certifications and established time limitations with respect to the submission of restrictive amendments and certifications of shipper support. The purpose in adopting the revisions was the Commission's concern with the deleterious impact on the public interest, the burden imposed on the parties, and the abuse of the Commission's procedures arising from the unreasonable expansion or contraction of cases after being filed. Forms are used by motor carriers seeking new or extended interstate operating authority. Approximately 6,000 applications are filed each year and constitute a formal proceeding before the Commission. Time to prepare application Form OP-OR-9 is estimated at 8 man-hours.

## NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

### Meeting

Notice is hereby given, pursuant to PL 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on August 22 and 23, 1975. Committee meetings will be held on August 22, from 8:30-10:00 a.m., and full Council will convene from 10:00 a.m.-5:00 p.m. The meeting of August 23 is scheduled to be held from 9:00 a.m.-2:00 p.m. The two-day meeting will be held at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C. 20004.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The agenda of the two-day meeting will include Committee reports (Early Childhood Education, Special Concerns, Mandated Studies) on site visits and a review of the Committees' position papers.

Because of limited space, all persons wishing to attend should call for reservations by August 11, 1975, Area Code 202/382-6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C.

Signed at Washington, D.C. on July 30, 1975.

## NUCLEAR REGULATORY COMMISSION

[Docket No. P-499-A]

### DEPARTMENT OF WATER AND POWER OF THE CITY OF LOS ANGELES, ET AL.

#### Notice of Receipt of Partial Application for Construction Permits and for Facility Licenses; Time for Submission of Views on Antitrust Matters

The Department of Water and Power of the City of Los Angeles, the State of California Department of Water Resources, the City of Anaheim, the City of Glendale, the City of Pasadena, the City of Riverside, the Northern California Power Agency, the Pacific Gas and Electric Company and the Southern California Edison Company, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed one part of an application, which was docketed on May 21, 1975, in connection with plans to construct and operate four generating units of an undetermined type, each with a net electrical output of approximately 1170 megawatts. The proposed facilities, designated as the San Joaquin Nuclear Project, are to be located near Wasco, approximately 33 miles northwest of Bakersfield, in Kern County, California. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

Pursuant to § 2.101 of Part 2, the remaining portion of the application consisting of an Environmental Report is expected to be filed in August 1976, and the Preliminary Safety Analysis Report in December 1976. Upon receipt of the portions of the application dealing with environmental and radiological health and safety matters, separate notices of receipt will be published, by the Nuclear Regulatory Commission (the Commission), including an appropriate notice of hearing.

V40151A AUG 5 75 XUM

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20555; the Nuclear Regulatory Commission, Inspection and Enforcement, Region V, 1990 N. California Boulevard, Walnut Creek, California 94596; the Federal Records Center, Reading Room, 4747 Eastern Avenue, Bell, California 90201; and the Kern County Library, 1315 Truxtun Avenue, Bakersfield, California 93301. Docket No. P-499-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Office of Antitrust and Indemnity, Office of Nuclear Reactor Regulation, on or before August 12, 1975.

Dated at Bethesda, Maryland, this 5th day of June 1975.

For the Nuclear Regulatory Commission.

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, CALLAWAY PLANT, UNITS 1 AND 2, SUBCOMMITTEE

### Meeting

In accordance with the purposes of Sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the ACRS Subcommittee on the Callaway Plant, Units 1 and 2, will hold a meeting on August 20, 1975 at the Red Carpet Inn-Airport, 4690 N. Lindbergh Boulevard (Brigeton), St. Louis, MO 63044. The purpose of this meeting is to explore the site-related aspects of this application of the Standardized Nuclear Unit Power Plant System (SNUPPS).

The agenda for the subject meeting shall be as follows:

Wednesday, August 20, 1975, 9:00 a.m. until the conclusion of business. The Subcommittee will hear presentations by representatives of the Union Electric Company and the NRC Staff and will hold discussions with these groups regarding the site-related aspects of the application for a construction permit as well as other matters relating to the standard design.

In connection with the above agenda items, the Subcommittee will hold Executive Sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold closed sessions with representatives of the NRC Staff and Applicant for the purpose of discussing privileged information concerning plant physical security and other matters related to plant design, construction, and operation, if necessary.

I have determined, in accordance with Subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing a readily reproducible copy thereof, postmarked no later than August 13, 1975 to the Executive Secretary, ACRS, NRC, Wash., D.C. 20555. Background information concerning items to be discussed at the meeting can be found in the Preliminary Safety Analysis Report for this project and related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H St., N.W., Wash., D.C. 20555, the Olin Library of Washington University, St. Louis, MO 63130, and the Fulton City Library, 709 Market St., Fulton, MO 65251. Comments which fail to meet the specified mailing date noted above will be considered to the extent practicable.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement so that appropriate arrangements can be made. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for opportunity to present oral statements and the time allotted, can be obtained by a prepaid telephone call on August 19, 1975 to the Office of the Executive Secretary of the Committee (telephone 202/634-1920, ATTN: Mr. John C. McKinley) between 8:15 a.m. and 5:00 p.m., Eastern Daylight Time.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) Seating for the public will be available on a first-come, first-served basis.

(f) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(g) Persons desiring to attend portions of the meeting where proprietary information, other than plant security information, is to be discussed may do so by providing to the Executive Secretary, ACRS, NRC, 1717 H St., NW., Wash., D.C. 20555, seven days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(h) A copy of the transcript of the open portion of the meeting will be available for inspection on or after August 25, 1975 at the NRC Public Document Room, 1717 H St., NW., Wash., D.C. 20555, the Olin Library of Washington University, St. Louis, MO 63130, and the Fulton City Library, 709 Market St., Fulton, MO 65251. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE., Washington, D.C. 20002 (telephone 202/547-6222) upon payment of appropriate charges.

(i) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H St., NW., Wash., D.C. 20555 after November 20, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: July 31, 1975.

## SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 11555; SR–2]

### AMERICAN STOCK EXCHANGE, INC.

**Rule Changes**

JULY 28, 1975.

NOTICE IS HEREBY GIVEN that the American Stock Exchange, Inc. (the "Amex") has filed, pursuant to Section 19(b) of the Securities Exchange Act of 1934, as amended, amendments (the "Amendments") to the certificate of incorporation, by-laws and rules of the American Stock Exchange Clearing Corporation ("ASECC"). The Amendments provide for the implementation of a continuous net settlement ("CNS") system for the clearance and settlement of transactions executed on the Amex.

1. THE AMENDMENTS

Pursuant to the Amendments, ASECC will clear and settle through the CNS system transactions in securities issues listed on the Amex and eligible for inclusion in the CNS operation and will continue to operate a daily balance order ("DBO") clearing and settlement system for transactions in issues not eligible for inclusion in the CNS operation.

Securities settlement in the CNS operation will be made through The Depository Trust Company ("DTC") by book entry; all members of ASECC will be required to become members of DTC, and issues not eligible for inclusion in DTC will not be eligible for inclusion in the CNS operation. Securities settlement in the DBO operation may be effected through the envelope system of Stock Clearing Corporation ("SCC"), the clearing arm of the New York Stock Exchange, Inc.

Once CNS is fully operational, money settlement for transactions cleared through ASECC (including CNS transactions for which securities deliveries are made through DTC and DBO transactions for which securities deliveries are made through SCC's envelope system) will be made through SCC, thereby permitting ASECC–SCC dual members to make one payment for ASECC and SCC money settlement obligations each day.

Any losses will be allocated among ASECC, SCC and DTC in accordance with a formula included in the Amendments and included in amendments to the rules of SCC and DTC ordered to be put into effect contemporaneously with the Amendments, and, in certain circumstances, DTC will be permitted to reverse book entry movements for which payment is required to be made in DTC but for which DTC has not been paid.

Processing in connection with ASECC's CNS operation will be performed by the Securities Industry Automation Corporation ("SIAC"), a service entity owned jointly by the NYSE and the Amex, which currently performs processing for ASECC's existing operations and for SCC's operations.

2. SOLICITATION OF COMMENTS ON THE AMENDMENTS

The Commission preliminarily sought comments from interested persons on the Amendments by publishing notice in the FEDERAL REGISTER that the Amex filing had been received and requesting comments on or before August 8, 1975. By today's notice, the Commission extends the comment period. Interested persons are invited to submit their views and comments to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 on or before August, 1975. Communications should refer to File No. SR–2. The Amendments are, and all comments will be, available for public inspection at the Public Reference Room of the Commission at 1100 L Street, N.W., Washington, D.C.

3. SUMMARY EFFECTIVENESS OF THE PROPOSED ASECC RULE CHANGES

The National Clearing Corporation, the Pacific Clearing Corporation and SCC currently have fully operational continuous netting clearing systems which have increased significantly the safety and efficiency of clearing and settlement for securities transactions processed through the systems. Based on the performance of existing continuous netting systems and on its review of the ASECC CNS system, the Commission has determined that implementation of ASECC's CNS system will increase significantly the safety and efficiency of clearing and settlement for securities transactions cleared through ASECC. Accordingly, it appears to the Commission that immediate implementation of the CNS system is necessary for the protection of investors and for the safeguarding of securities and funds.

IT IS THEREFORE ORDERED, pursuant to Section 19(b)(3)(B) of the Act, that the Amendments relating to the implementation of ASECC's CNS system, filed with the Commission on June 2, 1975 be put into effect summarily, effective July 25, 1975, until such time as the Commission, pursuant to Section 19(b)(2) of the Act, either approves the Amendments or institutes proceedings to determine whether such rules should be disapproved.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

### NEW YORK STOCK EXCHANGE, INC.

**Rule Changes**

JULY 28, 1975.

NOTICE IS HEREBY GIVEN that the New York Stock Exchange, Inc. (the "NYSE") has filed, pursuant to Section 19(b) of the Securities Exchange Act, as amended, amendments (the "Amendments") to the Rules of The Depository Trust Company ("DTC").

1. THE AMENDMENTS

The Amendments have been filed in connection with Amendments to the certificate of incorporation, by-laws and rules of the American Stock Exchange Clearing Corporation ("ASECC"), ordered to be put in effect contemporaneously with the Amendments, providing for implementation by ASECC of a continuous net settlement ("CNS") system which will involve settlement of transactions in certain American Stock Exchange-listed issues through the facilities of DTC.

The Amendments consist of additions to DTC's Rules 1, 4, 6 and 9, to provide for the allocation of certain DTC losses among the DTC Participants Fund, the ASECC CNS Clearing Fund, and the Stock Clearing Corporation ("SCC") CNS Clearing Fund. The Amendments constitute an expansion of procedures previously established by SCC and DTC, in connection with the implementation of SCC's CNS system, to allocate losses between them.

2. SOLICITATION OF COMMENTS ON THE AMENDMENTS

The Commission preliminarily sought comments from interested persons on the Amendments by publishing notice in the FEDERAL REGISTER that the NYSE filing had been received and requesting comments on or before August 8, 1975. By today's notice, the Commission extends the comment period. Interested persons are invited to submit their views and comments on the Amendments to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 on or before August __, 1975. Communications should refer to File No. SR–3. The Amendments are, and all comments will be, available for public inspection at the Public Reference Room of the Commission at 1100 L Street, NW., Washington, D.C.

3. SUMMARY EFFECTIVENESS OF THE AMENDMENTS

The National Clearing Corporation, the Pacific Clearing Corporation and SCC currently have fully operational continuous netting clearing systems which have increased significantly the safety and efficiency of clearing and settlement for securities transactions processed through the systems. Based on the performance of existing continuous netting systems and on its review of the ASECC's CNS system, the Commission has determined that implementation of ASECC's CNS system will increase significantly the safety and efficiency of clearing and settlement for securities transactions cleared through ASECC. Implementation of ASECC's CNS system will not proceed until these Amendments become effective. Accordingly, it appears to the Commission that immediate effectiveness of the Amendments is necessary for the protection of investors and for the safeguarding of securities and funds.

IT IS THEREFORE ORDERED, pursuant to Section 19(b)(3)(B) of the Act, that the Amendments relating to the establishment of loss allocation and book entry reversal mechanisms in connection with the implementation of ASECC's CNS system, filed with the Commission on June 26, 1975, be put into effect summarily, effective July 25, 1975, until such time as the Commission, pursuant to Section 10(b)(2) of the Act, either approves the Amendments or institutes proceedings to determine whether such rules should be disapproved.

By the Commission.

### PACIFIC STANDARD FUND, INC.

**Filing of Application**

JULY 28, 1975.

NOTICE IS HEREBY GIVEN that Pacific Standard Fund, Inc. ("Applicant"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), has filed an application on April 30, 1975, and an amendment thereto on May 23, 1975, for an order of the Commission declaring that the Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that on April 25, 1975, shareholders of the Applicant approved an Agreement and Plan of Reorganization ("Agreement") and Articles of Exchange and Transfer providing for the sale by the Applicant of substantially all of its assets to Empire Fund, Inc. ("Em-

V40151 AUG 5 75 XUM

pire"), an open-end investment company registered under the Act, in exchange for shares of capital stock of Empire and cash; and that on April 28, 1975, the Agreement and the Articles of Exchange and Transfer were filed with the Department of Assessments and Taxation of the State of Maryland. In addition, Applicant states that Articles of Dissolution will be filed with such Department upon receipt of a tax clearance certificate from the Maryland Department of Revenue.

Applicant states further that its former shareholders have been issued shares of Empire pursuant to the terms of the Agreement; that checks in lieu of fractional shares of Empire have been issued to such shareholders; and that Applicant has no assets other than a small cash reserve maintained for the purpose of satisfying such checks.

Section 8(f) of the Act provides, in pertinent part, that when the Commission upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

NOTICE IS FURTHER GIVEN that any interested person may, not later than August 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

## TENNESSEE VALLEY AUTHORITY

### ROANE, TENNESSEE—500–kV SUBSTATION AND TRANSMISSION LINE CONNECTIONS

#### Negative Determination

In accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, section 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550–62 (August 1, 1973)), and section V–B–1 of the Tennessee Valley Authority's Procedures for Environmental Planning and Assessment (39 FR 5671–75 (February 14, 1974)), the Tennessee Valley Authority (TVA) hereby gives notice that it has determined that the construction and operation of a 500-kV substation and related transmission line connections on a site in Roane County, Tennessee (approximately 8 miles southwest of the city of Oak Ridge), does not constitute a "major federal action significantly affecting the quality of the human environment" and that an environmental statement is not necessary for this proposed action.

These facilities are required to provide additional electric energy requirements of the Energy Research and Development Administration facilities at Oak Ridge, Tennessee. TVA has prepared an environmental evaluation record to assess the environmental impacts related to this proposal and to identify measures to minimize the effects of construction and operation on the environment. TVA's environmental review has revealed no significant environmental impacts which would occur from the construction or operation of the facilities in accordance with their design. The facilities would be constructed entirely on federally-owned property already used for industrial purposes. The proposal is compatible with both regional and local planning and is not considered controversial within the meaning of the CEQ Guidelines. As a result of this review, TVA has determined that an environmental impact statement is not required.

TVA's environmental evaluation record is available for inspection and review during regular work hours at the following locations:

333 New Sprankle Building
Knoxville, Tennessee 37902

Anderson County
Oak Ridge Civic Center
Oak Ridge, Tennessee 37830

Kingston City Library
Patton Ferry Road
Kingston, Tennessee 37763

A limited number of single copies are available and can be obtained by writing to TVA's Information Office at the above address.

Any questions or comments concerning this proposal should be directed to:

## ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

### STUDY GROUP ON FIELD AND LABORATORY UTILIZATION

#### Determination To Establish

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), the establishment of a "Study Group on Field and Laboratory Utilization" has been certified by the Acting Administrator as necessary, appropriate, and in the public interest in connection with the performance of duties imposed upon the Energy Research and Development Administration (Pub. L. 93–438), and other applicable law.

1. *Name of Committee.* Study Group on Field and Laboratory Utilization.

2. *Purpose.* To advise ERDA on the organizational and management steps to be taken to contribute to the optimum utilization of ERDA's field and laboratory resources in accomplishing ERDA's nonmilitary missions.

3. *Effective date of establishment and duration.* The Study Group is established effective with the publication of this notice.

The charter of the Study Group will be filed with the standing committees of Congress having legislative jurisdiction of the Energy Research and Development Administration.

4. *Membership.* The members are:

(a) Lt. Gen. Austin W. Betts (USA, Retired), Senior Vice President, Southwest Research Institute, Chairman of the Study Group.
(b) Dr. Raymond L. Bisplinghoff, Chancellor, University of Missouri.
(c) Mr. William L. Davis, Emerson Electric.
(d) Dr. Alan M. Lovelace, Associate Administrator for Aeronautics and Space Technology, NASA.
(e) Dr. John A. Hornbeck, Bell Telephone Laboratories.
(f) V/Adm. William J. Moran (USN, Retired).
(g) Dr. Herman Postma, Director, Holifield National Laboratory.
(h) Dr. Harold M. Agnew, Director, Los Alamos Scientific Laboratory.
(i) Dr. George H. Vineyard, Director, Brookhaven National Laboratory.
(j) Mr. Robert D. Thorne, Manager, ERDA San Francisco Operations Office.
(k) Dr. Agnew W. Decora, Director, Laramie Energy Research Center.
(l) Dr. Vitalij Garber (Designated Federal employee), Technical Director, ERDA Assistant Administrator for Laboratory & Field Coordination.

5. *Study Group operation.* The Study Group will operate in accordance with provisions of the Federal Advisory Committee Act (Pub. L. 92–463), ERDA policy and procedures, OMB Circular No. A–63 (Revised), and other directives and instructions issued in implementation of the Act.

For the Administrator.

HARRY L. PEEBLES,
*Deputy Advisory Committee Management Officer.*

### STUDY GROUP ON FIELD AND LABORATORY UTILIZATION

#### Meeting

The Study Group on Field and Laboratory Utilization will hold a meeting on August 12 and 13, 1975, at ERDA Headquarters, Germantown, Maryland, in Room A–410. The portion of the meeting which will be open to the public will begin at 8:30 a.m. and end at approximately 12 noon.

The purpose of the Study Group on Field and Laboratory Utilization will be to prepare a report which will be based on its appraisal of the management practices inherited by ERDA and recommend organizational and management steps to be taken to contribute to the optimum utilization of ERDA's field and laboratory resources in accomplishing ERDA's nonmilitary missions.

In addition to the public session on August 12, the Study Group plans to hold two (2) executive sessions. The first will begin at approximately 1 p.m., August 12, and continue through the day ending at approximately 5:30 p.m. The second executive session is scheduled for August 13, 1975, from 8:30 a.m. to 5:30 p.m. These sessions will include discussion of budget information, intra-agency communications on pending issues and classified data.

When this group was originally constituted, it was erroneously believed that it was not subject to the Federal Advisory Committee Act (FACA). Subsequently, it was determined that the group is in fact an advisory committee subject to the FACA. Meanwhile, a schedule of meetings was established, the first of which is set for August 12 and 13, 1975. The Study Group must initiate its efforts in early August so as to complete its report by the end of October, 1975, as directed by the Administrator, in order to meet stringent budget cycle dates.

The members of the Study Group have agreed to serve because of the importance of ERDA's missions and the value of this study in assuring that they will be successfully accomplished. All of them have other important responsibilities, but have agreed that half of their activities over the next few months will be devoted to the Study. The proposed schedule of meetings and site visits are very difficult to arrange in the time available and still permit some of the members to meet their other important commitments. August 12 and 13 are the only dates on which nearly all of the members will be available to meet at Headquarters prior to the first site visit. The hardships to the members of the Study Group resulting from any rescheduling at this time, and the hardship to ERDA from any delay in meeting its budget requirements are deemed to be sufficient cause justifying a notice period shorter than the 15 days as provided in section 8(b)3 of the OMB Circular No. A–63 (Revised).

The Headquarters' briefings are vital to assure a maximum understanding by the Group of ERDA and its programs prior to undertaking the first site visit. Thus, the purpose of this first meeting is not for ERDA to receive advice, but is for ERDA officials to brief the Study Group.

I have determined, in accordance with subsection 10(d) of Pub. L. 92–463, that these executive sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and further that some of the discussions will be on laboratory management matters which will involve weapons information and other classified activities which fall within exemption (1) and (3) of 5 U.S.C. 552(b). It is essential to close these portions of the meeting to protect the free interchange of internal views and to avoid undue interference with Agency or Study Group operation.

The Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the Study Group meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements on agenda items may do so by mailing ten copies thereof, postmarked no later than August 26, 1975, to Ms. Antionette Joseph, Office of Laboratory Coordination, ERDA, Washington, D.C. 20545. Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Study Group who is empowered to apportion the time available among those selected by him to make oral statements.

(b) Questions at the meeting may be asked only by members of the Study Group.

(c) Seating for the public will be made available on a first-come, first-served basis.

(d) Copies of minutes will be made available for copying, following their acceptance by the Study Group, in accordance with the Federal Advisory Committee Act, at the Energy Research and Development Administration's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545, upon payment of all charges required by law.

The Study Group will convene August 19–21, 1975 for site visits to the Argonne National Laboratory, FermiLab, and the Pittsburgh Energy Research Center. The Study Group will undertake site visits to, and may hold meetings at the ERDA San Francisco Operations Office, the ERDA Oak Ridge Operations Office, and the ERDA Albuquerque Operations Office. Future Study Group meetings will be held in September and early October, 1975. Notices of these meetings will be published in the Federal Register.

*Deputy Advisory Committee Management Officer.*

## IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

JULY 31, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before August 15, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

## MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JULY 31, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 25, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75948. By order of July 28, 1975, the Motor Carrier Board approved the transfer to Monrovia Transport, Inc., Arcadia, Calif. of Certificate No. MC–114095 issued May 27, 1960, to Wiley M. Whittaker, Portland, Oreg., authorizing the transportation of shingles and shakes, wooden, from specified counties in Washington and Oregon, to points in California. Frederick J. Coffman, P.O. Box 81849, Lincoln, Nebr. 68501, attorney for transferee. Philip G. Skofstad, 3076 Burnside St., Portland, Oreg. 97214, attorney for transferor.

No. MC–FC–75966. By order of July 28, 1975, the Motor Carrier Board approved the transfer to James Leslie Gaddis, doing business as Gilbert's Towing and Storage Service, Portland, Oregon, of Certificate No. MC–101781, issued April 13, 1970, to Robert L. Gaddis and James L. Gaddis, doing business as Gilbert's Towing and Storage Service, Portland, Oregon, authorizing the transportation of used automotive vehicles, wrecked and disabled motor vehicles, recovered, stolen, or repossessed automobiles between points in Washington, Oregon, California, and Idaho. Robert R. Hollis, 400 Pacific Bldg., Portland, Oreg. 97204, attorney for transferee.

No. MC–FC–75999. By order entered July 28, 1975, the Motor Carrier Board approved the transfer to Harran Transportation Co., Inc., North Merrick, N.Y., of the operating rights set forth in Certificate No. MC–40815, issued January 24, 1966, to Veterans Transportation Co., Inc., Valley Stream, N.Y., authorizing the transportation of passengers and their baggage, in charter operations, from New York, N.Y., to points in New York, New Jersey, Connecticut, and Pennsylvania. Samuel B. Zinder, 98 Cutter Mill Road, Great Neck, N.Y. 11021, attorney for applicants.

V 40 151 AUG 5 75 XUM

## Title 7—Agriculture

## CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

## PART 26—GRAIN STANDARDS

### Miscellaneous Amendments

*Statement of considerations.* On December 4 and 27, 1974, there was published in the FEDERAL REGISTER (39 FR 42226 and 39 FR 44763) notices of proposed rulemaking to amend §§ 26.1, 26.6, 26.9, 26.10, 26.11, 26.13, 26.14, 26.15, 26.30, 26.61, 26.85, 26.87, 26.97, 26.100, 26.101, 26.110, and 26.114 of the regulations (7 CFR 26.1, 26.6, 26.9, 26.10, 26.11, 26.13, 26.14, 26.15, 26.30, 26.61, 26.85, 26.87, 26.97, 26.100, 26.101, 26.110, and 26.114) under the Act.

The proposed amendments of the regulations under the Act are needed to conform inspection procedures with changes in grain merchandising and transportation practices, to clarify certain provisions in the regulations, and to provide additional guidelines for official inspection agencies.

Copies of the notices of proposed rulemaking were sent to official inspection personnel licensed under the Act and to members of the grain industry.

Interested persons were given until January 20, 1975, to submit written data, views, or arguments with respect to the proposed rulemaking. In response to a request by interested parties for additional time to study the proposals, the time for filing written data, views, or arguments was extended to March 7, 1975. Sixty-two comments with respect to the proposals were received from farm organizations, grain industry firms, grain industry groups, official inspection agencies, grain inspection groups, steamship companies, and the U.S. Department of Commerce.

One commentor supported all the proposals, and one comment from a nongrain commercial firm was not relevant to the proposals. The principal points raised in the other comments and the Department's response are set out by section as follows:

1. *Weighted average.* Section 26.1 of the regulations (7 CFR 26.1) would be amended by adding a definition for the term "weighted average." The definition is needed to supplement the weighted average provision in § 26.14(k) of the regulations (7 CFR 26.14 (k)).

One commentor suggested that this section include a definition for "numerical average" in addition to a definition for "weighted average." Present inspection procedures require the use of weighted averages but does not require numerical averages. It has been concluded that a definition for "numerical average" would serve no useful purpose, and that the section should be amended as proposed.

2. *Mechanical sampler inspection.* Section 26.6 of the regulations (7 CFR 26.6) would be amended by authorizing an additional and needed service, the inspection of mechanical grain samplers. Pursuant to § 26.28 (7 CFR 26.28), the service would be conducted by official inspection personnel employed by an official inspection agency.

One commentor supported the proposal and no commentors opposed the amendment. It is concluded that this section should be amended as proposed. However, a change has been made in paragraph (1)(1) of this section to correct a reference.

3. *Conditions for inspection.* Section 26.9 of the regulations (7 CFR 26.9) would be amended by adding a paragraph stating the conditions to which the applicant consents in submitting a request for an official inspection service. The conditions which are listed in the proposed new paragraph are considered essential to effectuate the purposes of the Act.

One commentor opposed the proposed conditions to which an applicant consents in requesting inspection service. It has been concluded that each of the items is essential to effectuate the purposes or provisions of the Act; that an applicant for inspection should consent to the conditions stated in this section as a requisite to satisfactory inspection conditions and that this section should be amended as proposed.

4. *Grounds for dismissing requests.* Section 26.10 of the regulations (7 CFR 26.10) would be amended by deleting the reference to §§ 26.27, 26.30, 26.37, and 26.47, and by including, as a note, a reference to § 26.11 of the regulations and § 10 of the Act. This would simplify and clarify the wording as § 26.10 is intended to cover the dismissal of inspection requests.

One commentor opposed the reference in this section that relates to other sections of the regulations and the Act. The amendment to this section, as proposed, will replace the present five references to other sections of the regulations and one section of the Act with one parenthetical reference to a section in the regulations and a section in the Act. This would simplify and clarify the wording of § 26.10. It is concluded that this section should be amended as proposed.

5. *Health and safety, and timely notice.* Section 26.11 of the regulations (7 CFR 26.11) would be amended by providing in subsection (a)(2) examples showing when grain shall be deemed to be not "accessible for inspection" as a result of conditions which are unduly hazardous to the health or safety of official inspection personnel. The only examples shown at present are for conditions that do not permit an adequate and correct sampling, examination, or other determination. Section 26.11 would also be amended by providing in subsection (b) an interpretation for the term "timely arrangements" for an appeal inspection on export grain. The interpretation would set forth the minimum time period for requesting overtime service. A minimum time period is needed to plan and schedule staffing needs.

Seven commentors opposed the reference to OSHA standards in the regulations, and one of the seven commentors recommended a cooperative effort between USDA, the grain industry, and official inspection agencies to develop safety standards for all inspection personnel. Two commentors suggested that timely arrangements for appeal inspection be defined as 1600 hours of the preceding workday instead of 1400 hours, but did not furnish a reason for the suggestion. It is concluded that inasmuch as grain industry firms, official inspection agencies, and official inspection personnel are already subject to the OSHA regulations, reference to the OSHA regulations should not be included in the amendment to this section, but such safety standards will be prescribed in instructions by the Administrator. It is further concluded that because no reason was shown for changing the definition of "timely arrangements" to 1600 hours of the preceding workday, the section should be amended to include the definition for "timely arrangements" as proposed.

6. *Issuance of one certificate for more than one lot.* Section 26.13 of the regulations (7 CFR 26.13) would be amended by authorizing the issuance of one certificate for more than one lot when such a certificate would meet the needs of the applicant. At present, except in the case of combined lot inspections (see § 26.15), official inspection personnel are required to issue one certificate per lot. The issuing of one certificate for more than one lot would reduce the number of certificates issued and the related clerical work.

Three commentors supported the amendment of this section. However, two of the three commentors requested that the word "barges" in this section be defined to include barges specifically designed for loading aboard oceangoing vessels. It is concluded that inclusion of such barges is in accordance with the intent of this section and that the section should be amended to specifically include such barges.

7. *Inspection of cargo grain.* Section 26.14 of the regulations (7 CFR 26.14) would be amended to:

Replace the term "grade" with the more inclusive term "quality";

Remove the limit on the quantity of better quality grain that can be in a lot; and

Define new terms and explain how they are used in the inspection of cargo grain.

NOTE: The Department plans to later propose, in the regulations, an additional inspection plan for the inspection of grain in ships for shipments where divided-original inspection certificates are not needed. The additional plan will involve wider constraints on variations in quality and will promote more efficient handling of bulk export grain.

One commentor opposed the definitions of terms in this section related to the so called "Plan A" rules (Uniform Shiploading Plan) because the statistical limits in the plan would be burdensome to exporters. The Uniform Shiploading Plan presently in use was developed in consultation with the grain industry utilizing statistical principles. One commentor objects to changing the phrase "after consultation with the grain trade" to "with the users of the service." It has been determined that the phrase "with users of the service" is a more inclusive phrase because not all applicants for inspection service under the Act and regulations are members of the grain industry. It is concluded that the section should be amended as proposed.

8. *Combined lots.* Section 26.15 of the regulations (7 CFR 26.15) would be amended to:

Authorize the inspection of grain in combined lots either during loading, unloading, or while the grain is at rest in the containers. (Presently, only the inspection of grain in combined lots during loading is authorized.);

Authorize the use of new procedures for the inspection of grain in combined lots and authorize the issuance of divided-original certificates for combined shiplots. (The present procedure does not authorize the issuance of divided-original certificates for combined shiplots.); and

Define new terms and explain how they are used in the inspection of grain in combined lots.

NOTE: The Department plans to later propose, in the regulations, an additional inspection plan for the inspection of grain in combined lots. The plan will involve wider constraints on variations in quality and will promote more efficient handling of bulk grain.

Forty-five commentors supported the amendment of this section as an equitable means of merchandising grain under conditions comparable to the provisions presently allowed in export. Two commentors opposed the amendment of this section for weighted averages of grades in domestic shipments. Two commentors requested the term "barges" be amended to include "barges specifically designed for loading aboard oceangoing vessels." One commentor opposed replacing the phrase "after consultation with the grain trade" to "with the users of the service." It is concluded that the section should be revised to include barges specifically designed for loading aboard oceangoing vessels, that no change should be made with respect to the phrase "with the users of the service" for the reasons given in number 7 above, and that otherwise § 26.15 should be amended as proposed.

9. *Succeeding original inspections.* Section 26.30 of the regulations (7 CFR 26.30) would be amended by deleting the reference to submitted samples in paragraph (a). Succeeding original inspections are not available on submitted samples. The end of paragraph (c) would be amended to delete the words "and will better fit the needs of the applicant." The wording is considered confusing and unneeded.

No commentors opposed the amendment. It is concluded that § 26.30 should be amended as proposed.

10. *Divided-original certificates.* Section 26.61 of the regulations (7 CFR 26.61) would be amended to provide for divided-original certificates on a combined export shiplot, and to authorize the showing, at the request of the applicant, of merchandising information such as loading order numbers on divided-original inspection certificates for export cargo grain. The showing of the information would facilitate the handling and matching of the certificates with related merchandising and transportation documents on export cargo grain.

No commentors opposed the amendment. It is concluded that § 26.61 should be amended as proposed.

11. *Duties of official inspection personnel.* Section 26.85 of the regulations (7 CFR 26.85) would be amended to provide that official inspection services shall be performed in accordance with approved safety procedures and using approved safety equipment. Safety is a basic duty in inspection work. The change would require official inspection personnel to operate in a safe manner and use approved safety equipment.

Seven commentors opposed the reference to OSHA standards in the regulations, and one of the seven commentors recommended a cooperative effort between the Government and grain industry to develop correct safety and training procedures. It is concluded that the section should not be amended to include a reference to OSHA standards, but that the section should be amended to give the Department authority to prescribe approved safety procedures and safety equipment.

12. *Conflicts of interest.* Section 26.87 of the regulations (7 CFR 26.87) would be amended by listing certain conflicts of interest under "other conflicts." The conflicts are now listed under "interpretations." The amendment would add to the clarity of the wording. The substance of the section would not be changed.

One commentor indicated reservations on the constitutionality of the proposed change in this section. The substance of the text in this section is not changed by the amendment. It is concluded that this section should be amended as proposed.

13. *Application for designation.* Section 26.97 of the regulations (7 CFR 26.97) would be amended to require that applicants for designation to operate as an official inspection agency who are incorporated, furnish a copy of the articles of incorporation and the names of the current corporate officers with the application.

Complete information is deemed necessary for proper evaluation of an applicant for designation as an official inspection agency. No commentors opposed the proposed amendment of this section. It is concluded that this section should be amended as proposed.

14. *Duties of inspection agencies.* Section 26.100 of the regulations (7 CFR 26.100) would be amended to require that official inspection agencies would provide its employees with approved safety equipment and training in the use of such equipment, and upon request, provide information with respect to the ownership and operation of the agencies. Providing safety equipment and providing training in its use are basic duties of employers. The information on ownership and operation is needed and is currently being provided by private agencies to facilitate the handling of applications of designation to operate as an official inspection agency, and the handling of requests for the cancellation, amendment, transfer, or suspension of designations.

Seven commentors opposed the reference to OSHA standards in the regulations. One commentor recommended that the new subsection on reports of ownership not be adopted. It is concluded that the section should not be amended to include a reference to OSHA standards, but that because reports of ownership are needed to effectively supervise official inspection agencies, with respect to conflicts of interest, the section should be amended as proposed to include reports of ownership.

15. *Official inspection agencies.* Section 26.101 of the regulations (7 CFR 26.101) would be amended by adding wording to require that a minimum of 90 days' advanced notice be given by a designated official inspection agency when requesting that its designation be canceled, amended, transferred, or suspended. At present no advanced notice is required. A minimum of 90 days is needed to process such requests.

Section 26.101 would also be amended to authorize the interim designation of an official inspection agency when it is impracticable to publish in the FEDERAL REGISTER the final action on a designation in advance of the effective date. This would promote the orderly continuation of needed inspection services, and would support currently approved practices in the designation of official inspection agencies.

No commentors opposed amendment of this section. It is concluded that this section should be amended as proposed.

16. *Export grain.* Section 26.110 of the regulations (7 CFR 26.110) would be amended to provide that (1) export grain in sacks may be sampled prior to the final elevation. This waiver, authorized under section 5 of the Act, is needed because it is not practicable to sample export sacked grain after final elevation as the grain is loaded abroad or while it is at rest in the final carrier, and (ii) that diverter-type mechanical samplers shall be used in the sampling of export grain, with waiver authority for (1) classes of shipments, such as sacked grain, which are impracticable to sample with such samplers while the grain is being loaded abroad, or while it is in the final carrier; and (2) emergency situations involving mechanical or power failure.

Studies conducted by the Agricultural Research Service of the U.S. Department of Agriculture show that diverter-type mechanical samplers consistently obtain the most representative samples of grain. Further, many export grain elevators have installed diverter-type mechanical samplers for the use of official inspection personnel in the sampling of bulk export grain. The diverter-type samplers have been found to be practical in use, and are available in commercial quantities. It is proposed to make this requirement effective November 1, 1975.

Five commentors opposed the mandatory requirement of mechanical diverter-type samplers for export cargos because of costs or recommended that the effective date be delayed. It is concluded that the section should be amended to require the use of mechanical diverter-type samplers for export cargo grain as proposed because diverter-type mechanical samplers consistently obtain the most representative samples of grain. It is further concluded that the section should provide for an extension of the effective date for installation of such samplers, subject to the elevator showing that diligent effort has been made to meet the deadline.

17. *Official grade designations.* Section 26.114 of the regulations (7 CFR 26.114) would be amended to add the words "U.S." to "No. 1 Hard Winter Wheat," so that the example of the official grade designation would be consistent with the official grain standards of the United States.

One commentor supported the amendment of this section. No commentors opposed the amendment. It is concluded

V40I151 AUG 5 75 XUM

that the section should be amended as proposed.

After consideration of the written comments, views, or arguments filed with respect to the proposal of amendment and other information available, the provisions of the proposed amendments, with changes as indicated, are being implemented as set forth below:

1. A new definition of weighted average is added to § 26.1(b) to read as follows:

§ 26.1 **Meaning of words.**

• • • • •

(b) • • •

(40) *Weighted average.* A lot average determined by multiplying the analytical result for each factor in each sublot by the weight of the sublot, adding the resultant figures for each factor, and dividing by the weight of the lot.

2. The introductory text of § 26.6(a) is revised and a new paragraph (l) added to read as follows:

§ 26.6 **Kinds (scope) of official inspection services.**

(a) *General.* The kinds of official inspection services available under the Act and the basis for performing each service are those shown in paragraphs (b) through (l) of this section.

• • • • •

(l) *Mechanical sampler inspection.*

(1) This inspection shall consist of the following operations by official inspection personnel (other than a licensed employee of a grain elevator or warehouse): (i) A pre-installation examination of the sampling site for the mechanical sampler to determine whether the site and the spout or the belt arrangements are in accordance with the basic requirements for the installation and use of the sampler; (ii) initial and periodic post-installation examination to determine whether the sampler is installed properly; (iii) initial and periodic checktesting to determine whether the sampler obtains representative samples; and (iv) the issuance of an official certificate in accordance with § 26.58 and § 26.59, and paragraph (l)(3) of this section.

NOTE: This service shall be limited to specified models of diverter-type mechanical samplers that have been tested under controlled conditions by the U.S. Department of Agriculture and found to give results within a range of ±10 percent of the known quantity in the checklist material. A list of such samplers may be obtained from official inspection agencies and Field Offices. For a list of such offices, see § 26.9(d).

(2) The inspection shall be made in accordance with the methods and procedures prescribed in the instructions or approved in specific cases by the Administrator. (Instructions and application forms for use in checktesting mechanical samplers may be obtained from any official inspection agency and Field Office. For locations where the instructions and forms may be obtained, see § 26.9(d)).

(3) Each certificate for a mechanical sampler inspection shall show the results of the inspection, in whole or in part. The certificate for the final determination shall show the following or substantially equivalent statements: "Sampler inspected and found to obtain representative samples of (*kinds of grain*)" or "Sampler inspected and found not to obtain representative samples of (*kinds of grain*)."

3. Section 26.9 is amended by revising the heading and by adding a new paragraph (e) to read as follows:

§ 26.9 **Inspection services.**

• • • • •

(e) *Conditions for inspection.* In submitting a request for an official inspection service, the applicant consents to the following items which are considered essential to effectuate the purposes or provisions of the Act: (1) To pay bills for inspection services promptly upon receipt; (2) to provide loading conditions and containers which will not contaminate the grain or otherwise lower the grade, quality, or condition of the grain; (3) to make the grain fully accessible for inspection except as provided in § 26.12 (b); (4) to provide required mechanical sampling equipment as provided in § 26.110(d); (5) to provide adequate and separate space for official inspection personnel for performing the kind of service requested; (6) to make grain fully accessible for supervision inspections at any time during loading or unloading; and (7) to provide needed water transportation for performing off-shore ship hold supervisions and inspections.

4. Section 26.10(c) is revised to read as follows:

§ 26.10 **When a request for inspection services may be withdrawn or dismissed.**

• • • • •

(c) *Grounds for dismissal.* A request for inspection services may be dismissed by the official inspection personnel (1) upon request of the applicant; (2) if the request is for the inspection of grain for which standards have not been established under the Act; (3) if the official inspection agency (or in the case of U.S. grain in Canadian ports and appeal inspections, the field office) otherwise lacks jurisdiction under the Act or the regulations to handle the request; (4) if the request is not in compliance with the regulations; (5) if sufficient evidence is not available upon which to make an accurate and true determination; or (6) if it is clearly not practicable to perform the requested inspection services. (See also § 26.11 of the regulations and section 10 of the Act for conditional withholding and refusal of inspection service.)

• • • • •

5. Sections 26.11(a)(2) and (b) are revised to read as follows:

§ 26.11 **Conditional withholding of inspection service.**

(a) *Mandatory withholding.*

• • • • •

(2) (i) For the purpose of this paragraph, grain shall be deemed to be not "accessible for inspection" if it is offered for sampling or inspection under conditions which (*a*) are unduly hazardous to the health or safety of official inspection personnel or (*b*) do not permit an adequate and correct sampling, examination, or other determination for the requested inspection service.

(ii) Conditions which are considered unduly hazardous to the health and safety of official inspection personnel as prescribed in the instructions by the Administrator include, but are not limited to (*a*) conditions at the sampling or inspection site, or the ingress or egress routes to the sampling or inspection site; (*b*) forcible assaults, intimidations, or interferences, at the sampling or inspection site; and (*c*) storage, stowage, and similar spaces which have been fumigated or have toxic fumes, or in which the oxygen has been depleted unless the spaces have been found "safe" in accordance with the instructions.

(iii) Conditions which do not permit an adequate and correct sampling, examination, or other determination for the requested inspection service include, but are not limited to, grain in barges or other carriers that are closed at the time the grain is offered for inspection and the carriers cannot be readily opened by official inspection personnel.

(b) *Permissive withholding.* At the discretion of the official inspection personnel, an official inspection may be conditionally withheld if the applicant has failed to pay bills for prior inspection services; or the grain is offered for inspection outside of the customary workday, unless timely arrangements for overtime inspection have been made by the applicant with the official inspection personnel. In the case of appeal inspections on export cargo grain, the "customary workday" shall be deemed to mean 0800 to 1630 hours local time, Monday through Friday, except national holidays; and "timely arrangements" shall be deemed to mean arrangements made not later than 1400 hours of the preceding workday. (For definition of "holiday," see § 26.72(a), footnote 4.)

• • • • •

6. Section 26.13 is amended as follows:

§ 26.13 **Inspection of grain in containers other than ships.**

(a) *General.* The inspection of bulk or sacked grain loaded aboard, or being loaded aboard, or discharged from railway cars, trucks, trailers, river barges (including barges specifically designed for loading aboard oceangoing ships), bay boats, bins, warehouse lots, or containers other than ships shall be conducted in accordance with the provisions in this section, and such methods and procedures as may be prescribed in the instructions or approved in specific cases by the Administrator.

• • • • •

(c) *One certificate per lot.* One official inspection certificate shall be issued for each lot: *Provided,* That the requirements of this paragraph shall not be applicable to § 26.15, or paragraph (b) of this section, or instances when the issuance of one certificate for more than one container is requested by the applicant for inspection. If the grain is not uniform in condition, the certificate shall show the approximate quantity in each portion, the location of each portion in the container, and the grade of the grain in each portion, in accordance with procedures prescribed in the instructions or approved in specific cases by the Administrator.

• • • • •

7. Section 26.14 (b), (c), (d), and (e) are amended as follows and (f) is deleted:

§ 26.14 **Inspection of grain in ships.**

• • • • •

(b) *Definitions.* For purposes of this section the term "ship" means all oceangoing ships, barges, and tankers; lake vessels, and ships of similar or larger capacity.

(1) The term "reasonably continuous operation" shall be construed to include inactive intervals of not more than 88 consecutive hours; *Provided,* That the ship does not leave the designated inspection point or port in which the inspection is being performed. Upon request of the applicant, the statement "Loaded under continuous official inspection" may be shown on the official inspection certificate when the conditions of this section are met.

(2) The term "material portion" means a portion which is considered significant under a sampling plan prescribed in the instructions on the basis of approved statistical principles after consultation with the users of the service: *Provided,* That if the applicant has been informed by official inspection personnel or otherwise knows the quality of the grain prior to loading the grain on a ship, any portion of "off-grade" grain which is of an inferior grade in comparison with the load order grade shall be deemed to be a material portion.

(3) The term "load order grade" means the official grade, official factors, and other criteria specified by the applicant for inspection.

(4) The term "uniform in quality" means that all portions in the lot conform to the load order grade and that no material portion in the lot is of a grade, or equivalent of a grade inferior to the load order grade.

(5) The determination of "equivalent of a grade" shall be based on special grades, dockage, factors, and other criteria, and shall be prescribed in the instructions or otherwise approved by the Administrator.

(c) *Grain uniform in quality.* The grain in each lot offered for inspection shall be examined thoroughly for uniformity of quality. If the grain is found to be uniform in quality and is loaded aboard or discharged from the ship in a reasonably continuous operation, the grain shall be sampled, inspected, graded, and certificated as one lot. (The requirements of this paragraph and paragraph (d) of this section with respect to reasonably continuous loading or discharge shall not apply to grain which is at rest in a ship when the grain is offered for an inspection.)

(d) *Grain not uniform in quality.* If the grain in a lot is found to be not uniform in quality or if the grain is not loaded aboard or discharged from the ship in a reasonably continuous operation, the grain in each portion, and the grain which is loaded aboard or discharged from the ship at different times shall be sampled, inspected, graded, and certificated as a separate lot.

(e) *Certification of grain not uniform in quality.* If the grain in a lot is found to be not uniform in quality under paragraph (d) of this section, the cargo inspection certificate for each lot shall show (1) the grade of the lot; (2) a statement that the grain has been loaded on board with other grain; (3) the grade, location, and approximate quantity of the other grain; and (4) such other information as may be required by the regulations and the instructions or approved in specific cases by the Administrator. (The requirements of subparagraph (2) of this paragraph shall not apply to grain which is inspected as it is being discharged from a ship.)

(f) [Deleted]

• • • • •

8. Section 26.15 is revised as follows:

§ 26.15 **Inspection and certification of grain in combined lots.**

(a) *General.* The inspection of grain being loaded into or discharged from, or at rest in, two or more railway cars, trucks, barges (including barges specifically designed for loading aboard oceangoing ships), and the grain in two or more identified lots loaded into or discharged from a ship shall be in accordance with the provisions of this section and such methods and instructions as may be prescribed in the instructions or otherwise approved by the Administrator.

(b) *Definitions.* For purposes of this section, the following terms shall have the meanings given below:

(1) The term "uniform in quality" shall mean that the weighted average of the grain in the combined lot is not inferior to the load order grade, and that no material portion in the lot is of a grade or equivalent of a grade inferior to the load order grade.

(2) The term "equivalent of a grade" shall be based on special grades, dockage, factors, and other criteria, and shall be prescribed in the instructions or otherwise approved by the Administrator.

(3) The term "load order grade" means the official grade, official factors, and other criteria specified by the applicant for inspection.

(4) The term "material portion" shall mean a portion which is considered significant under a sampling plan prescribed in the instructions on the basis of approved statistical principles after consultation with the users of the service: *Provided,* That if the applicant has been informed by official inspection personnel or otherwise knows the quality of the grain prior to loading the grain on a ship, any portion of "off-grade" grain which is of an inferior grade in comparison with the load order grade shall be deemed to be a material portion.

(c) *Inspection during loading, unloading, or while at rest.* Upon request by an applicant, the grain being loaded into or discharged from, or at rest in, two or more railway cars, trucks, or barges, and the grain in two or more identified lots being loaded into or discharged from a ship may be sampled, inspected, and certificated as a combined lot if:

(1) In the case of grain which is being loaded or discharged, the request is filed in advance of the loading or discharge of any of the grain;

(2) The request shows the quantity of grain which is to be certificated as a combined lot;

(3) Each car, truck, barge, or shiplot is specifically identified in the request;

(4) The grain loaded into or discharged from, or at rest in, each car, truck, or barge, or the grain in each shiplot is accessible for sampling and is sampled in one designated inspection area within 88 consecutive hours.

(5) A representative sample or samples are obtained from the grain in each car, truck, or barge, or the grain in each shiplot;

(6) The grain loaded into or discharged from or at rest in each car, truck, or barge, or the grain in each shiplot is inspected and graded in accordance with the provisions of this section and such methods and procedures as may be prescribed in the instructions or otherwise approved by the Administrator; and

(7) The grain in the combined lots is found to be uniform in quality.

(d) *Inspection after certification.* Upon request by an applicant, the grain in two or more cars, trucks, barges, or the grain in two or more shiplots which has been sampled, inspected, and certificated as separate lots may be certificated as a combined lot if:

(1) The request is filed within a reasonable time, not to exceed 2 business days after the date of the latest inspection;

(2) The grain in each container was accessible for sampling and was sampled in one designated inspection area, within an 88-hour period;

(3) The grain in the combined lots was found to be uniform in quality.

(4) The originals of the official certificates issued for the component lots are surrendered to the official inspection agency or the field office except as provided for in paragraph (f)(vi) of this section;

(5) Representative file samples of the grain are available; and

V 40 151 A

75
XUM

(6) The official inspection personnel who issued the certificates for the component lots and the official inspection personnel who will issue the combined lot certificate believe that the samples which were used as the basis for the component inspections were representative of the grain at the time of the inspections, and that the quality or condition of the grain in the samples, and the quality or condition of the grain in the combined lot has not changed since the time of the component inspections.

(e) *Certification.* Each such certificate shall show the statement "Combined Lot Inspection," and the identification of each car, truck, barge, and each shiplot. The statement shall be shown below the grade line of the certificates as prescribed in the instructions. The inspection results shown on the certificate shall be the weighted average results of the analyses of the samples from the component lots: *Provided,* That if the grain in each lot in a combined lot is found to be uniform for any grade and the weighted averages show a different grade, the grade found for the combined lots shall prevail. Upon request, information as to specified factors for each combined lot shall be shown on the combined lot inspection certificate.

(f) *Grain not uniform in quality.* If the grain in the combined lot is found to be not uniform in quality, the grain in each portion shall be sampled, inspected, graded, and certificated as a separate lot.

(2) *Grain uniform in quality.* If the grain in the combined lot is found to be uniform in quality, an official certificate shall be issued.

(f) *Combined lot superseding certificate requirements.* (1) If the request for a combined lot inspection was filed after the grain in the component lots was inspected and certificated, the combined lot inspection certificate shall also show: (i) The date the component lots were inspected as the date of inspection of the grain in the combined lot. However, if the lots were inspected on different dates, the latest of the dates shall be shown; (ii) a new serial number, other than the serial numbers of the certificates which are to be superseded; (iii) a statement showing the name(s) of the elevator(s) or warehouse(s) from which the grain in the combined lot was loaded; (iv) a statement showing the approximate quantity of grain in the combined lot; (v) a statement showing the identification of any superseded certificates as follows: "This Combined Lot certificate supersedes certificates Nos. ---- dated ----------." (The numbers shown in the statement shall in all cases include the lettered prefix.); and (vi) if the superseded certificates are in the custody of the Grain Division or an official inspection agency, the superseded certificates shall be marked "Void" in a clear and conspicuous manner. If, at the time of issuing the combined lot inspection certificate, the superseded certificates are not in the custody of the Grain Division, or an official inspection agency, the statement "The superseded certificates identified herein have not been surrendered" shall be clearly shown, in the space provided for remarks, on the combined lot inspection certificate beneath the statement identifying the superseded certificates. Official inspection personnel shall exericse such other precautions as may be found necessary to prevent the fraudulent or unauthorized use of the superseded certificates.

(g) *Quantity.* No combined lot inspection certificate shall be issued which shows a quantity of grain in excess of the quantity shown on the superseded certificates.

(h) *Further combining.* After a combined lot certificate has been issued in accordance with this section, there shall be no dividing or further combining of the certificate at a later date, except as provided in § 26.61.

(i) *Limitation.* No combined lot inspection certificate shall be issued for any inspection other than as described in this section.

(j) *Reinspection and appeal inspection on combined or off-grade lots.* A reinspection or an appeal inspection may be obtained on a combined lot or on each "off-grade" lot in accordance with the regulations.

9. Section 26.30 (a) and (c) are revised as follows:

**§ 26.30 Succeeding original inspections.**

(a) *General provisions.* In cases where an original inspection has been obtained in any designated inspection area on a specific lot, and a later or more current inspection of the same kind (scope) is desired in the same area on the same lot, one or more succeeding inspections may be obtained in accordance with paragraphs (b) through (i) of this section.

* * * * *

(c) *Grounds for dismissal.* A request for a succeeding original inspection may be withdrawn or dismissed in accordance with the provisions of §§ 26.10 and 26.27, or shall be dismissed when a reinspection or an appeal inspection can be obtained from the preceding original inspection.

* * * * *

10. Section 26.61 (a) and (f) are amended as follows:

**§ 26.61 Divided-original inspection certificates.**

(a) *General requirements.* If an export cargo shipment is certificated as a combined lot, or is offered for inspection as one lot, and is found to be uniform in quality and is certificated as one lot, the applicant may exchange the original certificate for two or more divided-original certificates subject to the requirements in paragraphs (b) through (g) in this section.

* * * * *

(f) *Certification requirements and options.* The same information and statements shall be shown on the divided-original certificates as shown, or required to be shown, on the original certificate except (1) the original and all copies shall show, in the space provided for remarks, the completed statement: "This grain is part of an undivided lot of ------ (bushels) (pounds)."; (2) the original shall show the term Divided-Original instead of Original and the copies shall show the term Divided-Original (Copy) instead of the word Copy; (3) the serial number shown on the divided-original certificates shall be the same as the serial number shown on the original certificates except the serial number of the divided-original certificates shall include a serially numbered suffix; (4) the quantity of grain shown on the divided-original certificates shall be in accordance with the request for the certificates: *Provided,* That no divided-original certificates shall be issued which show, individually or in the aggregate, a quantity of grain in excess of the quantity shown on the original certificate. At the written request of the applicant, loading order numbers, purchase authorization numbers, reference numbers, contract numbers, letter of credit identifications, or other identifications may be shown on divided-original certificates: *Provided,* That the same identifications are shown on the original certificate.

* * * * *

11. Section 26.85(b) is revised as follows:

**§ 26.85 Duties of official inspection personnel.**

* * * * *

(b) *Inspection services.* Official inspection personnel shall perform requested inspection services (1) without discrimination, except as authorized in § 26.12; (2) as soon as practicable, except as authorized in §§ 26.10 and 26.11; (3) upon reasonable terms; and (4) by using approved safety procedures and safety equipment prescribed in the instructions by the Administrator.

12. Section 26.87 (b), (c), (d), and (e) are revised as follows:

**§ 26.87 Conflicts of interest.**

* * * * *

(b) *Other conflicts.* The kinds of activities specified in paragraphs (b) (1) through (5) of this section shall also be deemed to involve a conflict of interest if engaged in by official inspection personnel. No official inspection personnel shall:

(1) (i) Hold any appointive or elective office or position in any national, regional, State, or local grain industry group, organization, or association: *Provided,* That a grain inspection group, organization, or association shall not be deemed to be a grain industry group, organization, or association; or (ii) be employed by or otherwise work for any association, corporation, or other business entity owned or composed, in whole or in part, by persons who are financially interested in a grain elevator or warehouse or who are engaged in the merchandising of grain: *Provided,* That this restriction will not apply if neither such business entity, nor any of its officers or members, give any technical advice or technical direction to the official inspection personnel, or otherwise exercise any control, direct or indirect, over any of the technical aspects of the official inspection functions: *Provided, further,* That the physical presence of any officer or member of such a business entity in the inspection or testing quarters assigned to the official inspection personnel may, in the absence of a specific invitation by the personnel, be deemed to be a control, direct or indirect, over the technical aspects of the official inspection functions performed by such personnel.

(2) Be engaged in buying, selling, transporting, cleaning, elevating, storing, binning, mixing, blending, drying, treating, fumigating, or other preparation of grain (other than as a grower of grain, or the disposition of inspection samples); or in the business of cleaning, treating, or fitting of carriers or containers for transporting or storing grain; the merchandising for non-farm use of equipment for cleaning, drying, treating, fumigating, or otherwise processing, handling, or storing grain; or the merchandising of grain inspection equipment (other than buying or selling by official inspection personnel of such equipment for use in performance of their official inspection functions): *Provided,* That licensed employees of grain elevators or warehouses may obtain warehouseman's samples, as provided in § 26.6(d).

(3) Accept any fee or charge in excess of the published fee or charge or any favor, gift, loan, unusual discount, service, entertainment, or other thing of monetary value under circumstances in which such acceptance could result, or create the appearance of resulting in (i) the use of their office for undue private gain; (ii) an undertaking to give undue preferential treatment to any person; or (iii) any other loss of complete independence or impartiality in performance of official inspection functions.

(4) Participate (directly or otherwise) in any transaction concerning the purchase or sale of corporate stocks or bonds, commodities, or other property for speculative purposes if such action might tend to interfere with the proper and impartial performance of his duties or bring discredit upon the Department of Agriculture. Licensees and employees are not prohibited by this paragraph from making bona fide investments.

(5) Coerce or give the appearance of coercing any person to provide special or undue benefits to themselves as licensees or authorized employees.

(c) *Reports of interests.* Official inspection personnel shall report such information regarding their employment or other business interests as may be required at any time by the Administrator. (The filing of such reports, or the filing of an application for a license as provided in § 26.77, does not permit a licensee or authorized employee to have a conflict of interest prohibited by the Act or the regulations.)

(d) *Avoiding conflicts of interest.* Each licensee and each authorized employee shall at all times avoid acquiring any financial interest or engaging in any activity that would result in a violation of this section or § 26.86 or other violation of section 11 of the Act and shall not permit his spouse, minor children, or any blood relative who resides in his immediate household to acquire any such interest or engage in any such activity. For the purpose of this section, the interest of a spouse, minor child, or blood relative who is a resident of a licensee's or an authorized employee's immediate household shall be considered to be an interest of the licensee or employee.

(e) *Disposition of conflicting interests.* (1) Upon being advised that certain employment or other interest is in conflict with his official duties and that remedial action is required, the applicant, licensee, or authorized employee shall take immediate action to end the conflict of interest and advise the responsible officials of action taken in this respect.

(2) An applicant, licensee, or authorized employee who believes that remedial action will cause undue hardship may request a review and modification by forwarding to the Administrator either directly or through the field office, a written statement setting forth all the facts and circumstances with the reasons for the request or modification.

(3) If a final determination is made that a conflict of interest does, in fact, exist, failure to take immediate action to end the conflict of interest shall subject an applicant to the dismissal of his application; a licensee to administrative action against his license and criminal prosecution; and an authorized employee to disciplinary action and criminal prosecution.

* * * * *

13. Section 26.97(a) (16) is amended as follows:

**§ 26.97 Application for designation.**

(a) * * *

(16) The articles of incorporation if the applicant is incorporated and the names of current corporate officers.

* * * * *

14. Section 26.100(d) is revised and (j) is added as follows:

**§ 26.100 Duties of official inspection agencies.**

* * * * *

(d) *Training and supplies.* (1) Each official inspection agency shall provide its employees with training in: (i) Performing official inspection functions for which its employees are or have requested to be licensed; and (ii) the use of approved safety procedures and safety equipment prescribed in the instructions by the Administrator.

(2) Each official inspection agency shall supply its licensed personnel with (i) approved safety equipment; (ii) safety instructions prescribed by the Administrator; (iii) the official grain standards; (iv) an adequate supply of forms approved by the Administrator; and (v) other materials necessary for the conduct of official inspection functions.

* * * * *

(j) *Reports of ownership.* Each official inspection agency shall report such information regarding its ownership and operation as may be required by the Administrator.

15. Section 26.101 is amended by revising heading and paragraphs (a) and (c) as follows:

**§ 26.101 Cancellation, amendment, transfer, suspension, and revocation of designation.**

(a) *Voluntary cancellation, amendment, transfer, or suspension.* Upon request by an official inspection agency, and a showing of good cause, a designation to operate as an official inspection agency may be canceled, amended, transferred to another agency or person, or suspended for a definite or indefinite period of time in accordance with the following procedure:

(1) The request for the proposed cancellation, amendment, transfer, or suspension shall be made by the agency at least 90 days in advance of the proposed effective date of the action, and good cause shall be shown to support the request.

(2) The proposed action shall be published in the FEDERAL REGISTER and interested persons shall be given opportunity to present their views. Reasonable notice of the final action shall, insofar as practicable, be published in advance of the effective date: *Provided,* That if there is insufficient time to publish the final action in the FEDERAL REGISTER in advance of the effective date, and an interim designation for an official inspection agency appears warranted, such designation may be made by the Administrator in accordance with the provisions of paragraph (c) of this section.

(3) In the case of a transfer, the transferee must qualify under the requirements in § 26.96.

* * * * *

(c) *Replacement agency.* (1) If a designation for an official inspection agency is canceled, suspended, or revoked, and a replacement agency is deemed warranted, arrangements for a replacement agency shall be made by the Administrator after consultation with interested State departments of agriculture, official inspection agencies, users of the inspection service, and other interested persons, and insofar as practicable, in advance of the cancellation, suspension, or revocation. The need for a replacement agency shall be published in the FEDERAL REGISTER and interested persons shall be given opportunity to present their views. Reasonable notice of the final action shall be published in the FEDERAL REGISTER in advance of the effective date.

(2) If time or other circumstances action or the final action in a timely manner, and an interim designation for an official inspection agency is deemed warranted by the Administrator, notice of the interim designation shall be published in the FEDERAL REGISTER together with the effective period of the interim designation. Interested persons may sub-

mit comments on the interim designation.

16. Section 26.110(d) (1) and (3) are revised to read as follows:

§ 26.110 Mandatory inspection—export grain.

* * * * *

(d) *Sampling requirements.* (1) The inspection for official grade and official factor information must be based on official samples obtained from the grain as it is being loaded aboard, or while it is in the final carrier in which it is to be transported from the United States: *Provided*, That the inspection of sacked grain may be based on an initial inspection as the grain is being sacked and a final inspection as the sacks of grain are being loaded aboard the final carrier in which they are to be transported from the United States, in accordance with instructions issued by the Administrator.

* * * * *

(3) If the grain is sampled as it is being loaded aboard the carrier, the samples must be obtained after the final vertical elevation, at such place or places and in such manner as will obtain the most representative sample and otherwise in accordance with the instructions; *Provided*, That after November 1, 1975, all bulk export cargo grain shall be sampled by means of approved diverter-type mechanical samples: *Provided further*, That the Administrator may (i) extend the time to May 1, 1976, in specific cases for an export elevator to complete installation of diverter-type mechanical samplers if the elevator can show that diligent effort has been made to meet the November 1, 1975, deadline; (ii) waive such requirements for (*a*) classes of shipments of sacked grain, which are impracticable to sample with such samplers while the grain is being loaded aboard, or while it is in the final carrier, and (*b*) emergency situations involving mechanical or power failure.

* * * * *

17. Section 26.114(a) is revised as follows:

§ 26.114 Use of official grade designations, official inspection marks and other descriptions of or representations concerning grain.

(a) *Grade designations and marks.* Paragraph (a) (5) of section 13 of the Act prohibits any person from knowingly using any official grade designation or official inspection mark on any container of grain by means of a tag, label, or otherwise, unless the gain in such container was officially inspected on the basis of an official sample taken while the grain was being loaded into or was in such container and the grain was found to qualify for such designation or marks. The official grade designations are those specified in the official grain standards for the various grades of grain: e.g., U.S. No. 1 Hard Winter Wheat. The official inspection mark is the statement "Loaded Under Continuous Official Inspection," authorized for use in accordance with § 26.14(1).

Title 11—Federal Elections

CHAPTER I—FEDERAL ELECTION COMMISSION

[Notice 1975-20]

## INTERIM GUIDELINE

### Reporting of Debts and Obligations [1]

NOTE: To assure orderly development of the Code of Federal Regulations, it has been determined that the chapter assigned to the Federal Election Commission be redesignated from 11 CFR Chapter II to 11 CFR Chapter I. All interim guidelines published since the establishment of 11 CFR Chapter II on June 2, 1975 (40 FR 23832) are hereby redesignated as issuances under 11 CFR Chapter I.

1. OBLIGATION TO CONTINUOUSLY REPORT DEBTS AND OBLIGATIONS

a. All debts and obligations outstanding on June 30, 1975, and incurred by a candidate or political committee with respect to any election, shall be reported on Comp. Gen. Election Form 3, Senate Election Form 3, or H.R. Election Form 3 (available from the Commission), in accordance with the reporting schedule prescribed by 2 U.S.C. 434(a), until the debt or obligation is extinguished.

b. For purposes of this guideline an amount owed pursuant to a customary credit arrangement does not become a debt or obligation unless it remains unpaid for a period in excess of 45 days from the date a bill, statement or invoice is rendered (or other demand for payment is made) by the vendor; or, if earlier, 45 days from the date such bill would have ordinarily been rendered in the usual course of the vendor's business.

2. SPECIAL REPORT FOR CANDIDATE DEBTS OUTSTANDING ON JUNE 30, 1975

Any debts or obligations outstanding on June 30, 1975, which were not reported by a candidate, former candidate, or political committee in a report filed on or about July 10, 1975, shall be specially reported to the Commission by the candidate or former candidate by August 25, 1975, and thereafter in accordance with paragraph 1, above.

3. SEPARATE REPORTING FOR RETIRING PRE-1975 DEBTS

Contributions received and expenditures made solely for the purpose of retiring debts and obligations outstanding on June 30, 1975, and incurred in connection with an election held before January 1, 1975, shall be reported separately from contributions received and expenditures made with respect to an election occurring after January 1, 1975.

4. RESTRICTIONS ON CONTRIBUTIONS TO RETIRE PRE-1975 CAMPAIGN DEBTS

a. Hereafter, contributions made for the purpose of retiring a debt incurred in connection with an election held before January 1, 1975, and aggregating over $100 for calendar year 1975 from any person, may be received by a candidate, former candidate, or political committee only if the person making the contribution contemporaneously provides to the recipient a written statement restricting the use of such contribution to the retirement of debts or obligations incurred in connection with an election held before January 1, 1975.

b. Written and oral solicitations for contributions described in paragraph a shall clearly disclose (i) the purpose for which the contributions are to be used, and (ii) the requirement that persons making contributions aggregating over $100 in calendar year 1975, transmit to the recipient a written statement restricting the use of their contribution to the retirement of debts incurred in connection with an election held before January 1, 1975.

Dated: July 31, 1975.

THOMAS B. CURTIS,

## FEDERAL ELECTION COMMISSION

[11 CFR Part 113]

[Notice 1975-18]

## OFFICE ACCOUNTS AND FRANKING ACCOUNTS; EXCESS CAMPAIGN CONTRIBUTIONS

### Notice of Proposed Rulemaking

The Federal Election Commission today published a proposed regulation concerning the treatment of office accounts and franking accounts of members of Congress and the treatment of excess campaign funds. Generally, contributions to and expenditures from office accounts are treated as political and therefore are included in the determination of campaign limitations. Funds appropriated for legislative activities are not included in contribution and expenditure totals. Funds contributed and expended for the preparation and printing of matter sent under the frank are not included in contribution and expenditure totals.

Excess campaign funds are treated as follows: funds expended by December 31 of the election year are treated as expenditures for the last election of that year; funds expended after December 31 are treated as expenditures for the next election.

AUTHORITY: This regulation is proposed under authority of 2 U.S.C. 437d(a)(8), 437d(a)(9) and 439a.

*Comment Period.* Interested persons are invited to submit written comments on this proposed regulation to the Federal Election Commission, Office of General Counsel, Rulemaking Section, 1325 K Street, NW., Washington, D.C. 20463. Comments should be received on or before September 4, 1975.

*Effective Date.* This regulation shall become effective on a date specified in a future notice published in the FEDERAL REGISTER, which effective date shall not be less than 30 calendar days after the date of this Notice of Proposed Rulemaking.

It is proposed that 11 CFR Part 113 be promulgated as follows:

## PART 113—OFFICE ACCOUNTS AND FRANKING ACCOUNTS; EXCESS CAMPAIGN CONTRIBUTIONS

Sec.

113.1 Definitions.
113.2 Contribution and Expenditure Limitations and Prohibitions.
113.3 Deposits of Funds into Office and Franking Accounts.
113.4 Reports of Franking Accounts.
113.5 Reports of Office Accounts.
113.6 Excess Campaign Funds.

Authority: 2 U.S.C. 437d(a)(8), 437d(a)(9) and 439a.

### § 113.1 Definitions.

(a) *Commission.* "Commission" means the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463, (202) 382-5162.

(b) *Excess campaign funds.* "Excess campaign funds" means the surplus of campaign receipts, including all contributions, sales and income, over campaign expenditures.

(c) *Franking account.* "Franking account" means an account which is used exclusively for the purpose of receiving and expending funds pursuant to 39 U.S.C. 3210. Such funds may not be transferred to any other account or political committee.

(d) *Office account.* "Office account" means an account other than a franking account which is used for the purpose of supporting the activities of a federal officeholder.

(e) *Principal campaign committee.* "Principal campaign committee" means the political committee designated by a candidate as his or her principal campaign committee pursuant to 2 U.S.C. 432(f)(1).

(f) *Legislative activities.* "Legislative activities" means those activities which are paid for solely out of appropriations approved by either or both houses of Congress, for use by members and members-elect of Congress. Such appropriations include but are not limited to those for salaries, constituent services, stationery, travel and general office expenses.

### § 113.2 Contribution and expenditure limitations and prohibitions.

(a) All funds including but not limited to gifts, loans, advances, credits or deposits of money or any other thing of value which are received or expended by an incumbent or elected holder of a federal office for the purpose of supporting his or her activities as a holder of such office shall be considered contributions or expenditures subject to the limitations of 18 U.S.C. 608, 610, 611, 613, 614 and 615.

(b) Notwithstanding subsection (a) of this section the limitations of 18 U.S.C. 608 do not apply (1) when a contributor states in writing that the contribution is to be used exclusively for expenditures made pursuant to 39 U.S.C. 3210, provided that such contributions shall be deposited in a franking account, or (2) when expenditures are made from funds provided for legislative activities.

### § 113.3 Deposits of Funds into Office and Franking Accounts.

Except for funds appropriated for legislative activities, all funds received by or on behalf of a federal officeholder for the purpose of supporting his or her activities as a holder of such office shall be deposited into one of the following accounts:

(a) An account of the officeholder's principal campaign committee, pursuant to 2 U.S.C. 437b, or

(b) A franking account, or

(c) An office account, pursuant to 2 U.S.C. 437b.

### § 113.4 Reports of Franking Accounts.

(a) All individuals having franking accounts shall file reports with the Commission on April 10 and October 10 of each year.

(b) The April 10 report shall include all receipts and expenditures made from October 1 of the prior year to March 31 of each year. The October 10 report shall include all receipts and expenditures made from April 1 to September 30 of each year. These reporting obligations shall be effective prospectively on the effective date of this regulation (designated Part 113).

(c) Such reports shall include the name, address, occupation and principal place of business of all persons making contributions aggregating in excess of $100 during the reporting period. Such reports shall include the name and address of all persons receiving expenditures aggregating more than $100 during the reporting period.

(d) Forms will be provided by the Commission to implement this section.

### § 113.5 Reports of Office Accounts.

(a) All individuals having office accounts shall report as if such account is a political committee, and on forms provided for that purpose, pursuant to 2 U.S.C. 434.

(b) If the officeholder, former officeholder, or candidate has designated a principal campaign committee such individual shall file the reports required by this section with such principal campaign committee.

(c) If the officeholder, former officeholder, or candidate has not designated a principal campaign committee such individual shall file the reports required by this section with the Commission.

### § 113.6 Excess Campaign Funds.

(a) A principal campaign committee may transfer excess campaign funds to an office account, a franking account, an organization described in 26 U.S.C. 170(c), or for any other lawful purpose.

(b) Excess campaign funds expended on or before December 31 in an election year will be considered expenditures for the last election of that year. Excess campaign funds not expended or transferred by Decemer 31 of an election year will be considered expenditures for the next election when they are expended or transferred. Except for transfers to a franking account, such expenditures, whether made before or after December 31 of an election year, are subject to the expenditure limitations of 18 U.S.C. 608(c).

Dated: July 31, 1975.

## FEDERAL ELECTION COMMISSION

[Notice 1975–19]

### POLICY STATEMENT

#### Pre-1975 Campaign Debts

Under its statutory authority in 2 U.S.C. § 437d(a)(9) to formulate general policy with respect to the administration of 18 U.S.C. 608, inter alia, the Federal Election Commission adopts the following policy as to contributions and expenditures made after January 1, 1975, but relating to the retirement of debts incurred in connection with elections held before January 1, 1975.

As used in 18 U.S.C. 608(b)(1) and (2), the language "with respect to any election for Federal office * * *" means any election occurring after January 1, 1975, with the result that contributions made for the sole purpose of retiring campaign debts incurred incident to an election held before January 1, 1975, are not subject to the limits in 18 U.S.C. 608(b), as amended in 1974 and effective January 1, 1975. The expenditure of such contributions is accordingly not subject to the limits in 18 U.S.C. 608(c).

However, to prevent attribution of such contributions to the above cited limitations, as applicable to elections held after January 1, 1975, all solicitations for contributions to retire debts incurred with respect to pre–1975 elections must include clear notice of that purpose. Furthermore, persons making contributions aggregating over $100 in a calendar year for that purpose must restrict them in writing to application to past debts. These restricted contributions must be received by the close of December 31, 1975, to avoid the possibility of charging them against contribution limitations prescribed by the 1974 Act and applicable to any election held after January 1, 1975.

The Commission further states that under section 101(c) of the Federal Election Campaign Act Amendments of 1974 (Pub. L. 93–443), expenditures from personal funds of a candidate or his or her immediate family may be made without limitation as to time or amount, for the purpose of extinguishing debts and obligations outstanding on October 15, 1974, and incurred in connection with any campaign for Federal office ending before the close of December 31, 1972. Other campaign debts related to elections held before January 1, 1975, are subject to the personal fund expenditure limits in 18 U.S.C. § 608(a) as effective April 7, 1972, and amended in 1974.

The Commission has today issued an interim guideline which applies to the reporting of the transactions described above. Both this policy statement and the interim guideline are issued to indicate the general applicability of the Commission's advisory opinions AO: 1975–5 and AO: 1975–6, published on July 25, 1975 at 40 FR 31316.

Dated: July 31, 1975.

PART 205—GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

PART 233—COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

Quality Control System

Notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 21737) on May 19, 1975, to announce proposals for amending §§ 205.40, 205.41, 206.10, and 233.10 of Chapter II, Title 45 of the Code of Federal Regulations relating to the program of Quality Control for Aid to Families with Dependent Children. Final Regulations had previously been published on April 6, 1973 (38 FR 8743) after notice of proposed rulemaking published on December 5, 1972 (37 FR 25853). Revisions to regulations regarding this program had been published in final form on October 18, 1974 (39 FR 37195) after notice of proposed rulemaking published on August 19, 1974 (39 FR 29935).

Comments on the May 19 proposals were received from twenty-five State welfare departments, five local welfare departments, four members of Congress, and three interested private organizations. Many of the comments related to aspects of the regulations which have been in effect since April 6, 1973, and which were not altered by the May 19 notice of proposed rulemaking, i.e. use of Quality Control for purposes of disallowing Federal funds; States' ability to attain the established tolerance levels for erroneous payments; inclusion of erroneous payments occasioned by "client error" in State Quality Control samples; and the alleged violation of the Federal-State partnership by the disallowance of Federal financial participation pursuant to the Quality Control program. These concerns were responded to in 1973, and the Department's positions on these matters remain unchanged.

Numerous comments were also received which were specifically responsive to the proposed revisions. In light of the comments and suggestions received, the proposed revisions of May 19 have been amended and set forth below, and, as amended, are herein adopted.

As originally proposed, the revisions added a requirement at 45 CFR 206.10 that a State plan specify a budget period and payment month as defined therein. Proposed revisions to 45 CFR 205.40 and .41 established definitions for the terms underpayment, overpayment, ineligibility and what constitutes a case error for Quality Control purposes. These definitions were related to a payment month and budget period established by each State, so as to provide States an administrative period of up to 34 days during which an assistance unit's change in circumstances affecting eligibility for and the amount of assistance payment occurring therein which are not reflected in the subsequent assistance grant would not be considered a case error for Quality Control purposes. However, only those States which utilized a system of prior month budgeting in determining such eligibility for an amount of an assistance payment would have been provided with such an administrative period.

Many comments favored the providing of such an administrative period. However, many of these comments also expressed a general confusion regarding the specific application of the budget period and payment month concept to the Quality Control program. Moreover, these comments indicated to the Department that the proposed revisions would require many States to substantially modify their accounting procedures immediately to take advantage of such an administrative grace period. Thus, many of these comments requested that the implementation of these regulations be postponed until the application of these terms could be clarified and commented upon.

Other comments argued that by providing only those States which utilize prior month budgeting with an administrative period, the revisions had the effect of indirectly mandating such budgeting. These comments suggested that this indirect mandating of prior month budgeting would contravene extant Department regulations interpreting the Social Security Act, and would also violate requirements of the Administrative Procedure Act regarding notice and comment procedures. Such comments also suggested that if the Department did encourage prior month budgeting through the Quality Control regulations, some provision should be made to enable States to aid recipients who are placed in undue hardship because of such a budgeting system.

In response to these comments, the proposed regulations have been modified to delete the requirements of specifying a payment month and budget period, and to set forth a uniform administrative period which the Department considers to be a reasonable amount of time during which States would not be held accountable for their failure to reflect changes in the circumstances of an assistance unit which affect the eligibility for or the amount of the assistance payment. This modification is in no way intended to indicate that the Department does not favor the system of prior month budgeting. Rather the basis and purpose of this revision is the Department's desire to simplify at present the concept of what constitutes a case error for Quality Control purposes, and to provide all States with an administrative period regardless of their present accounting procedures.

Specifically, the revision herein adopted deletes the proposed modifications to § 206.10 (a) (13) and (b) (i.e., the requirement that States' plans specify a budget period and payment month along with the respective definitions of those terms).

Additionally, the regulations as adopted herein delete all references to payment month and budget period contained in the proposed revisions of 45 CFR 205.40 and .41. Further, 45 CFR 205.40 is amended to add subsection (b) (2) which requires that notwithstanding 45 CFR 206.10, States shall consider a case error to exist for Quality Control purposes when any change in circumstances affecting eligibility for or the amount of the assistance payment has not been accurately reflected in a terminated or adjusted payment by the second subsequent month following the month in which the change of circumstances occurred, unless assistance is being continued as required because a hearing has been requested pursuant to 45 CFR 205.10. However, if a State reflects such a change in an assistance unit's circumstances in an assistance payment prior to the payment for the second month following the month in which the change occurs, it must do so accurately, or a case error exists.

When assistance is being continued as a result of a hearing request, the prescribed time for reflecting a change in the assistance unit's circumstances (which alters his eligibility for or the amount of a payment) begins on the date upon which an initial hearing decision is rendered. The reference in this provision of 45 CFR 205.40 to 45 CFR 206.10 reflects the relationship between that provision and the Department's policies regarding requirements upon States to reconsider a recipient's eligibility provided in § 206.10. The Department believes that it would be unrealistic to require a State plan to provide that a State agency must promptly reconsider eligibility after a change in circumstances occurs of which the State is not aware, for a State obviously cannot be required to reconsider that of which it is unaware. Moreover, such a plan requirement would subject a State to compliance procedures should it fail to substantially comply with that provision of its State plan, with the possibility of a resulting discontinuance of all Federal funds for its AFDC program pursuant to section 404 of the Social Security Act (and sections 4, 1004, 1404 and 1604 for programs established pursuant to titles I, X, XIV, and XVI (AABD) for Guam, Puerto Rico, and the Virgin Islands). Thus, 45 CFR 206.10 provides for prompt reconsideration only where a State agency has knowledge of a recipient's change in circumstances.

However, an erroneous payment is no less an erroneous payment simply because it was occasioned by a change in an assistance unit's circumstances of which the State is not aware. Thus, based on the Department's belief that it is incumbent upon States to develop methods of discovering these changes in a recipient's circumstances (and to thereby eliminate erroneous payments caused by such changes) it is the purpose of these regulations to provide that any such changes in circumstances which are not reflected in the assistance unit's assistance payment (or termination from assistance) within the prescribed time limits are considered to be case errors for Quality Control purposes, notwithstanding the absence of States' knowledge of these changes. Failure to require inclusion of such erroneous payments as case errors would provide a disincentive to States' development and application of methods to discover such changes in circumstances, thereby vitiating a primary purpose of the Quality Control program, i.e., the elimination of erroneous State payments.

45 CFR 205.40 is revised for the purpose of providing that Quality Control reviewers will review against "permissible State practices" instead of the State plan in determining whether a case error exists. "Permissible State practices" encompass written State policy materials which are consistent with the State's plan, and written policy materials which incorporate and are consistent with amendments to the State's plan which have been submitted to, but have not been acted upon by SRS. The purpose of these revisions is to permit States to put such proposed AFDC amendments into effect (subject to unavailability of FFP if the amendments are not approved) without having assistance payments which are made based upon these amendments being classified as a case errors.

The basis for these revisions is to conform the Quality Control program to Department regulations which provide for Federal financial participation in State AFDC payments which were made in conformity with approvable State plan amendments, i.e., payments made consistent with, and subsequent to the submittal to SRS of, an amendment to a State's plan which is later approved by the Service. Since the Department will participate in payments made pursuant to plan amendments which are ultimately approved, retroactive to the first day of the calendar quarter in which such approvable amendments are submitted if then in effect on a statewide basis, it would be improper to consider such payments case errors. Moreover, if the plan amendment is ultimately disapproved, the Department will not participate in payments made pursuant to the proposed amendment. Thus, any funds misspent as a result of such a State plan amendment will be totally State funds, and it would therefore be improper to consider such payments as case errors.

However, since one purpose of Quality Control is to monitor the accuracy of State AFDC payments as of the time they were made, it is necessary for Quality Control reviewers to have some tangible evidence of State policy as it existed at that time. Therefore, such State plan amendments must be reflected by written policy issued by the State which is effective on the date upon which an assistance payment is made, if those amendments are to be applied in determining whether the assistance payment constitutes a case error.

With the exception of technical amendments to conform the definitions of ineligibility, overpayment, and underpayment to the revised policies of providing a uniform budget period and of reviewing against "permissible State practices" stated above, the definitions of those terms, as adopted herein, remain substantially the same as in the proposed revisions of May 19. Thus, as in the proposed revisions, a payment for ineligibility exists where an assistance payment is made to an assistance unit in which no member would have been eligible for assistance, whereas an overpayment or underpayment occurs when an assistance unit receives a payment in a differing amount than that for which it would have been eligible under "permissible State practices."

As an example, if an assistance unit received an assistance payment on the basis that four individuals within that unit were eligible for financial assistance but, in fact, only three were eligible for assistance under "permissible State practices" that payment constitutes an overpayment (in the amount of that payment which represented the needs of the ineligible individual). On the other hand, if an assistance payment was provided on behalf of an assistance unit in which no member was eligible for financial assistance, that payment would constitute a payment for ineligibility in the total amount of the payment.

However, unlike the proposed revisions, the revisions hereinadopted specify that a payment which is in error by less than $5.00 will not constitute an overpayment or underpayment. The purpose of this modification is to reflect the Department's determination not to fault States for overpayments and underpayments of insignificant amounts.

As in the proposed revisions, the modifications adopted herein define case error as any case in which there is a payment for ineligibility, overpayment, or underpayment (as defined in the regulation). Additionally, the definition of case error, like § 205.40(b)(2), adopted herein reflects a Departmental recognition that under present State systems of administration, it is difficult if not impossible immediately to reflect a change in circumstances affecting eligibility for or the amount of assistance in the assistance payment. However, as mentioned above, for the purpose of providing all States with an administrative period within which to consider and reflect such changes in circumstances, and to simplify the application of the administrative period to the Quality Control program, the revisions adopted herein provide that for Quality Control purposes, an overpayment, underpayment, or payment for ineligibility which is occasioned solely by an assistance unit's change in circumstances which occurs within the month for which an assistance payment is made or the month immediately preceding that month will not be considered a case error. Thus, in essence, a State must reflect such a change in the assistance unit's circumstances by the assistance payment for the second month following the month in which the change in circumstances occurs. This time period is based on the Department's determination that this encompasses a reasonable time period for States to discover any change, redetermine a recipient's eligibility for a certain payment level under "permissible State practices", send notice of reduction or termination as required in 45 CFR 205.10, and reflect the change in the grant. If, during this time period, a recipient requests a hearing and the grant is required to be continued unadjusted pending an initial decision pursuant to 45 CFR 205.10, unadjusted payments will not constitute a case error. However, after a hearing decision is rendered which affects eligibility for or the amount of the assistance to which the assistance unit is entitled, the State must accurately reflect the result of that decision in the payment for the second month following the month in which the decision is rendered, and any overpayment, underpayment, or payment for ineligibility occurring after that period will be considered a case error. The definition of case error also provides that if a State reflects a change in the assistance unit's circumstances in a payment prior to the payment for the second month following the month in which such a change occurs, it must do so accurately or a case error will exist. The basis of this is the Department's desire that when States take corrective action, they do so correctly. The purpose of the Quality Control program is not served by encouraging States to incorrectly reflect changes in circumstances.

The proposed revisions to § 205.41 also provided for the use of two error rates; one based on the lower limit at the 95% confidence level of a statistical regression formula for the purpose of disallowing Federal financial participation, and another based on the application of the regression formula, as opposed to the lower limit of that formula, for purposes of analyzing findings of their Quality Control systems and for taking appropriate corrective action. After further analysis, the Department recognizes that it is not administratively feasible for States to analyze findings of their systems and to take appropriate corrective action on the basis of figures derived from the application of the regression formula. Therefore, for analysis purposes the revisions herein adopted provide for using the error rates derived from the States' full samples adjusted on a case-by-case basis for differences found in the Federal subsample. However, the revisions herein adopted retain the proposed revision that the Department will use the lower limit at the 95% confidence level of a statistical regression formula for the purpose of disallowing Federal financial participation in order to minimize the chance of overstating States' actual case error rates. The lower limit at the 95% confidence level will generally understate the actual case error rate so that no State is unjustly denied Federal funds.

V40151 AUG 5 75 XUM

Further, the Department will publish error rates derived from the application of the regression formula as official error rates. The reason for publishing these error rates is that this actual figure derived from the application of the regression formula is the "best estimate" of a State's case error rate of erroneous payments.

The revisions adopted herein also contain technical amendments to sections 45 CFR 205.40 and 41 to conform those provisions with the modifications described above (including the addition of a definition of review month) and to indicate the proper SRS form and Information Memorandum numbers.

Further, the definition of assistance unit is revised for the purpose of clarifying the Department's position that the assistance unit encompasses all individuals whose needs must be considered in determining the eligibility for and the amount of assistance "permissible State practices" notwithstanding the State's failure to consider the needs of any of those individuals (or consideration of the needs of other individuals not covered under the plan) in making an assistance payment.

45 CFR 233.10(a)(3) as modified in the proposed revision of May 19 is hereby deleted, since that provision was revised to make that section consistent with the proposed revisions to 45 CFR 205.40 and 205.41. A new provision at 45 CFR 233.10(a)(5) is herein added for the purpose of conforming regulations at that section with 45 CFR 205.40 and 205.41 herein adopted. Thus the provision herein adopted serves the purpose of providing that where a change in circumstances makes an individual ineligible or eligible for a smaller amount of assistance, Federal financial participation will not be available in payments made after the month following the month in which the change of circumstances occurs to the extent that the assistance exceeds the amount to which the recipent should have been entitled under the State plan; except that where assistance is required to be continued pending a hearing request pursuant to 45 CFR 205.10, Federal financial participation will be provided in the amount of any unadjusted payment for up to one month after an initial hearing decision is rendered.

As discussed in the preamble to the proposed revision of May 19, to the extent that provisions of the *Handbook for Public Assistance Administration* (specifically sections 5512 and 5514 of Part IV therein) conflict with this provision and 45 CFR 205.41, they are hereby superseded.

The proposed revisions of May 19 also removed the extant provision at 45 CFR 233.10(b)(3). That provision provides for Federal financial participation in assistance payments for an entire month if for any portion of the month the recipient met all of the Federal eligibility conditions. The initial basis for the deletion of this provision was that the provision as presently worded would permit States to validate payemnts for inelgibility, overpayments, and underpayments subsequent to their being drawn for the Quality Control sample without correcting erroneous payments to individuals in similar circumstances who were not included in the sample. Thus, as initially worded, the provision could have permited States to distort their Quality Control samples.

After reflecting upon this subject, the Department believes that it is desirable to permit States to make an assistance payment for a total month where an individual is eligible for a portion of the month provided that the individual is eligible for assistance on the date on which payment is actually made. Thus, to achieve this purpose, the extant § 233.10(b)(3) is retained, but modified to comport with this policy.

45 CFR 206.10(a)(9)(ii) as revised in the proposed revision is herein adopted.

Comments were also received which were responsive to the proposed revisions which after consideration did not result in any modification of those revisions. These comments primarily covered the following concerns:

(1) An incentive should be provided in the regulations for States to reduce underpayments by providing that an offset to States whose underpayment rates fall below the 5% underpayments tolerance level could somehow be applied to ineligibility and overpayment disallowance.

(2) Tolerances should be based on percentages of dollars paid erroneously rather than on total cases in error.

(3) States should not be required to submit corrective action plans to reduce their levels of erroneous payments once the prescribed tolerance levels for disallowance purposes are met.

(4) The use of the lower limit at the 95% confidence level of a statistical regression formula for purposes of disallowing Federal financial participation is an improvement of the Department's prior practice of utilizing the rates obtained in the State full sample adjusted for differences found in the Federal subsample.

(5) The use of the regression formula in determining case error rates can result in Federal findings replacing State findings.

(6) The Department's statement in the preamble to the proposed revision that to the extent that the revised regulations conflict with the *Handbook for Public Assistance* the Handbook is superseded, is unreasonable. Individual workers are not capable of resolving such conflicts.

The Department's response to these comments is as follows:

(1) SRS will examine the possibility of providing an incentive for States to reduce underpayments by providing an offset as suggested. If such a suggestion proves feasible and legally permissible, it will be issued for comment as a proposed regulation. However, even in the absence of such a provision, the integrity of the AFDC program and the desire to provide the proper amount of assistance to which eligible assistance units are entitled should act as incentives to States in reducing their levels of erroneous underpayments.

(2) The regulations provide that the case error rate is to be converted to a dollar rate for purposes of disallowing Federal financial participation. Additionally, one of the purposes of Quality Control as stated in the preamble to the proposed regulations is the maintaining of the integrity of the public fiscal (thereby maintaining public confidence in the program): The purpose of maintaining such public confidence in the integrity of the AFDC program is fostered by requiring States to reduce their level of erroneous payments to a reasonable number of cases as well as a reasonable dollar limitation. Thus, for reporting purposes, States are required to submit their rates of erroneous payments in terms of cases as well as dollars, and it is reasonable that such case error rates be taken into consideration regarding the disallowance of Federal financial participation.

(3) As indicated in the preamble to the proposed revisions of May 19, the 3 and 5% tolerance levels for overpayments, underpayments, and payments to ineligibles represent the Department's awareness that, under administrative structures presently existing in most States, a requirement at this time that all States eliminate all erroneous payments, with a resultant disallowance of Federal financial participation in any erroneous overpayments or payments to ineligibles, is unrealistic. However, the inclusion of these tolerance levels in the Quality Control regulations was never intended to relieve States from any requirements for taking appropriate corrective action to further reduce their levels of erroneous payments once these tolerance levels are met. Rather these tolerance levels constitute only the minimum levels of acceptability, and, once the States meet these levels, they are expected to take appropriate corrective action to further reduce erroneous payments. The Department believes that it is only through a vigorous program of corrective action in reducing erroneous payments to the greatest extent possible that the maintenance of public confidence in the AFDC program can be retained.

(4) No response is necessary to this comment.

(5) It is true that the use of the regression formula in determining case error rates can result in Federal findings replacing State findings in certain instances. The regression formula is used for determining accurate case error rates. Differences between the State Quality Control sample and the Federal subsample take place when the State agency is not properly determining where case errors exist as required by the Quality Control regulations and implementing materials. If States are conforming to the standards set forth under such regulations and implementing materials in their samples, there will be a high correlation, case by case, between the State initial findings and the final Federal findings in the Federal subsample. In such instances, the error rate derived from the application of the regression formula will be substantially the same as the State initial error rate. Only where there is no correlation, case by case, between such State and Federal findings, will the derived error rate be the Federal error rate in the Federal subsample. The Department believes it is unlikely that this situation will ever arise.

(6) The promulgation of a regulation which conflicts with a provision in the *Handbook for Public Assistance Administration* automatically results in the superseding of the *Handbook* provision. It is impossible to envision and describe every possible conflict which could arise between the Quality Control regulations and the *Handbook* provisions. The Department believes that it is reasonable to require that where such conflicts arise, State agency employees will follow the Quality Control regulations.

Sections 205.40, 205.41, 206.10, and 233.10 of Chapter II, Title 45 of the Code of Federal Regulations are revised to read as follows:

Chapter II, Title 45 of the Code of Federal Regulations is revised as follows:

1. Section 205.40 is revised to read as set forth below:

**§ 205.40 Quality control system.**

(a) *Definitions.* For purposes of this section and § 205.41, notwithstanding any other regulations in this chapter:

(1) *"Assistance unit"* means all individuals whose needs, income, and resources are to be considered in determining eligibility for the amount of an assistance payment for which Federal financial participation is claimed under this chapter.

(2) *"Case error"* means an overpayment, underpayment or payment for ineligibility, as defined in this section. However, where an overpayment, underpayment or payment for ineligibility is occasioned solely by the failure of the assistance payment to reflect changes in an assistance unit's circumstances which occurred in the review month or the month (calendar or fiscal) immediately preceding the review month, no case error will exist (unless the assistance payment was, in fact, adjusted inaccurately as a result of such a change). For purposes of this definition, a hearing decision which required adjustment or termination of the assistance payment is considered a change in circumstances. The determination as to whether an assistance payment constitutes a case error will be made in accordance with procedures specified in the Quality Control Manual. There is no case error where payment is required to be continued unadjusted because a hearing has been requested.

(3) *"Ineligibility"* refers to a financial assistance payment received by or for an assistance unit, for the review month, when no amount of such payment should have been paid to such assistance unit under permissible State practice (as defined herein) in effect on the first day of the review month, notwithstanding the State agency's failure to make a finding under § 206.10(a)(5) of this chapter.

(4) *"Overpayment"* means a financial assistance payment received by or for an assistance unit, for the review month, which is in excess by at least $5.00 of the amount that should have been paid, to such assistance unit under permissible State practice (as defined herein) in effect on the first day of the review month.

(5) *"Underpayment"* means a financial assistance payment received by or for an assistance unit for the review month which is at least $5.00 less than the amount that should have been paid, to such assistance unit under permissible State practice (as defined herein) in effect on the first day of the review month.

(6) *"Review month"* means the specific period of time for which a particular financial assistance payment (or two successive payments where the State pays on a semi-monthly basis) under review is received, regardless of whether that period is a calendar month or a fiscal month.

(7) *"Permissible State practice"* means all written policy instructions issued by the State for administering the AFDC program so long as those written instructions are consistent with either the State plan or proposed amendments thereto which have been submitted to, but have not been acted upon by the Social and Rehabilitation Service. In all instances where such written instructions are not consistent with the State plan or such amendments thereto, permissible State practice means the provisions of the State plan.

(b) *State plan requirements.*—A State plan under title IV–A or I, X, XIV or XVI of the Social Security Act must provide for a continuing system of quality control for assuring that assistance is furnished in accordance with permissible State practice (as defined herein). Under this requirement:

(1) The State agency's system of quality control shall:

(i) Apply the sampling methods and schedules in accordance with instructions prescribed by the Social and Rehabilitation Service;

(ii) Conduct field investigations, including a personal interview in all cases which fall within the sample;

(iii) Provide for the necessary resources, organizational structure and systems for the analysis of the findings of the system;

(iv) Take appropriate corrective action on improperly authorized assistance and system weaknesses: and

(v) Assure access by DHEW staff to State and local records relating to public assistance, to recipients, and to third parties.

(2) Notwithstanding the provisions of § 206.10(a)9 of this Chapter, the State agency shall count as a case error in its Quality Control sample, any case in which a in circumstances which affects eligibility or the amount of the assistance payment is not correctly reflected in a terminated or adjusted payment by the second month following the month in which the change of circumstances occurred, unless assistance is continued unadjusted because a hearing has been requested; except that where the change in circumstances is improperly reflected in an assistance payment prior to the second month following the month in which the change of circumstances occurred, the State agency shall consider that a case error exists. Under this requirement, a hearing decision which affects eligibility or the amount of the assistance payment is a change in circumstances.

(3) The State agency shall submit to the Social and Rehabilitation Service, in such form and at such times as it prescribes:

(i) A description of the State's sampling plan;

(ii) On a monthly basis during the 6-month sampling period, for each sample case in the State Quality Control review, the original finding on the amount of the assistance payment and, where a case error has been determined to exist in such payment, the amount by which the payment was in error, and the type of error, i.e. whether the error was an overpayment, underpayment, or payment to an ineligible;

(iii) Data required by Forms SRS–QC 341.1 and 341.1A, within 60 days of the close of the 6-month sampling period to which such data apply;

(iv) A corrective action plan for reducing the case error rates of ineligibility, overpayments, and underpayments, within 90 days of the close of the 6-month sampling period to which they apply, even after achieving the case error rates specified in paragraph (a) of § 205.41 of this chapter; and

(v) Data required by Forms SRS–QC 341.2, 341.3 and 341.4, at the same time the corrective action plan is submitted.

2. Section 205.41 is revised to read as set forth below:

**§ 205.41 Federal financial participation in relation to erroneous State payments.**

(a) Effective with the July–December 1975 Quality Control sampling period and for periods thereafter, the case error rates shall be deemed to be within tolerance if they do not exceed:

(1) 3% for ineligibility;

(2) 5% for overpayments; and

(3) 5% for underpayments.

(b) There shall be excluded from Federal financial participation in payments as Aid to Families with Dependent Children that portion of a State's expenditures for ineligibility, represented by the case error rate in excess of 3%, commencing with the July December, 1975 Quality Control sampling period and for subsequent 6-month sampling periods.

(c) There shall be excluded from Federal financial participation in payments as Aid to Families with Dependent Children that portion of a State's expenditures for overpayments, represented by the case error rate in excess of 5%, commencing with the July December, 1975

V40151A AUG 5 75 XUM

Quality Control sampling period and for subsequent 6-month sampling periods.

(d) The case error rates for ineligibility and overpayments in excess of 3% and 5%, respectively, shall be converted to dollar error rates in determining the amount to be excluded from Federal financial participation. The dollar error rates shall be applied to the Federal share of expenditures for assistance payments made during the sampling period, excluding payments for emergency assistance, AFDC foster care and presumptive eligibility, and vendor payments.

(e) The amount to be excluded from Federal financial participation shall be based on error rates determined by the Social and Rehabilitation Service on the basis of State quality control data and Federal quality control sub-sample data. In computing case error rates and dollar error rates for purposes of determining any such exclusions, the Service will use the lower limit at the 95% confidence level of a statistical regression formula applied to case and dollar error rates obtained from both the State and Federal data. For purposes of analyzing findings of the system and for taking corrective action as required by § 205.40 of this chapter, the Service will use the figures derived from the State full sample adjusted for differences found in the Federal subsample as case and dollar error rates as opposed to using such lower limit. The dollar conversion formula and the regression formula methodology limit are described in the Information Memorandum issued by the Social and Rehabilitation Service. (SRS–IM 75–11 (AO), dated June 13, 1975.)

(f) For Guam, Puerto Rico, and the Virgin Islands, this section is also applicable to public assistance under title I, X, XIV, or XVI of the Social Security Act, except that the State expenditures for ineligibility and overpayment, in excess of the 3% and 5% tolerance levels, shall be excluded from Federal financial participation only to the extent that such excess is greater than the portion of State expenditures that is eligible for Federal financial participation but is not participated in because of the statutory limitations on Federal funds payable to these jurisdictions.

3. Section 206.10 is amended by revising paragraph (a)(9) and paragraph (b), as set forth below:

**§ 206.10 Application, determination of eligibility and furnishing of assistance.**

(a) *State plan requirements.* • • •

• • • • •

(9) Where an individual has been determined to be eligible, eligibility will be reconsidered or redetermined:

(i) When required on the basis of information the agency has obtained previously about anticipated changes in the individual's situation;

(ii) Promptly, after a report is obtained which indicates changes in the individual's circumstances that may affect the amount of assistance to which he is entitled or may make him ineligible; and

(iii) Periodically, within agency-established time standards, but not less frequently than every 6 months in AFDC, and every 12 months in the other categories, including medical assistance, on eligibility factors subject to change.

• • • • •

(b) *Definitions.* For purposes of this section:

(1) "Applicant" is a person who has, directly, or through his authorized representative, or where incompetent or incapacitated, through someone acting responsibly for him, made application for public assistance from the agency administering the program, and whose application has not been terminated.

(2) "Application" is the action by which an individual indicates in writing to the agency administering public assistance his desire to receive assistance. The relative with whom a child is living or will live ordinarily makes application for the child for AFDC. An application is distinguished from an inquiry, which is simply a request for information about eligibility requirements for public assistance.

Such inquiry may be followed by an application.

4. Section 233.10 is amended by revising paragraph (b)(3) and adding a new paragraph (b)(5) to read as set forth below:

**§ 233.10 General provisions regarding coverage and eligibility.**

(a) *State plan requirements.* • • •

(b) Federal financial participation.• • •

(3) Federal financial participation is available in assistance payments made for the entire month in accordance with the State plan if the individual was eligible for a portion of the month, provided that the individual was eligible on the date that the payment was made; except that where it has been determined that the State agency had previously denied assistance to which the individual was entitled, Federal financial participation will be provided in any corrective payment regardless of whether the individual is eligible on the date that the corrective payment is made.

• • • • •

(5) Where changed circumstances or a hearing decision makes the individual ineligible for any assistance, or eligible for a smaller amount of assistance than was actually paid, Federal financial participation is available in excess payments to such individuals, for not more than one month following the month in which the circumstances changed or the hearing decision was rendered. Federal financial participation is available where assistance is required to be continued unadjusted because a hearing has been requested.

# DEPARTMENT OF COMMERCE

# PRIVACY ACT OF 1974

## Proposed Implementation and Notice of Systems of Records

V40151 AUG 5 75 XUM

## DEPARTMENT OF COMMERCE

### Office of the Secretary

### [ 15 CFR Part 4b ]

### PRIVACY ACT OF 1974

### Proposed Implementation

Notice is hereby given that the Department of Commerce proposes to amend Title 15, Code of Federal Regulations, by adding a new Part 4b which implements the provisions of sections 2 and 3 of the Privacy Act of 1974 (Pub. L. 93–579) (hereinafter referred to as the "Act"). The proposed regulations establish revised policies and procedures to assure the protection of individual privacy and the accuracy of records in accordance with the requirements of the Act, including provisions regarding an individual's access to and right to seek correction or amendment of such records and the disclosure of information from such records.

Any person interested in the amendments herein may participate in this proposed rulemaking by submitting written data, views, or arguments on the proposed regulations to the Privacy Act Task Force (Stop 206), Room 5892, U.S. Department of Commerce, 14th & E Streets, NW., Washington, D.C. 20230 on or before August 25, 1975. All written comments received from the public through that date will be considered by the Department in formulating final regulations. The comments received will be available for public inspection at the above address between the hours of 9 a.m. and 4 p.m. Monday through Friday (except holidays), as received and until 4 p.m., September 1, 1975.

Notice is given that it is proposed to make these regulations effective September 27, 1975, the effective date of section 3, Pub. L. 39–579.

These proposed regulations were drafted with major reliance on the "Guidelines and Responsibilities" for implementation of the Act published by the Office of Management and Budget (40 F.R. 28949, July 9, 1975).

The following remarks should assist in understanding certain passages of the proposed regulations and serve to focus the public's comments thereon. The introductory reference corresponds to the particular passage in the proposed regulations.

*Sec. 4b.1(a)*. The phrase "regardless of age" (also appearing in Secs. 4b.3(a), 4b.4(a) and 4b.7(a)) is proposed in light of the Act's repeated references to "any individual" and notwithstanding the references to "minor" and "age" in 5 U.S.C. 552a(h). The status and definition of a minor are not explained by the Act. It appears that minority is not determined by any Federal statute of general applicability, so that a question would be decided by the law of the state in which the minor resides. The proposal to honor inquiries and requests regardless of the age of the individual could lead to the following situations: First, both the parent of a minor and a true minor (under state law) obtaining access to records pertaining to the latter; and, second, a parent of an apparent minor and an actually emancipated minor (under state law) seekig access to the latter's records. Such situations raise serious questions involving the degree of explanation as to minority status which should be required from individuals by the Department and the Department's exposure to civil action if it honors requests from both a parent of an apparent minor and an actually emancipated minor.

*Sec. 4b.1(d)(3)*. Access to and correction of an employee's records has been available under grievance procedures in regulations and in collective bargaining agreements authorized by Executive Order. The Department discerns no intent within the Act whereby employees would be permitted duplicative and serial opportunities to gain the same relief. The election of procedures is left solely with the employee. This procedure is compatible with the proposed regulations of the United States Civil Service Commission (5 CFR 297.112).

*Sec. 4b.3(d)*. Identification normally need not be required of an individual merely asking whether the Department maintains a record pertaining to him or her. However, revelation of the very existence of some files might be an unwarranted invasion of privacy (for example, listing of those owing money to the Department). In such cases, the Department will require proof of an individual's identity before responding to an inquiry. The provisions of section (d) (2) and (3) is not required because requests under the Act do not constitute a system of records within the meaning of that term in the Act. However, since the individual's request could mature into a disagreement statement which becomes part of a record in a system of records, compliance with 5 U.S.C. 552a (e) (3) appears to be both practical and prudent.

*Sec. 4b.4(f)*. Identification procedures proposed when the individual does not submit the request in person may appear somewhat cautious. However, it is believed that the general availability of notaries and similar officers throughout the country should cause no real inconvenience to individuals. The main purpose in requiring such proof of identity is to comply with a basic principle of the Act, namely avoidance of unwarranted disclosure to other than the individual to whom the record or information pertains. The Department believes that individuals will accept the procedures once it is understood that they insure the privacy of their own records. The designation of an employee at most public facilities of the Department to determine identity should reduce the number of individuals needing to use the absentee proof of identity procedure.

*Sec. 4b.5(g)(1)(ii)*. The Department submits that information once subject to the exemption in 5 U.S.C. 552a(d)(5) is so exempted permanently. The Act provides no limit as to time, although the point was considered during the legislative process.

*Sec. 4b.5(g)(1)(iv)*. The one anticipated situation of failure to comply with the regulations is an individual's refusal to submit further proof of identification upon request. Others may be encountered which are not now foreseeable but which impede proper implementation of the Act.

*Sec. 4b.6*. The automatic waiting period is designed for the rare instance of a Department determination that disclosure of medical records could be harmful to the individual. If all other medical records were disclosed immediately, the unusual withholding for purposes of consultation with the individual's physician or psychologist might itself cause the harmful result sought to be avoided. The refusal of a request for access indicated in the tentative penultimate paragraph of the section might be the only responsible course of action in the unusual circumstances, namely, that the Department had determined the individual could be harmed by the disclosure and he or she refuses to identify a personal physician or psychologist for consultation purposes. The Department is weighing the possible civil action and imposition of fees and costs which could result against the responsibility to protect the individual. Once into litigation, the court could regulate the proceeding to serve the best interests of the individual. The meaning of a complainant "substantially" prevailing in this context is certainly unclear.

*Sec. 4b.8(e)(2) and (3)*. Any correction or amendment as to records in judicial, quasi-judicial and quasi-legislative proceedings are subject to correction only according to the procedures of the forum. Collateral attack through the Act would be clearly unwarranted.

*Sec. 4b.9(g)(3)*. The Department automatically will add the final determination not to correct or amend, or summary thereof, in order to close the record while personnel familiar with the request can do so efficiently. Personnel turn-over and imperfect recollection could deny the Department its full advantage to make a complete record if delayed too long.

*Sec. 4b.10(b)*. The five listed disclosures mandated by the Act would fall outside the permissive disclosure of 552a (b) (1) through (11). The Department submits that these situations are not subject to inclusion in routine uses in the published notice of systems of records under the Act on the basis that disclosures within the Act itself would have been listed in 5 U.S.C. 552(a)(b) had the Congress so intended. It also should be noted that the first three examples could be viewed as authorized by an individual under the written request criterion of 5 U.S.C. 552(a)(b), at least constructively. The latter two examples could not be so viewed. Specific comment is invited on whether these three disclosures, as well as disclosures at the request or with the consent of the individual to whom the records pertains, are subject to the accounting requirements of 5 U.S.C. 522a(c). The fundamental

purpose of the accounting, namely, to allow the individual to learn to whom his or her records were disclosed, would already be satisfied.

*Sec. 4b.11(a)*. It is assumed that the proposed regulations of the United States Civil Service Commission will be adopted substantially as proposed, particularly 5 CFR 297.115.

*Secs. 4b.13 and 4b.14*. As to the systems of records for which exemptions are claimed, also see the Notice of Systems of Records published by the Department in the FEDERAL REGISTER this same date. Special attention is called to the use of conditional exemptions in those situations where both general exemptions and specific exemptions are claimed for a particular system of records. In all instances, the Department first will assert the general exemption. The specific exemption is stated conditionally, and the condition is that the primary assertion of a general exemption is determined to be invalid. The Department has concluded that this bifurcated and conditional approach is dictated by the uncertainty surrounding the exemption process under the Act.

*Sec. 4b.13(a)*. The general exemption determined by the source agency would appear as part of the regulations adopted by that agency. The Department would be bound by the regulation and would have no authority to amend it. Thus, the only possible course of action available to the Department is referral of the individual to the source agency.

*Appendix C*. It is assumed that the other agencies listed will publish Government-wide notices, as information to the Department presently indicates. Appropriate changes will be made if those listed do not publish and as other agencies are identified.

*Appendix D*. The Department will process the official form through the Office of Management and Budget as a public use form and append a facsimile prior to the effective date of these regulations.

Finally, the Department intends to solicit the public's views on its implementation of the Act during the Fall of 1976. A notice to that effect will be published in the FEDERAL REGISTER. Although not required, citizen comments should provide valuable insight as to the success, or shortcomings, of the Department's efforts to implement the Act fully.

Title 15, Code of Federal Regulations is proposed to be amended by establishing a new Part 4b, as follows:

#### § 4b.1 Purpose and scope.

(a) The purpose of this part is to establish policies and procedures for implementing the Privacy Act of 1974 (Pub. L. 93–579), particularly 5 U.S.C. 552a as added by the Act. The main objectives are to facilitate full exercise of rights conferred on individuals under the Act and to insure the protection of privacy as to individuals on whom the Department maintains records in systems of records under the Act. The Department accepts the responsibility to act promptly and in accordance with the Act upon receipt of any inquiry, request or appeal from a citizen of the United States or an alien lawfully admitted for permanent residence into the United States, regardless of the age of the individual. Further, the Department accepts the obligations to maintain only such information on individuals as is relevant and necessary to the performance of its lawful functions, to maintain that information with such accuracy, relevancy, timeliness and completeness as is reasonably necessary to assure fairness in determinations made by the Department about the individual, to obtain information from the individual to the extent practicable, and to take every reasonable step to protect that information from unwarranted disclosure. The Department will maintain no record describing how an individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity.

(b) This part applies to all units in the Department in order to assure the maximum amount of uniformity and consistency within the Department in its implementation of the Act. The units of the Department may promulgate supplementary orders and rules not inconsistent with this part.

(c) The Assistant Secretary for Administration is delegated responsibility for maintaining this part, for issuing such orders and directives internal to the Department as are necessary for full compliance with the Act, and for effecting publication of all required notices concerning systems of records.

(d) Matters outside the scope of this part include the following:

(1) Requests under the Freedom of Information Act (5 U.S.C. 552);

(2) Requests involving information pertaining to an individual which is in a record or file but not within the scope of a system of records notice published in the FEDERAL REGISTER; and,

(3) Requests where a grievance procedure is available to the individual either by regulation or by provision in a collective bargaining agreement with the Department or a unit of the Department, and the individual has expressed the intention of using the grievance procedure.

#### § 4b.2 Definitions.

(a) All terms used in this part which are defined in 5 U.S.C. 552a shall have the same meaning herein.

(b) As used in this part:

(1) The term "Act" means the "Privacy Act of 1974," Pub. L. 93–579.

(2) The term "unit of the Department" and "unit" means primary operating unit of the Department as defined in Department Organization Order 1–1, "Mission and Organization of the Department of Commerce" (35 FR 19704, December 27, 1970).

(3) The term "Privacy Officer" means those officials, identified in Appendix A to this part, who are authorized to receive and act upon inquiries, requests for access, and requests for correction or amendment.

(4) The term "Secretary" means the Assistant Secretary for Administration.

(5) The term "Privacy Appeals Officer" means those officials, identified in Appendix B to this part, who are authorized to receive and act upon appeals from an initial denial of a request for correction or amendment.

(6) The term "Department" means the Department of Commerce.

(7) The term "inquiry" means either a request for general information regarding the Act and this part or a request by an individual that the Department determine whether it has any record in a system of records which pertains to that individual.

(8) The term "request for access" means a request by an individual to see a record which is in a particular system of records and which pertains to that individual.

(9) The term "request for correction or amendment" means the request by an individual that the Department change (either by correction, amendment, addition or deletion) a particular record in a system of records which pertains to that individual.

(10) The term "appeal" means the request by an individual that an initial denial of a request for correction or amendment by that individual be reviewed and reversed.

(11) The term "person" means any human being and shall include, but is not limited to, corporations, associations, partnerships, trustees, receivers, personal

V40151 AUG 5 75 XUM

representatives, and public or private organizations.

**§ 4b.3 Procedures for requests pertaining to individual records in a record system.**

(a) Any individual, regardless of age, who is a citizen of the United States or an alien lawfully admitted for permanent residence into the United States may submit an inquiry to the Department. The inquiry should be made either in person or by mail addressed to the appropriate Privacy Officer identified in Appendix A to this part, or the official identified in the notification procedures paragraph of the systems of records notice published in the FEDERAL REGISTER. If an individual believes the Department maintains a record pertaining to that individual but does not know which system of records might contain such a record and/or which unit of the Department maintains the system of records, assistance in person or by mail will be provided at the first address listed in Appendix A to this part. The offices of Privacy Officers are open to the public between the hours of 9 a.m. and 4 p.m. Monday through Friday (excepting holidays).

(b) The processing of inquiries submitted by mail will be facilitated if the words "PRIVACY ACT INQUIRY" appear in capital letters on the face of the envelope.

(c) The Department has an official form for making inquiries and requests, a facsimile of which is Appendix D hereto. Its use is urged. Copies may be obtained by contacting any of the officials in Appendix A hereto. Copies also may be obtained by contacting any facility of the Department. Please consult your telephone directory under the listing "United States Government—Commerce Department."

(d) (1) If, for some reason, an individual is unable to use the Department's official form, the letter should bear the words "PRIVACY ACT INQUIRY" in capital letters at the top. If the inquiry is for general information regarding the Act and this part, no particular information is required. If the inquiry is a request that the Department determine whether it has, in a given system of records, a record which pertains to the individual, the following information should be submitted:

(i) Name, address and telephone number (optional) of the individual making the request;

(ii) Name, address and telephone number (optional) of the individual to whom the record pertains, if the requesting individual is either the parent of a minor or the legal guardian of the individual to whom the record pertains;

(iii) A certified or authenticated copy of documents establishing parentage or guardianship;

(iv) Whether the individual to whom the record pertains is a citizen of the United States or an alien lawfully admitted for permanent residence into the United States;

(v) Name of the system of records, as published in the FEDERAL REGISTER;

(vi) Location of the system of records, as published in the FEDERAL REGISTER;

(vii) Such additional information as the individual knows will or believes might assist the Department in responding to the inquiry and in verifying the individual's identity (for example, date of birth, place of birth, names of parents, place of work, dates of employment, position title, etc.);

(viii) Date of inquiry; and,

(ix) Individual's signature.

The Department reserves the right to require compliance with the identification procedures appearing at § 4b.4(f) where circumstances warrant.

(2) In compliance with 5 U.S.C. 552a (e)(3), each individual supplying the information in accordance with paragraph (d)(1) of this section hereby is informed that:

(i) The authority authorizing solicitation of the information is 5 U.S.C. 552a, disclosure is voluntary, and no penalty attached for failure to respond;

(ii) The principal purpose for which the information is intended to be used is processing the inquiry under the Act;

(iii) The routine uses which may be made of the information are the general routine uses appearing as a prefatory statement to the Department's notice of systems of records published in the FEDERAL REGISTER; and,

(iv) The effects of not providing all or any part of the information may be to render impossible or to delay the Department's processing of and action on the request under the Act.

(3) If, having been made aware of the contents of paragraph (d)(2) of this section, an individual submits the information listed in paragraph (d)(1) of this section, he or she will be deemed to have made the submission on a purely voluntary and consentual basis.

(e) Any inquiry which is not addressed as specified in paragraph (a) of this section or which is not marked as specified in paragraphs (b) and (d) of this section will be so addressed and marked by Department personnel and forwarded immediately to the responsible Privacy Officer. An inquiry which is not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring time periods for response until forwarding of the inquiry to the Privacy Officer has been effected. In each instance when an inquiry so forwarded is received, the Privacy Officer shall notify the individual that his or her inquiry was improperly addressed and the date when the inquiry was received at the proper address.

(f) Each inquiry received shall be acted upon promptly by the responsible Privacy Officer. Every effort will be made to respond within ten days (excluding Saturdays, Sundays and holidays) of the date of receipt. If a response cannot be made within ten days, the Privacy Officer shall send an acknowledgement during that period providing information on the status of the inquiry and asking for such further information as may be necessary to process the inquiry.

(g) An individual shall not be required to state a reason or otherwise justify his or her inquiry.

(h) Special note should be taken of the fact that certain agencies are responsible for publishing notices of systems of records having Government-wide application to other agencies, including the Department. The agencies known to be publishing these general notices and the types of records covered therein appear in Appendix C to this part. These general notices do not identify the Privacy Officers in the Department to whom inquiries should be presented or mailed. The provisions of this section, and particularly paragraph (a) hereof, should be followed in making inquiries with respect to such records. Such records in the Department are subject to all the provisions of this part. The exemptions, if any, determined by the agency publishing a general notice shall be invoked and applied by the Department after consultation, as necessary, with that other agency.

**§ 4b.4 Times, places, and requirements for identification of individuals making requests for access.**

(a) Any individual, regardless of age, who is a citizen of the United States or an alien lawfully admitted for permanent residence into the United States may submit a request for access to records to the Department. The request should be made either in person or by mail addressed to the responsible Privacy Officer identified in Appendix A to this part. The offices of Privacy Officers are open to the public between the hours of 9 a.m. and 4 p.m. Monday through Friday (excluding holidays).

(b) The Department has an official form for making requests, a facsimile of which is Appendix D to this part. Its use is urged. Copies may be obtained by contacting any of the officials listed in Appendix A to this part. Copies also may be obtained by contacting any facility of the Department. Please consult your telephone directory under the listing "United States Government—Commerce Department."

(c) The processing of requests submitted by mail will be facilitated if the words "PRIVACY ACT REQUEST" appear in capital letters on the face of the envelope. If, for some reason, an individual is unable to use the Department's official form the letter should bear the words "PRIVACY ACT REQUEST" in capital letters at the top.

(d) Any request which is not addressed as specified in paragraph (a) of this section or which is not marked as specified in paragraph (c) of this section will be so addressed and marked by Department personnel and forwarded immediately to the responsible Privacy Officer. A request which is not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring time periods for response until forwarding of the request to the Privacy Officer has been effected. In each instance when a request so forwarded is received, the Privacy Officer shall notify

the individual that his or her request was improperly addressed and the date when the request was received at the proper address.

(e) If the request follows inquiry under section 4b.3 of this part in connection with which the individual's identity was established by the Department, the individual need only indicate the record to which access is sought and sign and date the request. If the request is not preceded by an inquiry under § 4b.3, the procedures of either § 4b.3(c) or § 4b.3 (d) should be followed.

(f) The requirements for identification of individuals seeking access to records are as follows:

(1) *In person.* Each individual making a request in person shall be required to present satisfactory proof of identity. The means of proof, in the order of preference and priority, are:

(i) A document bearing the individual's photograph (for example, driver's license, passport or military or civilian identification card);

(ii) A document bearing the individual's signature, preferably issued for participation in a Federally sponsored program (for example, social security card, unemployment insurance book, employer's identification card, national credit card and professional, craft or union membership card); and,

(iii) A document bearing neither the photograph nor the signature of the individual, preferably issued for participation in a Federally sponsored program (for example, Medicaid card). In the event the individual can provide no suitable documentation of identity, the Department will require a signed statement asserting the individual's identity and stipulating that the individual understands the penalty provision of 5 U.S.C. 552a(i)(3) recited in § 4b.12(a). For the convenience of the public, and in addition to the Privacy Officers listed in Appendix A hereto, most facilities which are open to the public and operated by the Department outside Metropolitan Washington, D.C. have employees authorized to determine the identity of an individual. However, such employees are not authorized to take any other action with respect to a request except to transmit the request to the responsible Privacy Officer. In order to avoid any unwarranted disclosure of an individual's records, the Department reserves the right to determine the adequacy of proof of identity offered by any individual, particularly when the request involves a sensitive record.

(2) *Not in person.* If the individual making a request does not appear in person before a Privacy Officer or other employee authorized to determine identity, a certificate of a notary public or equivalent officer empowered to administer oaths must accompany the request. The Department's official form for requests contains a certificate. If, for some reason, the individual is unable to use the official form, the certificate within or attached to the letter must be substantially in accord with the following text:

City of _____ County of _____: ss _____, who affixed (name of individual) (his) (her) signature below in my presence, came before me, a _____, in and (title) for the aforesaid County and State, this _____ day of _____, 19____, and established (his) (her) identity to my satisfaction.

My commission expires _____

_____ (signature)

(3) *Parents of minors and legal guardians.* An individual acting as the parent of a minor or the legal guardian of the individual to whom a record pertains shall establish his or her personal identity in the same manner prescribed in either paragraph (f) (1) or (2) of this section. In addition, such other individual shall establish his or her identity in the representative capacity of parent or legal guardian. In the case of the parent of a minor, the proof of identity shall be a certified or authenticated copy of the minor's birth certificate. In the case of a legal guardian of an individual who has been declared incompetent due to physical or mental incapacity or age by a court of competent jurisdiction, the proof of identity shall be a certified or authenticated copy of the court's order. A parent or legal guardian may act only for a living individual, not for a decedent. A parent or legal guardian may be accompanied during personal access to a record by another individual, provided the provisions of § 4b.5(f) are satisfied.

(g) When the provisions of this part are alleged to have the effect of impeding an individual in exercising his or her right to access, the Department will consider, from an individual making a request, alternative suggestions regarding proof of identity and access to records.

(h) An individual shall not be required to state a reason or otherwise justify his or her request for access to a record.

**§ 4b.5 Disclosure of requested information to individuals.**

(a) Each request received shall be acted upon promptly by the responsible Privacy Officer. Every effort will be made to respond within ten days (excluding Saturdays, Sundays and holidays) of the date of receipt. If a response cannot be made within ten days due to unusual circumstances, the Privacy Officer shall send an acknowledgment during that period providing information on the status of the request and asking for such further information as may be necessary to process the request. "Unusual circumstances" shall include circumstances where a search for and collection of requested records from inactive storage, field facilities or other establishments are required, cases where a voluminous amount of data is involved, instances where information on other individuals must be separated or expunged from the particular record, and cases where consultations with other agencies having a substantial interest in the determination of the request as necessary.

(b) Grant of access—(1) *Notification.* An individual shall be granted access to a record pertaining to him or her, except where the provisions of paragraph (g) (1) of this section apply. The Privacy Office shall notify the individual of such determination and provide the following information:

(i) The methods of access, as set forth in paragraph (b)(2) of this section;

(ii) The place at which the record may be inspected;

(iii) The earliest date on which the record may be inspected and the period of time that the records will remain available for inspection. In no event shall the earliest date be later than thirty days from the date of notification.

(iv) The estimated date by which a copy of the record could be mailed and the estimate of fees pursuant to section 4b.11 of this part. In no event shall the estimated date be later than thirty days from the date of notification;

(v) The fact that the individual, if he or she wishes, may be accompanied by another individual during personal access, subject to the procedures set forth in paragraph (f) of this section; and,

(vi) Any additional requirements needed to grant access to a specific record.

(2) *Methods of access.* The following methods of access to records by an individual may be available depending on the circumstances of a given situation:

(i) Inspection in person may be had in the office specified by the Privacy Officer granting access, during the hours indicated in § 4b.4(a);

(ii) Transfer of records to a Federal facility more convenient to the individual may be arranged, but only if the Privacy Officer determines that a suitable facility is available, that the individual's access can be properly supervised at that facility, and that transmital of the records to that facility will not unduly interfere with operations of the Department or involve unreasonable costs, in terms of both money and manpower; and

(iii) Copies may be mailed at the request of the individual, subject to payment of the fees prescribed in section 4b.11 of this part. The Department, at its own initiative, may elect to provide a copy by mail, in which case no fee will be charged the individual.

(c) Access to medical records is governed by the provisions of §4b.6.

(d) The Department shall supply such other information and assistance at the time of access as to make the record intelligible to the individual.

(e) The Department reserves the right to limit access to copies and abstracts of original records, rather than the original records. This election would be appropriate, for example, when the record is in an automated data media such as tape or disc, when the record contains information on other individuals, and when deletion of information is permissible under exemptions (for example, 5 U.S.C. 552a(k)(2)). In no event shall original records of the Department

V40151 AUG 5 75 XUM

be made available to the individual except under the immediate supervision of the Privacy Officer or his designee. Title 18, United States Code, section 2701(a) makes it a crime to conceal, mutilate, obliterate, or destroy any record filed in a public office, or to attempt to do any of the foregoing.

(f) Any individual who requests access to a record pertaining to that individual may be accompanied by another individual of his or her choice. "Accompanied" includes discussion of the record in the presence of the other individual. The individual to whom the record pertains shall authorize the presence of the other individual in writing and shall include the name of the other individual, a specific description of the record to which access is sought, the date and the signature of the individual to whom the record pertains. The other individual shall sign the authorization in the presence of the Privacy Officer. An individual shall not be required to state a reason or otherwise justify his or her decision to be accompanied by another individual during personal access to a record.

(g) Initial denial of access: (1) *Grounds.* Access by an individual to a record which pertains to that individual will be denied only upon a determination by the Privacy Officer that:

(i) The record is subject to an exemption under §§ 4b.13 and 4b.14 or to an exemption determined by another agency noticing the system of records, as described in § 4b.3(h);

(ii) The record is information compiled in reasonable anticipation of a civil action or proceeding;

(iii) The provisions of § 4b.6 pertaining to medical records temporarily have been invoked; or,

(iv) The individual unreasonably has failed to comply with the procedural requirements of this part.

(2) *Notification.* The Privacy Officer shall give notice of denial of access to records to the individual in writing and shall include the following information:

(i) The Privacy Officer's name and title or position;

(ii) The date of the denial;

(iii) The reasons for the denial, including citation to the appropriate section of the Act and this part;

(iv) The individual's opportunities if any, for further administrative consideration, including the identity and address of the responsible official. If no further administrative consideration within the Department is available, the notice shall state that the denial is administratively final; and,

(v) If stated to be administratively final within the Department, the individual's right to judicial review under 5 U.S.C. 552a(g)(1), as amended by 5 U.S.C. 552a(g)(5).

(3) *Administrative review.* When an initial denial of a request is issued by the Privacy Officer, the individual's opportunities for further consideration shall be as follows:

(i) As to denial under paragraph (g)(1)(i) of this section, the sole procedure is a petition for the issuance, amendment, or repeal of a rule under 5 U.S.C. 553(e). If the exemption was determined by the Department, such petition shall be filed with the Secretary. If the exemption was determined by another agency, referred to in § 4b.3(h), the Department will provide the individual with the name and address of the other agency and any relief sought by the individual shall be that provided by the regulations of the other agency. Within the Department, no such denial is administratively final until such a petition has been filed by the individual and disposed of on the merits by the Secretary.

(ii) As to denial under with paragraph (g)(1)(ii) or (iv) of this section, the individual may file for review with the responsible Privacy Appeals Officer, identified in Appendix B hereto, as indicated in the Privacy Officer's initial denial notification. The procedures appearing in § 4b.8 shall be followed by both the individual and the Department to the maximum extent practicable.

(iii) As to denial under paragraph (g)(1)(iii) of this section, no further administrative consideration within the Department is available because the denial is not administratively final until expiration of the time period indicated in § 4b.6(a).

(h) If a request is partially granted and partially denied, the Privacy Officer shall follow the appropriate procedures of this section as to the records within the grant and the records within the denial.

**§ 4b.6 Special procedures: Medical records.**

(a) No response to any request for access to medical records by an individual will be issued by the Privacy Officer for a period of seven days (excluding Saturdays, Sundays and holidays) from the date of receipt.

(b) The Department has published as a routine use, for all systems of records containing medical records, consultations with an individual's physician or psychologist if, in the sole judgment of the Department, disclosure could have an adverse effect upon the individual. The mandatory waiting period set forth in paragraph (a) of this section will permit exercise of this routine use in appropriate cases. The Department will pay no costs of any such consultation.

(c) In every case of a request by an individual for access to medical records, the Privacy Officer shall:

(1) Inform the individual of the waiting period prescribed in paragraph (a) of this section;

(2) Obtain the name and address of the individual's physician and psychologist, if the individual consents to give them;

(3) Obtain specific, written consent for the Department to consult the individual's physician and psychologist in the event that the Department believes such consultation is advisable, if the individual consents to give such authorization;

(4) Obtain specific, written consent for the Department to provide the medical records to the individual's physician or psychologist in the event that the Department believes access to the record by the individual is best effected under the guidance of the individual's physician or psychologist, if the individual consents to give such authorization; and,

(5) Forward the individual's medical record to the Department's medical officer for review and a determination on whether consultation with or transmittal of the medical records to the individual's physical or psychologist is warranted. If the consultation with or transmittal of such records to the individual's physician or psychologist is determined to be warranted, the Department's medical officer shall so consult or transmit. Whether or not such a consultation or transmittal occurs, the Department's medical officer shall provide instruction to the Privacy Officer regarding the conditions of access by the individual to his or her medical records.

(d) If an individual refuses to give the names and consents set forth in paragraphs (c)(2) through (4) of this section and the Department has determined that disclosure could have an adverse effect upon the individual, the Department shall refuse the individual access to said records.

(e) The provisions of § 4b.3(d)(2) and (3) apply to the information obtained under paragraph (c)(2) through (4) of this section.

**§ 4b.7 Request for correction or amendment to record.**

(a) Any individual, regardless of age, who is a citizen of the United States or an alien lawfully admitted for permanent residence into the United States may submit a request for correction or amendment to the Department. The request should be made either in person or by mail addressed to the Privacy Officer who processed the individual's request for access to the record, and to whom is delegated authority to make initial determinations on requests for correction or amendment. The offices of Privacy Officers are open to the public between the hours of 9 a.m. and 4 p.m. Monday through Friday (excluding holidays).

(b) The processing of requests submitted by mail will be facilitated if the words "PRIVACY ACT REQUEST" appear in capital letters on the face of the envelope. If, for some reason, the individual is unable to use the Department's official form, the letter should bear the words "PRIVACY ACT REQUEST" in capital letters at the top.

(c) Any request which is not addressed as specified in paragraph (a) of this section or which is not marked as specified in paragraph (b) of this section will be so addressed and marked by Department personnel and forwarded immediately to the responsible Privacy Officer. A request which is not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring time periods for response until forwarding of the request to the Privacy Officer has been effected. In each instance when a request so forwarded is

received, the Privacy Officer shall notify the individual that his or her request was improperly addressed and the date when the request was received at the proper address.

(d) Since the request, in all cases, will follow a request for access under § 4b.5, the individual's identity will be established by his or her signature on the request.

(e) A request for correction or amendment should include the following:

(1) A specific identification of the record sought to be corrected or amended (for example, description, title, date, paragraph, sentence, line and words);

(2) The specific wording to be deleted, if any;

(3) The specific wording to be inserted or added, if any, and the exact place at which to be inserted or added; and,

(4) A statement of the basis for the requested correction or amendment, with all available supporting documents and materials which substantiate the statement. The statement should identify the standard of the Act being invoked, that is, whether the information in the record is unnecessary, inaccurate, irrelevant, untimely or incomplete.

(f) The provisions of §§ 4b.3(d)(2) and (3) apply to the information obtained under paragraph (e) of this section.

**§ 4b.8 Agency review of request for correction or amendment of record.**

(a)(1) Not later than ten days (excluding Saturdays, Sundays and holidays) after receipt of a request to correct or amend a record, the Privacy Officer shall send an acknowledgment providing an estimate of time within which action will be taken on the request and asking for such further information as may be necessary to process the request. The estimate of time may take into account unusual circumstances as described in § 4b.5(a). No acknowledgment will be sent if the request can be reviewed, processed and the individual notified of the results of review (either compliance or denial) within the ten days. Requests filed in person will be acknowledged in writing at the time submitted.

(2)) Promptly after acknowledging receipt of a request, or after receiving such further information as might have been requested, or after arriving at a decision within the ten days, the Privacy Officer shall either:

(i) Make the requested correction or amendment and advise the individual in writing of such action, providing either a copy of the corrected or amended record or a statement as to the means whereby the correction or amendment was effected in cases where a copy cannot be provided (for example, erasure of information from a record maintained only in an electronic data bank); or,

(ii) Inform the individual in writing that his or her request is denied and provide the following information:

(A) The Privacy Officer's name and title and position;

(B) The date of the denial;

(C) The reasons for the denial, including citation to the appropriate sections of the Act and this part; and,

(D) The procedures for appeal of the denial as set forth in § 4b.9, including the name and address of the responsible Privacy Appeals Officer from Appendix C to this part. The term "promptly" in this paragraph means within thirty days (excluding Saturdays, Sundays and holidays). If the Privacy Officer cannot make the determination within thirty days, the individual will be advised in writing of the reason therefor and of the estimated date by which the determination will be made.

(b) Whenever an individual's record is corrected or amended pursuant to a request by that individual, the Privacy Officer shall see to the notification of all persons and agencies to which the corrected or amended portion of the record had been disclosed prior to its correction or amendment, if an accounting of such disclosure required by the Act was made. The notification shall require a recipient agency maintaining the record to acknowledge receipt of the notification, to correct or amend the record and to apprise any agency or person to which it had disclosed the record of the substance of the correction or amendment.

(c) The following criteria will be considered by the Privacy Officer in reviewing a request for correction or amendment:

(1) The sufficiency of the evidence submitted by the individual;

(2) The factual accuracy of the information;

(3) The relevance and necessity of the information in terms of purpose for which it was collected;

(4) The timeliness and currency of the information in light of the purpose for which it was collected;

(5) The completeness of the information in terms of the purpose for which it was collected;

(6) The degree of possibility that denial of the request could unfairly result in determinations adverse to the individual;

(7) The character of the record sought to be corrected or amended; and,

(8) The propriety and feasibility of complying with the specific means of correction or amendment requested by the individual.

(d) The Department will not undertake to gather evidence for the individual, but does reserve the right to verify the evidence which the individual submits.

(e) Correction or amendment of a record requested by an individual will be denied only upon a determination by the Privacy Officer that:

(1) The individual has failed to establish, by a preponderance of the evidence, the propriety of the correction or amendment in light of the criteria set forth in paragraph (c) of this section;

(2) The record sought to be corrected or amended was compiled in a terminated judicial, quasi-judicial or quasi-legislative proceeding to which the individual was a party or participant;

(3) The information in the record sought to be corrected or amended, or the record sought to be corrected or amended, is the subject of a pending judicial, quasi-judicial or quasi-legislative proceeding to which the individual is a party or participant;

(4) The correction or amendment would violate a duly enacted statute or promulgated regulation; or,

(5) The individual unreasonably has failed to comply with the procedural requirements of this part.

(f) If a request is partially granted and partially denied, the Privacy Officer shall follow the appropriate procedures of this section as to the records within the grant and the records within the denial.

**§ 4b.9 Appeal of initial adverse agency determination on correction or amendment.**

(a) When a request for correction or amendment has been denied initially under § 4b.8, the individual may submit a written appeal within thirty days after the date of the initial denial. When an appeal is submitted by mail, the postmark is conclusive as to timeliness.

(b) An appeal shall be addressed to the Privacy Appeals Officer identified in the initial denial, which official is authorized to make final determinations. The processing of appeals will be facilitated if the words "PRIVACY APPEAL" appear in capital letters on both the envelope and the top of the appeal papers. An appeal not addressed and marked as provided herein will be so marked by Department personnel when it is so identified, and will be forwarded immediately to the responsible Privacy Appeals Officer. An appeal which is not properly addressed by the individual will not be deemed to have been "received" for purposes of measuring the time periods in this section until forwarding of the appeal to the Privacy Appeals Officer has been effected. In each instance when an appeal so forwarded is received, the Privacy Appeals Officer shall notify the individual that his or her appeal was improperly addressed and the date when the appeal was received at the proper address.

(c) The individual's appeal papers shall include the following: a copy of the original request for correction or amendment; a copy of the initial denial; and a statement of the reasons why the initial denial is believed to be in error. The appeal shall be signed by the individual. The record which the individual requests be corrected or amended will be supplied by the Privacy Officer who issued the initial denial. While the foregoing normally will comprise the entire record on appeal, the Privacy Appeals Officer may seek additional information necessary to assure that the final determination is fair and equitable and, in such instances, the additional information will be disclosed to the individual to the greatest extent possible and an opportunity provided for comment thereon.

(d) No personal appearance or hearing on appeal will be allowed.

V40151 AUG 5 75 XUM

(e) The Privacy Appeals Officer shall act upon the appeal and issue a final determination in writing not later than thirty days (excluding Saturdays, Sundays and holidays) from the date on which the appeal is received; provided, that the Privacy Appeals Officer may extend the thirty days upon deciding that a fair and equitable review cannot be made within that period, but only if the individual is advised in writing of the reason for the extension and the estimated date by which a final determination will issue (which estimated date should not be later than the sixtieth day (excluding Saturdays, Sundays and holidays) after receipt of the appeal unless unusual circumstances, as described in § 4b.5(a), are met).

(f) If the appeal is determined in favor of the individual, the final determination shall include the specific corrections or amendments to be made and a copy thereof shall be transmitted promptly both to the individual and to the Privacy Officer who issued the initial denial. Upon receipt of such final determination, the Privacy Officer promptly shall take the actions set forth in § 4b.8(a)(2)(i) and (b).

(g) If the appeal is denied, the final determination shall be transmitted promptly to the individual and state the reasons for the denial. The notice of final determination also shall inform the individual of the following information:

(1) The right of the individual to file a concise statement of reasons for disagreeing with the final determination. The statement ordinarily should not exceed one page and the Department reserves the right to reject a statement of excessive length. Such a statement shall be filed with the Privacy Appeals Officer. It should identify the date of the final determination and be signed by the individual. The Privacy Appeals Officer shall acknowledge receipt of such statement and inform the individual of the date on which it was received;

(2) The fact that any such disagreement statement filed by the individual will be noted in the disputed record and that a copy of the statement will be provided to persons and agencies to which the record is disclosed subsequent to the date of receipt of such statement;

(3) The fact that the Department will append to any such disagreement statement filed by the individual, a copy of the final determination or summary thereof which also will be provided to persons and agencies to which the disagreement statement is disclosed; and,

(4) The right of the individual to judicial review of the final determination under 5 U.S.C. 552a(g)(1)(A), as limited by 5 U.S.C. 552a(g)(5).

(h) In making the final determination, the Privacy Appeals Officer shall employ the criteria set forth in subsection 4b.8(c) of this part and shall deny an appeal only on the grounds set forth in § 4b.8(e).

(i) If an appeal is partially granted and partially denied, the Privacy Appeals Officer shall follow the appropriate procedures of this section as to the records within the grant and the records within the denial.

(j) Although a copy of the final determination or a summary thereof will be treated as part of the individual's record for purposes of disclosure in instances where the individual has filed a disagreement statement, it will not be subject to correction or amendment by the individual.

(k) The provisions of § 4b.3(d) (2) and (3) apply to the information obtained under paragraphs (c) and (g)(1) of this section.

### § 4b.10 Disclosure of record to person other than the individual to whom it pertains.

(a) The Department may disclose a record pertaining to an individual to a person other than the individual only in the following instances:

(1) Upon written request by the individual, including authorization under § 4b.5(f);

(2) With the prior written consent of the individual;

(3) To a parent or legal guardian under 5 U.S.C. 552a(h);

(4) When required by the Act and not covered explicitly by the provisions of 5 U.S.C. 552a(b); and,

(5) When permitted under 5 U.S.C. 552a(b)(1) through (11), which read as follows:

(1) To those officers and employees of the agency which maintains the record who have a need for the record in the performance of their duties;

(2) Required under section 552 of this title;

(3) For a routine use as defined in subsection (a)(7) of this section and described under subsection (e)(4)(D) of this section;

(4) To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of title 13;

(5) To a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(6) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

(7) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the agency which maintains the record specifying the particular portion desired and the law enforcement activity for which the record is sought;

(8) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(9) To either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(10) To the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(11) Pursuant to the order of a court of competent jurisdiction.

(b) The situations referred to in paragraph (a)(4) of this section include the following:

(1) 5 U.S.C. 552a(c)(4) requires dissemination of a corrected or amended record or notation of a disagreement statement by the Department in certain circumstances;

(2) 5 U.S.C. 552a(d) requires disclosure of records to the individual to whom they pertain, upon request;

(3) 5 U.S.C. 552a(g) authorizes civil action by an individual and requires disclosure by the Department to the court;

(4) Sec. 5(e)(2) of the Act authorizes release of any records or information by the Department to the Privacy Protection Study Commission upon request of the Chairman; and,

(5) Sec. 6 of the Act authorizes the Office of Management and Budget to provide the Department with continiuing oversight and assistance in implementation of the Act.

(c) The Privacy Officer shall make an accounting of each disclosure by him of any record contained in a system of records in accordance with 5 U.S.C. 552a(c)(1) and (2). Except for a disclosure made under 5 U.S.C. 552a(b)(7), the Privacy Officer shall make such accounting available to any individual, insofar as it pertains to that individual, on request submitted in accordance with section 4b.4 of this part. The Privacy Officer shall make reasonable efforts to notify any individual when any record in a system of records is disclosed to any person under compulsory legal process, promptly upon being informed that such process has become a matter of public record.

### § 4b.11 Fees.

(a) The only fees to be charges to or collected from an individual under the provisions of this part are for copying records at the request of the individual.

(1) No fees shall be charged or collected for the following: search for and retrieval of the records; review of the records; copying at the initiative of the Department without a request from the individual; transportation of records and personnel; and first class postage.

(2) It is the policy of the Department to provide an individual with one copy of each record corrected or amended pursuant to his or her request without charge as evidence of the correction or amendment.

(3) As required by the United States Civil Service Commission in its published regulations implementing the Act, the Department will charge no fee for a single copy of a personnel record covered by that Commission's Government-wide published notice of systems of records.

(b) The copying fees prescribed by paragraph (a) of this section are:

| | |
|---|---|
| $0.07 | Each copy of each page, up to "8½x14", made by photocopy or similar process. |
| $0.25 | Each copy of each microform frame printed on paper. |
| $0.25 | Each aperture card. |
| $0.25 | Each 105mm fiche. |
| $7.00 | Each 100' roll of 35mm microfilm. |
| $6.00 | Each 100' roll of 16mm microfilm. |
| $0.20 | Each page of computer printout without regard to the number of carbon copies concurrently printed. |

Other copying forms (*e.g.*, typing or printing) will be charged at direct cost, including personnel and equipment costs.

(c) All copying fees shall be paid by the individual before the copying will be undertaken. Payment shall be made in cash, or, preferably, by check or money order payable to "U.S. Department of Commerce," and they shall be paid or sent to the office stated in the billing notice or, if none, to the Privacy Officer processing the request. Where appropriate, payment may be required in the form of certified check.

(d) A copying fee totaling $1 or less shall be waived, but the copying fees for contemporaneous requests by the same individual shall be aggregated to determine the total fee. A copying fee shall not be charged or collected, or alternatively, it may be reduced, when it is determined by the Privacy Officer, based on a petition therefor, that the petitioning individual is indigent and that Department resources permit a waiver of all or part of the fee. An individual is deemed to be indigent when without income or resources sufficient to pay the fees.

(e) Special and additional services provided at the request of the individual, such as certification or authentication postal insurance and special mailing arrangement costs, will be charged to the individual in accordance with other published regulations of the Department pursuant to statute (for example, 31 U.S.C. 483a).

(f) This section applies only to individuals making requests under this part. All other persons shall remain subject to fees and charges prescribed by other and appropriate authorities.

### § 4b.12 Penalties.

(a) The Act provides, in pertinent part:

"Any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretences shall be guilty of a misdemeanor and fined not more than $5,000." (5 U.S.C. 552a(i)(3))

(b) A person who falsely or fraudulently attempts to obtain records under the Act also may be subject to prosecution under such other criminal statutes as 18 U.S.C. 494, 495 and 1001.

### § 4b.13 General exemptions.

(a) Individuals may not have access to records maintained by the Department but which were provided by another agency which has determined by regulation that such information is subject to general exemption under 5 U.S.C. 552a(j). If such exempt records are within a request for access, the Department will advise the individual of their existence and of the name and address of the source agency. For any further information concerning the record and the exemption, the individual must contact that source agency.

(b) The general exemptions determined to be necessary and proper with respect to systems of records maintained by the Department, including the parts of each system to be exempted, the provisions of the Act from which they are exempted, and the justification for the exemption, are as follows:

(1) *Individuals Identified in Export Administration Compliance Proceedings or Investigations—COMMERCE/DIBA–1.* Pursuant to 5 U.S.C. 552a(j)(2), these records are hereby determined to be exempt from all provisions of the Act, except 5 U.S.C. 552a (b), (c) (1) and (2), (e)(4) (A) through (F), (e) (6), (7), (9), (10), and (11), and (i). These exemptions are necessary to insure the proper functioning of the law enforcement activity, to protect confidential sources of information, to fulfill promises of confidentiality, to maintain the integrity of the law enforcement process, to avoid premature disclosure of the knowledge of criminal activity and the evidentiary bases of possible enforcement actions, to prevent interference with law enforcement proceedings, to avoid the disclosure of investigative techniques, and to avoid the endangering of law enforcement personnel. Section 7(c) of the Export Administration Act of 1969, as amended, also protects this information from disclosure.

(2) *Fisheries Law Enforcement Case File—COMMERCE/NOAA–11.* Pursuant to 5 U.S.C. 552a(j)(2), these records are hereby determined to be exempt from all provisions of the Act, except 5 U.S.C. a (b), (c) (1) and (2), (e)(4) (A) through (F), (e) (6), (7), (9), (10), and (11) and (i). These exemptions are necessary to insure the proper functioning of the law enforcement activity, to protect confidential sources of information, to fulfill promises of confidentiality, to prevent interference with law enforcement proceedings, to avoid the disclosure of investigative techniques, to avoid the endangering of law enforcement personnel, to avoid premature disclosure of the knowledge of criminal activity and the evidentiary bases of possible enforcement actions, and to maintain the integrity of the law enforcement process.

(3) *Investigative Records—Contract and Grant Frauds and Employee Criminal Misconduct—COMMERCE/DEPT–12.* Pursuant to 5 U.S.C. 552a(j)(2), these records are hereby determined to be exempt from all provisions of the Act, except 5 U.S.C. 552 a(b), (c) (1) and (2), (e)(4) (A) through (F), (e) (6), (7), (9), (10), and (11) and (i). These exemptions are necessary to insure the proper functions of the law enforcement activity, to protect confidential sources of information, to fulfill promises of confidentiality, to prevent interference with law enforcement proceedings, to avoid the disclosure of investigative techniques, to avoid the endangering of law enforcement personnel, to avoid premature disclosure of the knowledge of criminal activity and the evidentiary bases of possible enforcement actions, and to maintain the integrity of the law enforcement process.

### § 4b.14 Specific exemptions.

(a) Some systems of records under the Act which are maintained by the Department contain, from time-to-time, material subject to the exemption appearing at 5 U.S.C. 552a(k)(1), relating to national defense and foreign policy materials. The systems of records published in the FEDERAL REGISTER on this same date by the Department which are within this exemption are: COMMERCE/DIBA–2, COMMERCE/DIBA–3, COMMERCE/PAT–TM–5, COMMERCE/PAT–TM–8, COMMERCE/PAT–TM–9, COMMERCE/DEPT–12 and COMMERCE/DEPT–13. The Department hereby asserts a claim to exemption of such materials wherever they might appear in such systems or records, or any systems of records, at present or in the future. The materials would be exempt from 5 U.S.C. 552a(c)(3), (d)(e)(1), (e)(4)(G), (H) and (I) and (f). The reason therefor is to protect the materials required by Executive Order to be kept secret in the interest of the national defense and foreign policy.

(b) The specific exemptions determined to be necessary and proper with respect to systems of records maintained by the Department, including the parts of each system to be exempted, the provisions of the Act from which they are exempted, and the justification for the exemption, are as follows:

(1) *Exempt under 5 U.S.C. 552a(k)(1).* The systems of records exempt hereunder appear in subsection (a) of this section. The claims for exemption of COMMERCE/DEPT–12 and COMMERCE/DIBA–1 under this subsection are subject to the condition that the general exemption claimed in subsection 4b.13(b)(3) of this part is held to be invalid.

(2) *Exempt under 5 U.S.C. 552a (k)(2).* The systems of records exempt (some only conditionally), the sections of the Act from which exempted and the reasons herefor are as follows:

(i) Individuals Identified in Export Administration Compliance Proceedings of Investigations—COMMERCE/DIBA–1, but only on condition that the general exemption claimed in subsection 4b.13(b)(1) of this part is held to be invalid;

(ii) Individuals Involved in Export Transactions—COMMERCE/DIBA–2;

(iii) Fisheries Law Enforcement Case File—COMMERCE/NOAA–11, but only on condition that the general exemption claimed in § 4b.13(b)(2) is held to be invalid;

(iv) EEO Title VI Compliance and Complaints Files—COMMERCE/DEPT–6;

(v) Investigative Records—Contract and Grants Frauds and Employee Criminal Misconduct—COMMERCE/DEPT–12, but only on condition that the general exemption claimed in subsection 4b.13(b)(3) of this part is held to be invalid;

(vi) Investigative Records—Persons Associated with the Department, Ex-

cepting CSC Employee Records—COMMERCE/DEPT–13; and,

(vii) Litigation, Claims, and Administrative Proceeding Records—COMMERCE/DEPT–14.

The foregoing are exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f). The reasons for asserting the exemption are to prevent subjects of investigation from frustrating the investigatory process, to insure the proper functioning and integrity of law enforcement activities, to prevent disclosure of investigatiove techniques, to maintain the ability to obtain necessary information, to fulfill commitments made to sources to protect their identities and the confidentiality of information and to avoid endangering these sources and law enforcement personnel. Special note is taken of the fact that the proviso clause in this exemption imports due process and procedural protections for the individual. The existence and general character of the information exempted will be made known to the individual to whom it pertains.

(3) *Exempt under* 5 U.S.C. 552a(k)(4). The systems of records exempt, the sections of the Act from which exempted, and the reasons therefor are as follows:

(i) Agricultural Census Records for 1964 (Partial), 1969, and 1974—COMMERCE/SESA–1;

(ii) Individual and Household Statistical Surveys and Special Census Studies Records—COMMERCE/SESA–3;

(iii) Minority-Owned Business Enterprises Survey Records—COMMERCE/SESA–4;

(iv) Population and Housing Census Records for 1960 and 1970—COMMERCE/SESA–5; and,

(v) Special Censuses of Population Conducted for State and Local Governments—COMMERCE/SESA–7.

The foregoing are exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f). The reasons for asserting the exemption are to comply with the prescription of Title 13, United States Code, especially sections 8 and 9, and to avoid needless consideration of records whose present, solely statistical use comports fully with a basic purpose of the Act, namely, no adverse determinations may be made of these records as to any identifiable individual.

(4) *Exempt under 5 U.S.C. 552a(k)(5).* The systems of records exempt (some only conditionally), the sections of the Act from which exempted, and the reasons therefor are as follows:

(i) Indian Reservation Economic Development Planners and Applicants Records—COMMERCE/EDA–3;

(ii) Applications to U.S. Merchant Marine Academy (USMMA)—COMMERCE/MA–1;

(iii) Trustees for Ship Sales—COMMERCE/MA–13;

(iv) USMMA Midshipman Medical Files—COMMERCE/MA–17;

(v) USMMA Midshipman Personnel Files—COMMERCE/MA–18;

(vi) USMMA Non-Appropriated Fund Activity Employees—COMMERCE/MA–19;

(vii) USMMA Service Contractor Employees—COMMERCE/MA–20;

(viii) Applicants for the NOAA Corps—COMMERCE/NOAA–4;

(ix) Commissioned Officer Official Personnel Folders—COMMERCE/NOAA–7;

(x) Conflict of Interest Records, Appointed Officials—COMMERCE/DEPT–3;

(xi) EEO Title VI Compliance and Complaint Files—COMMERCE/DEPT–6;

(xii) Investigative Records—Contract and Grant Frauds and Employee Criminal Misconduct—COMMERCE/DEPT–12, but only on condition that the general exemption claimed in subsection 4b.13(b)(3) of this part is held to be invalid;

(xiii) Investigative Records—Persons Associated with the Department, Excepting CSC Employee Records—COMMERCE/DEPT–13; and,

(xiv) Litigation, Claims, and Administrative Proceeding Records—COMMERCE/DEPT–14.

The foregoing are exempted from 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f). The reasons for asserting the exemption are to maintain the ability to obtain candid and necessary information, to fulfill commitments made to sources to protect the confidentiality of information, to avoid endangering these sources and, ultimately, to facilitate proper selection or continuance of the best applicants or persons for a given position or contract. Special note is made of the limitation on the extent to which this exemption may be asserted. The existence and general character of the information exempted will be made known to the individual to whom it pertains.

(c) At the present time, the Department claims no exemption under 5 U.S.C. 552a(k)(3), (6) and (7).

## DEPARTMENT OF COMMERCE

### Office of the Secretary

### PRIVACY ACT OF 1974

### Notice of Systems of Records

Notice is hereby given that the Department of Commerce, in accordance with 5 U.S.C. 552a(e) (4) and (11), Sec. 3 of the Privacy Act of 1974 (Pub. L. 93–579) ("Act"), proposes to adopt the notice of systems of records set forth below. Although the Act requires only publication for comment of that portion of a notice which describes the "routine uses" of the particular system of records, the Department invites public comment on all parts of the notice.

Any person interested in this notice may submit written data, views, or arguments to the Privacy Act Task Force (Stop 206), Room 5892, U.S. Department of Commerce, 14th and E Streets, NW., Washington, D.C. 20230 on or before September 4, 1975. All written comments received from the public through said date will be considered by the Department before taking action on a final notice. The comments received also will be available for public inspection at the above address between the hours of 9 a.m. and 4 p.m. Monday thorugh Friday (except holidays), as received and until 4 p.m., September 1, 1975.

This notice was drafted and the files to be noticed were selected with major reliance on the "Guidelines and Responsibilities" for implementation of the Act published by the Office of Management and Budget (40 FR 28949, July 9, 1975).

The following remarks should clarify the principles on which the particular systems of records were selected for notice publication, as well as the contents of the notice.

The proposed notice has four distinct parts. The first part is a prefatory note of general routine uses applicable to all noticed systems of records and incorporated by reference into the notice of each particular system of records. The centralizing of these routine uses was occasioned by the desire to avoid unnecessary repetition which would hamper the public in its review and use of the proposed notice. The second part is a segregated note as to the exemption for national defense and foreign policy under 5 U.S.C. 552a(k)(1). It was concluded that isolation of this specific exemption would best underscore the essential importance of records so protected. The third part is a footnote chart of abbreviations used in the names of individual systems of records within the notice. Not all primary operating units of the Department are represented. The absence of any unit means that it had no system of records unique to itself. However, a unit may be covered under a system of records marked "COMMERCE/DEPT" (or under a Government-wide notice such as those listed in Appendix C to the proposed regulations published in the FEDERAL REGISTER this same date). Recourse to that part of a notice for a particular system of records which gives location may reveal such coverage. The fourth part is the listing of the one hundred systems or records determined to be subject ot the Act's requirement of published notice.

Especial note should be taken of the exclusion from the general routine uses and the routine uses of particular systems of records of certain disclosures authorized by the Act itself. They are: Disclosure of corrected or amended records, or notations of disagreement when requested corrections or amendments are denied, under 5 U.S.C. 552a(c)(4); disclosure to and at the request of the individual, of records which pertain to that individual, under 5 U.S.C. 552a(d); disclosures to the courts, under 5 U.S.C. 552a(g); disclosures to the Privacy Protection Study Commission, under sec. 5(e)(2) of the Act; and disclosures to the Office of Management and Budget in the course of its assistance and oversight responsibilities, under Sec. 6 of the Act. The Department submits that these disclosures are outside all the provisions of 5 U.S.C. 552a(b) (1) through (11), including the provision addressing routine uses. The very ommission of these provisions from the itemized permissive disclosures suggests exclusive and co-equal status, for the Congress could have included them quite readily if such were the intent. An alternative theory with respect to the first three of the five situations might be that the disclosures are constructively "pursuant to a written request by, or with the prior written consent of, the individual" inasmuch as they occur through the individual's own initiatives. If the tentative exclusion is reversed, these routine uses would be added to the list of general routine uses.

Three basic criteria were employed to determine those records which constitute a system of records under the Act requiring publication of notice in the FEDERAL REGISTER. All three are discussed in the publication of the Office of Management and Budget noted above. The first criterion is whether the record is an "official" record of the Department. The second criterion is whether information which pertains to an individual "is retrieved" by means of the name or other personal identifier assigned to that particular individual. The third criterion is whether a particular individual, with respect to whom information is retrieved by name or other personal identifier, is viewed in an entrepreneurial, as contrasted with a purely personal, capacity.

Applying these criteria to all records containing personal information as to individuals which were uncovered in a survey of Department files, many did not fall within the definition of "systems of records" in the Act. The one hundred notices of particular systems of records proposed below cover a substantial portion, but not all, of Department records containing information on individuals.

The primary reason why many records do not appear in the proposed notice is found in the very nature of the Department's responsibilities which involve relations with private and public corporations and bodies other than individuals. The Act is directed to individuals and personal information concerning them. To a major extent, information about individuals is maintained in the files of the Department only as a derivative of a relationship, contractual or otherwise, between the Department and a company or public body. In such cases, access to information about the individual is gained through the name of the company or body, a contract number, a project name or number or geographical designation, or a combination of these methods. Thus, the second criterion assumed greatest importance in selecting the records to be noticed.

The entrepreneurial standard, which is the third criterion set forth above, appeared second in frequency. The Department determined its presence both as to sole proprietorships offering goods and services to the Department and as to participants in Department programs. The former is self-explanatory. The latter is illustrated by technical advisors participating in some economic development programs sponsored by the Department. Although files might be maintained in the name of an individual, the Department views the individual only in a businessman capacity completely distinct from a personal capacity.

The first criterion, concerning "official" records, applied to files physically within the precincts of Department facilities but neither required in the conduct of any program or function for which the Department is responsible nor subject to Department control or dominion. It also covered standard research and reference authorities published by private and public sources. Both as to importance and number of records, this was the least important criterion.

The following listings serve to illustrate further the kinds of records falling outside the first and second criteria just discussed and, for that reason, not included in the proposed notice:

*Unofficial records and public references*

Employee recreation associations;

Employee blood donors;

Employees deciding to "give at the office" to community chest or united givers funds (except where the donation is effected through payroll deduction, in which case the information is covered by the Department's notice on employee attendance, leave and payroll: COMMERCE/DEPT-1*);

Telephone directories and address lists created and kept by individual employees at their own initiative to facilitate communications with other employees and nonemployees;

Lists are created and kept by individual employees as a service to other employees, usually within their immediate office, such as the scheduled expiration dates of driver's licenses for those employees whose position requires operation of a motor vehicle;

* It is noted that U.S. Savings Bonds purchased through payroll deductions also are covered under the same notice.

Directories published by commercial concerns and public agencies and held by the Department as reference tools, such as Martindale-Hubbell's lists of attorneys and the Department of Labor's list of debarred Government contractors; and,

All publications of the National Technical Information Service sold at retail.

*Retrieved by other than individual*

Financial statements of individuals who are officers, directors or stockholders of corporations dealing with the Department, but which are filed by corporate name or contract number; and,

Correspondence filed only by date.

The concept of routine uses established by the Act deserves careful attention. The statutory definition indicated use of a record "compatible with the purpose for which it was collected." This signals a clear distinction between the original purpose and the compatible corollary use. Therefore, the Department has omitted from this notice any recital of primary or main purpose for the collection of information in the recital of routine uses. Another norm is whether the routine use involves transmittal of the record information outside the Department. If not, the use is not recorded under the routine use for a particular system of records. This has a special application to the Department in terms of 5 U.S.C. 552a(b)(4). The decision that the Department would be the "agency" responsible for publication of this notice and the regulations under the Act and the fact that the Bureau of the Census is one of the main line components of the Department have the effect of making record transfers to that Bureau subject to 5 U.S.C. 552a(b)(1), not 5 U.S.C. 552a(b)(4) or 5 U.S.C. 552a(b)(3). More generally, routine use by staffs in personnel, paperwork management, statistics, counsel and computer offices are not recited, either. The reasons are the strictly intra-Departmental character of the use and the view that such uses are immediately ancillary to the purpose for which the records were collected.

This notice does not include particular identification of certain systems of records, admittedly existing within the Department, due to the fact that other Federal agencies have assumed responsibility for publishing a Government-wide notice. The primary example is the publication of systems of records pertaining to Federal employee personnel records by the United States Civil Service Commission. The Department has listed all such known notices, and identified the publishing agencies, in Appendix C to the proposed regulations published in the FEDERAL REGISTER this same date.

This notice also does not include discussion of the application of general exemptions determined by other Federal agencies to apply to records or copies of records in the possession of the Department. However, the proposed regulations published in the FEDERAL REGISTER this same date state the procedure to be followed by the Department (15 CFR 4b.13).

A number of the particular systems of records noticed indicate Social Security Numbers in the category of information and request an individual to provide such number when applying to the Department as a matter of right under the Act. The Department is not unaware of the provisions of sec. 7 of the Act. The fact is that some filing systems were designed with Social Security Numbers as one of the retrieval keys. In the event any individual declines to provide his or her number, the Department will make a reasonable effort to respond to the request submitted.

The Department has omitted a notice embracing experts or consultants engaged by the Department. This decision was made in the belief that such persons either are special employees covered by the general notice published by the United States Civil Service Commission or are subject to the entrepreneurial criterion discussed above.

Finally, the Department intends to solicit the public's views on its implementation of the Act during the Fall of 1976. A notice to that effect will be published in the FEDERAL REGISTER. Although not required, citizen comments should provide valuable insight as to the success, or shortcomings, of the Department's efforts to implement the Act fully.

*Effective date.* This notice shall be effective August 28, 1975.

Dated: July 25, 1975.

ROGERS MORTON,
*Secretary of Commerce.*

The Department proposes to adopt the following notice of systems of records:

NOTICE OF SYSTEMS OF RECORDS*

* The identification of the operating unit or units within the Department to which the particular system of records pertains appears as "COMMERCE/" followed by a designating abbreviation. The abbreviations and their meanings are as follows:

DEPT—Overall Department of Commerce (or at least multiple operating units presently, and a potential for more).
DIBA—Domestic and International Business Administration.
EDA—Economic Development Administration.
IATC—Interagency Auditor Training Center.
MA—Maritime Administration.
NBS—National Bureau of Standards.
NOAA—National Oceanic and Atmospheric Administration.
NTIS—National Technical Information Service.
PAT-TM—Patent and Trademark Office.
SESA—Social and Economic Statistics Administration.
USTS—United States Travel Service.

PREFATORY STATEMENT OF GENERAL ROUTINE USES

The following routine uses apply to, and are incorporated by reference into, each system of records set forth below.

1. In the event that a system of records maintained by the Department to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

2. A record from this system of records may be disclosed, as a routine use, to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses if necessary to obtain information relevant to a Department decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

3. A record from this system of records may be disclosed, as a routine use, to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

4. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate or administrative tribunal, including disclosures to opposing counsel in the course or settlement negotiations.

5. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving the individual when the individual is a constituent of the Member and has requested assistance from the Member with respect to the subject matter of the record.

6. A record in this system of records which contains medical information may be disclosed, as a routine use, to the medical advisor of any individual submitting a request for access to the record under the Act and 15 CFR Part 4b if, in the sole judgment of the Department, disclosure could have an adverse effect upon the individual, under the provision of 5 U.S.C. 552a(f)(3) and implementing regulations at 15 CFR 4b.6.

NATIONAL DEFENSE AND FOREIGN POLICY EXEMPTION

Some systems of records under the Act which are maintained by the Department contain, from time-to-time, material subject to the specific exemption authorized by 5 U.S.C. 552a(k)(1), relating to national defense and foreign policy materials. The systems of records noticed below, and also listed in 15 CFR 4b.14(a) of the proposed regulations published in the FEDERAL REGISTER this same date, which are subject to this determination of specific exemption under 5 U.S.C. 552

V40151 AUG 5 75 XUM

a(k)(1) are: COMMERCE/DIBA-2, COMMERCE/DIBA-3, COMMERCE/PAT-TM-5, COMMERCE/PAT-TM-8, COMMERCE/PAT-TM-9, COMMERCE/DEPT-12 and COMMERCE/DEPT-13. The Department hereby asserts a claim to exemption of such materials wherever they might appear in such systems of records, or any systems of records, at present or in the future. The materials would be exempt from 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (F) and (f). The reason therefor is to protect the material required by Executive Order to be kept secret in the interest of the national defense and foreign policy.
